

DISTRIBUTION CENTER-ROCHESTER

OPEN HOUSE

SATURDAY, JANUARY 27, 1979

1:00 P.M. - 4:00 P.M.

January 27, 1979

To the Families of Distribution Center - Rochester Personnel

The men and women of Distribution Center - Rochester extend to you a warm welcome to their work place. As you tour our facilities you will see how we operate to fulfill our functions of receiving, warehousing, order processing and shipping photographic products to Kodak customers around the world.

In 1978 Distribution Center - Rochester processed 1.4 million orders for the more than 15,000 different products housed in this facility. These products range in size and complexity from the familiar cameras and film to large photofinishing processors, chemicals and copiers with each requiring its own storage and shipping environment.

We have located focal points throughout the facility to illustrate how we accomplish our stated functions. These focal points are listed in this leaflet with a map of where it is located.

We hope that your visit is enjoyable and that you leave with a better understanding of the important contributions your loved ones make to Distribution and the Eastman Kodak Company.

Dick Whitney

Distribution Center - Rochester
