---

**I. O. O. F. RANCH PARTY**

April 4 and 5, 1941. Grange, Hall, Spencerport, N. Y.

Uncle Jim Harvey, owner of I. O. O. F. Ranch, and interested in Community affairs has invited his neighbors on the surrounding ranches to a garden party for an evening's fun and also to rehearse for a benefit show to be given in town sometime in the near future.

This gentleman is a successful milk dealer who thought he could save money by personally reroofing his home. We can't even milk a cow but we do know how to reroof.

We know what makes a good roof too, and we are anxious to tell you how "The Vital Element" can protect your home. May we call freely to you?

Trinidad Native Lake Asphalt is "The Vital Element" that makes Barber Genasco Shingles real superior.

# NEW HEAVY-DUTY PICK-UP BALER

## Simpler, Lighter, Stronger than ever

Already the world's standard for pick-up balers, this machine now has a new pick-up with large revolving reel. Total weight has been reduced by half a ton, there are fewer parts, and the drive gears are now of heat-treated cut steel, enclosed and running in oil bath. Available either with its own engine or with power take-off drive. Makes bales 17 x 22. The correct machine for custom work and for large growers of hay.

**SERVEL GAS REFRIGERATOR**

**No Noise**

**Nothing to Wear**

**Nothing to Get Out of Order**

**No Moving Parts**

No starting click or whirr in the still of the night when you have a Servel. Day or Night there is never the slightest sound from it, because the Servel Gas Refrigerator has no machinery, not a single moving part.

Yet it does the job perfectly, maintaining an even cold in the food storage space, freezing ice cubes quickly and making these delicious desserts that are just right.

Because of no moving parts there is nothing to wear or get out of order. With its beautiful finish that is as indestructible as possible to make it, the Servel Gas Refrigerator is a lifetime investment.
