

Portable Darkroom Meets Army's Need For Field Equipment

Wives of camera addicts given to cluttering up the house with photographic paraphernalia would certainly approve of one current Kodak product. It's a darkroom outfit that stows away in a box less than two cubic feet in size.

The rub, however, is that it, as do most Kodak products these days, goes to the Army and Navy.

The portable darkroom outfit is designed to carry practically all of the materials that are required by an Army photographer, and at the same time hold the apparatus necessary to make prints after he has shot the pictures. Processing can be done in a darkroom, inside a tent at night or a truck interior.

All Equipment Necessary

In use the box is rested on its base and the two halves opened. Taking up about every square inch of space is all the equipment necessary for taking pictures. The camera is a Kodak 35, and with it are supplementary lenses and filters, Kodapod, film, carrying case, flash synchronizer, batteries and cable release. The developing and printing equipment includes a daylight-loading tank, chemicals, graduate, thermometer, clips, instruction manuals, timer, safelight, trays, adjustable easel and portable miniature enlarger. Correct exposures are assured by use of an electric exposure meter for film and a Kodak Projection Print Scale for paper.

Two reflectors are attached to the enlarger base for use in copying, with the camera replacing the enlarger on the column. Electric current can be the usual 110 volts or can be supplied by a battery.

The Navy also has this photographic set, and in addition a smaller one, split into two boxes. The latter set merely carries the equipment and supplies and is not used as a portable darkroom.

Schools Furnish Child-Care Centers

Ten Rochester schools will remain open throughout the summer months to provide care for the children of working mothers.

Sponsored by the Child Care Committee of the Rochester War Council and supervised by the Board of Education, the child-care centers will be open 12 hours each day, six days per week.

The following schools provide nursery care for children from three to five years of age as well as care for children between the ages of 6 and 13; School 22, 27 Zimbrich St.; School 27, 256 Central Park; School 41, 279 Ridge Rd. W.

Nursery care only is provided at School 17, 223 Orange St., and School 43, 1305 Lyell Ave. Care for children from 6 to 13 exclusively is provided at School 15, 494 Averill Ave.; School 19, 465 Seward St.; School 28, 450 Humboldt St.; School 30, 36 Otis St.; and School 44, 820 Chili Ave.

Working mothers can register their children at any of these schools or with Miss Charlotte Senett in the Civics Exhibits Bldg., Main and Fitzhugh Streets. A fee of \$3.50 per week is charged for each child between the ages of 6 and 13. The nursery school fee varies according to circumstances.

Compact—An Army officer inspects Kodak's portable darkroom outfit, which supplies virtually every need of an Army photographer, in a box two cubic feet small. The outfit, suitable for use in the field, is used by the Navy as well as the Army.

Kodapak-aged Army Ration Okay When Washed Up by Sea

Washed up on a beach near Auckland, New Zealand, a tiny, square package of soluble coffee used in Army Field Ration K was found in perfect condition despite lengthy immersion in sea water.

Eastman Portrait Presented Liberty Ship

Rear Admiral Emory S. Land, chairman of the U. S. Maritime Commission, last week accepted a portrait of George Eastman, Kodak's founder and long-time president, which will be hung in the Liberty ship which bears Mr. Eastman's name.

Rear Admiral Land also accepted a copy of Carl Ackerman's biography of Mr. Eastman for the ship's library.

In a letter to Thomas J. Hargrave, president of the Company, Rear Admiral Land wrote:

"The Maritime Commission is grateful to you for your suggestion that the Eastman Kodak Company present a portrait and a biography of Mr. Eastman to the Liberty vessel which bears his name. Such a gift would be most appropriate and deeply appreciated both by the Commission and by the seamen who man this ship. . . . I would suggest, since the George Eastman has already been delivered into service, that the portrait and book be sent directly to the office of the ship's operators."

The S.S. George Eastman was launched April 20 and commissioned three weeks later.

Share-Ride Plan Saves 300,000 Gallons of Gas

Approximately 300,000 gallons of gasoline have been saved by ride-sharing employees during the past 12 months, the Kodak Transportation Committee reported last week when results of a Company-wide transport survey were tabulated.

A. D. Johnson, chairman of the committee, disclosed that 4930 Kodak employees used their cars for transportation to and from work during April, 1419 fewer than during the same period a year ago.

But although 22 per cent fewer cars were in use, almost 2000 more people were carried to and from work by auto—a striking demonstration of what the Share-the-Ride Plan has accomplished.

Average Occupancy 2.25

However, Johnson pointed out that the plan can still handle additional riders without using more cars. The survey disclosed that the average occupancy of cars driven by Kodak drivers is 2.25, or less than two riders per car other than the driver.

While approximately 70 per cent of Kodak employees lives within the city, the 30 per cent of employees who live in suburban or rural areas use more automobiles for home-job travel than do the city dwellers. Only 18.2 per cent of Kodak persons in Rochester relies on auto transportation to work. In contrast, 54.6 per cent of those in the suburbs and more than 85 per cent of those outside the metropolitan area rely on private cars. The metropolitan area, as defined in the survey, includes the city and the towns of Greece, Brighton, Irondequoit, Chili and Gates.

More Employees Using Busses

In addition to the increase in persons using the Share-the-Ride Plan, the past year saw a sharp increase in the number of employees using bus transportation. At the same time, no noticeable gain was made in the number of Kodak people walking to and from work.

Perhaps the biggest single accomplishment of the survey, Johnson pointed out, has been the listing of hundreds of employees seeking rides or riders or seeking to swap rides with other car owners. These have been classified and zoned during the past two months and the work of grouping car-sharing combinations is already under way in plant transportation offices.

Park Soldier Loses Life

Private Robert L. Bossert, a former apprentice in Kodak Park's Machine Shop, was killed in an accident in North Africa, June 4, the War Department has revealed.

Private Bossert, who entered the service last October, is the son of Al Bossert of the Park's Machine Shop. A brother, Leonard, also is a Kodak Park employee.

News of Private Bossert's death was contained in a telegram to his parents. No details of his accident were announced.

A graduate of Aquinas Institute, Private Bossert went overseas early this spring and was attached to an ordnance maintenance unit.

Branch Head, Feared Dead, Now Prisoner

Charles Donald

Believed to have lost his life when his ship was sunk off Singapore more than a year ago, Charles Donald of Kodak Limited today is alive in a Japanese prison camp.

The mystery surrounding Donald's fate was cleared up by a radio message from him which was picked up by the Australian Broadcast Commission. In a letter to Walter G. Bent of Kodak Limited, Donald's wife, Mrs. Betty Donald, reported the message had been forwarded to her home in Australia by the Commission.

Evacuee Ships Sunk

Singapore manager of Kodak Limited, Donald was one of the last to leave the city before it capitulated in February 1942. According to reports reaching Australia, he had been seen boarding an evacuee ship which was sunk just off Singapore. The vessel was one of four sunk by the Japs out of a group of five.

Donald's message inquired for Mrs. Donald's health and that of their daughter, Susan. He also requested his family to send letters and comforts through the International Red Cross. However, Mrs. Donald stated in her letter to Bent that it was impossible to send parcels to him since the Red Cross will not take them because of the refusal of the Japs to insure safe delivery.

Donald, a Scotsman, was employed at the London offices of Kodak Limited before going out to Singapore several years ago. Mrs. Donald and their daughter both were evacuated from Singapore shortly before the Japs took the British Far-Eastern stronghold.

Erle Billings Named WMC Consultant

Erle M. Billings, Kodak's business and technical personnel director, has been appointed as a consultant to the director of the War Manpower Commission's national roster of scientific and specialized personnel.

The appointment of Billings was announced last week by War Manpower Commissioner Paul V. McNutt. Billings will continue his duties with the Company but will go to Washington for consultation whenever he is needed.

At Kodak 25 Years

A Kodak employee for the past 25 years, Billings recently completed a census of chemists and chemical engineers which the American Chemical Society sponsored for the use of the Manpower Commission's roster. Described as "the most complete and accurate picture of the personnel of the chemical profession in America which it is possible to obtain," the survey included the mailing of 100,000 questionnaires to individuals who were supposed to have chemical experience which might be of value to the government.

Own Property Abroad?—File Treasury Report

If you own property of any kind in a foreign country, you must file a report with the government before Aug. 31, 1943.

This ruling was announced recently by the U. S. Treasury Department with the instructions that such reports are to be made on the Department's Form TFR-500. A supply of these forms, and instructions for completing them, is available to Kodak people at the Company treasurer's office, it was announced last week. Assistance will be given foreign-property owners in filling out TFR-500 at that office.

Reports must be filed on property owned in foreign countries, including obligations such as bonds of a foreign nation or of any person or corporation therein. However, no report need be made by any person whose property in foreign countries on May 31, 1943, had an aggregate value of less than \$10,000, measured by cost or face value, or market or estimated value, whichever is higher. This exemption, however, does not apply to foreign bonds payable by their terms in United States dollars, or to certain agreements and contracts, all of which must be reported regardless of value.

Day of Rest for the Days

Despite a home and three children, Mrs. Irma Day runs her household efficiently and holds down a regular job at Camera Works. Sunday, when this picture was taken, is her one day of rest. That's when she and her husband, Elbert sr., a Hawk-Eye employee, get together to play with their children. Elbert's holding the twin girls, Elsie and Frances, while Elbert jr. tries to interrupt his mother's sewing.

Irma Day, Mother of Three, Runs Home and Job with Skill

For eight hours each day Irma Day is a timekeeper at the Camera Works; the other 16 hours she is Mrs. Elbert Day, mother of three and wife of a Hawk-Eye employee. Yet despite this schedule, Irma runs job and home alike with equal efficiency.

When Irma leaves for work in the morning she drops off her twin girls at her mother's house, which is across the street. Elbert is still in bed at that time, for right now he doesn't finish work until 12:30 a.m. He cares for the older, late-sleeping son when the two wake up.

Finds Time for Sewing

Irma is employed at Camera Works six days a week. She has never had a job before, still she finds time to do home chores, such as making dresses for the two girls or a pair of pants for the boy. Although a woman comes in to clean Saturdays, she must keep her house straightened up on weekdays so that the work necessary for a smooth-running household won't pile up. Some of the laundry is done for her, yet there is always more washing to be done on Sunday, for three children can run through plenty of clean clothes. Even so, Sunday's a comparative day of rest for Irma.

At the moment her husband is working from 3:30 p.m. until after midnight, so that means she seldom sees him except on Sundays.

Day Job—Mrs. Day's day job is that of a time clerk at Camera Works, where she does her part to 'pitch in and help win the war,' something she feels more women should do.

Then there is the shopping problem, with Irma, her husband and her mother buying supplies as needed. Purchases downtown are made Monday night, with Irma's sister running across the street to care for the children. Trips to the beauty parlor must be made after work. "Saturday night out" means meeting Elbert after work and taking in a midnight show. Sunday is devoted to church, necessary household work, and playing with the children.

Feels Need to Help Win War

"This life is just what you make of it," Irma commented. "I like the work a lot, but I wouldn't be doing this if it weren't necessary for more women to pitch in and help win this war. Of course, I'm helping myself and the family when I work, for we have been able to clean up most of our bills, like the ones that came when the twins were born. We both are buying War Bonds for ourselves and the children."

"It isn't easy. We always have problems resulting from this busy life, but we handle them as they come. Then there's the draft—Elbert might be called. We'll just have to wait and see. In the meantime we'll stick to our war jobs."

SHARE-A-RIDE

A new KODAKERY department in which are reported, as far as space permits, the names of those seeking riders, rides or someone with whom to swap rides. If you want your name to appear in a future list, get in touch with your plant transportation committee head: Eddie Groth, KP 454; Johnny Doyle, CW 5163; Dick Howland, H-E 305; Harry Irwin, KO 4221.

Saved—Thanks to the safety glasses he is holding, Harold Smith of Kodak Park's Chemical Dept. still has sight unimpaired. The glasses, prescription-ground and similar to those he's wearing, protected him when an experimental paper-coating emulsion on which he was working was thrown in his face when a filter clogged. The emulsion, the temperature of which was 300 degrees, formed a mask right over his face. Smith freely admits the glasses saved his eyes. The perspiration on his face enabled him to peel off the emulsion.

America is at War—are you?

Hawk-Eyefuls

One of the best posters this war has produced is the one reading "Men Working Together" showing a soldier, a factory worker and a sailor arm in arm. A fine example of how inextricably linked the three groups are may be found in the Hawk-Eye plant where so many families are represented both in industry and the armed forces. . . . **Harold Brush** has two sons in the service. James is a corporal in the Air Corps and is stationed at Camp McCain, Miss. Harold jr. is an air cadet. . . . **Genevieve Capasso's** husband has been with the Signal Corps in the Southwest Pacific since midwinter. . . . **Bill Ferron's** brother, James, former Hawk-Eye Shipping Room employee, is in the Army Signal Corps, Fort Monmouth, N.J. . . . **Edgar M. Hawkins' son**, Edgar jr., is a lieutenant (j.g.) in the U. S. Navy, stationed in Alaska. His daughter, Mrs. S. C. Seelye, devotes much of her time to the Red Cross blood bank and to the OPA ration board. . . . **Dorothy Welch's** brother, Bub, is studying aerial photography in the Marine Air Corps at Pensacola. . . . **Mary L. Benkert's** husband, **Corporal Louis J. Benkert**, formerly in Dept. 24, is now in Quartermaster's Detachment at Finney, Ky.

Brush

Chick Slattery's brother, **Ray**, in the service two years and three months, is top sergeant with the 14th Armored Division, Camp Chaffee, Ark. . . . **Lucille M. Trompeter** has three brothers in the service, Corporal Raymond Trompeter in North Africa, Private, first class, Robert Trompeter in South Dakota and Private Herbert Trompeter in Arkansas. . . . **Margaret Adam's** brother, George, a private in the Army Air Corps, Miami Beach, Fla., is an interior guard at the post stockade. . . . **Naomi Flood's** husband is in the Army at Fort Leonard Wood, Mo.; her brother, **Lieutenant Ellsworth Stein**, a former Camera Works employee, is at Camp Wood, Tex.

Lucille M. Trompeter

Mary Wahle's brother, Tim, a staff sergeant in the Air Corps, has been stationed in Panama for three years. . . . **Albert Willis' son** and **Harry Willis' brother**, Walter, is an ensign in the Naval Air Forces, Pensacola, Fla. He is home this week on a seven-day leave. . . . The brother of **Jane and Don Coleman**, aviation radioman, third class, Allen Carl Coleman, is mathematic instructor with the Naval Air Corps at Norfolk, Va. . . . **Minnie Fay** has two sons in the service, Second Lieutenant Earl Fay, who was at Pearl Harbor that memorable day and is now at Camp Polk, La., and Corporal Robert, in Trinidad, off the coast of South America. . . . **Mildred Miller's** husband has been overseas for more than a year. Last week she received from him a pair of rope sandals styled by North African Arabs. . . . **Marie Gentile** has three brothers in the service, Corporal John in Hawaii, Private, first class, Vincent with the Coast Artillery in Texas, and Private Nicholas at Fort Niagara. . . . **Ray Mason** has three brothers in the Army: Henry, a corporal, in Massachusetts, Private, first class, Orrin in Kentucky, and Private William Mason in Arkansas. . . . **Mildred Durney's** brother, Vernon, has been across for more than a year, is at present in North Africa. . . . **Don J. Sullivan's** brother, John, is a lieutenant in the Army Signal Corps, stationed at Camp Murphy, Fla. He has four brothers-in-law in service, two with the Army, two with the Navy. . . . **Don Arganbright** has three brothers in the service: Corporal Tom, Army Signal Corps, is now in the hospital at Fort Devens, Mass., having been wounded in Tunisia; Private John is at Camp McCain, Miss., with the Engineers; and Vincent, CPT is at Dowling College, Des Moines, Iowa. . . . **Jayne Neider's** fiancé, Corporal Malcolm Barrett, Medical Corps, has recently been home on furlough after two years in Hawaii. He is now stationed somewhere in California. . . . **Gertrude Ludian** of the Accounting Dept. has three brothers serving their country. Stanley is a first class petty officer now on convoy duty. Alfred is a corporal in the Army, now stationed in Australia. Thaddeus is a machinist's mate, second class, stationed in Puerto Rico. . . . Correspondent **Charles Cervasi** has two brothers in the Army—Russell, corporal of the 6th Armored Division at Camp Cooke, Calif., and Joseph, private, with the 22nd Armored Division at Camp Perry, Ohio. . . . And so it goes almost without end.

Active in their own rights are **Olive Colegrove**, hospital aide at Highland, **Norma Koffman** and **Phyllis McGuigan**, hospital aides at General, and **Florence Zahn**, nurses' aide at Strong. . . . **Magdalene Bori** has been studying first aid with the Red Cross. . . .

Dottie Kelly

Ray Close, first aid instructor for the Red Cross, has his pin for Gallon Club, having donated blood nine times. He is going up for the 10th time July 12. . . . **Dottie Kelly** was guest of honor at a party in the Cafeteria June 17—her 19th birthday. . . . Among those who were active in World War I is **Archibald McKellar** who was in the British Navy, engaged in the battle of Helgoland and received three medals, one the much-prized Victoria Cross. . . . On Sunday, June 20, 26 members of Dept. 40 took the car-ferry trip to Cobourg. **Fred Burroughs** reports they had a swell time. . . . Members of Dept. 82 are following suit, making the trip June 27. Thirty-five to 40 are already signed up, according to **Helen Martens** and **Celia Pacek**, in charge of the affair. . . . On June 23, **Walter Page**, head of Dept. 55, completed 30 years' service with Kodak. He came to Rochester as instructor in physics at West High School, after eight years as teacher and school principal elsewhere. Recently he has been engaged in collaborating on a University of Pittsburgh textbook on atomic and nuclear physics. That institution has offered him an assistant professorship after the war.

Jim Severin is flashing a letter from K. W. Sells, president of P. K. Wrigley's All-American Girls' Softball League, asking him to scout for two or three outstanding pitchers. Jim, Hawk-Eye girls' coach, is looking for likely material. . . . **Harold Bennett**, of the Scientific Dept., is on several months' loan to the Patent Dept. at State Street Office. . . . **Ed Mitchell**, who broke a leg in taming a colt about two weeks ago, is planning to ride the critter again even if he has to do it on crutches.

To be Installed—Recently elected to head the Hawk-Eye Camera Club during the coming year, the four officers above will be installed at the ceremonies opening the club's new darkrooms within the next few weeks. From left, Milt Richardson, Rae Wyland, Sherm Montgomery and Lou Parker.

Air Warfare in World War I Child's Play, Inspector Says

Aerial warfare in World War I was child's play compared to World War II, admits Wayne Duffett, holder of Naval Aviator Brevet No. 327, and at present Hawk-Eye inspector.

Decorated by President Woodrow Wilson with the Navy Cross, Duffett was cited "for distinguished and heroic service as pilot of a seaplane engaged in patrolling the waters of the war zone, escorting and protecting troop and cargo ships, operating against enemy submarines and bombing the enemy coast, showing at all times courage and a high spirit of duty." Duffett also wears the Italian War Cross for aerial combat and the New York State Cross for conspicuous bravery. He still feels, however, that pilots had things pretty easy in World War I by comparison with today's flying problems.

Downed Seven Planes

Denied the rating of ace because only two air victories were officially confirmed, Duffett says he actually downed seven enemy planes.

"Besting a capable enemy is the greatest thrill life affords," says Duffett. "You know it is either kill or be killed. When you see the enemy plunge into the sea, you know you won't be killed . . . yet."

Duffett enlisted in the Navy early in 1917. In November he was ordered to Porto Corsini in northern Italy as a combat pilot flying Macchi Neuport flying boats and Honriet and S.V.A. land planes.

At the close of World War I, Lieutenant Duffett returned to his home in Rochester and was made commanding officer of the Aerial Branch of the 3rd Battalion, New York State Naval Militia.

220-Kilo Bomb 'Tops'

Amplifying his comparison of the First World War with the present one, Duffett said, "We thought a 220-kilo bomb was the ultimate in devastation in the last war; today two-ton block busters make them seem like Fourth of July bombs."

Among his memories of the earlier war, he recalls his friendship with Gabriel D'Annunzio, the Italian flier, poet and statesman who took Fiume for his fatherland. He also recalls literally rubbing shoulders with the present King Victor Emmanuel of Italy and dining with the Duke of Windsor, then Prince of Wales.

The average male civilian eats 125 pounds of meat each year. In the Army, the same man eats 360 pounds. He also eats double his normal amount of eggs, fruits, and vegetables.

Looks Back—Wayne Duffett, winner of the Navy Cross in World War I, recalls his air combats of those days and calls them child's play by comparison with aerial warfare today. Duffett, now an inspector, downed seven German planes.

Noon-Hour Loop Ballplayer Hurt

Knocked out cold by a baseball bat which had slipped out of the hands of one of the batters during a noon-hour game on the grounds of the Deaf Institute, John Gallagher, of Hawk-Eye's Shipping Room, was taken to the Strong Memorial Hospital last Monday with a bad bruise over the left eye.

According to spectators, John was watching the game from one of the benches near home plate while waiting his turn at bat. The flying bat caught him straight on, laying him out cold. An ambulance was summoned, first aid given and he was taken to the hospital, to be discharged before the day was up.

Gallagher is one of Casey's newer men in the Shipping Room, having come to Hawk-Eye a month ago, after a couple of years at Kodak Park. His 25th birthday fell the day after the accident.

Camera Club Plans Loan Print Shows

Plans for a traveling print show for exchange with other camera clubs throughout the country were announced this week by Lou Parker, president-elect of the Hawk-Eye Camera Club.

Club members, according to Parker, will be invited to submit prints to a committee which will select those suitable for exchange loans with similar organizations.

The plan, which will be executed on the completion of the Camera Club darkrooms, will provide exhibits which will be available at all times to club members.

Details as to eligibility of prints, mounting, and methods of submission will be announced later.

The following new members joined the club during the past week: Julia E. Gillespie, Alfred Balzer, Max R. Fitze and Rose R. Nechamkin.

Interest Grows In Hawk-Eye Riding Clubs

Continued interest in non-gasoline-consuming transportation is manifested in the growth of the two riding clubs fostered by Hawk-Eye employees. One is the Marengo Riding Club, which is composed largely of Camera Club members; the other is a group being formed by the HEAA.

Of the two organizations, the Marengo Riding Club seems to draw the more expert riders. Bruce Kelley, Milt Richardson, Roy Vanderbilt and Sherm Montgomery are leaders in this organization.

Among the latest to succumb to Sherm's enthusiasm is Wes Vokes who has been appointed official photographer for the group. Last week found him in front of rather than behind the camera, his first experience on a horse, so he says, and yet already apparently an accomplished horseman.

Anyone interested in horseback riding might well talk it over with either Sherm Montgomery in the Employment Office or with Gertrude Scott of the HEAA. The latter group, numbering about 50 at present, rides at local academies.

American industry has been a feared enemy of Germany since the last war. After World War I, General Ludendorff wrote in his memoirs that Germany had been doing first rate until she encountered "the ruthless energy of American business."

—Abraham Lincoln

Beware of 'Ration Rumors'

Don't believe everything you hear about rationing. Wait until the government announces the rationing of something you eat or wear or use about the house. Then it's official.

Up 'till then it is pure rumor and as such should be ignored.

Can we blame back-yard and bridge-table gossip for the rumors? The OPA, which regulates all rationing, says "No—not entirely." The rumors are getting impetus from other sources.

One "easy way" to beat down sales resistance, it has been found, is by the rationing rumor. If some stock is moving slowly, the unscrupulous merchant might hint that "he's heard" it may be rationed. That clinches the sale, all right, but the rumor doesn't stop there. It rolls on and on and soon snowballs into a full-fledged "run."

You've heard these rumors. OPA has been running itself ragged denying them. Few—if any—of the rumors have proved true, yet they invariably launch a siege of panic buying which endangers our wartime structure of supply and demand.

Rationing guarantees a fair distribution. It is a little inconvenient at times, but actual hardships are few and far between.

We are defeating the very purpose of the entire rationing program when we listen to rumors and join in the "runs" on various commodities. The same thing to do is to continue to buy sparingly. If that product is rationed later, you'll get your share. You'll get the same that every other American gets. You wouldn't want more.

Rumors in normal times are vicious. In wartime they are multiplied both in number and viciousness. We MUST turn a deaf ear to them as patriotic Americans.

If there's one thing that should be rationed more, it's RUMOR!

Watch Those Tin Cans

Somebody isn't saving tin cans. A lot of somebodies aren't, in fact. The War Production Board estimates that two tin cans out of every three that could be salvaged are being thrown away.

We're doing better than we did when the program got under way a year ago. Then we were salvaging a mere 1000 tons of cans a month. In April this had increased to 20,000 tons. But, that isn't good enough because we are still doing only a third as well as we should.

Although it may seem small to you the salvaging of your tin cans is a big cog in Uncle Sam's war effort. A few figures might convince you. There are three critical war materials we get out of tin cans—tin, steel and copper. Most of the tin-can salvage is being used for tin reclamation and steel production—one per cent tin and 99 per cent steel scrap.

When we salvage but 20,000 tons of tin cans a month, we are actually throwing away 4000 tons of

... Keep it Free!

This is America . . . where you pray to God in your own way . . . where your religion is your own private affair . . . where you can go to any church, worship as you please, in the peace and blessing of religious tolerance.

This is America . . . where there is no emperor who claims he is a god—no maniacal fuehrer who demands to be worshiped—no burning of churches—no persecution of people because of their beliefs—no concentration camps for the men who preach decency and the brotherhood of man.

This is America . . . a nation founded on the ideal of religious liberty . . . where the Ten Commandments are a national code of morals . . . where you can be Catholic, Protestant, Presbyterian, Episcopalian, Lutheran, Baptist, Methodist, Jewish, Christian Scientist, Mohammedan, Buddhist, agnostic, atheist or anything you want.

This is America . . . where you have the right and dignity of an individual . . . where you do your own thinking . . . where no one but you picks your faith, your church, your prayers. And that's the way it will always be.

That's the way it will always be because YOU, personally, are preventing the bigoted tyrants from overwhelming the world. Your work on the production line—your day-in and day-out effort—is your part of the fight to preserve the freedoms that have made America great.

STAY ON THE JOB! . . .
KEEP AMERICA FREE.

pure tin, 396,000 tons of steel scrap and 100,000 tons of cans for copper precipitation!

You may be buying War Bonds to your capacity. You may be working on an important defense job. You may have a son or daughter in the service. But unless you are going "all out" on the war effort, you're not really doing your full share—and going "all out" means saving tin cans, too.

Watch the papers for collection dates and be sure YOU do your part!

Wes Wooden Tep Wright

WHAT RESULTS HAVE YOU HAD FROM KODAKERY WANT ADS?

Jane Cary, KO Statistical:

"Pedge Eppler and I share an apartment. We'd been looking all over the city for a good secondhand studio couch. No luck at all. When we advertised in KODAKERY we received a call from a woman who was a dinner guest of a Kodak family, where she was shown the paper. She was closing her summer cottage and wanted to get rid of some of her furniture. When she heard that we were furnishing an apartment, she not only sold the couch to us for a fair price, but threw in other odds and ends of furniture to help out."

Clair Kennedy, H-E Lathe Operator:

"KODAKERY IS A GOLD MINE! I've had three ads in the paper so far and I should know. I received over 30 replies when I advertised a washing machine. There were 15 calls in reply to my cottage-for-rent ad, and when I advertised a lake-shore lot for sale I had over a dozen answers. How can returns like these help but pay—especially when they don't cost us anything?"

Albert Cornell, CW Dept. 57:

"I've still got my riding boots. Although I stated the size (8A) in my KODAKERY ad, it didn't seem to affect would-be purchasers. A girl tried them on and almost fell into them; a man wanted to try them, but he couldn't get his big toe inside. Incidentally, my boots still are for sale, if any 8A wearers are interested."

Arthur Caton, KP Roll Coating Dept.:

"Following the insertion of my ad in rhyme in KODAKERY for a dog, two persons called and wanted to give me a dog for my youngsters. Still a third person called and tried to sell me an 11-month-old Great Dane. Because we live in a small apartment, we settled on a small cocker spaniel. However, since we were offered all types and sizes of the canine species, I'll say KODAKERY advertising results are fine."

Mosquitoes Hit . . . Kodak in India . . . Young Folk Frolic

Ditching Followed Oiling

After covering surfaces of all stagnant pools with waste machine oil and a sewage by-product oil, the CD mosquito fighters dug several ditches from swampy spots so water could drain into an adjacent creek. Oil kills mosquito larvae before they reach the adult stage.

Far Cry from CW Days

During these days of service with Uncle Sam's Army in the South Pacific area, Private Thomas W. Hoffmaster, formerly an employee of CW Dept. 56, finds life and his native associates entirely unlike those of his Kodaking days. He is shown above with a group of South Pacific natives. His Army unit is the photo section of 38th Bomb Group. He entered the Army two weeks before Pearl Harbor.

Oil Troubled Waters

When that little rascal, *Culex Pungens*—order of Diptera, family of Culicidae—recently invaded the Town of Greece, a group of men from Post 15 of Greece's Civilian Defense Unit got busy and poured oil on the troubled waters. All of which means that when mosquitos came to lay eggs in the town's swampy spots, the CD boys headed off the insect invasion.

Kodak was well represented in the unit handling this project. Here they are shown filling cans and bottles with oil to be poured on surface of mosquito-breeding pools. Standing, left to right, are Phil Kimmell (H-E), George Armstrong (KP), Ray Hayes (KP), Roy Gerton (KP), Bill Wagerhauser (KP), Henry Heerkens (KP) and Harold Duckworth (KP). Kneeling, left to right, are Frank Donn (CW), J. Remillard (KP), C. Casey (KO).

Kodak on Outpost Duty

If you were traveling along the Delhi-Muttra Road in Central India, you might be a little amazed to come upon a Kodak 'establishment'. Yet, as this photo shows, there is such a place on that road, known as 'Kodak House' and operated by four ex-members of the Kodak Limited set up in England. All photographers of the RAF, they are Frank Wheeler, left, and Tommy Tucker, standing, and Victor Lyttle and Geoffrey Marlow, seated. Tucker since has been promoted to pilot officer. Their post is a small tent which serves as a photo unit.

Card Games Popular at Kodak Youth Parties

You'll always find many cardplayers around tables at the young people's parties which are given in the State Street auditorium each Wednesday and Saturday evening under sponsorship of the Company's recreation units. Other features of the gatherings are shuffleboard, Ping-pong, dancing and movies. All youths employed by Kodak are invited and the attendance always is good. Those shown here at a card table are, left to right, Charles Parlato (KO), Don Vogt (H-E), Shirley Meade (H-E), Doris Pullman (H-E) and Virginia Templeton (H-E).

After Their Cinderellas

One feature of the young employees' party in the auditorium that always proves popular is the 'mad scramble for m'lady's shoe.' Girls each toss a shoe into the center of the floor and the boys rush for them. After the battle is over, each lucky boy gets to dance with the girl whose shoe he has snatched from the pile. Some lads trust to blind luck while others fight for shoes worn by girls of their choice.

Park Flyer Reported Missing in Action In Southwest Pacific

Lieutenant Russell S. Emerick, a former employee of Kodak Park, has been reported missing in action in the Southwest Pacific.

Missing—Lieutenant Russell Emerick, formerly of Kodak Park, is missing in action in the Southwest Pacific.

Employed at the Park for more than five years, he left Field Division 3 in January 1942 to enlist in the Army Air Forces. Last December he was sent to the Pacific war theater as copilot of a Flying Fortress.

Damaged Jap Destroyer

While Lieutenant Emerick avoided any mention of his exploits in letters to his family, Associated Press dispatches revealed he played an active part in engagements off New Guinea. In March his bomber damaged a Jap destroyer during the battle of the Bismarck Sea and during April he accompanied a bombing mission that sank or damaged four Jap ships off Wewak, New Guinea.

According to a sister, his only comment on either action was contained in a letter to her. Knowing he used to whistle when in a tight spot, she wrote and asked him what tune he had whistled during the Bismarck Sea engagement.

"Too Scared to Whistle"

His reply was: "Sis, I was too damned scared to even whistle."

Most of the time, his sister reported, Lieutenant Emerick's letters were about a garden which he was raising at his base in New Guinea. In one of his first letters from overseas, however, he told of meeting Steve Manning, a fellow employee at Kodak Park now a bombardier in the Air Forces.

In another letter, written from New Guinea May 27, he told John Bauer of Field Division 2 that he had "no complaints other than the usual."

"I'm still looking for a little leave," he added, "but it seems to be further away than ever."

A sister of Lieutenant Emerick, Mrs. Beulah Hartl, is employed at the Park in Bldg. 12. An aunt, Mrs. Mildred McCarthy, is also at the Park in Bldg. 25.

Lt. Cash on Leave

Lieutenant Roger A. Cash, formerly of the Camera Works Engineering Dept., recently dropped in on his old mates on a surprise visit. He is with an ordnance company of the Air Force at Avon Park, Fla., where one of his many duties is to supervise the repair and rearming of planes. In addition, he supervises work done on ground equipment, such as supply trucks and tractors.

'What They'll Do to an Axis Ship'

"I notice most of the boys write and tell you how much photography is doing in this war. It is doing a lot. And the Company is doing a swell job of production."

"But now let me put in my two cents."

"I'm talking about another product of the Company—very seldom heard of but still doing

a mighty important job. It's the * * * made at Kodak I want to mention. We fellows who are serving aboard * * * are the ones who see that end of it. I've seen plenty of them and believe me, they are a mighty important item in this war just as in the last one."

"To me, it's a source of great satisfaction to know that I am

still handling a product of the Company, although I will admit it is very different from Kodachrome Film in Bldg. 5 at the Park.

"But I know what one of them will do to an Axis ship when it lets go."

Boatswain's Mate, first class,
Edward S. Duder
Kodak Park

Cited—Photographer's Mate, second class, Harry Gilmour of the Oakland Store has been awarded the Air Medal for service in the South Pacific.

Oakland Store Employee Gets Navy Air Medal

Harry R. Gilmour, who gave up his work in the Oakland Store to enlist in the Navy, has been awarded the Air Medal for "skill, courage and determination in keeping with the highest traditions of the United States Naval Service."

Gilmour, photographer's mate, second class, received the decoration from Rear Admiral Frederick C. Sherman, commander of a task force in the South Pacific Area. Rear Admiral Sherman lauded the former Kodak employee as one of "the men who are photographing the road to Tokyo."

Helped Repel Enemy Attacks

Gilmour's citation credited him with obtaining aerial photographs under extremely hazardous conditions and helping repel enemy aircraft during reconnaissance flights.

The text of the citation:

"In the name of the President of the United States, the Commander South Pacific Area and South Pacific Force takes pleasure in awarding the Air Medal to H. R. Gilmour, photographer's mate, second class, United States Naval Reserve, for service as set forth in the following citation:

"For meritorious achievement in aerial flights against the enemy. Gilmour, while serving in the photographic unit, attached to the Commander Aircraft, South Pacific Force, participated as an aerial photographer in numerous aerial flights over enemy-held territory for the purpose of obtaining aerial reconnaissance photographs. On all of these flights enemy opposition was probable and expected and on numerous occasions enemy opposition, both aerial and antiaircraft, was encountered. His assistance in repelling these attacks and in obtaining aerial photographs under extremely adverse conditions, was characterized by skill, courage and determination in keeping with the highest traditions of the United States Naval Service."

T. S. Wilkinson
Rear Admiral, U. S. Navy
Deputy Commander,
South Pacific Area

Mail Call

"I am working harder than I ever have before, which is something in itself. I can't say exactly what I'm doing, but I will say that when I'm feeling tired all I have to do is look around me and see all the Kodak products coming in."

"It gives one a great feeling to see articles from the old home town and plant being put to use for the benefit and success of the war. I can't say what these products are—but you can take my word, we're really doing the job with them here in Alaska."

Seaman, first class,
John Holborn
Camera Works

"Here in England you can see the familiar red- and -yellow Kodak sign over many a store window—a beautiful sight to a GI from Rochester."

Technical Sergeant
Mort McMullen
Camera Works

"Here I am way up in Michigan and my girl is in Rochester and during the summer vacation she is going to work at Hawk-Eye. I guess she is trying to do the work I was contributing before I left for the armed forces."

"I am expecting to go to Michigan State College any day now under the Army Specialized Training Program and be processed there."

Private Thomas A. Nichol
Kodak Office

"It gives me a good feeling to see the large number of Kodak employees in the service of their country. Every now and then I stumble on a notice in KODAKERY about someone who was a friend of mine at Kodak. It's good to know what they're doing now."

Sergeant John Jones
Camera Works

"I am just starting the Air Corps Photography Course here at Lowry Field and expect to glean a great deal of information that I have not already learned from my work in the Tacoma Store. Of course, we have the best of EK equipment and all those who have seen the darkrooms, finishing rooms and other installations agree that ours here rank with the finest in the country."

Private, first class,
Robert P. McNary
Tacoma Store

"I found a note in KODAKERY about a fellow employee of the Chicago Branch who was at my farewell party. I was wondering what became of him since I can't ever seem to get any of the fellows I worked with to answer my letters. I wrote several, but not a single answer."

"You should feel the heat here in Louisiana. Five minutes in the sun and you have a good tan—if you tan. I burn."

Private Robert J. Warnke
Chicago Branch

"At the Lockheed Modification Center here I've seen several Eastman Kodak products such as the astrograph, driftmeter and cam-

eras. It really goes to prove Kodak is on the beam everywhere."

Corporal John T. VanderBrook Jr.
Camera Works

"I have been promoted to sergeant, working as an X-ray technician at the regional station hospital. Every day I handle things I made while working at the Park—intensifying screens. I also handle other Kodak products such as developer, fixer, film hangers and film. They bring back many memories of the Company."

"While I was home on leave a short time ago I stopped at the Park. It was the same place—but I missed the faces of a lot of my old friends who have now entered the service. I hope someday we will all be together again like the happy family we were not so long ago."

Sergeant Donald P. Hoderlein
Kodak Park

YOU Can Help Servicemen Get KODAKERY

Thousands of copies of KODAKERY are being mailed each week to former employees who are now in the armed forces stationed in the United States and overseas.

To insure their delivery, KODAKERY's mailing list must be kept up to date.

If you are now in service and are transferred to a new station, all you need do is send a card listing your correct address.

If you are here at home and a former employee now in service writes you enclosing a new address, please pass the address along to your plant editor.

He'll see that the mailing list is changed . . . and that your buddy in service gets his copy every week.

You've worked WITH them—Now work FOR them

Eye-Catcher—A hat he'll remember—and never let you forget! Mary Howard of Kodak Office wears this white feathery eye-catcher held fast with a tiny comb and yards of sea-green tulle. It's guaranteed to give your friends something to talk about. \$6.95 in a local shop.

Everyday—The cocoanut straw, trimmed with blue grosgrain ribbon on its low-cut crown, is the kind of hat you can slap on your head for everyday wear without looking—whether you're on your way to work or out for a Sunday stroll. Mary found it in a local store for \$1.98.

Data on Your Diet

Q. Why is additional salt recommended during the summer?

On hot days people perspire more freely and heat prostration may result if the salt and moisture lost in perspiration are not replaced. When the thermometer soars into the nineties this summer, sprinkle extra salt on vegetables and salads.

Q. Should vitamins be discontinued during the summer?

If you have been advised to take vitamins, they should be continued through the summer as they are as necessary at one season of the year as at another. The exception to this rule would be in the case of cod-liver oil, as during the summer Vitamin D can be obtained from the sun's rays.

Q. How do evaporated milk and condensed milk differ?

Sugar is added to condensed milk and not to evaporated milk.

Q. Have you a good recipe for canning strawberries?

Use 2 cups sugar, 2 cups water and 2 quarts strawberries. Cook sugar and water together until sugar is dissolved. Add 2 quarts of strawberries which have been carefully washed and hulled. Cook for 5 minutes. Remove from stove,

cover with cloth and allow to stand overnight. Then pour strawberries into sterilized jars, filling jars to within ½ inch of top. Screw on lid, then loosen ½ turn. Place jars on rack in oven, taking care they do not touch. Process for 45 minutes in 250 degree oven. Strawberries canned by the foregoing method do not float to the top, stay plump, lose very little color and are delicious.

Send your food questions to KODAKERY. Frances Floore, nutrition adviser, will answer them directly through this column. Questions about diet for self or family, marketing, menu planning, rationing—all will be answered.

Correction

In a recent issue of KODAKERY, "siding shingles for insulation" were listed among conservation repairs for which Kodak employees might obtain a three-year modernization loan from the Eastman Savings & Loan Ass'n.

While Kodak people may apply for modernization loans to conserve fuel, siding shingles—according to FHA regulations—can be approved only if the house would become uninhabitable within 90 days were shingles not applied.

The Market Place

This ad service is free and is for the use of Kodak employees only. No ads will be accepted unless received over your signature on a KODAKERY classified ad blank obtainable from any KODAKERY correspondent or from your plant or office KODAKERY editor. Only one ad per issue from any one employee. Ads for an employee's purely commercial side line—eggs, radio repair, etc.—will be rejected. Ads must be placed in interoffice mail in envelope addressed to plant or office editor by noon Wednesday of week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED. Please keep your ad under 25 words. KODAKERY reserves the right to refuse ads and to limit the number used. Suggested types of ads are: FOR SALE, FOR RENT, WANTED TO BUY, WANTED TO RENT, LOST AND FOUND, SWAPS.

FOR SALE

AWNINGS—Two for porch, one 5 ft. 6 in., the other 8 ft., solid blue, best material, not painted, excellent condition. Samuel J. Sceusa, 421 Rocket St. Call Cul. 2584-J.

BICYCLE—Man's de luxe Roadmaster, practically new. \$35. 302 Lake View Pk., evenings.

BICYCLE—Man's La France, 28-in. wheel, prewar model, excellent condition. 244 Pullman Ave. Call Glen. 4274.

GRAHAM—Sedan, 1936, about 35,000 mileage, good tires, heater, radio. \$200. Call Glen. 4194 evenings or Sundays.

HOUSE—Six rooms, new furnace, bathroom, electric wiring, hot and cold water, one acre of land. C. Stephenson, Lima Rd., East Avon.

HOUSE—Double garage, large lot. Make offer. 142 Goodwill St. Call Glen. 5573-W.

INTERCOMMUNICATION SYSTEM—Two way, suitable for "silent nurse," good condition. Reasonable. Call Char. 3049-J.

JODHPURS—Lady's, dark green, size 28-30, good condition. \$2. Call Jayne Neidert, Gen. 6399-M evenings.

LINCOLN ZEPHYR—1937. \$300. Also saw table, 14-in. blade. \$15. Call Glen. 1253-W.

LIVING ROOM SUITE—Two pieces, good condition. \$30. 74 Atwell St. Call Char. 1646-J.

ORGAN—Antique, small foot-pedal type, over 100 years old, rebuilt and electrified, excellent tone and condition, cherry and walnut. 101 Maplehurst Rd., evenings.

PLYMOUTH—1940 de luxe coach. 72 Flower City Pk. Call Glen. 5300-W.

RADIO—Philco, small cabinet model. T. Burroughs, 1927 Lake Ave. Call Glen. 546-R.

RADIO—RCA table model combination. Also brass bird cage and standard, Vigrow exercising machine, treadle sewing machine, walnut bed, bobsled. 4 Seneca Pk. Circle.

RADIO-RECORDER—Ten-tube Wilcox—Day combination radio, automatic record changer, public address, recording unit, practically new. Original price \$230, will sell for \$175. Call Char. 288-M.

REFRIGERATOR—Leonard-Kelvinator, 1942, 6 cu. ft., sealed unit, used 6 months, owner going in service. 359 Ridgedale Circle. Call Glen. 5372-J.

RUG—Wilton, 9 x 12, good condition, reasonable. Call Glen. 3578-J evenings.

SHOES—Lady's black suede "Tramp Alongs," 6½B, sport or walking type, good condition. Also black-and-white semidressy shoes, size 6½B. 349 Flower City Pk.

SHOES—Black gabardine pumps, size 8A, worn once. 326 Ave. D. Call Main 5489-W.

SHOES—Pumps, black-and-white patent leather and buck, size 5½B, like new. Also one pair black suede. Call Glen. 2519-W.

SPORT JACKET—Man's, white serge, all wool, size 38 or 40 regular, owner in Army, worn twice. 349 Flower City Pk.

STUDIO COUCH—Good condition, reasonable. Call Char. 932-J.

SUNROOM SET—Maple, spring construction, excellent condition. \$35. B. Burritt, 59 Continental Dr., Brighton.

TENNIS RACKET—Quality, reasonable, used 5 times. Call Char. 2862-M.

TUXEDO—Stein-Bloch, 2-piece, size 37, only one month old, never worn. Call Char. 2929-W.

WANTED

ALARM CLOCK—Any make. Freda Sigan, 1 Weyl St., after 4:30 p.m.

BATHTUB—Also basin and toilet. Call Glen. 2986-M.

BICYCLE—Lightweight, woman's or man's, or bicycle frame. Will pay top price. Mary Barnes Hoag, 17 Ave. E.

BICYCLE—Boy's or girl's. 312 Holley St. Call Gen. 6100-M.

BICYCLE—Small size. Call Mon. 296-W.

BICYCLE TIRES—Two 28-in. Also alarm clock, Baby Ben preferably. Call Pittsford 179-F-2.

BUICK—Club coupe, 1940, good condition. Reasonable. Write Jack Ullman, 1326 Edgemere Dr., Rochester, 12.

CAMERA—Six-20 Monitor, or Senior, f-4.5 lens. Soldier at Maxwell Field, Ala., wants to buy or borrow camera of this description. Call Mon. 8221-R.

CANOE—Good condition. Reasonable. Call Gen. 4283-R.

CAR—Late model, good condition. Will pay cash. 1149 St. Paul St., corner Riverbank Pl.

CHAIRS—Two or 3 metal porch chairs. Call Char. 2934-J.

CIGARETTE LIGHTER—Zippo, for ex-employee in service overseas. Call Char. 2446-R.

DRAFTING INSTRUMENTS—Or will rent a set. J. Herron, 128 Murray St.

FENCE—Wire, for kennel, 3 ft. high, about 50 ft. Call S. McManus, Cul. 5451-W.

HOBBYHORSE—Spring type, known as Cal's Colt or Old Dobbin. Call Char. 372-M.

KITCHEN SINK—White, tile. Mrs. Josephine Kuhls, West Rush. Call Rush 78-R.

KODAK 35—With f-3.5 lens or better. Call Hazel Calkins, Cul. 2394-J.

LAWN MOWER—20- or 22-in. blade, in good condition and which does not require more than oiling and sharpening. Call Hill. 2842-J evenings.

MIXMASTER—Or similar equipment, with colander. Call John Mulder, Hill. 2788-W.

PHOTOGRAPHIC SCALES—Philip Sacco, 345 Ave. B. Call Main 144-W.

PLAY PEN—Preferably raised from the ground, good condition. Call Char. 1664-J.

POWER LAWN MOWER—Call Glen. 5818.

RANGE—Combination gas and coal, modern table-top model, white, in good condition. Call Gen. 1738-R.

RIDE—To Dansville or Hornell after 12:00 noon Saturdays. Call Kay Gillis, Mon. 1603-M.

RIDERS—To and from foot of Conesus Lake leaving lake 6:00 a.m. and returning from Kodak Park at 5:30 p.m. Mrs. Anna Hodge, East Lake Rd., Livonia.

SEWING MACHINE—Electric preferred, good condition. 201 Winchester St. Call Glen. 6392-M.

SIDECAR—For motorcycle. Edward Ott, 29 Sanford St.

SLIDE RULE—Ten-inch Log Vector. Call L. M. Gerhardt, Glen. 6227-W.

SURREY—Preferably with rubber tires, to seat four. Or top buggy. Call Mon. 112.

TAYLOR TOT—Frank Broutman, 11 Maria St. Call St. 6678-X.

TAYLOR TOT—Good condition. Also play pen. 366½ Grand Ave.

WANTED

TENNIS NET—Good condition. Reasonable. Call Glen. 1856 evenings.

TENT—For camping, 9 x 12 ft. Also 2 folding cots. Call Cul. 5591.

TENT—Medium size preferred. Edward F. Mead, 261 Lake Breeze Pk., Point Pleasant.

TRACTOR—Small, for garden. Write Fred Bower, P.O. Box 23, Byron.

TRAVELING IRON—Call Glen. 6022-J.

TRICYCLE—Medium size. B. E. Pilot, 382 Oakwood Rd.

WANTED TO RENT

HOUSE—With ground for sizeable garden, prefer location north of city accessible to Hawk-Eye. Call H-E KODAKERY Office.

HOUSE—6 or 7 rooms, 3 or 4 bedrooms by new member of KODAKERY staff. Might buy. Call Glen. 3634-M.

FOR RENT

APARTMENT—Three rooms, modern, heat, light and hot water. 25 E. Hanford Landing Rd., Apt. 5.

COTTAGE—At Point Breeze. M. Williams, 372 Parma Center Rd., Hilton.

COTTAGES—Two at Silver Lake, railroad transportation. Accommodations for 8, \$20; for 4, \$15. Write E. C. Kennedy, 353 Ravine Ave.

FURNISHED ROOMS—Two large front rooms, one with twin beds. 127 Lexington Ave.

FURNISHED ROOM—Married business girl with husband in service desires a girl in similar circumstances to live with her, home privileges, references exchanged. Call Char. 2678-W evenings or Sundays.

ROOM—Breakfast, home privileges, in private home. Camera Works section. Call Glen. 5058-M evenings.

LOST AND FOUND

LOST—Man's ruby ring at Hawk-Eye, valued for personal reasons. Call Char. 1142-R.

LOST—Springer spaniel thoroughbred, seven years old, brown-and-white male, vicinity Stone Rd. and Dewey. Reward. 302 Stone Rd. Call Char. 1248-J.

LOST—Polaroid sunglasses, clip-on type, in K.P.E. or K.P.W. Call Hill. 1670-W.

LOST—\$15 in vicinity of Redwood and Lake Ave. John Thomas, 9 Lapham St.

SWAPS

BICYCLE—Lady's Schwinn with basket, light, reflector, balloon tires for man's bicycle with same equipment. 55 Mayfair Dr.

Kaypees Top Cameras For 2nd-Place Tie In Major Softball Loop

Kodak Park's softball team, defending its crown in the Major League, closed out the first-half race in a three-way tie for second place.

The Kaypees clinched their share of the runner-up spot Friday night when they defeated Camera Works, 6 to 3, in a postponed game.

Shifty Gears started the game for the Park ten and chalked up his fourth victory, giving up three hits which the Cameras bunched in the fourth for all their runs. Jimmy Smith, on the hill for Camera Works, was nicked for seven safeties.

Park Tallies in Third

The Park scored its first run in the last of the third when Charley Dick led off with a single and counted on George Pasch's error. Pasch redeemed himself in the Cameras' fourth by opening with a single, and after Babe Gorzka sacrificed him to second, Shatzel walked and Ralph Tilling drove George home. Art Cropsey's hit and an error by Dick allowed two more runs to score.

Trailing 3 to 1, the Kaypees tied the count in their half on consecutive hits by Ralph Woodhall, Don Bender, Lefty Stevens and Finucane. Three more runs came home in the Park fifth when George Reisinger reached first on a miscue, Al Tinsmon walked and Woodhall doubled home both runners. Woodhall himself went to third on an error and scored on a wild pitch. Gears, although scored on for the first time this year, struck out 10 of the Camera Works' batters and issued only one pass. Smith walked four and whiffed a like number.

The defeat dropped Camera Works into a tie for eighth place in the final first-half standings.

Perfect Game Ends Kaypees' Title Hopes

Kodak Park's hopes of winning the first-half crown in the Major League were blasted Wednesday when Milt Glende of the Gleasons became the second pitcher to hurl a perfect game at the Kodak diamond this year.

While not a Kodak batter reached first base, the Gleasons nicked Joe Witzigman for two runs to eliminate the last major threat to them in the race. Thursday they clinched the pennant when they knocked off IBM in their final game.

Witzzy Nicked for Three Hits

Witzigman, charged with his second defeat, pitched creditable ball, yielding three hits. Don Bender's error in the fourth inning set the stage for the Gleasons' first run. Nitzman was safe on the miscue and scored on DePrez' double. Singles by Pacilio and Banker, with a sacrifice in between, produced a second tally in the fifth.

In addition to holding the Kaypees hitless and not giving up a walk, Glende set down seven Kodak batters on strikes and did not allow a ball to be hit out of the infield after the start of the third stanza.

Witzzy, in losing his second game, was again the victim of his mates' failure to hit behind him. In 23 consecutive innings, the Kaypees made only one run for Witzigman, although that one gave him a win.

Tank Corps Ten Clinches Crown

Taking its eighth straight victory when it defeated the Army last Friday by a score of 4 to 1, the Tank Corps ten clinched the first-half crown in the KPAA Noon-Hour League at the Ridge Road Field.

Lefty Howie Niedermaier pitched the game and drove out two hits to boost his batting average for the season to .722.

Although the Tank Corps ten has two games remaining, their outcome will not affect the final standings since the Air Corps, in second place, already has dropped three contests.

Safe—Ralph Woodhall, right, scores on a wild pitch as Jimmy Smith, Camera Works pitcher, gets the ball too late to tag him.

It's Robbery—Lefty Stevens, Kodak Park right fielder, slides safely into third before Freddy Graus, left, of Camera Works, can slap a tag on him. Stevens pilfered third twice as the Park beat the Cameras Friday night to end the first-half race in a tie for second place.

Two Games in Two Days Too Much for Camera Works

Faced with two games in as many days, the Camera Works softball team absorbed two setbacks at the start of last week as early-season postponements placed a load on its pitching staff.

Held to four hits last Monday at Kodak Park, the Cameras dropped a 5 to 1 decision to the Ritters, who drove Johnny Testa to the showers early with a two-run barrage in the opening stanza and two more in the second frame.

Joe Bagnara was the villain of the piece, belting a triple, while George Pasch and Freddy Graus each got two safeties for the Cameras, helping to push across their only run in the first.

Bow to Delcos, 2-1

Tuesday night, with Jimmy Smith on the hill, the Cameras bowed to the Delcos by a 2 to 1 count. The Delcos reached Smith for two runs in the first frame, when Lane doubled home Shatzel

and Lockwood, who had reached base on a hit and an error.

The Cameras picked up their only counter in the seventh inning. Brule and Smith singled and after Hugh Tilling was safe on an error, Brule scored when Babe Gorzka grounded out. But with the winning run on second, the rally died.

Dutch athletes have been barred by Nazis from taking part in international sports events. It isn't that the Dutch show up their German competitors. What galls the Nazis is that the Hollanders in the grandstand ignore the German who finishes first, and cheer the Dutchman who comes in second.

Hawk-Eye Ten Hits Slump, Loses Twice

After seven straight games without defeat, Hawk-Eye's softball team nose-dived in its final two games in the first-half race to skid from first to fifth place in the Major Softball League.

The Hawks, who a week ago led the circuit, suffered two setbacks in last week's games when their batters slumped to produce but one run in 14 innings of play.

Bow to Gleasons

Facing the Gleasons last Monday, Hawk-Eye was able to reach Steve Holowka for only four hits, and bowed, 3 to 1, despite Carl Senger's six-hit hurling. Thursday night, when they played off a previous tie with Ritters, Hawk-Eye's batters fared no better. Frank Ciaccia shut them out with two safe blows for a 4 to 0 triumph.

Two of the Gleasons' three runs were unearned. After scoring a legitimate tally in the first on a walk, a sacrifice and a base knock, Gleasons picked up one in the second on an error, followed by a sacrifice and a single, and counted again in the seventh the same way.

Hawk-Eye's only real scoring threat was made in the last stanza, when Pete Pero tripled with one away. Judy Stewart doubled him home but died on second as the next two batsmen went down.

Thursday, against Ritters, Senger got into trouble at the start. After Mike Montagliano walked and was sacrificed to second, Joe Rosamino belted a triple into the tree in right center, scoring Mike. Joe Bagnara, the next batter, drove out a long fly and Rosamino scored after the catch.

Senger Touched

Senger was also touched for a run in the fifth when Chuck Bon-signore walked and Bud Zelazny smashed out a double to score him.

The Ritters' final run came in the seventh when Bob Becker singled, moved up on Bonsignore's bunt, and was driven home by Sam Viscardi.

Both defeats were charged against Senger, who compiled a unique record in pitching every inning of all Hawk-Eye's games in the first-half race.
