

Argentine Has Anniversary—When Joaquin Arufe, assistant manager, second from left, marked his 25th anniversary with Kodak Argentina, the Company 25-year medal and flowers decorated his desk. A silver plate inscribed "Sus Amigos de Kodak—Junio 26, 1947" was presented him by his associates. From left are Alfredo Ozores, Arufe, Manuel Alvarez, Manager Adolfo Marquis, and Don Burrows who is supervisor of Kodak sales in the River Plate area. A party will honor him and Joaquin Amoros, who became a 25-year member on Mar. 13.

EK Vice-President Returns After Two Months Abroad

Edward S. Farrow, vice-president and assistant general manager of Kodak, returned from Europe aboard the Gripsholm with mixed views on conditions there. Abroad for two months he

visited Kodak Ltd.'s plant at Harrow, its offices at Kingsway, Kodak Pathé's headquarters in Paris and its photofinishing and Ciné-processing plant at Sevran and the factory at Vincennes. The last lap of his trip took him to Lausanne, Switzerland, and to Stockholm and Goteborg where he visited Hasselblad's Fotografiska Aktiebolag, Swedish EK products distributors.

In Sweden he found food plentiful and business performing at full production at present. In fact, he declared, Sweden and Switzerland, neither badly physically damaged during the war, have opportunities to carve themselves leading positions in postwar Europe.

A new experience for him was having the nights only 1½ hours long, since Stockholm is as close to the Arctic Circle as Alaska. Strange part is that no one seems to require much sleep during such long days.

Production in France has increased during the last year, and raw materials come through to Vincennes in greater quantities,

but procurement is still difficult.

In France, food still is only plentiful if you have many francs, with a normal lunch costing several dollars. Only corn bread can be bought in parts of Paris, despite the fact that bread is the staple of the Parisians' diet, due to reluctance of the French farmer to market wheat under price controls.

Farrow hesitated to speak of conditions in England, for, he said, KODAKERY has carried several reports from there recently. Everything in these about the strain the people are under and the food shortage, he continued, is not in the least exaggerated.

Returning to the States on the Swedish Gripsholm, he found a poignant note of understanding between two nations—a plaque from the U.S. Secretary of State declaring this Swedish ship will long be famed for plying dangerous seas to deliver folks from war areas.

Returning with him was Raymond Albright, general manager of Distillation Products.

New 8-mm. Projector Announced by Kodak

Kodak this week announced a new 8-mm. projector—the Kodascope Eight-90—offering many outstanding features.

Teaming a 750-watt lamp with a fine Lumenized f/1.6 lens, and a superb optical system which incorporates low-reflective coating of all elements of both the projection and condenser lenses, the projector delivers light to the screen unsurpassed by any other 8-mm. projector of similar lamp voltage. As a result, "Eight" fans can increase projector-to-screen distance for larger movies without sacrificing screen brightness.

Lamps Interchangeable

In addition, for shorter "throws" the Kodascope Eight-90 offers still another advantage: It will take any of three accessory lamps—300-, 400-, or 500-watt—so that the operator can "tailor" screen brightness to projection needs. At all of its projection distances, in all cases, because of its well-balanced optical system, the projector gives excellent color reproduction, high definition, and contrast.

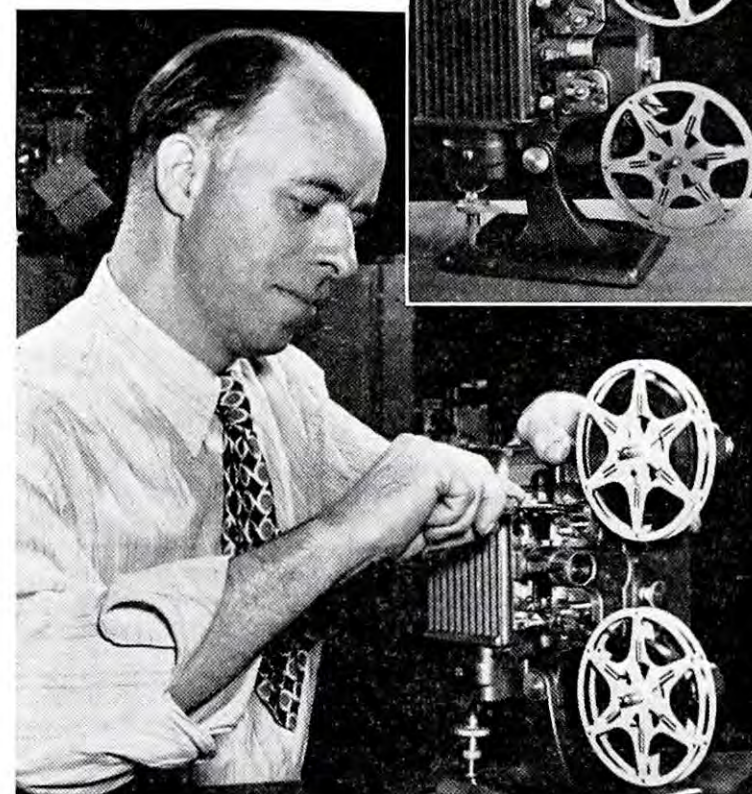

The new projector is still further designed for luxury home projection in that its operation is simplified by conveniently located fingertip controls. Movable loop guides, accessible sprockets, and a latching film gate facilitate threading—and the guides, by forming perfect upper and lower loops, assure even film flow and smooth projection. A three-way switch controls motor and lamp, a knob governs projection speed. Adjustments such as focusing, tilting, and framing are easily made. When the show is over, a built-in, motor-driven rewind helps finish the job by smoothly winding back the film.

Has 'Still' Control

The Kodascope Eight-90, in addition to this, incorporates a still picture control which stops the film and automatically drops a safety screen so that the projection of a single picture can be enjoyed as long as it is desired. Drive shafts for the spindles are enclosed for quiet, protected performance. And a shift lever is

built into the machine to permit "backing up" and the convenient re-running of portions of particular interest, or for reverse action—a warranted chuckle-producer.

The film reverses smoothly and

Neat Job—Bill Cairns, inspector in Dept. 63, Camera Works, makes an adjustment on one of the new Eight-90 projectors. Inset is a closeup of one of these new Kodascopes.

safely under a minimum of stress, so that long film life is insured. During rewinding, however, when film can and should flow freely, pressure on a button increases the tension to provide the drive necessary for rapid, snug winding of the film.

The Kodascope Eight-90 has an especially efficient cooling system. Its film capacity is 200 feet—approximately a ¼-hour show.

Smartly styled and trim, the Kodascope Eight-90 offers a de luxe appearance to match "luxury" performance. Excellent balance on the handle, cast as part of the projector head, makes for "cool" easy carrying. The sturdy carrying case,

included in the purchase price, provides convenient carrying and storage of the entire projection outfit—including the Kodascope, reels, extra lamp, and incidental accessories.

The Kodascope Eight-90 with f/1.6 Lumenized lens, 750-watt lamp, and carrying case is priced at \$175. It will be available through all Kodak dealers in limited quantities.

Tree Gets 'Tanked' at Kodak Park West

YOU'VE probably heard of the tree that grows in Brooklyn, but have you seen the tree that grows out in Kodak West?

It's a variety of willow and is sprouting from the bottom of the water cooling tank atop the Distilling plant in Bldg. 120. The oddity was first discovered by several members of the department who saw the branches waving in the breeze.

Those in the know say that it is a working demonstration of pollen dissemination by the wind which accounts for much of the promiscuous growth of our wild trees and shrubs. In this particular case, they say, bits of pollen found lodgment between the crevices of the wooden structure where, well watered from within and exposed to the rays of the sun, they thrived and prospered. Just what will happen when the tree reaches outsize proportions no one ventured to guess.

Incidentally, since the tower base is approximately 100 feet from the ground, the tree, only 3 feet tall, enjoys the dubious distinction of being one of the highest in Kodak Park. One of the plant's three chimneys suddenly may decide to develop branches to challenge the water tank willow.

Les Feely and THE tree.

TEC Announces New Plastic

Tennessee Eastman Corporation last week announced the availability of Tenite III, Eastman cellulose acetate propionate plastic, offered in pellet and granular form for injection molding and continuous extrusion.

The new material is the third of Tennessee Eastman's cellulose ester plastics. The other two, already in wide use, are Tenite I, a cellulose acetate plastic, and Tenite II, a cellulose acetate butyrate plastic. The addition of Tenite III, the Company believes, will greatly increase the adaptability of its cellulose ester plastics, since each is suitable for a wide variety of different products.

Shoot 'em in!

There's no excuse for amateurs or experts not entering KODAKERY's big July-August photographic contest.

There were a lot of folks who didn't get in before because they felt their pictures weren't good enough against some of the competition. There were others of the more advanced photographers who thought they could not enter their prints against amateurs. And so it went. . . .

But now there's a class for each. Amateur will compete against amateur and expert against expert. Prizes in each class are identical—\$25 for first, \$15 for second and \$10 for third, with 10 prizes of \$5 each.

If you've won a KODAKERY cash prize, any other photographic contest or had any of your prints in a salon, you're in the advanced class. If not, you're in the amateur classification.

The rest is up to you!

Photo Patter

Junior Will 'Stick Around' for His Picture If You'll Just Give Him Some Scotch Tape!

Beat It! — Here's just one of the many tricks you can use to occupy the "boss of the house" when you want to take his picture. The secret is give him something to do . . . anything!

Have you ever tried to take a picture of a baby? As any parent knows, the real job in getting a picture of Junior is keeping him still. Too often, just as you're set to shoot, the baby crawls off—or runs, if he's big enough. Then you must focus all over again.

You can get around this nicely by giving the child a piece of Scotch tape. He will grab for it eagerly, clutch it, pull it, and then become puzzled when it sticks to his fingers. Meanwhile, you can properly focus the camera. Then when the baby looks up appealingly, asking for help—click! you snap the shutter.

It's a New Slant

This use of Scotch tape is a new slant although similar tricks are used—one of the favorites being to toss the child an unopened box of cookies and shoot while he excitedly seeks to get at the contents inside the wrapped box.

It's easy to see how a cookie or toy or game may be needed for a prop to keep a child's interest aroused while you are taking his picture. But in addition props of one sort or another can also serve usefully in making other types of pictures. A saucer of milk can be used to lure a cat to pose; or a bone for a dog.

Grown-Ups Need Props

With adults props will serve a different purpose—helping to relieve the "camera-shy" feeling so many of us have. For example, give Dad a book to read and go ahead and make your picture while he's engrossed in the story. You'll have a snapshot that's natural and unposed. Or picture Mother while she's wrapped up in counting the stitches in a sweater she's knitting; she won't be worried about the camera.

Any list of such props could be endless, but all of them can help you at one time or another. For when people are engaged in some activity they are most often relaxed and natural. And better pictures result.

3 from Abroad Visit at Office

Sasha, the photographer, who has photographed most of the English stage and screen stars, was among the visitors at KO's Graphic Arts and Professional Sales Studios recently, along with two members of printing and publishing companies in Denmark and Sweden.

From Denmark came Harry Holm who is associated with Egmont H. Petersen, Gutenberghus in Copenhagen. Traveling with him was Valter Johansson, manager of the engraving department of Hemmets Journal A. B. in Malmö, Sweden.

His Studios Blitzed

Sasha, whose studios in London were blitzed five times, is responsible for the majority of advertising and display still pictures of English movies, including ones for "Pygmalion," which proved so popular in the U.S. Among those who have sat for him are Vivien Leigh, Sir Lawrence Olivier and Edward Everett Horton. His specialty is portraits, and he has also photographed many of England's society set.

Dabbling in color for 15 years, he says he never has been able to obtain results of commercial value. However, he declared, since seeing some wonderful examples at Kodak, he hopes to do some himself using the new color films and processes.

RHS Alters Family Contracts To Improve, Simplify Service

Changes in its Family Contract plan that will provide a greater service to its subscribers and at the same time simplify its record keeping have been announced by Rochester Hospital Service.

No longer is it necessary to list names, ages and birth dates of children on the application for a Family Contract. All children over 90 days and under age 18 at the time the contract becomes effective are covered automatically. Reclassification cards are no longer necessary in the case of a newborn child, who will automatically be included when 90 days of age, if in good health.

Dependent children will be covered under a Family Contract until their 19th birthday, instead of until the anniversary of the contract following their 18th birthday, as previously. When they reach 19 or marry before reaching this age, protection stops without notice, and it is the responsibility of the holder of a Family Contract or of the dependent child involved to apply for continuous coverage on a separate contract.

It is still necessary for the insured to fill out a reclassification card, however, in case he or she marries.

Kodak Folks Save \$29,159 on Bills

Kodak people and members of their families covered by Rochester Hospital Service contracts saved \$29,159 in hospital bills in May through RHS membership.

A total of 373 claims was filed—199 by Kodak Park folks, 83 at Camera Works, 54 at Hawk-Eye and 37 at Kodak Office. The number of days' stay covered was 2584—1348 by Park members, 572 Camera Works, 411 Hawk-Eye and 253 Kodak Office. Kodak Park people received \$15,729 credit toward their hospital bills through RHS membership; Camera Works, \$6485; Hawk-Eye, \$4204, and Kodak Office, \$2741.

A Kodak Park woman saved \$276 on her hospital bill on a claim filed eight months after becoming a member. A Park man has saved \$519 on three claims and a Camera

Works man \$517 on two claims. A Camera Works woman received \$307 credit toward her hospital bill. A Hawk-Eye man has saved \$520 on three claims and a Kodak Office man \$968 on 11 claims since becoming an RHS member.

(T. M. Reg. U.S. Pat. Office)

Test your knowledge with the questions below. Grade 10 for each question. If you score 60 you're "super"; 50—you are still remarkable; 40—not bad at all; 30—time to brush up!

- How many meals were served last year in Kodak's cafeterias?
750,000 4 million 6½ million
- How long an exposure can be made with a camera without using a tripod?
1/10 1/25 1/50
- How many fellowships is Kodak offering for the 1947-48 school year to 16 educational institutions?
8 16 22 43
- Who won first prize in KODAKERY's June Photographic Awards?
Guy Aydlott Olaf Furseth
H. Lou Gibson
- How long has Kodak's newest vice-president, Donald McMaster, been associated with the Company?
5 years 15 years 25 years
30 years
- How many types of plastic does Tennessee Eastman Corporation make?
2 3 5 18

Kodak Men Named to Posts On Local School Boards

School districts last week elected several Kodakers to their boards. At the largest meeting on record, residents of Brighton School District 1 elected Charles Rittenhouse, KP assistant superintendent of Finished Film, to succeed Allen Gates, director of Kodak Training, as board member.

McMasters Help Folks Celebrate

The McMaster brothers, Don and John, helped their parents celebrate their diamond wedding anniversary on June 30.

Don, vice-president and assistant general manager of Kodak, and John, of KO's Graphic Arts Dept., spent the day with them in Saratoga Springs. Nineteen descendants and relatives marked their 60th anniversary with a dinner.

The couple was married in Glasgow, Scotland, in 1887, culminating a romance which began when he was 17 and she 14.

Ralph Eckberg, KP E&M division superintendent, was then elected president by the board. Gates was paid tribute as retiring president of the board.

Bill Hill, KO Distribution and Planning, was re-elected president of the board in Irondequoit District 3, and Philip Kron, KP E&M, was elected to a five-year term on the Greece Central School board.

Barnard Union School District 15 elected two Kodakers to its board. Bob Rohr, KP Accounting, will serve a two-year term, and Stanley Benedict, KP Baryta Dept., will be a member for one year.

Royal Family Photographer — The Honorable Mountstuart Elphinstone, right, a fellow of the Royal Photographic Society of England, is in Rochester to study new developments in color photography. Above, he watches Phil Sydney, KO, place the roller over the blanket to get the relief in full contact with the print paper in the Dye Transfer Process. Howard Colton, of the KO Color Lab, explains the process. Elphinstone was the first to photograph the British Royal Family in color. The Scotsman is not alone a portrait photographer, however; he has run a cattle ranch in Canada, served in the British War Office, and acted as managing director of the British North Borneo Company.

Tops for Year at Hawk-Eye

Best in Salon — Burnette Kelley's print, "Giant's Castle," above, carried off top honors in the 17th Annual Salon of the Hawk-Eye Camera Club. In addition to receiving first prize in the advanced monochrome section, it was also selected as the best print of the year by the salon judges and voted as the "popular favorite" by those who attended the salon banquet.

Idea Man — Collecting \$250 for a new design for a sub pump piston during the sixth period was Harold F. Williams of Roll Coating. It was his ninth adoption.

Suggesters Get \$4870 For 6th Period Ideas

Kodak Park suggesters "clicked" for \$4870 in awards during the sixth period to bring the year's total to \$37,569. Top honors went to Robert J. Besna, Paper Mill, who received \$350 for suggesting the elimination of a boiling step in the preparation of size. It was his 22nd adoption.

Harold F. Williams, a member of the Roll Coating Dept., received \$250 for submitting a design for a sub pump piston which lightened the weight by one half and also reduced maintenance. The winner of \$25 in 1943, he has scored on eight previous adoptions.

Awards of \$200 went to Edward J. Craver, Sundries Manufacturing, and jointly to Harold J. Merkel and Albert O. Preiss of F.D. 7. Craver suggested an improvement on a trimming machine used in handling 135-mm. film capsule covers. This was his fifth acceptance. His previous high was \$150. Merkel and Preiss worked together on an idea recommending that coated canvas be slit by machine.

Receive \$100 Checks

Winners of checks for \$100 were Mary Jane Plopper, Roll Film Verichrome Spooling; F. Gervise Hartle, Paper Mill, and Lewis E. White, Powder and Solution. Mary Jane proposed that the position of film racks on roll film semiautomatic spooling lathes be changed to make it more convenient for operators to obtain their film for spooling. Hartle's idea concerned the installation of water meters to regulate a predetermined delivery of water to chemical make-up tanks. White designed and built a numbering machine which stamps reference numbers on covers of all cans

Mfg. Experiments Enjoys Outing

"Never a dull moment" was the theme of the annual party of the Dept. of Manufacturing Experiments held June 20 at the Glen Edyth Hotel.

The baseball game between teams captained by Pete Drago and George Parker was a feature attraction. Walt Peuterbough and Charlie Vilbrandt were the starting pitchers, the latter being relieved by John "Speedball" Peer. Drago's outfit copped a "pitchers' battle," 31-7, aided by the scintillating play of Dr. E. K. Carver and Dr. "Joe" Hale.

A fish fry followed the contest and the evening was given over to singing and dancing.

The impromptu musical treat of the evening was furnished by Dr. Carver in a rendition of folk songs and cowboy melodies, a la Burl Ives, being joined later by an instrumental group made up of Earl Quinn, trombone; Fred Richner, tonette, and Don Graham, piano.

packed in the P&S Dept.

Adding to his already prolific suggestion award record was Harry Yost, another Paper Mill member, who received \$75, as did Edith N. Gebhardt, Accounting. The latter has a previous high award of \$150 in 1946 to her credit.

Herbert Dean, F.D. 7, winner of a \$300 award last period, added \$65 to his total while Fred E. Alexander, 16-mm. Processing; Denis H. G. Howe, Kodascope Finishing, and S. Harland Birecree, F.D. 3, collected \$50 apiece.

Sixty-one women, the largest number to be recorded on the winners' list during any one period this year, brings the midyear total to 295 compared with 213 in 1946.

Roll Film General and Cine Processing Depts. showed the best participation record, with Paper Mill Divisions well represented.

Checks aggregating \$49 were paid out to nine winners in the Company's Chicago and Washington Processing Stations.

Scouts Go Camping

Boy Scouts of the Park's Troop 50 again are spending their annual summer camping period at Camp Warren Cutler on Ganega campsite from July 5 to 19. Twenty scouts are making the encampment this season, under the supervision of senior scouts. Raymond Tobin is camp director, assisted by Bernard Galvin, Jack Stockham and Jack Braund.

It's in the Park

Carolyn Seeks Crown . . . Bound for California Maiers Fly High . . . Moonlight Cruise Coming

Candidate from Greece for the crown of "Harvest Queen," to be decided later this summer, is pretty Carolyn Yackel, Kodakolor, daughter of Carl Yackel, Bldg. 23, who will vie with a bevy of the fairest damsels in this area. A graduate of John Marshall High School last month, 17-year-old Carolyn has a brother, D. Carl, who is a member of the Industrial Laboratory, Bldg. 23. . . . Lloyd Hubbard, Bldg. 49, is directing the second presentation of a local summer theater, a three-act thriller called "Double Door." Also taking part are Lucy Hope Lyon, Bldg. 2, in the feminine lead; Marjellou Hutchinson, Bldg. 6; Don Webb, Bldg. 26, and Lou Babbitt, Bldg. 26. . . . Everything is just "duddy" for Carl Board, Bldg. 5, who recently recovered his four ducks which had been marooned in the Genesee River for almost two months. The birds had been swept downstream from their home near Ballantyne Bridge during the spring floods and had taken a roost on a pile of driftwood directly under Main Street in downtown Rochester.

Among the new faces in the Medical Dept. are Elsie Jentsch, Ruth Collamer, Gay Kirchgessner, Joan Hallett, Monica Nolan, Mary Louise Reinhardt, June Caulkins, Nancy Tichenor, Mona Roos and Joan Benton. Mona and Joan were transferred recently from Kodak Office. Augmenting the Eye Dept. personnel is G. A. Strebel jr. . . . Girls of the Stores Dept. recently held showers for June Hogan and Ann Krieg who were married last month. . . . Eunice Sehm, formerly of the Time Office Training Staff, Comptroller's Division, has assumed new duties with the Central Training Staff, under the supervision of Ed Plant. . . . Gordon Fyfe, Powder and Solution Dept., Bldg. 18, who left the Company to enter the University of Pennsylvania this fall, was feted recently by friends and associates at the Crescent Beach Hotel. He was presented with a radio. . . . Jean Crawford and Eleanor Webster, Synthetic Organic Research Laboratory, Bldg. 129, have left the Park to continue their education. Jean has received a fellowship from the University of Illinois while Eleanor was similarly honored by Radcliffe.

June Henry, X-ray Sheet Film, who was married July 12, received a new electric toaster from her friends in the department. . . . Edith Corcoran, Bldg. 18, will soon be sending post cards to her friends from many points of interest while en route to California where she will spend the next three months. Her associates presented her with a gold compact and bracelet at a dinner party held in her honor at Lorenzo's. . . . Friends of Wayne Wall, Wage Administration, Bldg.

CAROLYN YACKEL
candidate for queenship

2, gathered at Walz-Krenzer Hall on July 9 where a steak dinner and party were held in his honor. Wayne recently observed his 25th year with Kodak. . . . Thomas Maier, F.D. 7, treated his family to a real Fourth of July weekend vacation by taking them on a plane trip to the nation's capital. Tommy was enthralled by the blaze of lights which greeted the air travelers as they passed over several cities during the return night flight. . . . Frank Anderson of the Park's Printing Dept. has taken over new duties in the Advertising Dept. at Kodak Office.

Dorothy Newcomb, Testing, returned from her vacation recently to find her wallet in the custody of Gil Kirby, Bldg. 5. It was found

by Bill Brownell, Sensitized Paper Packing, while on his way home from work on June 30. . . . Ruth Calitree, X-ray Sheet Film, was given a surprise kitchen shower during a recent morning rest period in her department. Ruth moved into her new home July 1. . . . KPAA girls are pointing for the high spot of the summer's activities, the annual moonlight cruise on Lake Ontario scheduled for July 30. A full moon is promised by the almanac. . . . Dick Cross, Power, and Al Fields, Bldg. 23, are taking an active part in doings at the Newport Yacht Club on Irondequoit Bay this summer. Also on deck is Martin Jones, formerly of Bldg. 29. . . . Dave Pierce, formerly of Tennessee Eastman, has been added to the Industrial Studio staff in Bldg. 6.

Girls! Get Your Cruise Tickets!

Tickets are on sale in all departments and at the KPAA Office, Bldg. 23, for the moonlight cruise on Lake Ontario Wednesday evening, July 30. The outing, open to all KPAA girls, will include a buffet supper served aboard, as well as games, group singing, music and dancing. The boat is scheduled to leave the Charlotte docks at 6:39 p.m., returning at approximately 10:30 p.m.

Tickets, available at \$1.35 each, must be procured no later than Friday, July 25.

Is Your Suggestion Number Up?

The following numbers represent the suggestions rejected in the fifth period, according to the Kodak Park Suggestion Committee:

B13047	C 28	C 204	C 344	C 345	C 1947	C 2610	C 3353	C 4172	C 4282

Identify Many Texas Victims By X-ray Film

Photography, particularly X-ray, figured prominently in the identification of victims of the Texas City explosion, according to Ed Burke, Kodak technical representative for law enforcement photography.

Of those burned beyond normal recognition, identity of all but 80 was ascertained by the Texas State Police. X-ray film assisted for the first time in mass identification work by showing previous bone fractures.

Both stills and movies of the explosions, fire fighting and debris are now being used to train Texas police and fire forces, said Burke, who was in Texas City a week after the disaster.

Once in Police Dept.

Ed, with Rochester's police force until 1936, has been associated with Kodak since then except for the three years he served as a major in the Army.

He holds honorary membership in many police departments throughout the country. Recently he was elected a special deputy of East Baton Rouge Parish, La., and made photo consultant of the National Sheriffs Association. He's an honorary lieutenant of the Los Angeles Police Force, and has an honorary badge given him by Chicago police.

On Sept. 17, he'll discuss legal photography and its application to police work at the Tennessee and Mississippi Sheriff and Peace Officers meeting in Biloxi, Miss.

Kodakers Receive Plaques

Community Chest Awards—All divisions of the Company qualified for the 1947 "Outstanding Citizenship" plaques awarded by the Community Chest to members of 25 firms with 90 per cent or better of their employees contributing. Kodak representatives receiving the plaques are, front (left to right): Dave Fulton, KO; Jay Parker, KP; Frank Connelly, CW; Bill McQuat, NOD; and Burnette Kelley, H-E; rear: Ivar Hultman, KP, Kodak vice-president and Newton B. Green, CW manager. Not counting the Company's contribution or the gifts reported through the Individual Subscriber Division, Kodak accounted for 26,463 Chest pledges, amounting to \$217,386.27.

Spectacle of Color—Visitors to KO's Display Room saw a wealth of color during the exhibit of fifteen 30-by-40-inch enlarged color transparencies. Above, Merv Briggs, Al Terhaar, Florence Ranches and Karl Bailey view them. The original Kodachrome and Ektachrome transparencies were made by Photographic Illustrations Div. photographers Jack Collins, who did the five floral pictures, George Waters and Hank Mayer. Other well-known photographers represented were Edward Weston, Ardean Miller III, Ansel Adams and William Belknap jr.

Kodak Camera Club News

Although entry forms are not quite ready, it's not too early to begin preparing prints and slides for the Kodak International Salon to be held this year in Rochester. This contest, normally conducted annually for folks of Kodak and affiliates throughout the world, is the first since 1940 and is expected to attract thousands of pictorial prints and color slides. The Kodak Camera Club, cooperating with other Kodak organizations and branches, will serve as headquarters. The salon will be shown in the Memorial Art Gallery in January 1948.

Bill Reddick, former member of the club's Educational Committee, has left the Park's Testing Dept. to train at the Motion Picture Film Dept. at Kodak Office. At the end of July, Bill expects to leave Kodak to accept a contact position with J. E. Brulatour, Inc., New York City.

Who else but a photographer would take 12 hours to travel 60 miles? That's how long it took seven Camera Club members to reach Camp Cory on Keuka Lake recently. Leaving at 6:15 a.m., the party, made up of Hugh Jack, Tim Keady, Burnette Kelley, Chet Wheeler and Art Young, H-E, and Joe Martin and Lou Parker, KO, made more than 30 stops for picture taking. A swim after supper, fishing early the next morning, and more picture taking the rest of the day completed a field trip that was described as "soul-satisfying." Everyone had his share of over- and underexposures but the group feels confident of turning out some

prints that will go places in the salons this season.

Twenty-seven members of the Club's "Color Exposure and Composition" class had a new experience in industrial photography when they spent a Saturday morning inside the Rochester Gas and Electric Company plant photographing everything from welders and steam shovels to red-hot coke ovens. All through the course, instructors John Mulder and Charles Kinsley have been preaching moderation in the use of color, insisting that the failure of most amateur color slides is due to the bizarre use of too much color rather than too little. Inside the gas plant, color shooters had to depend on composition, subject matter and lighting for successful pictures, and most of them agreed that the experience was a valuable one. For those interested in cleaner surroundings, another field trip was held on Sunday, June 22, in the vicinity of Highland Park where emphasis was placed on flower arrangement and semi-landscapes.

KO Man's Son 2nd In Soap Box Race

Art McFarlane, 12-year-old son of John McFarlane, KO Sales Service, was in the spotlight most of the day last Saturday as the 10th annual Rochester Soap Box Derby was run off at Durand-Eastman.

After young McFarlane and another contestant finished in a dead heat for first place in Class B finals, the KO-er's son finished second in the championship heat. This gave Art undisputed championship in Class B competition.

More than 10,000 fans, including Sylvester Spain, CW, and his wife, watched the 69 entrants compete. Before the running of the final heats, the course was officially dedicated in honor of Pfc. William Spain, son of the CW man. The 1935 Derby winner gave his life in action in France in 1945.

4 Depts. Stage Annual Outing

Some 200 members of the Shipping, Receiving, Stock and Traffic Depts. of KP, CW, H-E and KO, and their shippers and suppliers, attended the annual picnic July 12 at Newport House. Wet grounds necessitated postponement of the softball game between KO and KP Shipping Depts. The guests enjoyed dancing, games and contests.

Foremen Plan Fall Program

At a recent meeting of officers of the Kodak Park Foremen's Club, the development of programs for the coming season was discussed and plans formulated for what promises to be a highly successful fall and winter schedule.

Membership tickets have been distributed to departmental chairmen, according to John E. McMullen, vice-president, in charge of memberships, and an organization meeting of all chairmen has been arranged for Tuesday, Aug. 5, at 5:30 p.m. on the second floor of the new Bldg. 28 cafeteria.

Walter J. Fleming, club prexy, announced that the popular pre-war policy of serving dinners before the monthly meetings will be renewed. If and when facilities are available, the meetings will be held in the new gymnasium to be located on the third floor of the new building. Its opening is expected early next winter. Meanwhile, a temporary meeting place for the after-dinner sessions is being sought. Fleming added that an announcement will be forthcoming in KODAKERY as soon as the necessary arrangements can be completed.

Teacher: (of grammar class) "Who can tell me whether the noun trousers is singular or plural?"

Henry: "It's both, teacher—singular at the top and plural at the bottom."

Raynor Gets Assignment to Belgium Post

An ex-lieutenant colonel, Kenneth Raynor, whose first associations with Kodak occurred when he was with the Military Government in Germany, is returning to Europe to join Kodak Ltd.'s staff.

Kenneth Raynor

Leaving the States Sunday, July 20, by plane, he will go to Kodak Ltd.'s headquarters in London, and then be assigned to the Company offices in Brussels, Belgium. Since September he has received special training at KP, H-E and CW as well as in Kodak's sales and business offices in Rochester.

A graduate of the University of Kentucky, he was called to active Army duty in 1940. When overseas he commanded an enemy signal and equipment intelligence service team which captured and analyzed German communications equipment for the Signal Corps.

Transferred to the MG in Germany, he met Dr. Albert K. Chapman, Donald McMaster and I. L. Houley, and later E. P. Curtis.

1. An estimated 6½ million meals were served last year in Kodak's cafeterias.
2. About 1/25 second is the longest exposure most people make without moving the camera enough to cause a slight blur.
3. Kodak is offering 22 fellowships in chemistry, physics, engineering and business administration to educational institutions for the 1947-48 school year.
4. Guy Aydtlett of Camera Works, a consistent winner in KODAKERY's competition, won the first prize of \$25 in June.
5. Donald McMaster, Kodak's newest vice-president, has been associated with the Company for 30 years, starting at Kodak Park as a chemist in 1917.
6. Three. This issue of KODAKERY includes a story announcing a new TEC plastic, Tenite III. The others are Tenite I and Tenite II.

Netherlands Observers—Lt. Col. J. van Ormondt and Maj. G. Wilschut, of the Netherlands army, second and fourth from left, visited Kodak recently to study the Eastman High-Speed Camera and methods of infrared photography. The major showed particular interest in the camera's being able to photograph the recoil of guns. Its mechanism is being explained by Ed McKee, of CW Dept. 65. Newton Green, CW manager; Carroll Casey, Management Staff, KO; Adrian Trivelli, assistant superintendent of KP's Emulsion Research who originally came from the Netherlands East Indies; Capt. William McDermott, U.S. War Department representative, and his wife, Patricia, complete the group.

Women About Kodak: Lorraine Mastered Art Hobby When Advice 'Got Her Irish Up'

You've got to admire girls like Lorraine Monahan of Kodak Park's X-ray Sheet Film Dept., Bldg. 12. It takes a deep sense of personal pride as well as a full measure of self-confidence to pursue a hobby for which you have been declared unqualified. Lorraine, who likes to draw and paint, was singled out in her grammar school class one day by her teacher as being typical of an art student lacking in natural ability. Although she took this left-handed compliment good-naturedly, she admits that it "got her Irish up" and she determined to prove to all and sundry that she could and would draw pictures of merit. After leaving grammar school, she enrolled in an arts class at Jefferson High where she made the most of her opportunity. Today she not only draws and paints pictures for all occasions but has mastered the difficult trick of painting on textiles.

"I wanted to be just a little different from the average painter and I took this way to do it," she confessed. "It's really interesting work, every minute of it, and I heartily recommend it to anyone who has the patience to follow it through."

Textile painting, she explained, is not new, having been practiced by artists ages ago, but certain refinements have been introduced by its present-day exponents. After the fabric is painted, it must be carefully washed, then allowed to dry. It is then washed again, smoothed with a hot iron on the wrong side, and allowed to dry again. Although fast colors must be used in the operation, great care must be exercised in washing and drying the fabric, warns Lorraine.

Her best critic is an uncle living in Montreal who once studied painting in Paris and does work of a more serious nature. She plans to visit him this summer and hopes to come back with some new ideas. Like most artists, Lorraine likes music but doesn't find too much time to enjoy it.

"As a matter of fact, I hardly find the time to paint as much as I'd like to. Being a firm believer in the philosophy that one can do only one thing well at a time, music will just have to wait."

Lorraine Monahan displays drawings, textile paintings.

30 Years at Camera Works Marked by Two Elizabeths

Two Elizabeths came to work at Camera Works the same day 30 years ago. They did not know each other then, but later their vocational paths came together and they have been pals ever since.

July 3, 1917, Elizabeth (better known as Betty) Johnstone started as a stringer in Dept. 23 and after a year was placed in the Payroll Dept. where she has continued to work. Elizabeth Frawley, NOD Payroll Dept., began her duties in the Payroll Dept. at Camera Works and was transferred to the same department at NOD a couple of years ago.

Betty and Elizabeth have not only worked together for many years, but have enjoyed many outside activities together. Both knit as a hobby—and rain or shine they get together each noon for lunch.

The pair celebrated their mutual anniversary with a festive dinner.

Betty Johnstone, left and Elizabeth Frawley.

Dines Outdoors

The great outdoors so beckons a KO girl and her husband that years have gone by without her

cooking a Sunday dinner at home.

Ruth Russell, of KO Employees Benefits, and her hubby, Harry, hike no matter what the season is. They're experts on the trails in Powder Mill, Mendon Ponds, Durand-Eastman, Stony Brook and Letchworth Parks.

At present they're spending their Sundays swimming and sunning at Charlotte and other Ontario beaches.

Usually they cook their dinners outside, and Ruth declares, "Hmmm, you should taste those steaks cooked over a wood fire."

They never carry charcoal with them, but build their fires of wood found in the vicinity. In winter when snow is on the ground, they gather dead twigs and branches caught in the trees. Dry oak leaves, pine cones and needles she has found are excellent for starting the fires.

A thermos of tea or coffee, some rolls, fruit or preserves complete the meal—and it always tastes twice as good after the fresh air and exercise whet the appetites of the hikers!

ALL STUCK UP—No time to go to the drugstore and the only stamps you have for that all-important letter are stuck together? Don't try to pull them apart. Simply cover them with a sheet of paper, press quickly with a hot iron, and presto, they'll come apart easily.

3-Squares-A-Day—Scurvy's Out of Style, But Anemia, Colds Take Its Place As Signs of Vitamin C Lack

LUNCH FOR HEALTH AND TO FIGHT COLDS!

Ever hear how British tars got their most famous nickname? It was like this: Centuries ago, during the age of exploration and adventure before Columbus discovered America, scores of

rugged seamen lost their lives because of a strange malady. It was characterized by weakness, anemia, swelling and bleeding of gums and multiple hemorrhages.

Vasco de Gama lost 100 of his crew of 160 in his voyage around the Cape of Good Hope because of this disease. Finally Joseph Lind, an officer in the British Navy, observed the crews of British ships and first recognized the deficiency disease, "scurvy," as being caused by lack of some food factor (later known as Vitamin C) present in certain foods.

The rate of deaths from scurvy declined sharply after lime or lemon juice had been introduced into the rations of the sailors.

And thus—the British sailor earned his nickname, "Limey."

Think of this as you stand in the cafeteria lunch line today—or as you open the refrigerator door preparatory to fixing lunch. Citrus fruits are not only good, but mighty good for you, and an important source of Vitamin C or ascorbic acid.

This food group includes not only citrus fruits (oranges, grapefruit, lemons or limes) but also tomatoes or tomato juice, raw fruits and vegetables in season.

Vitamin C takes part in numerous body functions. It promotes the development of strong teeth, firm, healthy gums and builds red blood cells, as well as maintaining the strength of the tiny blood vessels or capillaries.

Vitamin C is not stored by the human body. Therefore the supply in the body must be renewed daily—for your own good.

It is, however, easily destroyed by oxidation, which takes place when foods are exposed to air for a long period of time or when cooked in large quantities of water. They require very careful handling for retention of vitamins. For these reasons we need to make a special effort to include food in our diets, each and every day, that will supply Vitamin C.

In most parts of the world today we can buy fresh citrus fruits and fresh vegetables during any season of the year. Modern transportation and refrigeration provide them while fresh—thus scurvy, or Vitamin C deficiency, is practically unknown.

However, mild deficiencies are often found because many people do not always include these foods in their diet in sufficient quantities. If you have frequent colds, if you

have a tendency to have trouble with tender or bleeding gums, check your daily food intake to be sure you include EACH DAY one serving of these fruits and vegetables.

LUNCH MENU

Creamed Chipped Beef on Cornbread Squares
Green String Beans
Sliced Tomato on Lettuce Leaf
Milk Tea Coffee
Frozen Fruit Salad

PACKED LUNCH MENU

Peanut Butter and Jelly Sandwich
Swiss Cheese
on Rye Bread Sandwich
Fresh Tomato
Milk
Orange
Devil's Food Cake
* * *

FROZEN FRUIT SALAD

(Serves 8-10)

½ c. maraschino cherries or grapes
1 c. fresh fruit
1 c. canned fruit
½ c. walnuts
½ c. dates
1½ c. fruit juice drained from combined fresh and canned fruits
12 marshmallows, quartered
1 c. mayonnaise
1 c. whipping cream
3 oz. (1/3c.) cream cheese

Combine marshmallows and fruit juice, let stand until marshmallows have softened. Combine mayonnaise, whipped cream and cheese, mix until creamy, add fruit and nuts. Pour into refrigerator tray and freeze for three hours. Cut into squares and serve on lettuce with whipped cream if desired.

Quick-Change Artistry

A sleeveless dress to wear in the sun—a matching bolero that slips on for shopping or lunching in town—and the whole of cool crepe woven with Eastman acetate yarn. As shown by the T-E model, the dress has a distinction all its own, with bands of white pique to border square neck and pockets. You'll find it as smart as it is practical for vacation or weekend living.

The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and to limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD—NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

 Old letter written Mar. 27, 1834. For garden tools or what have you. 46 Springfield Ave., Cul. 940.

Culross, Forgensie Tie in KO Tourney; Maeske KP Winner

Carding 84's over the tricky 18-hole Le Roy layout last Saturday, Pete Culross and Jimmy Forgensie tied for low gross to top a field of 55 in the first KORC men's golf tournament of the season.

Kaypees' Lint Impresses Fans

Kodak Park and Camera Works added victories to their records in the Major Dusty League last week.

George Lint made his debut with a one-hit, 1-0 win over Gleason. Al Tinsmon, his batterymate, doubled to drive across the Kaypees' lone run. Lint returned to the mound in a four-inning exhibition against Taylor Saturday night and whiffed nine, running his strikeout string to 17. Held hitless, Taylor bowed, 8-0.

Lint

A six-run sixth brought CW a 6-4 win over Delco July 9. Ed Mayer, who relieved Sam Bagano in the fourth, was the winning pitcher. Tony Calipare's double with three on sparked the rally.

Al DeHond's homer went for naught as Taylor downed H-E, 14-11. Two nights later Delco blanked H-E, 4-0. Standings:

	W	L	Products	W	L
Kodak Park	11	2	Products	6	6
Balco	9	3	Camera Wks.	5	6
Gleason	8	6	Delco	4	8
Ritter	7	5	Hawk-Eye	2	10
Graflex	6	6	Taylor	3	10

Forgensie birdied the four-par sixth on the out-nine, as did Culross, with the former getting his second birdie on the 17th in a blazing finish. Both were spotted eight strokes in the handicap event to finish with net 76's.

Their cards follow:

Par, out	444	444	344-35
Culross	565	453	344-39
Forgensie	555	543	464-41
Par, in	335	454	354-71
Culross	446	566	455-84
Forgensie	545	567	444-84

Walter Bull, with 92, and Wendell (Mac) McDowell, 91, posted low gross scores in Classes B and C, respectively.

Low net honors in Class A went to F. X. (Chub) Collins who posted an 89-20-69. George Bloom was second with a 71, including a 16 handicap, while Glenn Mentch's 88-15-73 card was third best.

John Charles, with a 66 net, topped the Class B shotmakers. Charles shot a 95 and had a 29 handicap. He was followed closely by Allen Boucher with a 97-30-67 card. Jim Arnold and Foster Hill tied for third with identical 93-24-69 cards.

In Class C Frank Holley's 40-shot spot deducted from a 100 gross score gave him first place. Bob Miller, with a 100-31-69, was second, while Harold Jensen (104-31-73) and Bernie Rausch (106-33-73) tied for third.

MAESKE SHOOTS 75

Touring Lake Shore Country Club's course in 75, Irving Maeske won the KPAA's second men's golf tournament of the season last Saturday. Maeske posted low gross in competition with nearly 200 Kodak Park contestants.

Leo Lynd and Jack Shea, with 67's tied for low net in Class A. Lynd turned in a 77-10-67 card, while Shea, carrying a 13-stroke handicap, shot an 80 gross score. Fred Newberg's 83-14-69 was third best.

Alex Culhane's 85-17-68 won low net in Class B. Fred Southworth, Jim Duff, Henry Spindler, Bob Bach and H. Cotterill tied for runnerup honors with 69's.

In Class C Al Moyse topped the prize list with a 100-35-65 net. Burnett Eddy and Charley Radtke tied for second place with 68's.

Royals, Bears Win In Ridge Ball Loop

Although the first-half race had not definitely been decided, KPAA Ridge Noon-Hour League softball teams swung into the second-half drive last week.

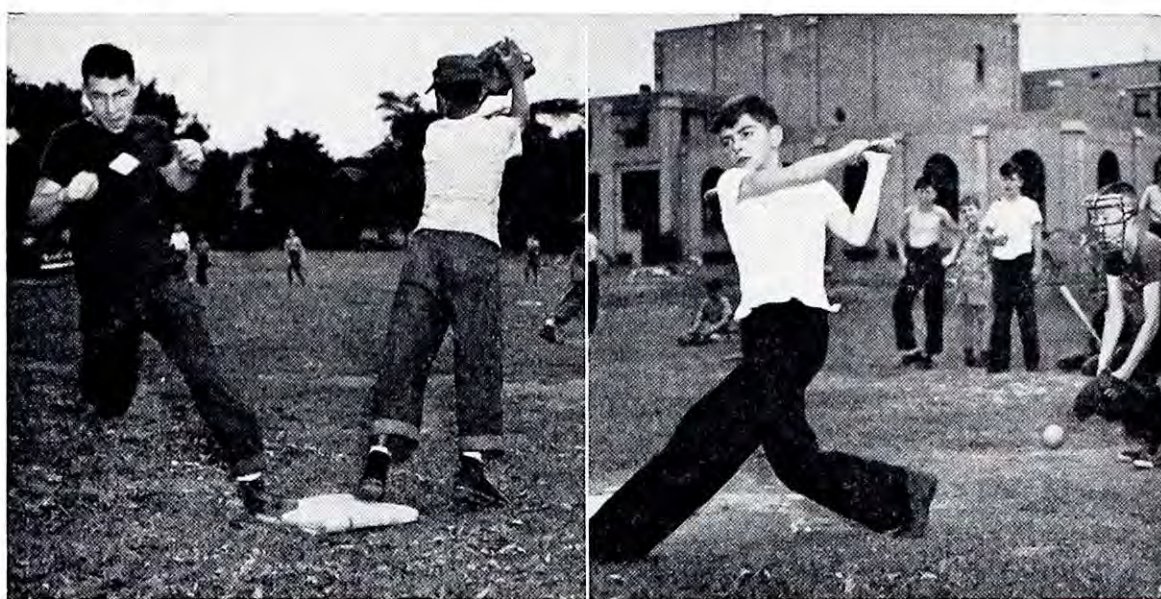

John Yates' Royals trimmed Milt Alt's Wings, 3-1, behind the effective elbowing of Ross Ciulla. Harold Lindhorst's timely double sparked the winners' attack. The Wings, incidentally, had clinched a first-place tie in the first half, with the final standing hinging on the outcome of a playoff of three postponements.

George Lint, pitching for Abe Ver Crouse's Bears, spun a one-hitter to notch a 3-1 win over the Bisons. Ben Holloway homered for the Bears, while Sid Gamlen's triple was the Bisons' lone safety.

	W	L	Bisons	W	L
Royals	1	0	Bisons	0	1
Bears	1	0	Wings	0	1

Army Beats Navy, 5-1 In Noon-Hour Classic

With George Lint and Ken Busch dividing the mound chores, the Army trounced the Navy, 5-1, in the annual Lake Avenue Noon-Hour League classic between teams composed of former servicemen. The erstwhile soldiers bunched most of their hits in the second to score four runs off Joe Snook, Navy twirler.

Action Aplenty in KPAA Kid League—Scenes from two games on the Aquinas field were typical of the action in 17 leagues as the KPAA Boys' Softball League Program got under way last week. More than 2000 boys will be playing on 136 teams in 17 leagues during the seven-week league season. In the Adirondack League, right, the Redwoods beat the Pines, 11-1, while the Saints blanked the Rebels, 4-0, in the Texas League, left. The program is again being directed by Lysle (Spike) Garnish of the U. of R., assisted by Harold (Shifty) Gears.

Sports Roundup

Printers Pace Gun Club Snipers; EK Netters Face Canadians

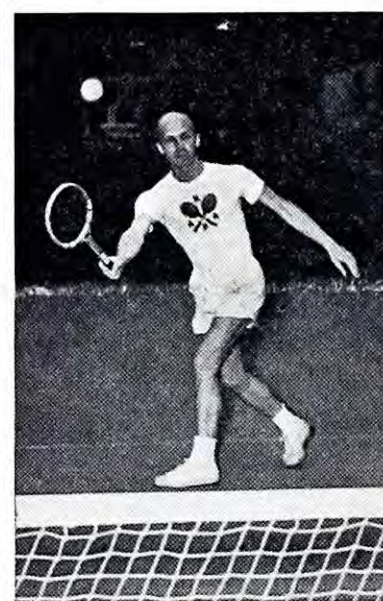

Alex Smith of the league-leading Printing team is leading the Kodak Park Gun Club snipers with a perfect 25 average in four shoots. Smith's 100 total bests Ed Siebert by two targets. Other leaders include Charlie Jutsum and Art Newcomb, 96; Ted Chamberlain, Elwood Bridgeman, George Stanton and Charlie Smith, all with 94's; Hap Van Auker, 92; Gene DeHollander, 91. The undefeated Printing shooters are followed by Bldg. 57 and the Royals, who are tied for second place. Metal Shop and Bldg. 29 won two and lost as many in the first four shoots.

One of the mainstays on the Kodak Park tennis team that breezed through doubles play in the Rochester Industrial Tennis League with 20 victories in 21 matches is Newt Shearer. A newcomer, Shearer teamed with John Schilling to form the Kaypees' No. 2 doubles team. At the completion of first-half competition the pair's record was bereft of defeat. Teammates say the smooth-stroking Shearer is one of the most consistent performers on the Kodak Park squad.

Phil Michlin, H-E, is captain of the Tennis Club of Rochester team selected to engage the Toronto Lawn Tennis Club in a series of home-and-home matches. John Hanna, NOD, and Cliff Schmidt, KP, are members of Michlin's 10-man squad. The first match was held in Toronto last weekend, with TCR winning 9-5, and the Canadians are scheduled to return the visit Aug. 2.

Defending champion in the annual Rochester District Golf Association tournament to be run off Thursday (today) through Sunday at Oak Hill is Gene Robinson. The CW linksman will be defending the crown he won last year at Ridgemont when he defeated Tony Durante in the final round.

When Marcel (Bobby) Wilson resumes his pro ring career in Cleveland in September he will have had the benefit of a month's training at Joe Louis' New Jersey boxing stable. The Washington Processing Lab's heavyweight hope, who made a sensational start in pro circles with 10 straight knockout victories, has been picking up a few pointers from Ray (Sugar) Robinson, the welterweight champion. Robinson approves of Wilson's boxing technique and has scheduled him for a six-week tour, after which he will take "Bobby" to Louis' camp. Wilson, incidentally, accompanied Robinson to Cleveland June 25 for the latter's successful title defense against the late Jimmy Doyle.

Dept. 61 Spills Recordak, 4-3, In H-E League

In the biggest upset of the H-E Intraplant League season to date, Burt Oakes' Recordak softballers dropped a close 4-3 verdict to Dept. 61. The loss knocked the Recordak team out of the undefeated class, leaving Dept. 42 in sole possession of first place with a record of seven wins in as many outings for the campaign.

Rally in Fourth

The winners came from behind a 3-0 count to bang across four runs on five hits in the fourth inning. Although Earle Bauman, Dept. 61 twirler, was in trouble in every inning, he tightened in the pinches and shut out the opposition after the first inning to register his fourth victory of the campaign against three losses.

In the only other game scheduled last week, Dept. 42 won over Standards by forfeit. Recordak-Dept. 61 score:

Recordak	3	0	0	0	0	0	3	12	0
Dept. 61	0	0	0	4	0	0	x-1	8	2

CWRC Golfers Shoot In First Meet July 19

First in a series of four blind bogey golf tournaments for Camera Works Recreation Club members will be run off Saturday, July 19, at Le Roy Country Club.

The ensuing tournaments will be held Saturday, Aug. 2, at Stafford Country Club; Saturday, Sept. 6, at Ridgemont Country Club, and Saturday, Sept. 27, at Le Roy.

There will be five low gross and net prizes in addition to 15 blind bogey awards, according to Jerry Sick, CWRC golf chairman.
