

Vol. 5, No. 47

Copyright 1947 by Eastman Kodak Company, Rochester, N. Y.

When Joseph Mattei, plant and field service Rides Rail Cabs engineer of Kodak's Harrow Works, was in Rochester for a stay recently he spent his spare time in seeing America from the cabs of the railroads' big locomotives. He's shown above boarding one to join Engineer Hogan and Fireman Delin.

## **Kodaker Rides Locomotives** On Quick Trips to See U.S.

The almost legendary fame of Casey Jones never has spread to Great Britain but, if and when it does, Joseph Mattei, who was in Bldg. 23, will be among its biggest boosters.

Here on leave from Kodak's Harlikes what he sees.'

When, recently, he mounted the engine of a Chicago-bound train on a trip to Buffalo and return, it marked his 21st locomotive ride

## Sturdy Cine **Bounces Back**

The Raiders had just beaten the Russers, 6-0, in the first tilt of the football title series and the crowd was leaving Red Wing Stadium.

Suddenly from the stadium roof a Ciné-Kodak and tripod came hurtling down. It landed on the seats, bounced high in the air and crashed down again.

and retrieved it. A minute or so later a breathless and very wor-ried young man came dashing up.

'I've died a thousand deaths on the way down. Is there anything left?" he gasped. Dick gave him his camera. He checked the lens. OK. He examined the case. Not a dent or nick. He opened the camera and took out the roll of exposed film. It was intact. He wound up the camera and tested the mechanism. It purred like a kitten.

Dick said the young man checked everything he could think of and all he could find wrong as a result of that fall of some 60 feet to the concrete stadium was a slightly bent tripod leg which easily could be pulled back into shape. Tough, those Cinés!

Here on leave from Kodak's Harrow plant where he occupies the post of plant and field service engineer, Mattei has been seeing America from the cabs of high-powered locomotives in his spare time. And, as a popular song would have it, he "sees what he likes and likes what he sees" trains. His longest ride, he says, was aboard a Paris, Lyons and Mediterranean express which took him a distance of more than 300 miles. The most interesting junket occurred in the Alps where he traveled through the famous Gotthard Pass. In the U. S. since Sephard Pass. tember, he already has completed trips across the Rockies to the West Coast and in the East has enjoyed runs on various railroads between some of our larger cities. In every instance, the hospitality of our railway officials has been his most striking impression.

### Favors Steam Type

"The Diesels are neat and clean Dick Toole of the Industrial but they have no personality. The Management Council was nearby steam engine is alive and seems to offer a challenge to the driving skill of the engineer," he stated.

Born on the island of Malta, he was educated at Cambridge in England where he was a member the rowing team of Emanuel College. He studied engineering in Switzerland before joining Kodak.

When war broke out in 1939, he started as a sublicutenant in the British Royal Navy and ended up by being a commander. He saw active service in the Indian Ocean, the South Atlantic and South African stations and took part in the evacuation from Crete, one of his most exciting experiences of the war. He also worked with the Allied forces in the Mediterranean until the landings at Normandy.

# \$89,325 Paid on Ideas For 10-Period Record

Earnings of \$89,325.20 received by Kodak people on suggestions in the first 10 periods of 1947 assured an all-time record of awards for the year.

The amount for the 10 periods exceeded by \$23,189.20 the total in awards for 13 periods of 1946. Records also will be established

in two other categories—the number of suggestions submitted and 5851 accepted. These compare with a total approved. Thus far in a total of 15,885 offered and 5067

1947, covering 10 periods, 18,492 approved in the 13 periods of 1946.

## Photography Plays Part In Detecting Heart Ailments

an electrocardiogram is used in cardiogram, too, is highly valuable diagnosis of heart ailments, few think of it as another of the many applications of photography in the field of medicine.

Every year thousands of feet of Kodak's sensitized paper (Recording 797 and Royal Bromide F 1) go through electrocardiograph machines, recording the heart beat of hundreds of people and giving doca permanent record with which to work. The paper, as it is cut to fit the machines, is 21/4 inches wide and comes in either 50- or 100-foot lengths.

The electrocardiogram is just one phase of heart diagnosis, but a highly regarded one it is. The doctor correlates the electrocardiogram readings with the rest of his physical examination, blood findings, patient history, etc., to give him a complete picture. The electrocardiogram is used extensively in determining location of a major strain on the heart and in early diagnosis of heart damage in acute rheumatic fever and other acute infections. In some instances especially in coronary disease it may give the physician informa- most sensitive to variations in imtion which he cannot get from

Although most people know that | other examination. The electroin noting progress of treatment.

It is estimated that there are some 11,000 electrocardiograph machines in use in the United States today by specialists, general practitioners, hospitals, medical schools, laboratories, industrial medical departments, etc. Use of the machines is increasing, too, because as longevity increases so do the number of cardiac cases.

Here's how the electrocardiograph works. Electrodes are strapped to the patient—one to the outside of the right arm, another to the outside of the left arm and the third to the inside of the left leg. Various combinations are used for the first four "leads" or "takes" of the heart cycle. For the fifth lead, one electrode is placed over the heart.

The wires to which the electrodes are attached go to the electrocardigraph machine, which is a string galvanometer. The "string" actually isn't a string at all but a piece of quartz which has been drawn out to a size many times finer than a human hair and is

(Continued on Page 4)

The \$89,325.20 awarded for the first 10 periods of 1947 was more than double the \$42,893 earned by Kodak folks on their ideas for the first 10 periods of 1946. In that portion of 1946 the folks who turn their ideas into cash at Kodak offered 11,073 suggestions, which fell short by 7419 of the 18,492 okayed for the first 10 periods of this year Idea adoptions for this year's 10 periods topped by 2254 those of the

comparable periods in 1946 when 3597 were accepted and checks for various sums were presented de-pending upon value of the idea.

### 742 for Women

Women of Kodak proved to be prolific with their ideas as well as the men. For the 10 periods of '47 they earned checks on 742 suggestions which were approved, while in the same periods of the preceding year they had 477 ideas okayed. This showed 265 more this year than last.

Every Kodak unit showed increases in every category for the comparable 10 periods in the two years—the total amount of money awarded, the ideas offered, those adopted and the suggestions offered by women and which earned cash awards for them.

Farhed cash awards for them.

In the 10 periods of 1947 Kodak
Park listed \$59,625.50 awarded,
12,618 ideas presented, 4528 accepted and 501 approvals registered by women of the plant. In 1946 cash awards amounted to \$26,929 with 7475 presented and 2748 okayed. Of the latter 317 were

### CW's Report

Camera Works' checks totaled \$20,623 on 842 ideas approved out of 3813 submitted. Of the approv-als, 97 were listed for women. In 1946 for 10 periods the comparable totals were \$9996 on 540 ideas accepted out of 2304 offered. Eighty-

one women received checks.

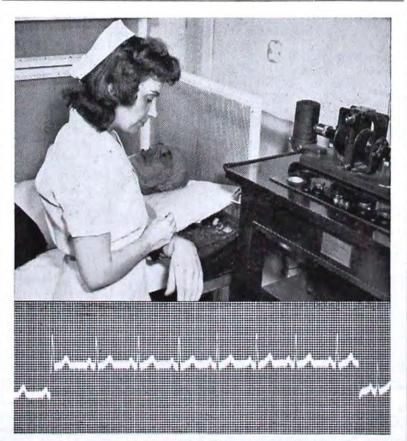

Hawk-Eye reported \$5788.20
paid in the 1947 periods on 292
ideas accepted of the 1253 submitted. There were 46 approvals for women. Compared to 1946 the fig-ures in those 10 periods were \$4407 paid on 181 ideas of the 768 submitted. Twenty-one of the approvals were listed for women.

### \$3288 at KO

Kodak Office paid \$3288.50 in '47 on 189 suggestions of the 808 offered. At KO women outscored the men by registering 98 approvals. For 1946 KO's figures went like this: \$1561 paid on 128 ideas of the 526 presented. In those 10 periods women were credited with 58 approvals.

Highest suggestion award for 1947 and which set an all-time record was \$2500 shared by Leo J. Braun and Frederick W. Greenfield of the Navy Ordnance Division of CW. The top award to one person was \$2000 and Gerald A. Bentley of Kodak Park was first to receive it. Soon afterwards Elizabeth Freeh, also of KP, received the same amount.

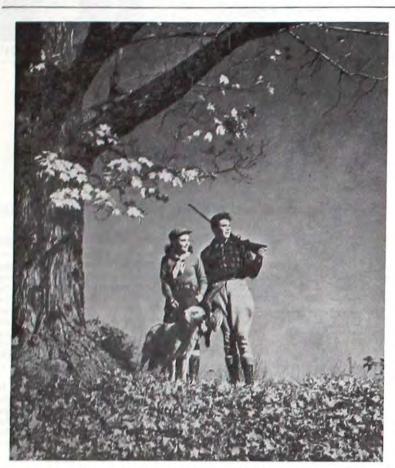

The high at Hawk-Eye was \$1250 which went to Edward Ochrim, and Kodak Office listed an award for \$1000 for Ira Hoffman.

Heart Test - At top, a nurse fastens an electrode to a patient's arm preparatory to taking an electrocardiogram. The machine is at the right. Above is a strip of photographic paper showing the pattern of the heart beat-valuable data for the doctor.

## **Cellulose Chemistry Scientists** Vote Malm Among Top 10

Named among the 10 top scientists of the country in the cellulose chemistry field is C. J. Malm, superintendent of the Cellulose Acetate Development Division at Kodak Park. He receives that listing in the November issue of the Chemical Bulletin of the or movie stars" in the public press.

Malm was appointed superin-tendent of Cellulose Acetate De-velopment in January of this year,

after having been assistant super-intendent of the Park's Chemical Plant since 1935.

1st guy-"I'm forgetting the wo-

2nd guy—"Me, too. I'm for get-ting a couple as soon as possible."

Freddie—"Since I have my new car I don't have to walk to the bank to make my deposits."

Al-"Now you drive over, huh?"

Chicago Section of the American Chemical Society.

Malm, who joined the Company in 1923 in the Synthetic Chemis-try Dept., was selected as a result of the Bulletin's reader poll, in which each reader voted in his own field of chemical

The magazine points out editorially that "only scientists are able to appraise scientific work," and describes its article as an effort to give some greatly overdue credit to the men who "lay the founda-tions for production," but who do not "vie for space with athletes

## **RHS** Benefits Set at \$26,359 In September

Kodak people received \$26,359 credit toward hospital bills in Sep-tember through their membership in the Rochester Hospital Service, a report by the RHS reveals.

Kodak Park folks filed 194 claims for 1459 days' stay for a credit of \$16,714; Camera Works, 65 claims, 410 days, \$4605; Hawk-Eye, 41 claims, 263 days, \$3092; Kodak Office, 25 claims, 186 days, \$1948

Among outstanding cases listed, a Kodak Park man has saved approximately \$730 on five claims since joining RHS; a Camera Works man has saved \$512 on four claims; a Hawk-Eye man, \$338 on one claim and a Kodak Office girl \$266 on a single claim.

Y then about a person who is a "natural" with a camera. We know a fellow who specializes in box camera picture taking. In fact, this picture taker owns

7OU HEAR reports now and

three box cameras. Two always are kept loaded with extra-fast panchromatic film; one with regular. With those three cameras, and with nothing else except red and yellow filters which he always keeps on his two fast-pan cameras, he's building a national and international reputation.

Some people say he has a "cam-ra eye"—which is true if you era eye' mean he has an eye for good com-position. He feels he owes his success as a picture taker to several other factors as well. And every camera fan-advanced or beginner -might do well to bear some of his pointers in mind.

For example, he believes in picture taking mainly when the sun is shining. That point might be argued because many mighty fine pictures have been made in the rain. But a touch of sunlight, he feels, adds brilliance and contrast to a scene. Actually, he likes nothing better than picture taking when the sun is just breaking through heavy clouds or a fog, because at such times the sun produces long streamers of light or a pleasant diffused effect.

### Filter Adds Value

Then, too, he believes that a filter makes all the difference between pictorial success and failure. He thinks a filter makes a scene come alive, and the beautiful cloud effects and rich tonal contrasts he gets in his pictures seem

to prove that point conclusively.

It's quite obvious from this chap's work that he's learned the limitations of his camera and in his picture taking stays well within them. Most of his pictures are beautiful scenes—which are well within the range of any simple folding or box-type camera-and some of his pictures are of animals and buildings. But you won't find any fast-action snapshots in his collection. He leaves action snapshots to other photographers whose cameras are equipped with variable and high shutter speeds. He sticks to the more placid subjects, to simple snapshots that anybody could take if he spotted the same picture possibilities in the scene, and if he composed his snapshots

This picture taker's work once again proves that you don't have to own expensive equipment or travel far and wide to get good pictures. Know your camera, stay within its limitations, and compose your pictures well is his formula. Obviously it works. Fred-"Nope. I just don't make

Congress Quizzers — When members of the House Military
Affairs and Appropriations Committees visited Far East installations, they inspected a jet-propelled P-80 Shooting Star, one of the fastest aircraft in the world. That's Erret P. Scrivner (R. Kans.) with the Kodak 35. The others, from left, are William E. Hess (R. Ohio); F. Edward Hebert (D. La.); and Walter Norblad (R. Ore.). Capt. Neil J. Graham is the officer.

## **Briton Divided Career** Between Army, Kodak

Harry Cross, who with his wife, Jenny, is enjoying life in the States, is one of two men to hold long-service medals from both the British Army and Kodak Harrow. He has an 18-year medal from the Army and a 25-year plaque from Kodak.

The couple is spending some months with their daughter, Jeanne, a former Kodakid, and her husband, Donald Hess.

As a lad of 16, Cross ran away to enlist in the British Army, he recalled when at KO the other day. He celebrated his 17th birthday in South Africa fighting the Boers.

Starting as a private, he worked up to captain, rank by rank, and by the end of World War I had served in India, Arabia, Mesopo-tamia, Italy and France with the Middlesex Regiment.

### Became Army Champ

A boxer, he became the Army's lightweight champ of South Africa, and later teamed up to win the tennis doubles championship of Punjab. Many of the boxing matches at Kodak Harrow have been refereed by Cross.

One of his most treasured pos-

sessions came to him during the siege of the holy city of Nejef in Arabia. Into the city, surrounded by a 70-foot wall 30 feet thick, Cross led a party to accept the sheik's surrender.

"We half expected to be taken prisoner, and had gone in with bayonet and grenade in hand," he recalled. "Everything progressed peacefully, however, until an Arab ran up and pressed something into my hand. I dropped it immediate-ly but retrieved it when it didn't go off."

It was an old Arabian lamp, and this Aladdin's lamp has been with Cross ever since.

Shield the light were put up at night and taken down at sunrise.

When Harry left the Army in 1919, he headed for Kodak Harrow where eight years previously he had taught members of its rifle club to shoot while stationed in

His first Kodak job was clerk of works for a new building under

T. M. Reg. U.S. Pat. Office.

Test your knowledge with the questions below. Grade 10 for each question. If you score 60 you're "super"; 50—you are still remarkable; 40—not bad at all; 30—time to brush up!

### (Answers on Page 4)

- What is meant by film speed? (a) Rate of flow of emulsion which shows its density in the manu-facturing process.
  - The measure of the amount of light required to form an image on the emulsion.
  - It signifies the thickness of the emulsion on the film base.
- Name one use of Kodak Anti-Calcium.
  - (a) Reduces sludge in developers. Offsets reaction to calcium in hands of photographer when he is processing negatives.
  - Slows up hardening of emul-sion in processing negatives.
- Polished reflectors in the Kodaflector increase efficiency Photoflood Lamps:
  - 4 times 7 times
- What is the ideal temperature for storage of movie film?
  - (a) 10 to 25 degrees.
  - 65 to 90 degrees. (c) 45 to 55 degrees.
- Can black-and-white prints be made from Kodacolor nega-

- Name the Kodak man who was named recently on the All-American Interscholastic Swimming Team.
  - Hy Dyver Luke Waters Bud Mayfield

construction. He became general foreman of Shipping, and in 1928 was appointed superintendent of Stock and Shipping. Ten years later he became traffic manager and remained until war came.

As deputy executive of air-raid precaution in charge of Works protection, it was, in large part, because of the vigilance of Harry and his cohorts that the Works were not badly damaged by the Germans. Blinds and shutters to

### Had Raid Shelters

Air-raid shelters, which held 50 persons, were constructed. However, the gates had to be left open for some wanted to be with their

families during the raids.
Closest call came to the Works, he continued, when a ticking land mine was found in the yard. The area was cleared quickly, and the demolition squad deactivated it.

Asked how his own home fared, his wife laughed, and said that one morning at breakfast she heard V-bomb. Sensing it was about to fall, she dived under a table. "The noise of the explosion was ter-rific," she declared, "but I couldn't figure out what the after noises close by were. I thought the plaswhen I came to my senses and looked around, I found I had pulled the edge of the tablecloth as I dived, and was dragging the dishes off the table."

### Soldiers Welcome

Being an old soldier who knew what it was like to be away from home, Harry had open house for American and Canadian soldiers who visited the Works. "Every one of those boys was a pleasure to have with us," they said.

"We've looked up several of them since arriving here. We spent a weekend in Canada with two of them, and are having dinner next week with a Rochester lad.

"In fact," Cross declared, "everybeen wonderful since started for America. The emigration officer noticed my name was Cross and introduced me to his buddy who was named Cross and who also came from London. Then he marked our visas for a longer stay than we had specified.

"The next friend was a taxi driver who tipped the dock's baggage man for me, then stopped at a bank so I could get some Ameri-can money to pay him. Next amazing incident happened when we went in the train diner. We sat opposite a man who insisted on

buying our dinner.
"Said he, 'It's just a small reward for the kindness I received as a G.I. in London.'"

Guy-"Do you think you could learn to care for a fellow like me?"
Gal—"Yes, perhaps—if he wasn't too much like you." It's in the Park -

## 100 Greet Jessie . . . Dr. Robertson Honored ... Hunting Trip's a Bust for Art and Bart

A testimonial dinner for Jessie Bruce, member of the Accounting the Eighth Aannual Water Confept, since 1909, was held at Barnard Exempt Oct. 30 and attended by the ference in Pittsburgh . . . . Rebels—that's what their friends in Bldg. Dept. since 1909, was held at Barnard Exempt Oct. 30 and attended by 100 friends and associates. A purse was presented and a comedy skit,

Members of the Accounting Dept. turned out en masse when the testimonial dinner was given recently for Jessie Bruce, center. At left is John McEntee and at right is Stanley Kowalski.

"The Good Old Days," was provided by department members. Cliff Dieter served as chairman of the committee in charge of the affair. . Roy Schueler, KODAKERY correspondent in the Research Laboratories, has returned from a motor trip to Montreal, Ottawa and Toronto during which he visited many historic places. Particularly impressive, says Roy, are the beautiful government buildings in Ottawa. . . . John Pardee, Ruth Fischer and John Wenrich were in charge of arrangements for the party held at Walz and Krenzer hall by members of the Paper Service Dept. on Armistice Day. . . . Welcomed back to the Kodapak Dept. recently was Harold Vogler who was confined to his home for 11 weeks by illness. . . . New faces in the Power Dept. are Charles Binion and George Cavanaugh, Electrical Maintenance, and Edward Connell, Bldg. 23 Office. . . . Isabel Schmitt, Research Laboratories, recently flew to Mexico where she hopes to visit many of the country's colorful points of interest. . . . Dr. A. C. Robertson, Dept. of Manufacturing Experiments, and Dr. Norwood Simmons, of the Hollywood Branch of Motion Picture Sales, received honorable mention in the Journal Award at the recent Society of Motion Pic-

ture Engineers' convention in New York City. The pair received the honor for their paper, "The Meas-urement and Control of Dirt in Motion Picture Processing Laboratories," published in the Journal of the SMPE in March 1946.

Still happy and smiling after 50 years of wedded bliss are Mr. and participation in the plant's Sug-Mrs. William Beck. Bill, formerly of the Chemical Plant Lab, retired from his Park duties in 1938. . . . Stanley Madsen, Research Laboratories, has acquired a new camera and is crossing his fingers for a continuation of good weather. . . Frustrated hunters desiring original alibis for not bagging game should contact Art Wegman or Bart Bromley of the Accounting since 1946, and the latter has Dept. Mr. and Mrs. William Beck celebrate their 50th wedding anniversary.

dog make a meal of them. . . . The Howard Youngs have moved into their new home in Greece. Howie is a member of Bldg. 115. . . . A dinner party was held by the Emulsion Melting Dept. Office on Nov. 6 at the Rochester Yacht Club for Herb Reed, who is awaiting his orders to report for duty as major in the U. S. Army. . . . The Engineering Dept., Bldg. 23, received a pleasant surprise recently when Bill Steinfeldt returned from his vacation with a bride, Wilma Jeanne LaDue. They were married in the Little Church Around the Corner in New York City, Oct. 25. . . . Unknown to Frank Wadman of the Dept. of Manufacturing Experiments, a large wedding gift booklet, designed by the department's Kodapak Demon-

stration Laboratory, has been accumulating the signatures of his associates. As a surprise for "Waddy," who has been in the depart-ment since 1936, the entire personnel gathered on Nov. 7 to watch Dr. Charles R. Fordyce, superintendent, present him with an electric toaster. The gift was accom-panied by the over-size booklet which expressed everyone's best wishes to "Waddy" and his bride, the former Martha Bell.

When Fred Meigs retired from the Finished Film Dept. Nov. 1, he was presented with a billfold by H. T. Ireland. . . . Recently transferred to the staff of the Cashier's Office were Jeannette Jordan, Kodacolor Print, Bldg. 65, and Myrtle Gielow, Check Distribution. . . . a surprise inside when he refired.

John Fitzpatrick, F.D. 4, and John

Wingender, F.D. 2, and their wives, traveled to Columbus, Ohio, on

Fred Meigs received a billfold with a surprise inside when he retired.

Nov. 15 where they watched Illinois trounce Ohio State in their traditional grid battle. . . . William Harrison, Power Lab, recently attended on approved ideas.

7 are calling Tommy Hinton, Al Snider and Joe Hay, who were seen doing their best to cheer Hobart College on to victory over Rochester in their annual fracas at the River Campus stadium. . . . The first Monday of a two-week stay in the mountains near St. Regis Falls netted Charles O'Neill, Power, an 8-point buck. When queried as to why he didn't return immediately after getting his deer Charlie explained that he had to stay with the expedition until the other members also had bagged a buck.

James Patrick, Roll Coating, and his wife have returned to Rochester after an extended tour of the United States, visiting such points of interest as Yellowstone National Park, Grand Canyon, Mormon Tabernacle, the Giant Redwoods, as well as other historic spots in Texas and Louisiana. On the return this thousand of the Performance of the turn trip they stopped off at Calumet Farms in Kentucky where they saw "Whirlaway," "Bull-Lea," and other kings of the turf. . . . A dele-gate to the recent regional convention of the Beta Sigma Phi Sorority in Toronto was Eloise Richardson, Time Office. . . . Charles Win-kelman, who retired from active duty Nov. 1, received a leather sport coat from his associates. He was honored on Nov. 3 at Mike Conroy's where **Howard Maples** toastmastered an excellent dinner Patterson, Harry Baker and William Lambert as speakers. Serving on the committee in charge were Norm Graham, Clarence Wharity, Harry Baker and Warren Stephens. Approximately 85 attended.

## 3 Complete 4 Decades

will complete 40- and 25-year service anniversaries in December, the Employment Office announced.

Winding up 40 years with the Company are John P. Culhane, Roll Coating; John G. Jones, E&M, and Ralph Breary, Kodaloid.

Twenty-five-year terms will be

Twelve Kodak Park members per Sens.; Walter I. Ross, Perf. Maint.; John H. Boylin, Paper Sens.; Edward Thow, Garage; Harvey H. Craft, Perf. Maint., and Harry E. Wheeler, Emulsion Ctg. Culhane has been continuously in Roll Coating; John G. Jones, E&M, oll Coating; John G. Jones, E&M, oll Coating since 1907. Jones in Roll Coating and Machine Decay.

was in Drafting and Machine Design 13-A before being appointed assistant superintendent in the E&M Mechanical Equipment Dept. completed by Herbert Jones, Acet.

Breary had been successively in Pan. Film; Edward Dennis, Ciné
Box, Carbon Paper, Industrial
& Sheet Film; Edward C. Merkel,
Roll Coating; Ervin G. Franz, Pabefore joining Kodaloid in 1944.

## If You Clicked You Collect

The numbers listed below represent the suggestions which were approved during the 10th period at Kodak Park:

## Ever Wonder Where Suggestion Earnings Go? Kodak Park Folks Tell Few of Many Uses

Do those suggestion checks come in handy? Ask almost any of the Park's period winners, some of whom have built up enviable records as a result of their consistent gestion System.

Typical of the men and women

who are making their ideas pay is a husband-and-wife team, Dorothy and Meryl Silver, Ciné Processing Dept. The records show that the Silvers have submitted a total of 52 suggestions, of which 28 have been approved. Meryl has been taking part since 1940, his wife since 1946, and the latter has

### Assist Meryl's Brother

The Silvers naturally are proud of their accomplishments in the suggestion field and even prouder of the good use to which their prize earnings are being put. Every check is turned over to Meryl's brother, Stewart, to help defray his tuition at the Southern Baptist Theological Seminary in Louisville, Ky. Stewart comes to Bldg. 30 during the summer months.

Another suggester who put his first idea check to good use was Carl Wilson of Cotton Nitrate, Carl took the \$200 and helped pay the expenses of a hunting and fishing trip to Marquette, Mich.

### Trip and Taxes

Carl and his wife are anxious to go back there again next year and hope Carl's suggestion earnings will make the vacation possible.

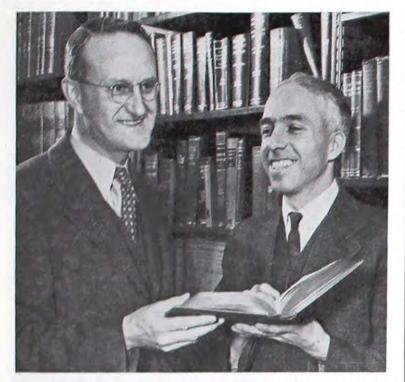

George Braun of Sundries Manufacturing, Bldg. 48, who has been submitting his ideas since 1945, uses his winnings to cover tax payments on his house. Married and the father of three children, George has had 10 of his suggestions adopted thus far. The last one netted him \$130.

The Suggestion Office files contain the names of many others who have found that there are many practical uses for funds received

Where It Goes — The money paid on suggestions is used by folks for a variety of worth-while purposes. The George Brauns, at top, use his checks to pay taxes on the house. The money paid on suggestions is used by KP He's shown with George jr., Mrs. Braun, Joe and Nancy, from left. Above, left, are Carl and Mrs. Wilson who financed a hunting and fishing trip to Marquette, Mich., and at right are Dorothy and Meryl Silver, both of whom use their suggestion earnings to help defray fultion of Meryl's brother in theological seminary.

Guest from Notre Dame - A visitor from Notre Dame, Prof. with Dr. L. G. S. Brooker, KP. A professor of organic chemistry, Wilson is a native of Britain. A rugby fan from 'way back, he feels right at home at Notre Dame and seldom misses Irish football games.

## Grid Sport Builds Character, Says Notre Dame Professor

Where character-building is concerned, the gridirons of America have as much to offer as the hallowed playing fields of Eton.

Take that from an unassuming Yorkshireman whose contacts with young American men in the classroom have afforded him a rare opportunity to note the comparison between "Joe College, U. S. A." and his British cousin. He is Prof. C. L. Wilson, professor of organic chemistry at Notre Dame University, who, as a prospective citizen of the United States, takes kindly

to the American way of life. Enjoying his first trip to Roch-ester and a visit to Kodak, the young professor recently addressed the University of Rochester Chemistry Research Conference on the subject, "Reduction by Dissolving Metals." His hosts during a tour of Kodak were Frank Harris of the Men's Training Dept. at Kodak Office and Drs. Geoffrey Broughton and L. G. S. Brooker at the Park. Previously he had met Harris and Dr. Broughton in South Bend while the Kodak pair were on a recruiting trip for technical per-

Getting back to football as be-fits a Notre Dame member, Professor Wilson draws an interesting parallel between the game as we know it over here and its English

counterpart, rugby.
"Organization in American col-"Organization in American col-lege football is superb and carried out to the letter. That's why we have such good teams at Notre Dame. Rugby, on the other hand, is interesting to me because of its sustained action. You don't have to put up with constant interfer-ence by game officials for time out, rule infractions and the like," he commented. He has seen almost all of Notre Dame's home games since joining its faculty more than a year ago, including its 1947 triumph over Army. Married, he has three children, among them twins.

After taking his bachelor's de-gree from Leeds University, Pro-fessor Wilson studied at University College of London University, He has been engaged in active research work since 1931 and has had

- Yes. While Kodacolor nega tives primarily are designed for making Kodacolor Print they also can be used to pro duce black-and-white print and enlargements on regula photographic papers.
- Bud Mayfield of Hawk-Eye re cently was selected on the All-American Interscholastic Swimming Team.

### Photography Helps Detect Heart Ills

(Continued from Page 1)

Back of this string is a light which casts its shadow onto the moving sensitized paper which records the string's gyrations. The low-voltage impulses generated by the heart beat are picked up by the electrodes and transmitted to the machine, which causes the string to vibrate. After the recording has been made, the paper is processed by using the regular developing procedure.

To the trained eye, each of the tiny marks the string's shadow puts on the sensitized paper means something, and many times a life depends on the story they tell.

## Kodaker Rides Locomotives On Quick Trips

(Continued from Page 1) Later he was transferred to the Pacific area where he became an aerial torpedo engineer officer.

It was while studying the performance of torpedoes and other underwater weapons during the war that he was introduced to the mysteries of flying and deep-sea diving. Today he holds both flying and diving licenses but seldom uses them.

Flying, he maintains, is an overrated occupation but exploring the ocean floor is something else again He confesses to a secret ambition to do deep-sea salvage work on

### Wins Commendation

His swimming prowess brought him the proudest moment of his life during the years before the war. It happened while the King and Queen, then the Duke and Duchess of York, were guests aboard Lord Louis Mountbatten's yacht, the Shrimp, in Malta harbor. When the anchor fouled in some 36 feet of water, he braved the deep to disengage it. In recognition of his feat he received a testimonial letter signed by members of the royal family, which adorns the wall directly over his desk at Harrow.

Mattei now has left for home. Although he looked forward to seeing his wife, a former WREN whom he met in Gibraltar and married in 1945, he had one regret. The Queen Mary did not get him back to England in time for the wedding of Princess Elizabeth.

Camera Club News\_

## Col. Goddard Slated Dec. 10; Deusing Draws Record Crowd

Early last fall, the club published a calendar of programs for the entire 1947-48 season, hoping that members would look ahead and save these dates. It seems that the officers and staff forgot

Take Col. George W. Goddard, Chief of the Photographic Section, U. S. Army Air Forces, Wright Field, for instance. The colonel was scheduled to speak before the Cam-

Col. George W. Goddard

era Club Oct. 1 on "War Develop-ments in the Photographic Field." Uncle Sam promptly sent him away on rocket tests. The club didn't argue—it rescheduled him for Dec. 3. Again Uncle Samuel changed the plans. On Dec. 17 the same thing happened.

There now seems to be a strong possibility that Wednesday, Dec. 10, will be the big night. There haven't been any changes in plans for three days, and barring complications, the club hopes to present Colonel Goddard at that time. There will be three-dimensional continuous strip air photos, slides and movies of the atom bomb tests at Bikini, the rocket tests in New Mexico, and new developments in photography for defense. See next week's KODAKERY for more de-

Better start looking now for a baby-sitter for the night of Dec. 19. You won't want to miss the Monochrome Section's annual Christmas party. Full details will be announced next week.

brought their own transparencies and participated in a general criticism discussion, with comments being directed towards the possible use of the slides in national exhibi-tions as well as local contests if they were of sufficiently high quality. If the slides had obvious faults, the maker was instructed in methods of improvement.

Kelley encouraged members to broaden their field of activity in color. He stated that too many individuals were satisfied with prop-er exposure and bright colors, and were too easily disappointed when they failed to win prizes in local contests.

By competing in shows in other communities they receive varied viewpoints and soon learn to im-prove in subject matter and com-position, he said. Instructions for entering exhibitions may be obtained from the club office, Bldg. at KP.

CLUB CALENDAR Dec. 10 -Colonel Goddard's lecture. Dec. 19 - Christmas Party.

The largest crowd ever to attend a Kodak Camera Club meeting gathered last week to see Murl Deusing's Kodachrome movies of insect, bird and animal life. Even standing room was at a premium in the State Street auditorium as a capacity crowd of members and their families braved the elements to attend.

The enthusiasm was gratifying. Even the lollipops for the youngsters were superfluous. Deusing's excellent close-up photography and his humorous narration kept the crowd spellbound for a delightful hour of entertainment. There were so many favorable remarks that the club plans to present more of this type of program during the coming year.

Deusing has made his work a stimulating hobby. Using a Ciné Special with Kodak telephoto lenses, he has become an expert on the life and habits of many common inhabitants of the animal world. His next adventure smacks Over 60 club members turned out recently to hear Bruce Kelley ing which he hopes to photograph the thousands of strange animals

Princess' Gifts - With the good wishes of, and on Kodak Kodak men and women the world over, Kodak Ltd. presented a Kodascope Sixteen-20 and Ciné-Kodak Magazine to Princess Elizabeth as wedding gifts. Above, Brenda Hagen, Distribution, KO, who came to the U. S. from England a year ago, examines the Kodascope and the Ciné, similar to the ones given the Princess.

# We Give Thanks...

How to Cook Turkey— Looking up a recipe for roasting turkey in an American cook book are Lina Kemp and her little girl, Marita. Lina, who is now a member of Bldg. 56, Kodak Park, was born in this country but when three years old went to Germany with her parents. Her husband was killed during the war and their home lost, so Lina brought Marita to this country to begin life anew as Americans. Already the youngster speaks English well, though they arrived only last March.

Kodaker from Wales

Ronnie Jenkins, now of the Hawk-Eye Precision Lens Assembly Dept., came to this country recently from England and Wales. He's making himself very much at home in the U. S. and finding manynewfriends, he says. His wife and their little boy are here in this country with first of many turkey dinners.

With these words the Pilgrim Fathers celebrated their first Thanksgiving Day in 1621. They had left a troubled country for the new land of America, and in their happiness and gratitude for the success they had achieved during that first hard year, they dedicated a day of festivity—Thanksgiving Day.

Today the Pilgrims of 1947 are re-echoing those words. Like the first Pilgrims they have sought this country as a refuge and a hope for the future. Accustomed to hardships, short rations, family separations, they are finding in America the things they've dreamed of through the hard years in their homelands overseas — freedom from fear, freedom to work, plenty of food.

Quite a number of new Kodakers are among those who are this year celebrating their first Thanksgiving. Perhaps their experiences can help us to realize anew how much Americans have to be thankful for.

Conchita's from Rome — Getting down the best dishes to use for a festive Thanksgiving dinner are Conchita and Ralph Sanfilippo. Ralph is in the Glass Cutting and Molding Dept. at Hawk-Eye, and Conchita, his bride, native of Rome, Italy, has been in this country four months. Their first Thanksgiving dinner together is to be observed in traditional American style.

'No Sense of Fear' — The greatest thing that America gives her newcomers is freedom from fear, says Julius Avizienis, of Camera Works' Dept. 7. Above, Julius, center, describes his Lithuanian home to Sid Hines, right, aided by the Rev. John Baskys, left, his pastor and interpreter.

### Displaced —

One of the millions of displaced persons in Europe Zablockas, now of Bldg. 29, Emulsion Coating, KP. A Lithuanian, Anthony has been in the U.S. for seven months, spending six and a half months of that time at the Park. His tales of the depressing effects of uncertainty, poor living conditions and shortages of vital foods emphasize his expression of gratitude for being in this coun-

Together for Thanksgiving — Joseph Andrzejewski, KO Maintenance night czyk, also a night janitor, are looking forward to Thanksgiving with the family. Seated from left are Joe's wife, Stella, John, Joe, Chester Andrzejewski, who is six, and Butch, 14 months, Joe's family keeps chickens, and above they're "practicing" for their '47 Thanksgiving dinner.

## Nutrition Experts Offer Menu With Thanksgiving Specialties

Turkey on the table at Thanksgiving is just plain traditional. And not only that, it's fun and easy to prepare and serve, too. In fact those special dishes that are as tasty and traditional as the turkey itself can be a treat to serve and enjoy. For a real Thanksgiving dinner for the whole

family that's easy to prepare, here's a menu recommended by nutrition

Broiled Grapefruit
Roast Turkey Sage Dressing
Giblet Gravy
Sweet Potatoes Creamed Onlons
Relish Plate Rolls and Butter
Cranberry Sauce
Mincement Tarts Assorted Mints

To roast the turkey, there need not be a whole afternoon of hard work. It's as simple as this:

Rub turkey cavity with salt (1/8 t. per pound of bird).

Put enough stuffing in neck to fill it out nicely and fasten neck skin to back with skewer.

Stuff cavity well, but do not ack tightly, and close with skewer.

4. Truss bird (bind legs and wings to body) and grease skin thoroughly with melted or softened

cooking fat.
5. Place on rack, breast down; in shallow pan.

6. Cover top and sides of bird with fat-moistened cloth—preferably clean white cheesecloth.
7. Place in preheated oven set

at proper temperature indicated on timetable for your size turkey. 8. Do not sear. Do not cover. Do

not add water.

9. Moisten cloth with fat from bottom of pan if cloth dries slight-

ly during cooking.

10. Turn bird breast up when about 3/4 done if breast meat browns too slowly. To tell if turkey is done press the fleshy part of the drumstick with your fingers, protecting them with cloth or paper. It is done if the meat feels soft. Or move the drumstick up and down. If the leg joint gives read-ily or breaks, your turkey is done. For a delicious dessert that your

family will love, why not serve individual mincemeat pies.

3 cups minced apples

1/2 cup beef stock

1 cup sugar 34 cup seedless raisins

cup currants Juice and grated rind of one

Preparations — To roast "Tom Turkey" is a comparatively simple matter. Kay Lochner, KO Package Design Service, is a first-year bride and knows the secret to easy roasting. Kay is putting the frozen turkey in the oven and when she takes it out it'll be tender and well roasted.

lemon

1 T. cider vinegar

1/4 cup fortified margarine or

1 t. salt

1/2 t. ground cloves

1 t. cinnamon

½ t. nutmeg 1/s t. mace

2/3 cup finely minced cooked

Combine all ingredients except

the beef. Simmer for about 25 minutes, stirring frequently. Add beef. Simmer until heated thoroughly. Finish cooking in pastry shells. Yields approximately 3 cups.

Pastry— 3 cups sifted all-purpose flour

11/2 t. salt

1 cup shortening 6 T. cold water

Sift together flour and salt. Cut in shortening with two knives or pastry blender until particles are the size of small peas. Add water and mix only until dough holds together. Line six individual pie tins. Fill each with ½ cup of mincemeat. Top each little pie with tur-key design cut from pastry dough. Bake in oven (425 F.) 30-35 min.

## The Christmas Corner— Special Gifts For All

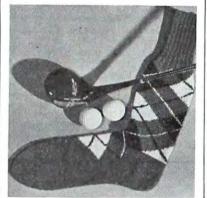

The aroma of Thanksgiving tur-key from your oven means that it's not only time for a wonderfood treat but also that Christmas is just a month away!

To help with the many folks, big and little, on your gift list this Christmas, here are some charm-ing items for the family and

For Dad, big brother, or Uncle Joe, here are some soft, warm and s-o-o comfortable argyle socks. Argyles are one thing that need no pep among the men. Menfolks love 'em. Hand-knit socks have the advantage of long wear and excellent fit. Colors can be combined to suit individual taste. They're gay and bright, too. The patterns may be obtained from your plant KODAK-ERY Office.

For the lady-on-your-list, Dad you can always be sure that she'll be thrilled with a bracelet or an earring-and-clip set. All the stores have smart-looking sets that would offer you a fine choice. If you get down a little early, you'll find the range to choose from will be much

For the new bride, auntie or a favorite friend, the place mats of three colors with reindeer designs and matching napkins are perfect. They're colorful, effective and useful. They'll decorate table linens and protect them, too. And they can be used alone for breakfast or

Neat, Warm - A favorite folks, especially the golfers, is a pair of handmade, bright argyle socks-just like these.

Just Right - You'll win the immediate favor of all women on your Christmas list who receive a set of place mats like these from you.

snack lunch. For a modern setting you can make the place mats of beige appliqued with cocoa-colored reindeer. Brown embroidery floss outlines the grass and antlers. Four of these mats make a handsome gift, especially with the nap-kins. Patterns may be obtained from your plant KODAKERY Of-

For the lady on your list, you can always present her with some of the new, dark, sheer stockings, to delight her. Just as a woman never feels she has too many pairs of hose, she also likes to have an extra pair of gloves. So, you could give her a lovely pair of leather, suede or cloth gloves and make her most happy.

Gifts for men are as endless in choice as those for women. If he's a golfer, nothing is more dear to his heart, next to a birdie, than some

Now that the tremendous shirt shortage is over and you can walk in and purchase a white shirt without standing in line, a good idea might be to help hubby or Pop re-plenish his stock of white shirts —he'll love you for it.

Besides dolls and games, little sister votes a big approval for snuggly slippers and a bathrobe just like Mama's. And to encourage her to help around the house, why not make her an apron?

Holiday Special - Sculptured drapery at the neckline and a softfaille-textured Bur-Mil crepe woven with Koda acetate rayon and worn by this TEC model. Deep armhole sleeves button close to the wrists, and the back has a full-length button closing. Designed for the more formal suit, it's a perfect for Christmas and holiday visiting.

## To the Ladies . . . Notes From Here, There and Around . . .

In the past month a Kodak woman, Mary Gray, CW Brownie Covering Dept., marked her fortieth year with Kodak. Mary, who received a beautiful, big orchid from the girls in her depart-

ment, is the fourth woman in Kodak history to reach the 40-year mark and the second woman with the Company to be in active service after 40 years.

Our sincere congratulations to you, Mary. We're very proud of

FRESH AGAIN . . . Want to "re-fresh" muffins, biscuits and rolls? Place left-over muffins, biscuits or rolls in top of double boiler. Sprinkle with a few drops of water. Cover, set over hot water and heat for about 20 minutes . . . they'll be tender, soft and tasty.

ANNIVERSARY DIAMOND . Bert Bowersock, KP Bldg. 26, received a gorgeous, huge, new dia-mond from her hubby for their 23rd Wedding Anniversary sincere congratulations, to you,

THANKFUL SPIRIT — The spirit of being thankful at this time of the year is one that is foremost in the mind of Helen Palmer. H-E's Purchasing Dept., for she journeyed to New York City with relatives to meet her parents, former Rochesterians who have been living in England for the past 15 years.

land until proper immigration parites, a pin with a bird bath motif pers could be cleared. It has been and matching earrings.

nearly a year since she has seen them, and according to the H-E girl, there is no better time for her parents to join her on this side of the Atlantic than just be-fore the great American holiday of Thanksgiving. The Palmers plan to make their home in Rochester.

Tricky Accessory-

Mary Ann Baglio, H-E Dept. 47, knows the value of adding charm to m'lady's ensemble with just the right piece of costume jewelry. Mary, who makes a hobby of col-Helen returned to Rochester shortly after the war's end, but her parents had to remain in Eng-

## The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and to limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS, KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD—NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

# Lloyd Boyle, H-E Kegler, Rolls 299 Game

# **Perfect Game**

Hawk-Eye's Lloyd Boyle probably seeing the four pin in his sleep these days. Bowling with the Gismos in the H-E Brass Butchers' League, Boyle put on 11 straight strikes last week only to have the four pin stand up on his last ball and wind up with a blistering 299.

Boyle, a consistent 600 bowler all season, registered another six-ply total. Along with games of 170

and 160, his series was 629. With 300 games becoming as scarce as Philadelphia pennants, Boyle stands a good chance to top all EK keglers this season. The same league produced last year's top man in Tony Rittinger who came up with a 289.

Another Hawk-Eye bowler,

Peggy Brule, rolling with the Medical five in the H-E Girls' League, came up with a hot hand last week. Peggy put together nine straight strikes to finish with a 225 solo, for the highest singleton ever recorded in the four-year history of the H-E Girls' League.

## Kaypee Cagers Open at Corry

Jack Brightman will send his Kaypee basketeers into action on Nov. 30 when the team invades Corry, Pa., for an exhibition con-test with the pro team there.

Other games are slated with Lima and Wayland in December. Showing up well for starting berths are Ralph Taccone, Al McIntee, "Red" Troiano, Don Brown, Jack Ellison and Stan Lojek.

14 Teams Vie For Crown in Departmental

Showing plenty of scoring punch and drive, Bldg. 12 basketeers copped a brace of games to take an early lead as the KPAA De-partmental cage loop launched play last week. The two victories gave Ray Thomas' outfit the edge in the National wheel as American division rivals jockeyed for key positions in the early battling. Thomas himself starred in the team's opener—a 41-39 triumph over Engineering—pumping eight field goals through the hoops. Conheld goals through the hoops. Continuing its fine all-court play, the Bldg. 12 quint followed up with a decisive 52-19 win over Bldg. 14. Paul Wackerow and Bill Flad hauled down scoring honors with 14 markers apiece, with George Horn and Milt Dugan posting 10

### Dewhirst Does It

Film Emulsion and Industrial Engineering locked horns in a thriller, Jim Curtin's Emulsion crew eking out a 46-45 verdict as Jack Dewhirst scored from the floor with only 16 seconds to go. Pete Day was the siege gun for the losers, sinking seven field goals and converting eight free throws for a 22-point splurge. Engineering trailed at half-time, 30-14.

Bob Harris' 18-point assault for the Messenger Service five went for naught as his club absorbed a 54-26 shellacking at the hands of the Emcos. Don Brown and Joe Biracree paced the victors with 14 and 12 points, respectively.

### Building 58 Wins

Charlie Zahn's Bldg. 58 forces tacked a 42-29 setback on Emulsion Research. Tom Hughes bagged 18 points for the losers while Ralph Abel tallied 12 counters for Bldg. 58. The Power quint registered a 2-0 forfeit win over the
