

Vital Record Index
to the
Rochester Daily American
19 Dec. 1844 - 4 Dec. 1857

This is an name index to vital records that appeared the *Rochester Daily American* for the entire run of the newspaper. Included are marriages, deaths, funerals and other records including accidents that mention local people. There is just one birth record in this newspaper for this time period. Some of these vital records were recorded in other Rochester newspapers of the period and then there are some vital records that are only in this newspaper. As the information may vary in each newspaper, it is best to view all the records in all the newspapers for a person that you are interested in.

The Rochester area is very fortunate to have had most of the early newspapers indexed. During the 1930s, a project was started to index all the newspapers by both subject and names of individuals that were in the collection of the Rochester Public Library. The *Rochester Daily American* was NOT in the collection at that time. It was microfilmed in April 1946 at the NY Historical Society in New York City and the Rochester Public Library (RPL) later obtained a copy of the microfilms.

The 1930s indexing project was a two part project. In the first part, all the Rochester newspapers that were in the Rochester Public Library at that time were indexed to 31 December 1850. This resulted in 15 index volumes that are housed in the Local History section of Rochester Public Library (RPL).

The second part of the indexing project was to index newspapers beginning 1 Jan. 1851, but during the project the money began to run out and it was decided that only the *Rochester Union and Advertiser* would be indexed after June 1854. The project was cut off at 31 Dec. 1897. Just the same, this part of the project resulted in 67 index volumes which are also in the Local History section.

About 2008, the newspaper indexes were digitized and put on the RPL (Monroe County Library system) [Rochester Newspaper Index web page](#). From that web page you can get more information about the newspapers that were indexed and also can order copies of articles from the newspapers. You could also order copies from the *Rochester Daily American* via this method. RPL currently charges \$10 per article and most of the articles are only a couple of lines. Often times, there are volunteers on the [Monroe County Message Board](#) that will transcribe a few records for free from the old newspapers if they have time. See if there is someone that is willing to transcribe a vital record for you.
