

*Your
Friend
the
Nurse*

For the employees of the Eastman Kodak Company, Rochester, New York, who are insured with the Metropolitan Life Insurance Company under the Kodak Retirement Annuity, Life Insurance and Disability Benefit Plan.

THE METROPOLITAN VISITING NURSE

IF YOU ARE INSURED under the Kodak Retirement Annuity, Life Insurance and Disability Benefit Plan and live in Rochester, Greece or Irondequoit, you are entitled to the Visiting Nursing Service which is maintained by the Metropolitan Life Insurance Company.

The Metropolitan nurse is a visiting nurse. She goes from home to home. She will make at least one visit on every case reported to her. She will carry out the instructions of your physician and will return as often as you need nursing care.

The Metropolitan Life Insurance Company pays for each visit the nurse makes to you because you are insured under the Kodak Retirement Annuity, Life Insurance and Disability Benefit Plan and the service that is here described is in addition to the medical service which is provided you by the Eastman Kodak Company.

WHAT THE NURSE WILL DO

SHE CAN GIVE CARE in cases of acute illness or injury and can also give care to patients returning home from the hospital after operation and who still require nursing attention in the home. In cases of chronic illness, the nurse will make a sufficient number of visits to see that some one in your home learns how to look after you.

The nurse will explain how much she can do for you. She will give all the nursing care needed, except a few special treatments. If you need those, she will tell you how to get them.

The nurse will stay from fifteen minutes to one hour or longer, according to the care required. She will show some member of your family, or a neighbor, how to take care of you between her visits.

If you are sick, send for the Nurse at once. Calling her early may mean that you will get well sooner.
