At last somebody thought of both of you!

Stromberg-Carlson's family-pleasing high fidelity radio phonographs...priced as low as \$149.95

It happens every day.

The man of the house approves the *performance* of a certain phonograph—but the lady says, "Don't like the design." Or *she* picks one that suits her taste, and he remarks, "Poor sound quality."

Stromberg-Carlson's new Hi-Fi line brings peace, agreement and beautiful music to solve this problem. Here is really inspired cabinetry—rich, genuine hardwood consoles in contem-

porary and traditional styling. And here is the world's finest sound engineering—quality for which this famous maker has been known for generations.

See your local dealer now. And here's a helpful shopping hint: Take along some favorite recording and hear how it sounds on *these* phonographs. Or write us for free descriptive literature.
