Kodak Folks Get Opportunity To Help EK Friends Abroad

With Kodak families in England and parts of Europe badly in need of clothing and food due to continuing postwar shortages, the Company's recreation clubs in Rochester have volunteered to serve as receiving centers to collect clean, used clothing and money for food to be sent to Kodak friends abroad.

The great need among Company folks in Europe has been stressed in recent months by Kodak's European representatives who have come to Rochester on business.

Clothing, they report, is still very scarce. In some countries it is strictly rationed, each family's rations falling far short of the need. In other countries, due to

the short supply, prices are extremely high. This has worked a great hardship on many people who were unable to buy clothing during the war because factories were concentrating all efforts to turn out war supplies. Availability of many items of clothing has not improved greatly since the war, because of the great demand, lack of materials and the fact that numerous manufacturing facilities were destroyed in the war.

All kinds of used, clean clothing for people of all ages is needed—outer garments, winter and summer goods, rain wear, shoes, underwear, stockings, suits and dresses.

Persons desiring to have clothing cleaned before donating it will find that special dry cleaning rates are available for clothing to be sent abroad.

Repair Materials Needed

The clothing should be in reasonable state of repair, and in this connection, too, the recreation clubs are asking for items for repairing clothing such as needles, thread and pieces of materials.

Contributions of food cannot be accepted because of restrictions, but donations of money will be accepted at the recreation club offices with which CARE packages of food will be purchased to be sent to the Kodak people. The CARE packages can be bought more economically and they offer a well-balanced diet.

Each plant recreation club has designated collection stations where Kodak folks may bring their donations of clothing or where they may leave their money with which food will be purchased. These are listed below:

KP—Old Bldg. 28.
CWRC Office.
H-E—Clothing at Gate Houses, money at HEAA Office.
KORC service counter.
NOD—Recreation Club Office.

The recreation clubs will collect and sort the clothing and forward it to Kodak Office, where the Traffic Dept. has offered its services in packing and shipping.

British Honor EK Adviser For War Aid

Dr. Hans T. Clarke

One of 10 American scientists who received the Ribbon of the King's Medal in New York City recently was Dr. Hans T. Clarke, formerly of the Kodak Research Laboratories.

The British awards, made to American military and naval officers and scientists in recognition of their war work, were presented on British "soil"—aboard the Cunard White Star liner Queen Elizabeth.

The son of Thatcher Clarke, who served as Mr. Eastman's representative in Europe, Dr. Clarke was born and educated in England. Coming to this country, he was in the Kodak Research Laboratories from 1914 to 1928.

During the first World War he organized the Synthetic Chemistry Dept. as a result of Mr. Eastman's desire to make available to American industry the many specialized and rare organic chemicals which had been obtainable previously only from Germany. Beginning in 1925, he also conducted research work on cellulose acetate and other cellulose compounds.

Dr. Clarke left Kodak in 1928 to become head of the biochemistry department of the College of Physicians and Surgeons at Columbia University but continues as a consultant to the Company and visits Kodak Park regularly.

One of Dr. Clarke's important duties during World War II was to act as coordinator of research in England and America on the structure of penicillin.

Unique Safety Record—Drivers who have compiled some of the best safety records in the history of Kodak Park are introduced by E. L. Cook, third from left, to C. H. Brown, left, general superintendent of KP's Service Depts., who presented safe-driving cards and pins. Drivers in the picture, from left, are George Appleton, William Kingston, Fred Musclove, Paul Dutton, Otto Neubieser and Harry Marshall, each of whom has operated Kodak Park vehicles for 22 years without an accident.

5 Million Miles in Safety Wins High Praise for Drivers

"I cannot recall a record established by any group anywhere equal to the one for which you men are being honored."

That is the introduction of a message from T. J. Hargrave, Company president, to 150 Kodak Park drivers and mechanics at a dinner meeting recently in the KP service dining room.

The dinner program, attended by the men and their wives and at which EK and city officials were guests, was in special tribute to the drivers' unique safety record.

Mr. Hargrave's message, which was read by P. C. Wolz, assistant superintendent of KP's Industrial Relations Dept. and who acted as master of ceremonies, states:

"Twenty-five of you, I understand, have driven 20 years or more without an accident. Altogether, 115 of you have driven a total of 1244 years without an accident. It has been estimated that you have driven approximately 5,000,000 miles in establishing this record."

"Such a record speaks volumes both for you who drive Kodak Park's trucks and for the 33 of you who keep those trucks in top condition. It is clear that you have been courteous as well as careful in your driving, and that your excellent servicing of the trucks has prevented dangerous mechanical failures."

Brown Presents Pins

One of the high spots of the evening's program was the presentation of Safety Council awards by C. H. Brown, general superintendent of the Park's Service Depts. These awards were safe-driving pins and cards which recognize the efforts of the drivers to reduce traffic accidents.

Main speaker was Roy Duffus, Rochester Safety Council head.

Others participating in the program were: G. T. Lane, assistant manager of KP, who greeted the group of drivers; R. W. Waldron, KP superintendent of industrial relations; Capt. George Heisel, director of the City Traffic Department; Al Monro, chairman of the Commercial Vehicle Section of the Safety Council; A. L. Cobb, KP safety director.

PSA Sessions Open In City Tomorrow

Many of the area's leading photographers will arrive in the city tomorrow, Mar. 5, for opening of the PSA Regional Convention which runs through Sunday.

Opening of the sessions will take place at 7 p.m. in the Memorial Art Gallery and at 8 p.m. there will be a showing of slides accepted for the Rochester International Salon.

Saturday's clinics and demonstrations will take place in the Rochester Institute of Technology in the morning and at the Art Gallery in the afternoon.

One of the sessions' highlights will be the banquet Saturday in the Chatterbox Club where Charles B. Phelps Jr., FPSA, and Adrian TerLouw, APSA, will be the speakers. Don McMaster, EK vice-president and assistant general manager, will be toastmaster.

H-E Gets Top Trophy For Safety

State Contest Brings 9 Other Awards to EK

Top trophy in the statewide safety contest was presented to Hawk-Eye Works Tuesday night when 1000 safety men and other officials of industries gathered in the Chamber of Commerce.

Frank Redmond, secretary of the Associated Industries of New York State, sponsors of the 13-week safety campaign, presented the grand award. It was received by William T. Roach, manager of Hawk-Eye Works, in behalf of the plant personnel.

The runner-up to the grand award winner was the Ciné Processing Dept. of Kodak Park which received the second highest award in the state contest. I. N. Hultman, EK vice-president and assistant general manager of KP, received the plaque for the department.

350 from EK

More than 350 representatives of Kodak units in Rochester, which participated in the 23rd annual accident prevention drive, attended the dinner program. Officials of the Company, besides Roach and Hultman, who took part in the ceremonies Tuesday night were: Don McMaster, EK vice-president and assistant general manager; N. B. Green, manager of Camera Works, and R. S. Scott, superintendent of the Ciné-Kodak Processing Dept. at Kodak Park.

The group was addressed by J. L. Rosenstein, Ph.D., professor of applied psychology at Loyola University, Chicago.

A special citation was given to Camera Works for recording 1,640,411 man-hours of exposure before a lost-time accident was reported. Green received the award for CW.

Hawk-Eye captured the grand award for compiling 1,797,396 man-hours of exposure without a single lost-time accident. It was a repeat performance for H-E, since it had won the highest award also in 1945 with almost two million man-hours of exposure.

Fine Record

The Ciné Processing Dept. of Kodak Park achieved the runner-up place with 1,174,094 exposure hours without a reportable accident.

Four 100 per cent certificates were earned by Kodak units for completing the 13-week campaign without a lost-time accident. They are not eligible for the grand award, since an entry must have more than a million man-hours of exposure to be considered.

The four units with their representatives who accepted the awards are: Main Office Factory, A. J. Hayter; E&M Engineering and Stores, KP, K. R. Brooks; E&M Shops, KP, C. N. Gulden-schuh; Service Depts., KP, A. J. Eilinger.

Honorable Mention citations were presented to three Kodak Park departments. These are Emulsion Coating, with E. B. Edmondson receiving the award; Roll Coating Dept., E. R. Clearman, and Kodak Park General, C. F. Page.

The Vacuum and E&M Depts. of DPI earned a 100 per cent certificate and its Research and Vitamin Production Dept. was given an honorable mention citation for achievements in the campaign.

Kodak Gets Award—Dr. A. K. Chapman, Kodak vice-president and general manager, last week received, in behalf of the Company, a U.S. Marine Corps Certificate. It was presented "in appreciation of contributions to national defense in granting leave to employees to attend active duty training with the U.S. Marine Corps Reserve." Lt. James D. Swinson, right, who made the presentation, was accompanied by Cpl. W. A. McKinney.

Swiss Color Slated Mar. 9 For Foremen

Feature Program — Karl Robinson, above, will show his color films on his "Swiss Journey" at the meeting of the Foremen's Club on Mar. 9. At left is Teresita Osta, in one of the costumes which she will don for a series of authentic South American dances. Her brother is pianist.

The majestic beauty of Switzerland will be brought to Kodak Park Foremen's Club members on Mar. 9 when lecturer-traveler Karl Robinson shows his color film, "Swiss Journey," at John Marshall High School auditorium.

Recently returned from a visit to the Alpine country, untouched by the war, Robinson has put together an interesting record of the people and their activities. It reveals in intimate detail the customs which have stamped the native Swiss as one of Europe's most picturesque peoples. The metropolitan areas of Geneva, Zurich and Lugano share coverage with many small communities, and the entire film, in natural colors,

EK-er Rivals Stunt Experts

Tales of Hollywood stunt men and their derring-do—jumping off cliffs, riding with great gallantry and intrepid calm to what looks like certain death—are run-of-the-mill to movie fans.

And it must be catching—or else living in Hollywood's vicinity has had an effect on Mr. M. L. Bokman, special representative for the Company on the West Coast. While visiting in San Francisco and the Bay Area recently he tried an act usually reserved for these movie stunt men.

Hit Slick Pavement

The scene was the Oakland-Bay Bridge—Bok's "helper," Bob Smith. Bok and Bob were returning to San Francisco after making calls in the Bay area when slick pavements took events in hand.

Bob's car skidded and passenger Bok found himself with one foot in the car, and the rest of him outside! Only his grip on the swinging door "saved his neck," he says, from the whizzing traffic.

Bob got the car under control and soon had Bok safely back in his seat—with no more to show for the exciting, movie-like sequence than a skinned leg for Bok, a crumpled fender for Bob.

Courtesy Aetna Casualty and Surety Co.
"AND YOU WENT FOR A WALK ON A SUPER HIGHWAY?"
... the motorist is protected by an all-steel body, but the walker hasn't even a strong bumper!

is said to be distinctively original and entertaining.

In what is billed as one of the most unusual stage attractions of its kind, Emilio and Teresita Osta, California-born pianist and his dancing sister, will present a program of authentic South American dances. Acclaimed on three continents as outstanding exponents of Spanish and Latin-American music and dance, the pair will offer a variety program. Teresita Osta wears gay and colorful native costumes for her dancing.

Emilio studied piano under several internationally famous masters, including Josef Lhevinne and Leopold Godowsky, while Teresita, as successful in the movies as on the concert stage, has appeared in such Hollywood productions as "Girl of the Golden West" and "Tropical Holiday."

An old favorite will return to the show in the person of Vic Sweet and his orchestra, featuring Vic on the Solovox with the hit tunes of the hour. A steak dinner will be served in the new Bldg. 28 cafeteria beginning at 5 p.m. Drawing for door prizes will take place in the school auditorium.

Test your knowledge with the questions below. Grade 10 for each question. If you score 60 you're "super"; 50—you are still remarkable; 40—not bad at all; 30—time to brush up!

(Answers on Page 4)

- How are films aiding folks taking correspondence courses of study?
 - The schools send a series of photos illustrating the subject being taught.
 - A Chicago radio correspondence school loans students a projector and 16-mm. films explaining principles of radio and electronics.
 - The school suggests certain feature movies which its students should see and study.
- How many Kodak people are members of the Eastman Savings and Loan Association?

6900	10,040	21,806	27,097
------	--------	--------	--------
- Approximately how many organic chemicals are manufactured by the Company?

423	864	1578	3000
-----	-----	------	------
- What is the name of the new Kodak booklet that advises amateurs how to take pictures from the air?
 - "Pictures From the Air . . . with Your Camera."
 - "Shooting from the Skies."
 - "Aerial Lensmen."
- What is the daily average consumption of water in the photographic manufacturing processes at Kodak Park?

68,000 gallons	436,000 gallons
9 million gallons	20 million gallons

Winter's Good Time to Snap Houses, For Heavy Foliage Is Lacking Now

If you have any architectural projects in mind—photographically, that is—this is an excellent time of year to launch them. The main reason is that there aren't any leaves on the trees to block the full view.

Perhaps you are having a house constructed or maybe it has just been completed. Pictures of it in the construction stage and at completion are nice to have later on. They show a fine comparison as you progress with your over-all program of shrubbing the land, the garden and any additions which you might make later.

Older Ones, Too

And even though your house is an older one, you'll want pictures of it, perhaps to send to friends or to keep yourself. In any event, you can get good shots of structures now when the sun is prolonging its visits and the leaves have yet to make their appearance.

Technically, it isn't much of a task to make pictures of any house. Make the best use of your light and use some method of "framing" your snapshot, if possible. The illustration today is framed nicely by the bordering trees. You can see, too, that the picture taker chose a moment when good, bright sunshine was striking the little church front and the steeple, making both stand out clearly against the dark blue of the sky.

Look for Shadows

It's easier to get a good picture of a home or other building on a bright, sunny morning or during the afternoon when the sun still casts long, interesting shadows than it is at noon when the sun is high and casts short, less pleasing shadows. You can see by the clock on the steeple in today's illustration that the picture was made at 3:55 p.m.

When making pictures of your home or any other building, don't make all of the shots distant views. The long shots are nice, but then

Snap 'em in Winter — This is an excellent season for picturing homes and other structures. Look at the rural area church in the illustration above and note how nicely it is framed by the leafless trees. Foliage would block the view.

move in for closer views of interesting parts of the building. Perhaps there is an attractive doorway or window or some nice dormers that have good picture possibilities. Pick your angles and shoot.

Thermount Iron Produced Again

Kodak's Thermount Iron, used for dry mounting amateur prints with Kodak Thermount Tissue, again is available. Featuring automatic thermostatic control, the iron is constantly maintained at the optimum temperature when plugged into any electric light socket. The iron will sell for \$6.75 at all Kodak dealers.

Foster to Show Films

Charlie Foster, KO Industrial Photographic Sales, will show his Kodachrome movies of Florida at a public lecture at the Rochester Museum Sunday afternoon, Mar. 7. Foster, who holds a research fellowship in color photography given by the Museum, will feature in these movies the flowers of Florida and snake and crocodile farms.

Bill's Big Moment — Bill Jones of the KP Industrial Engineering Dept. is shown, second from right, as he appeared with the "Aldrich Family" when they made their appearance in Rochester. From left are Ezra Stone, "Henry"; Jackie Kelk, "Homer"; Judy Abbott, "Agnes Lawson"; Kay Raht, "Mrs. Aldrich"; Jones as "Mr. Kilmer," and House Jameson as "Sam Aldrich."

Park Man Hits 'Big Time', In Bit Part with Aldriches

"Coming, Mother!"

On that familiar theme, Bill Jones of Kodak Park's Industrial Engineering Department made his debut on radio's "big time," a coast-to-coast broadcast of the "Aldrich Family" program.

The popular skit originated in the auditorium of Station WHAM's new Rochester Radio City on Feb. 20 as part of the dedication week ceremonies.

Bill has made an interesting hobby of amateur theatricals for several years, being heard in many radio productions. He successfully negotiated local tryouts for special roles in the NBC feature, landing a small part as "Mr. Kilmer" in another of the amusing adventures of "Henry" and "Homer."

Rehearsing with the original New York cast was, according to

Jones, a genuine thrill. All the principals were on hand, including Ezra Stone as "Henry," Jackie Kelk as "Homer," Judy Abbott as "Agnes Lawson," and House Jameson and Kay Raht as "Mr. and Mrs. Aldrich."

Following two rehearsals during the day, Bill came through with flying colors in the two evening broadcasts, a late edition of the show being aired for West Coast listeners.

Radio Career

After graduation from Notre Dame in 1932, Bill entered the radio field, writing copy and conducting a breakfast show in Elmira before coming to Rochester where he took over chief announcer's duties with a local station. He has handled narration and acted out small parts in training movies produced by KO Informational Films, since joining Kodak. His dramatic ability earned him roles with the Black Friars' Guild and the Community Players and later with Station WHAM where he is heard weekly on the New York State Troopers' programs. Measuring his success by the parts he has been called upon to play, Bill feels that he has come into his own now that he no longer portrays the criminal or vicious type.

"It's decidedly a change for the better, both for me and the radio audience," he admits.

A gunnery officer in the Navy during the past war, Bill saw service in both the Atlantic and Pacific theaters.

Service Dining Room Boasts Modern Design

The latest in cafeteria design and equipment is provided for Kodak Park people in the new service dining room in Bldg. 28. Located on the main floor of the new cafeteria and recreation

building, with entrances on Ridge Road West, the dining room is equipped to handle approximately 400 persons at one sitting. A staff of 40 waitresses, under Supervisor Mary Borden, is on hand.

Flanked by two solid stainless steel doors, the dining room, done in light green and tango red tones, features indirect lighting throughout, with an attractive alcove lined with leather lounges and displaying a large and colorful mural.

4 Service Stations

Four service stations, embodying built-in water fountains, cupboards and drawers, are placed conveniently around the main pillars in the room, allowing prompt

attention to patrons. The semi-circular design of cashiers' booths, enhanced by ornamental glass cylinders, lends an added modern touch to the decor.

Flowered drapes overhang Venetian blinds at the windows to match the general color scheme, while a ceiling-high folding door separates a party room at one end of the area from the main section of the dining room.

A corrugated structural glass partition at the other end of the room encloses a well-appointed business office occupied by Supervisor Borden. Just off the main entrance is an inviting ladies' lounge, furnished with powder stands and chairs, the latter trimmed with canary yellow leather. A magazine stand and table lamp complete the interior decorations.

Electric Kitchen

The big dining room is serviced by an all-electric kitchen which includes a stainless steel steam chef, mixing machine, steam kettle, workbench, a battery of short order and cooking ranges and two French fryers, as well as stainless steel broiler.

Also available are a service counter for hot and cold foods, bun warmers, coffee urns and ice cream cabinets and refrigerators. A service pantry adjoining the kitchen supplements the stock storage of other food specialties.

Present schedule of the new dining room is from 11:30 a.m. to 1:30 p.m. Monday-Friday.

Harry O'Hara Dies

Harry O'Hara, F.D. 3, died Feb. 24 after a long illness. He joined F.D. 3 on Aug. 7, 1939.

Gramlich Named

The appointment of J. E. Gramlich jr. as assistant superintendent of the plant's E&M Field Divisions was announced recently by C. K. Flint, general manager. N. Lee Hastings, formerly in charge of the Field Divisions, recently retired from active duty.

Old-timer spinning a wild tale: "While wandering through a small native village, I spotted a leopard."

Doubting youngster: "Aw nuts—they grow that way."

800 Girls Gather for Midwinter Festival

Fun Night for Girls—Here is a section of the crowd of girls attending the midwinter festival sponsored by the KPAA recently in the Bldg. 28 auditorium. Some 800 turned out for the dinner in the new Bldg. 28 cafeteria preceding the entertainment program that included several stage acts. Husbands and sweethearts of the girls arrived at 9 for dancing.

Dr. Miller Joins KP Medical Dept.

The addition of Dr. Charles I. Miller to its staff as a full-time member was announced recently by the Medical Dept., Bldg. 2.

A native of Rochester, Dr. Miller is a graduate of the University of Rochester and of its School of Medicine and Dentistry. He also serves as a staff member

of the Rochester General and Strong Memorial Hospitals.

Dr. Miller

RIT Co-op Student Turns Publisher With First Copy of 'Emulsion Press'

The freedom of the press is a real pleasure for Ed Teirlynck, a member of the Park's Emulsion Research Laboratory, Bldg. 3. Ed recently came out with his first edition of "The Emulsion Press," a single hand-labored sheet devoted mainly to interests of the department's basketball team.

A banner headline, "Bldg. 3 Whips Film Emulsion," catches the eye, followed by an account of the 49-47 triumph written in the best sports page style. True to form, there's even an ad on the page although it's doubtful if any of Ed's readers will profit from it. It reads: "Feet ache? Try Foster's Fuming Sulfuric Acid Bath and get rid of those tired dogs. 10c size only 25c."

A co-operative student at Rochester Institute of Technology where he is majoring in chemistry, he wrote many articles for the Charlotte High School yearbook while a student there.

As a hobby, the idea of printing a paper intrigued him for a long time. With no circulation problems to plague him, Ed is pondering his next edition, studying the pulse of his small journalistic "beat."

It's in the Park: Bob's Valentine Is Baby Girl . . . Ski Trails for Greg . . . 25-Year Medal . . . Sprague's Off to Mexico

When George Hinch, Printing, observed his 40th service anniversary at the Park recently, more than 200 friends attended a dinner at DeMay's in his honor. Jim Ellinger, acting as master of ceremonies, made a gift presentation to George. Horace Robinson, former superintendent of the Printing Dept., and two retired members, Charles

Jim Ellinger, general foreman of the Printing Dept., right, was master of ceremonies, and he's shown presenting gift to George Hinch at the latter's 40th anniversary party. At left is Horace Robinson, former head of Printing Dept., and next to him is Belle Ford of the arrangements committee.

Natt and Louis Leppa, were among the guests. Furnishing the entertainment were Ed Rizzo and Mrs. Gordon VanderStouw, Tony Lasaponara and Ray Parsons. Dancing followed the dinner ceremonies. On the committee in charge of the party were Wally King, Bob Shaw, Doris Cooper, Belle Ford, Jane Boyer and Phil Crelley. . . . Flowers were sent to Ann Burkhardt, Kodapak, to commemorate her birthday Mar. 4. Ann is on a leave of absence from the Company. . . . Vera Aab has been welcomed back to the Machine Shop Office. . . . Girls of the Baryta Dept. entertained former girl members of the department at Mike Conroy's Feb. 18. . . . Baryta men held a bowling lunch and card party at Grand-Webster on Feb. 21. Jean Crocker, William Fritz and Ken Francis furnished the evening's entertainment, with Milt Murnighan exhibiting his prowess at shuffleboard. . . . A wedding shower for Hazel Brinkerhoff, Machine Shop Office, was held Feb. 11 at the home of Janet Fox.

Clarence Meyer, Power, was toastmaster at the annual dinner of the Rochester Dahlia Society held recently at the Normandie. . . . George Porter, Kodacolor Paper Printing, Bldg. 65, took part in the recent Community Players' production, "Hope for the Best." . . . Edith Lee, Emulsion Coating, was presented a farewell gift by girls of the department office. She is leaving to take up housekeeping duties.

Her husband is Jesse Lee, a member of Kodapak, Bldg. 105. . . . Junior and senior troop leaders of Boy Scout Troop 50 met at the home of scoutmaster Lester (Buck) Brown on Feb. 13 where plans for a more active advancement program were discussed. The troop, which now numbers 61 scouts, will add more boys to its waiting list after Mar. 1, Brown announced.

William Arnold, Statistical Dept., and Mrs. Arnold are occupying their new home on Seneca Parkway. . . . Recently added to Dr. L. G. S. Brooker's staff in the Emulsion Research Laboratory was Betty Fisher who hails from Binghamton, N.Y. Betty majored in home economics at Syracuse University from which she was graduated in 1942. . . . Among the Central YMCA old-timers who gathered recently to reminisce at the 11th annual reunion of the Quarter-Century and Life Members Club was Pete Manhold, Accounting, who became a member in 1915. . . . Bob Arnold, Bldg. 203 Warehouse, received the best valentine of all, a baby girl born at Strong Memorial Hospital Feb. 14. . . . A recent visitor to the Paper Mill was Jack Carmichael who retired in 1946. Jack is back in Rochester after spending some time in Florida.

Bill Reeves

Gregory Smith, Gelatine, has returned from a week of skiing at Lake Placid where the temperatures varied from minus 30 to a high of 43 degrees. Even an injury which necessitated two stitches failed to keep Greg off the trails. . . . Marian Herzog, Export Billing, was entertained at a bridal shower by girls of her department prior to her wedding on Feb. 7 to Jerome Van Dorpe, F.D. 7. . . . Mr. and Mrs. William H. Zimmerli,

Wood Cellulose, have returned to Rochester after spending two weeks in Florida. . . . Jay Alexander, who recently retired after completing 35 years in the Silver Nitrate Dept., received a parting gift from his associates. . . . William Reeves, F.D. 6, who celebrated his 20th year with Kodak on Feb. 9, has at one time or another served with all of the Park's Field Divisions. He began his career in Bldg. 20 as a sheet metal worker.

Howard Gillan, Bldg. 26, addressed the Rochester Salesmen's Club Feb. 24 on the subject, "What a Purchasing Agent Expects of a Salesman." . . . A surprise party for Floyd King, general foreman of the Cotton Nitrate and Cotton Washing Depts., was held Feb. 12 in Bldg. 46 to celebrate his completion of 25 years with Kodak.

Richard Baybutt, asst. supt. in the Chemical Plant, right, congratulates Floyd King, a new 25-year man.

John H. Folwell, Chemical Plant superintendent, presented Floyd with his 25-year pin and medal and Robert C. Hall, Cotton Washing Dept. foreman, presented a gift on behalf of 65 of his friends and associates. Hall was assisted with the arrangements by Eleanor Judson and Wilbur Ohlrich. . . . The historic Granger Homestead in Canandaigua, N.Y., was the scene of a lovely St. Valentine's Day wedding ceremony when Janice Pettit, Industrial Relations, became the bride of James Gray, Industrial Engineering. A wedding breakfast for the immediate families was served at the original Dolly Madison table. . . . Mrs. Velma Luther and family wish to express their thanks to friends of Edward Luther for kindnesses during their recent bereavement.

Joe Lavin, a member of the P&S Dept. for more than 40 years, has returned to his duties after a lengthy illness. . . . A committee meeting of the Park's Boy Scout Troop 50 was held Feb. 4 at the home of James Galvin, Yard. . . . Friday, the 13th, was only 30 minutes old when Bill Johns, test inspector in Bldg. 29, slipped on an icy walk and broke his left arm. The boys are sending their regrets. . . . Richard Young, Power, addressed a meeting of the National Society of Power Engineers Feb. 17 on the subject, "Reduction of Industrial Power Costs." . . . Wedding bells are slated to ring soon for Estelle Kaufman, daughter of Sam Kaufman, composing room foreman in Bldg. 48. Formerly with the messenger guide staff in Bldg. 26, Estelle is now attending Genesee State Teachers' College. . . . Lerosa Brockman, P&S, was entertained at a shower Feb. 13 in honor of her forthcoming marriage. . . . Ken Marvin, head of the Package Engineering Service of Industrial Engineering, and Dick Holtz, KO Package Design, have returned from a recent market research survey through New York State and New England during which they discussed handling and merchandising with EK dealers.

Early vacationers in the Power Dept. are Oscar Sprague, en route to Mexico; Eldon Simmons and Harry Cobb, both now in California.

Estelle Kaufman

Rootin' for the Red Cross—Three of the leaders who gave the campaign of the Rochester Chapter of the American Red Cross a send-off early this week are shown at Kodak Office before the opening dinner. At left is William Turner Catledge, assistant managing editor of the New York Times, and right, Gen. Carl Spaatz, chief of staff of the U. S. Air Forces, with their host, Edward P. Curtis, EK vice-president and drive chairman.

Kodak Camera Club News

All those who have compiled points in color and monochrome competitions during the past year are reminded that they may submit their totals toward Merit Awards at the annual meeting in May.

Since the system was inaugurated, Leon Forgie and Bruce Kelley of Hawk-Eye and Lou Parker of Kodak Office have attained the Master Award (1000 points). Forgie and Lou Gibson, KO; John Mulder, KP, and Art Young, H-E, have received the gold medal for Expert Award (400 points). Silver medals for Advanced Pictorialist (200 points) have been given to Joseph Hale, Alton J. Parker and Ralph Sutherland of Kodak Park, and Gibson, KO. Holders of bronze medals for Pictorialist (75 points) are Harriette Archer, Charles Coppard, Joseph Hale, Clarence Meteyer and Roy Wood, all of Kodak Park, and Betty Haithwaite and Margaret Paprocki of KO.

The club has announced that it will refund salon entry fees to members who have slides or prints accepted in nationally-recognized salons. A total of \$10 to any one member will be refunded, with a maximum of \$5 in monochrome or color. Special Camera Club stickers should be attached to all prints submitted to salons and for which a refund is contemplated. Schedules of the award system are available upon request at the Camera Club, Bldg. 4, KP.

Don't miss the showing of Kodachrome movies by Dick Bird in the KO Auditorium tonight beginning at 8:15. Extra tickets will be available at the door.

With one exception, Kodak Park

colorists captured all the laurels in the Kodak Camera Club's February slide competition which featured 101 transparencies submitted by 30 contributors. The only non-KP winner was Charles Kinsley, KO, whose "Coke Ovens" took top honors in the advanced class. Second- and third-place awards went to A. J. Parker for his "Tranquillity" and "The House by the Road." John Mulder took fourth with "Fog Bound," and Harriette Archer's "Sand Writing" received honorable mention.

A child study by Ilmari Salminen entitled "Karen" was voted best in the beginners' group, with Raymond Shaw's "New York Skyline" and G. Stapley's "Palms" finishing second and third.

The ease with which a finished color print can be turned out was demonstrated recently by Adrian TerLouw, Gene Johnson and Norman Salmons of Kodak Office before an appreciative audience in the ladies' lounge of the new cafeteria at Kodak Park.

Rochester Visitors—Ninety members of the Professional Photographers Society of New York, Buffalo Section, visited KO's Professional Sales Studio Feb. 18. Pictured above, from left: William Muth, secretary; William Read, president, and Al Streitmatter, head of KO studio. Photographers from St. Catherine's and Welland, Ontario; Niagara Falls, Fredonia and Hamburg, N.Y., and Franklin and Lancaster, Pa., attended.

Comptroller To Visit EK Houses Abroad

Cornelius Van Niel, general comptroller of the Company, sailed for Europe yesterday aboard the SS America.

Purpose of his two-month trip is to discuss accounting problems with members of the Kodak houses abroad.

He will visit England, France, Belgium and Holland, and see several of the men who have visited Kodak Rochester since the war's end.

Van Niel and his wife, who is accompanying him, will visit several relatives in Holland, in addition to his transacting business there.

A group of Accounting and Comptroller's Office friends gave him a send-off at a stag party at Monroe Golf Club Friday. Tom McCarrick, assistant comptroller, was general chairman, and Brent McRae and Bob Miller headed the entertainment committee.

Van Niel

KP, CW Men Top Bowlers

Harold Rohrer, CW, and Frank Falzone, KP, topped the men, and Lois Korsch, KP, led the ladies last week in Kodak's pin parade.

Print Shop Veteran Completes 40 Years at KP

When a man is in tune with his job, there's no such thing as monotony. That's the confirmed opinion of George Hinch of the press room staff in the Printing Dept., Bldg. 48, who recently completed his 40th year with Kodak Park.

George stands solidly behind this philosophy, too, having operated a platen press during his entire 40 years of service. From its humble beginnings in Bldg. 2, he has watched the Printing Dept. grow to its present size, being a member of 10 years' standing when it moved its quarters to Bldg. 48 in 1918. Prior to joining the Park, he was employed by the Premo Works, then engaged in the manufacture of film packs.

George Reminisces

Hanford Landing Road, which still bisects the plant from Lake Avenue to Ridge Road, was just a buggy lane back in 1908, remembers George, and youngsters in the neighborhood were frequent visitors to the apple orchard which bounded the Park area. World War I found him in the U.S. Medical Corps serving in France.

An ardent sports fan, he has been active in the KPAA since its early days and only recently gave up bowling.

Cap's a 'Good Skate'

And Thereby Hangs a Tale—How He Joined Park

When it comes to telling tall stories, the boys in F.D. 7 can hold their own with the best of them. Here's their "whopper" dedicated to Herbert (Cap) Dean, who celebrated the completion of 40 years' service with Kodak Park on Washington's Birthday.

It seems that, while still in his teens, Cap was ice skating on one of the small lakes in Northern Canada. Set upon by a Wahoo Indian, he was chased all the way to Lake Ontario which was frozen solid for the first time in its history. A fast skater, he outdistanced his pursuer and arrived at Charlotte, tired and panting.

Stacks Fooled Him

Starting up Lake Avenue in search of transportation back to Canada, Cap noticed the famous twin stacks of Kodak Park on his right. He stopped at the main gate to inquire when the next boat would leave for the Canadian shore. He never did get his information because he was swept by the crowd into the Park proper where he has been stranded ever since.

A one-time lumberjack in the north woods before coming to Rochester, Cap has supervised pipe covering operations at Kodak Park for many years.

Friends in F.D. 7 presented a gift to him as a memento of his long-time service at Kodak Park.

Stranded—"Cap" Dean, above, erstwhile lumberjack, came to Kodak Park in 1908, quite by accident, where he is still "stranded." At least that's what the accompanying "tall tale" says.

Badminton Entries Due

Entries for the fourth annual invitation badminton tournament of the Kodak Office Recreation Club must be returned to Tourney Chairman Jane Moriarity, KO, by Mar. 9, in order that the draw for partners may be made.

The tourney, scheduled for Mar. 13 and 14 in the KO Auditorium, will attract Canadian entries as well as Buffalo, Niagara Falls, Syracuse and Rochester area players.

Play Saturday will continue through the semifinals in Class A-B and Class C, with the finals being played off Sunday afternoon. Men's and women's and mixed doubles are scheduled. A buffet supper will be served players Saturday night.

Jane Moriarity

(Questions on Page 2)

1. A Chicago radio correspondence school loans a projector and provides 16-mm. films for training the students in principles of radio and electronics.
2. According to the 1947 annual report, Eastman Savings and Loan Association lists 27,097 members.
3. More than 3000 organic chemicals are manufactured by Kodak.
4. The new Kodak booklet which offers advice on taking pictures from planes is: "Pictures From the Air... with Your Camera."
5. The average daily consumption of water at Kodak Park for photographic manufacturing processes is 20 million gallons.
6. Helen Carr of Kodak Park won eighth place in the T-U Women's Bowling Classic.

40-Year KP Vet—Pictured above at one of the platen presses he has operated for 40 years in the Printing Dept. at Kodak Park, George Hinch was feted by printing pals on his 40th Kodak anniversary Feb. 21, with a party at DeMay's.

Backstage at the Blood Bank

What Type? — Each donation of blood is checked and rechecked for grouping, to find its type—A, B, O, etc.—and its Rh. The technician in white above explains to Bill Moss, KO; Norma Smith, KP, and Casey Vermeulen, CW, the technique of oxalated grouping on a viewer.

KODAK folks got a look behind the scenes at the Rochester Blood Bank last week, in preparation for the visit of the Red Cross mobile unit to Kodak plants during March. They saw for themselves the precise care with which the blood given by donors is treated, identified and stored until needed to restore strength and life to someone seriously ill.

Round They Go — The tubes of whole blood are inserted in this centrifuge, which forces the blood cells to the bottom of the tube. Looking on are, from left, Dorothy Skelly, H-E; Moss, Vermeulen, Norma, and Bill Cushman, of NOD.

Checking Type "O" — Group O blood, that of the universal donor, undergoes an extra test to determine its strength. Here Dorothy Skelly and Bill Cushman study the process, which is performed to safeguard the patient who will receive the blood. All tests are made from the blood in the two tubes shown on the right of the bottle above. The third tube is cross-matched later with patient's blood.

Double-Checking — Blood specimens are checked again on the Boerner Rotator, above, to confirm the findings of oxalated grouping. Norma Smith studies the operation. The all-important information is recorded on the bottle, and the donor is notified of his blood type.

Plasma For Emergency — Plasma, which can be stored a long time and carried in emergency kits, is described here to Dorothy, Bill Moss, Casey, Norma, and Bill Cushman. Whole blood can be stored only 19 days, and after that period it is separated and the plasma and cells used separately. The separated cells are fractionated for making serums, cell suspension, and pastes with special-purpose curative powers recently discovered.

Blood Banking Hours

The Red Cross Mobile Unit will be at Kodak Park until Mar. 12; at Camera Works and Kodak Office Mar. 15-19, and at Hawk-Eye Mar. 23, 24, 25.

This Is the Bank — Standing in front of the giant refrigerated blood bank, Casey and Dorothy see the technician "put in storage" blood which is identified and ready for use. Here it remains until a doctor or a hospital summons its help for a needy patient. Then it's off to save a life—thanks to the donor!

CORNER ON Beauty

Nail Ails?

There's always a multitude of reasons why we women find it difficult to manage our fingernails. Everyone has her own nails (as revealed by a recent survey) and her own nail problems. But the primary objective should be to keep them looking nice at all times. How can this be done?

Let's start from scratch! First, grow nails that will not break or split upon the slightest provocation... washing the dishes, prying open a drawer or falling downstairs.

The fingernail (and we suppose the delicate toenail, too) can be toughened considerably nutritionally, avers Nutrition Adviser Win-tress D. Murray, by taking vitamin B complex capsules. Another treatment is the intake of much calcium and vitamin D, found in homogenized vitamin D milk.

Calcium Needs Help

It is believed in some circles that calcium alone will strengthen nails and teeth. This is not true, says the dietitian. "The body cannot use calcium without vitamin D." Because it is difficult to get this vitamin in our everyday food, a supplement in the form of sunshine or capsules should be taken (the latter is more prevalent in Rochester). But when the sky's flash bulb lights up, bask in its rays for half an hour or more. A sun lamp is effective, too.

They say hands are a clue to character... they're noticed almost as much as one's face. What a thing! To assist the situation, wash hands and wrists often in warm water with a mild soap. Use a hand brush to release the dirt and loose skin around the nails once a day. Dry thoroughly and push back cuticle with a towel.

Hands have few oil glands; therefore, apply lotion or cream frequently. Those elbows shouldn't be neglected either. Try lotion or lemon juice on them periodically. To protect patties, rub on this same lotion before performing household tasks... washing, sewing, preparing food, etc.

The Long of It

"Well-shaped nails kept short are more graceful than ones sharply pointed," says a beautician. True, very neat and nice. But we think long nails, well-shaped, are pretty too—if the work we do permits this "luxury."

If one uses polish, two fresh coats should be applied at least once a week—the latest fashion being, according to Vogue, the exposure—of moon and tip of nail. Outline moon horizontally and complete the application from here. Very light enamels with matching lipsticks are a part of the new look, too. To insure a longer lasting manicure, use a base prior to and protective coat after polish.

Other hints include (1) keeping cuticle soft with hand lotion; do not cut; (2) use of an emery board for filing in one direction, working from under the nail to form a gently curving oval, and (3) after manicure, massaging with hand lotion from wrists to finger tips.

Honest, your hands should be just lovely now! And if, as they say, your hands are noticed as much as your face, surely keeping them clean and in pretty condition should grab you a corner on beauty, ladies.

In the amazingly short time of three weeks, Margaret Baker of KO Medical, completed an Old Granny afghan as she saw it pictured in the Feb. 5 issue of KODAKERY.

Marion Byrne Edits Bulletin For N.Y. State Dietetic Group

A sigh of satisfaction, combined with a note of relief, could be heard in the Nutrition Dept. of Kodak Office last week. It was Marion Byrne, assistant nutrition adviser, who just has com-

Marion Byrne

pleted the first 1948 issue of the Bulletin of the New York State Dietetic Association, a quarterly publication of which she has been editor for the past three years. She acquired the unique com-

bination of editor and dietitian within a very few weeks. In March 1945, she came to Kodak and two months later was appointed to edit the dietitians' state bulletin by the executive board of the State Dietetic Association.

An eight-page paper, 8½ by 11 inches, its purpose is to carry news items of association members and keep them informed on progress being made in the dietetic field. Marion writes many of the articles; others are submitted.

The young lady had scratched the surface of journalism in her high school days when she worked on the school yearbook and bi-weekly paper. Tackling the state publication was a new experience.

Prior to joining this company, she attended St. Joseph's College in Emmitsburg, Md., and upon completion of her dietetic internship at St. Mary's Hospital in Rochester, Minn., she was chief dietitian for three years at St. Mary's Hospital in this city.

What They Wore—Many of the 800 gals at the KPAA get-together Thursday evening, Feb. 19, indicated they wholeheartedly approved of the features new in fashion... the ballerina skirt, the suit with belt and blouse sleeves, the long coat, the Gibson girl blouse with little black bow and three-quarter sleeves, and the padded hip-bustle dress. From left to right are Audrey Klippel of KODAKERY; Jean Ester, Employment Record; Elaine Farley, Sundries Mfg.; Genevieve Erdle, Bldg. 25; Bunny Smith, KPAA.

Kitchen 'Stylists' Use Tricks to Dress Salads in Spring Fashions

Salads that are attractive sell twice as well as those plain in appearance, assured Josephine Bemish Nolte, head dietitian at Hawk-Eye. Her observation proves that the dish which looks better tastes better, and in so concluding, the dietitian has listed some of the little tricks which can make any kitchen sleuth's salad the success of the meal.

One of the simplest and most appropriate means is the addition of the garnish. It's fun to see a salad topped with a stuffed olive, maraschino cherry, paprika or a sprig of parsley.

Time to Trim

Try using carrot sticks or carrot curls, coconut, sliced or deviled egg, gherkins, green pepper strips, whole or chopped nuts, whole or stuffed olives, celery curls, hearts of celery stuffed with cheese, pimento strips, evenly sliced radishes, watercress, mint leaves or fresh berries.

Delightful is the sensation derived from cheese. Used in the form of a square, crumbled in dressing, or stuffed into a celery stalk or heart, cheese will please the most critical gourmet. Shredded American or Swiss is delicate looking and tasty too, the dietitian

Salad Artists—Salad Maker Irene Clark (left), and Head Dietitian Josephine Bemish Nolte, H-E, know that the right combination plus a mere garnish makes the salad.

pointed out. Cheese balls rolled in nuts or chives are a treat.

The lemon, renowned for its fish association, has a colorful

appearance, making it an excellent trimming for salad.

Here is a unique idea. Try decorating by squeezing mayonnaise through a tube. Add coloring to heighten interest. Have you ever cut cooked beets into various shapes for variety? Other suggestions for salad attractiveness are pearl onions, capers, pickles, pomegranate seeds and aspic jelly in small molds.

Pep Up Cold Plate

Spring brings the artist of the ever popular cold salad plate into her own. "For eye appeal, choose cold-plate foods that offer a variety of colors, and thus," the dietitian said, "you are adding appetite appeal through color appeal."

"Texture appeal also is very important," she told. Combine soft with hard and so accomplish a pleasant texture variety.

Flavors ultimately perk up the cold plate. Include sweet and sour, bland and highly flavorful, seasoned and unseasoned.

Food servers continually are seeking foods or combinations thereof which are widely popular and used in a variety of ways. The salad is an inexhaustible target for experiment, a food which should be made appetizing, healthful and colorful.

Be Prepared—If you're going to discard that beat-up raincoat worn last year, now's the time to think seriously of the new one you will buy if the budget allows. Bernice Wolf of CW Dept. 98 models one of McCurdy's iridescent raincoats of acetate cellulose and cotton which boasts many attractive features besides the play on colors seen in the material... a flare back, large cuffs, roll-back collar, double pleat running into the pocket on either side, square cloth-covered buttons and flattering detachable hood.

The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD—NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

FOR SALE

ACCORDION—Wurlitzer, 12-bass, carrying case, \$50. Cul. 2505-J.
ALTERATIONS—Children's clothing made to order. Also buttonholes made by machine, 3½ cents each. Glen. 4856-J.

Leo O'Halloran, KP, Wins Kodak Singles

Check for Champ — Leo O'Halloran, who came up with a 695 total in Kodak's first singles handicap tournament last weekend, receives \$100 check from Cap Carroll, left, tourney chairman. O'Halloran, who competed in field of 800, also receives the President's Trophy, a wristwatch.

Bldgs. 23, 30 Cling to Leads In KP Departmental League

Bldg. 23 and Bldg. 30-West quints cling to top positions in both National and American divisions of the KPAA Departmental Basketball League. Gord Anderson's defending titlists had to go all out to subdue Bldg. 12, 47-42. Jed Bullock and Ray Thomas, with 16 and 12 points, respectively, led the losers, and Murray Belknap's 13 counters topped Bldg. 23. Film Emulsion dropped a thrilling 41-39 verdict to Bldg. 30. Wilson Pask canned 18 for Bldg. 30. Industrial Engineering con-

tinued its bid for the American division leadership by registering two wins. Pete Day tossed in 18 points in each fray as his mates downed Testing, 47-20, and upset Bldg. 14, 39-25. Emulsion Research moved up a notch in the standings by defeating Cafeteria, 53-20. Syd Gamlen's Engineers stayed in the thick of the National chase by posting a 29-23 win over Synthetic Chemistry's American Div. foes.

Brown Bags 20

In other games, Don Brown collected 20 points as the Emos downed Bldg. 14, 49-34; Synthetic Chemistry bounced back to throttle Bldg. 58, 44-31, and Testing, with four new faces in its lineup, beat Bldg. 58, 40-28. Standings:

CW Leaders Win Win 14th Straight

Mark up another win for the 49ers!

Johnnie Coia's undefeated cagers made it 14 straight last Wednesday in the CW Intraplant, nosing out Woodworth & Smith Bldg., 45-40. Coia, with 14 points, and John Bonacci, 11, and Don Borrelli, 10, sparked the Dept. 49 offensive. Lloyd Anthony and Barney Humphreys, with 11 and 10 markers led the losers.

Red Haight and Harry Steiner dumped in 32 points between them as Dept. 66 upset the second-place Dept. 25 outfit, 45-32. Dept. 11, paced by Chandler Burpee, who scored 14, subdued Dept. 23, 33-25.

The most useless exercise in the world is running into debt.

Sports Roundup

Gears Sounds Softball Call; KO Triples Deadline Nears

With spring just around the corner, the KPAA has announced that plans are under way for another busy season of activity in its Twilight Softball League. Managers of all teams which competed in the loop last season, as well as new outfits desiring berths, are requested to contact Harold (Shifty) Gears in the KPAA Office, Bldg. 28.

Finished Film, Bldg. 29 and 70-mm. clubs copped pennants in the American, National and International divisions, respectively, last year.

The second annual men's handicap singles tournament for the D. A. Babcock trophy will be held on the Ridge Hall alleys, Mar. 13, by members of the Park's Film Emulsion Coating Dept. An individual trophy as well as a leg on the permanent prize, will be awarded, with George Patterson defending the laurels he captured last year when close to 80 keglars took part. The event is limited to members of the department.

Deadline for entries in the KOC's mixed triples bowling tournament is Mar. 8. This year, for the first time, the popular threesome event will be run off at Webber Hall. Sunday, Mar. 14, is the date, with the shelling scheduled to start at 1 p.m. Two men and one woman comprise each team.

KAYPEE NOTES — Kitchen keglars successfully repulsed the challenge of the Bakery five in a special match rolled at Ridge Feb. 22, winning by a 300-pin margin. Joe Agostinelli posted a high 210 single, with Dick Nichols registering 199. . . . Jack Brightman's courtmen, Kodak Interplant champions, are scheduled to defend their "Y" crown against the city's best later this month. . . . Art Wren heads the challenge roster in noon-hour table tennis play in old Bldg. 28. . . . In a match game bowled at Sea Breeze, a quint made up of Fred Salt, John Bauer, Herb Bieber, Ernie Belcher and Bob Walter defeated Dick Deane, John Englert, Dick Parker, Fred Banham and Eddie McAndrews.

KP, KO Cop Final Games

Kodak Park completed an undefeated season in the Interplant League Monday night, downing Hawk-Eye 61-50, and Kodak Office won runnerup honors, edging past Camera Works, 58-50.

Hawk-Eye trailed by a slender 32-28 margin at half-time, but the Kaypees, led by Jack Solen, 24, Al McEntee, 21, pulled away in the second half. Tony Soler swished 17 for the losers, and was followed by Roy Blanchard, 11. Russ Brown and Bud Mayfield collected 9 each.

Ken Mason, with 15, and Dom Defendis and Art Frantz, 12 apiece, paced KO. CW's Johnny Coia registered 17.

Industrial Relations Ties for Cage Lead

A close race is in prospect in the KPAA Girls' Basketball League where the Industrial Relations five has pulled up with the Paperweights. The I-R girls upset Bldg. 12, 27-12, last week, while the Paperweights dropped a 2-0 forfeit decision to the Kodapests. Irene Lochner's 6 points paced the Industrial Relations outfit.

695 Total Nips Maynard Fox By Single Pin

Leo O'Halloran, a first-year league bowler from Kodak Park, won top honors in the first annual Kodak singles handicap last weekend at Webber Hall. The KP keglars, who crayed a 695 series, including a 142-pin spot, receives \$100 cash and the President's Trophy—a handsome, engraved wrist-watch.

O'Halloran, rolling with the 8 o'clock squad Sunday night, edged past Maynard Fox, another Kaypee keglars, who had posted a 694 total at 6 o'clock, to best Ed Clarke by a single pin. Clarke, also from the Park, won third place with 693. Fox receives \$75, and Clarke \$50.

Fourth-place money was won by Ben Regan, CW, whose 682 led the field prior to the Sunday shelling. Some 800 pinmen from KP, CW, H-E and KO competed in the classic.

Regan, who receives \$40, was followed by Norm Faber, KP, whose 676 placed fifth and wins \$30, while sixth place and \$25 went to Chuck Frisbee, H-E. Awards of the other top money winners, from seventh through 19th, ranged from \$20 to \$8.33.

Plant Winners Listed

Sharing top honors with O'Halloran, who, by virtue of his tourney triumph, led all KP bowlers, were Regan, Frisbee and Joe Ritz, high for CW, H-E and KO, respectively. This trio received \$25 awards each.

Special prizes went to Sam Kreason, H-E, whose 642 three-game total was the best scratch series of the tournament, and George Gillette, KO. The latter's 264 solo was the highest scratch single in the two-day pin-pounding.

Gillette, incidentally, fell one pin shy of tying Ritz for top KO honors, finishing with 654. A six-pin break on his last ball netted him a costly 154 third game.

Over 200 winners sliced a \$1125 prize melon. The prize recipients—including the top 19 and their scores—follow:

Leo O'Halloran, KP	162	194	191-142-695
Maynard Fox, KP	189	216	199-30-694
Ed Clarke, KP	202	201	179-111-693
Ben Regan, CW	189	147	233-113-682
Norm Faber, KP	191	183	212-90-676
Chuck Frisbee, H-E	192	191	190-101-674
Joe Gerow, CW	188	224	181-80-673
