DIVIDENDS FOR A LIFETIME

STEINWAY

A piano is like everything else—you get what you pay for. In the Steinway, dividends are: unapproached durability, exact mechanical balance of action, great purity of tone, enduring beauty of cabinetwork. Considered over the years, as an investment of this kind should be, the Steinway is actually the least expensive of pianos.

Steinway & Sons have enlisted for the duration. They have curtailed their piano production. But you can still buy a Steinway—now. Convenient terms. Used pianos in partial exchange.
