During 1925 Hudson-Essex new car sales in Rochester and Monroe County were greater than those of any other make of car - regardless of price or number of cylinders - except Ford. This includes all 1925 and 1926 models registered during the year.

Hudson-Essex sales exceeded those of any other six-cylinder car by over 500.

More than one out of every ten cars sold in Rochester and Monroe County during 1925, including Ford, was a Hudson or an Essex.

Hudson-Essex are the World's Greatest Values - sales prove it.

The machine has a large basin on top and a control panel with knobs. A diamond-shaped logo with the word "CASTLE" is on the floor next to the machine.
 

THIS is one of the CASTLE sterilizers which you may see in your doctor's office. It indicates that he is taking adequate precautions for your protection against infection.

# *The Chatterbox and the School for the Deaf*

We are grateful to everyone who has taken a seat for this our fourth "Chatterbox Revue." Each year as a result of our efforts we are able to materially assist one of Rochester's charitable institutions. This year your help will make possible several necessary improvements for the comfort and education of the children at the Rochester School for the Deaf.

The Chatterbox Club was started four years ago by Mrs. Charles W. Weis, Jr., who, with other young women, felt the need of a club to correspond to the Junior Leagues in other progressive cities. The Club grew to its present size which numbers one hundred and forty members and a waiting list.

The new club house is situated at 252 Alexander Street and has been very attractively decorated by a committee of members. Luncheon is served daily and each Tuesday, club day, there is a large attendance. Many speakers of note have addressed the Chatterbox at these meetings.

The Rochester School for the Deaf was founded fifty years ago by Dr. and Mrs. Z. F. Westervelt under a private corporation of which Hon. E. Darwin Smith was president; Mr. Edward P. Hart, secretary, and Mr. Gilman H. Perkins, treasurer. At present there are about 200 children living at the school. We feel that our interest in this institution is particularly justified inasmuch as this is the first benefit given for these so heavily handicapped little children.
