There Is A Dependable Instrument For Financial Navigation, Too! . . .

A TRUST in the hands of a competent trustee—is the finest instrument of financial navigation that you can provide for your family. In it you can chart the shoals and the reefs to be avoided . . . the harbor to be reached.

And, if you appoint the Security Trust to act as trustee, you can be confident that the course will be steered with good judgment and wise caution. Our record of estate management will prove that to you.

We urge you to consult your attorney about establishing a Trust. Officers of our Trust Department will be pleased to discuss the practical phases with you and with him at your convenience.

NOTE: We have received considerable comment about both the starting time of our various concerts and the number of late comers. In reply, may we explain that every effort is made to open the concerts as soon after 8 P. M. as possible, we have found it necessary to instruct ushers not to seat those coming in late during the performance of any number. However, we believe it merely a matter of justice to them and ourselves to ask a measure of tolerance for the many faithful concert-goers who try to arrive on time but are unavoidably delayed by the recognized traffic difficulties of this unprecedented winter season. The Association management is aware of the annoyances caused by variations in the announced schedule. Everything possible is done to eliminate them. May we ask both your cooperation and future tolerance?
