

## Annual Report Reviews 1947 at Kodak

### EK Plans 1st Shipment Of Clothing

Sorting operations are under way this week preparatory to packing the first shipment of clothing for Kodak men and women in Britain and Europe.

The clothes have come from all four of the Company Recreation Clubs turned in by folks from the three plants and Office.

Myron J. Hayes, Kodak vice-president and general manager of Camera Works and Hawk-Eye, brought back a firsthand account of how badly clothing and food is needed in Britain and Europe when he returned recently from over a month abroad on Company business.

"I cannot emphasize too strongly the need for both clothing and food," he declared. "Here in Rochester we can't realize how desperate the shortage really is. Clothing is practically unobtainable and many families have been unable to get any since before the war."

"The CARE packages certainly will be a Godsend to Kodak families living on the very short rations necessitated by the limited food supply."

"I visited many of the homes. I know how great the need is. Kodak folks in Rochester have an opportunity of being of real service through their response to the appeal for used clothing and money for CARE food."

Due to the urgency of getting the clothing abroad as soon as possible, because of the need, it has been decided to send it as soon as a sufficient amount has been

### Kodak's Colorful Report

**New Look**—Kodak's annual report to its stockholders got that "new look" this year, coming out in a larger size and with a bright cover in color, taken from a Kodachrome original. The two Toms who had a great deal to do with getting it out, McCarrick, assistant comptroller, left, and Robertson, Public Information, right, are shown looking over one of the copies off the press. Kodak people who would like a copy of the report may obtain one from their division's Industrial Relations or Personnel Office.

received for a shipment.

The appeal for clothing thus far has met with a good response, but much more will be required to fill the need. Recreation club directors, who are heading the collection, expect the flow of clothing will increase as spring housecleaning gets into full swing. Kodak housewives probably will find in the storage places articles of clothing the family has outgrown.

Kodak folks, too, are turning in money in increasing amounts at the recreation club offices and other designated collection spots with which CARE packages of food are being purchased to be sent to Kodak people abroad. Much more will be required, however, if the need is to be met.

### Most Valuable Assets...

Tribute was paid Kodak people for their efforts during the year in the Company's annual report.

"In 1947," it says, "uncertainties in supplies, the difficulties of launching new products and similar problems were numerous and urgent. The manner in which the men and women of the Company responded to such pressures and problems is clear in the peacetime records that were achieved. While an annual report must, of necessity, deal largely with buildings, machines and products, the directors feel that among the Company's most valuable assets throughout the year have been the good will and good work of the men and women of the Company."

### Company's Operations For Year Highlighted

Operations of Kodak and its subsidiaries for 1947, covering its products, production, sales, research and advertising, are reviewed in the Company's 45th annual report to its stockholders, issued this week. The Company's financial report for the year was published two weeks ago by KODAKERY.

### ... Year Sees Many New Products

Kodak, during 1947, announced "new and improved products in all fields."

Foremost in the film and paper line were Ektacolor Film and the widely-acclaimed Kodagraph papers for business and engineering use Kodalith Ortho Matte Film and four new printing papers were others.

In the camera line the Company announced the Duaflex Camera and Kodak Master View Camera 4x5. The Kodascope Eight-90 Projector and Kodaslide Projector Model 1A entered the projector field.

In optics, the Company brought out the new Kodak Wide Field Ektar lenses and produced special lenses for television cameras and process cameras for graphic arts. The Company also introduced the completely automatic Kodak Continuous Paper Processor Model 1 for the photofinishing industry.

Television's strides were

matched by the Company's specially-designed 16-mm. motion picture camera, the first of its kind for recording television programs. Kodak also demonstrated a revolutionary rapid-processing machine for television, utilizing heated chemicals to cut per-frame processing to 45 seconds.

A new product of Tennessee Eastman Corporation—Tenite III plastic—entered the plastics field, and, in chemicals, new hydroquinone derivatives were announced and commercial-scale production was realized on several other chemicals. The Company also made two new yellow dyes available in commercial quantities, considered a major contribution to the dyeing of acetate fabrics.

Seven new and improved models of Recordak's basic line of microfilm equipment were produced in 1947, that Corporation's contribution to the rapidly-expanding field of microphotography.

### ... All-Time Records Achieved

Kodak's plants in 1947 achieved over-all production gains over 1946, and in many product lines—aided by improved techniques, new facilities and increased employment—set all-time records. Indications are, however, that in 1948 production should overtake demand in several film, camera and equipment lines.

At Kodak Park, production of film and chemicals established an all-time high, film output exceeding that of any previous year. An employment peak of 19,000 was reached during the summer. Among outstanding technological strides was the new method of

making silver-nitrate crystals in a few minutes, supplanting a process taking several days.

The total production of cameras and other photographic equipment was up more than 45 per cent above 1946 at Camera Works. Box and folding cameras were turned out in increasing numbers, production of precision cameras was far above any other year and Cine-Kodak output was at a high level.

At Hawk-Eye, production reached an all-time high for peacetime products. Here, new machinery and improved methods helped to achieve quantity manufacture.

(Continued on Page 4)

**Hubert Helps**—Hubert Myles of Dept. 63, Camera Works, really gave the collection of clothing for Kodakers abroad a big boost last week when he donated 30 new skirts and 20 dresses from a local dress shop's clearance of winter stock. Clothing of all kinds is being collected at each of the plants and Office by the recreation clubs, and contributions of money are being accepted for purchase of CARE packages for Kodak families in Britain and Europe.

## Earns \$1000 on First Idea Adopted

Arthur W. Bahr of the Roll Coating Dept. at Kodak Park rang the bell for \$1000 with his first idea adopted.

The Park man had presented several suggestions previously which did not click, but his latest idea topped all others in the second period at the Park.

Bahr's suggestion led to a change in the procedure of handling film support waste. Previously the cores of waste were unwound in the Roll Coating Dept. and sent to Recovery. Now the entire operation is done in the Recovery Dept.

Indications are that the Park is headed for a big 50th Anniversary Year, with \$8621.50 earned by suggesters in the second period alone. That makes a total of \$17,723.50 paid out thus far in 1948. It compares with \$13,164.50 for the same periods a year ago.

Of the 612 ideas reviewed in the second period, 598 were adopted. A total of 1546 suggestions was submitted during the period.

**Nest Egg**—Arthur W. Bahr, left, of Kodak Park, uses the \$1000 check he received for a suggestion to purchase U.S. Savings Bonds. He's shown here with Jim Killip, KP branch manager for the Eastman Savings and Loan Association.

## A black and white photograph of a man, likely a member of the Kennedy family, sitting in a chair and smiling. He is wearing a suit jacket, a vest, and a patterned tie. A small cat is visible on the right side of the frame.

The logo for the Kodak Quiz, featuring the word "KODAKWIZ" in a bold, sans-serif font, with a large question mark integrated into the design below the text.

1. How many pieces of equipment does one receive when he purchases the Kodak ABC Photo-Lab Outfit?  
5                      11                      19                      28
2. What are Kodak Ready Mounts?
  - (a) Metal frames used in the drying of negatives.
  - (b) Cardboard backing for prints so that they can be exhibited to the best advantage.
  - (c) Pressboard frames for home mounting of Kodachrome transparencies.
3. Approximately how many miles have Kodak Park drivers operated without an accident?  
400,000                      2,300,000                      5,000,000  
8,900,000
4. Dr. Hans T. Clarke, Kodak consultant, recently was honored with the:
  - (a) Ribbon of the King's Medal.
  - (b) The Croix de Guerre.
  - (c) Member of the British Empire.
5. What was the total amount of Kodak Employee Benefits in 1947?  
\$11,409,432                      \$19,302,756                      \$30,521,500
6. Name the Kodak girl who won the C. K. Flint trophy in the women's singles handicap bowling tournament this year.  
Ethel Reinhardt                      Elsie Pinz  
Mary Martin

A black and white photograph of a two-story white house with horizontal siding and a dark roof. The house features a central front door with a small porch, flanked by windows with dark shutters. A person is standing near the front steps. A paved driveway leads to the left side of the house.

**Our New Home**— Comfortably settled now, the Elmer Andrews of 172 Seneca Rd. are enjoying their new modified colonial home. There's Mrs. Andrews taking advantage of balmy weather to sweep off the concrete doorstep. Her husband, a Kodak Park man, had the comely home financed through an Eastman Savings and Loan Association mortgage. Note the spacious porch, large first floor windows and attractive second story shutters pierced with clover leaves. Builder Fred Reis is erecting other houses with attached garages in the same vicinity.

It's in the Park

# Jack Walsh Faces Dilemma ... Bill Roche Bakes a Cake

Enjoying a vacation in Florida after celebrating his 40th year with Kodak Park on Mar. 9 is **Bill Keller**, Paper Service. Bill received a gift from **Milton Fillius**, department superintendent, presented on behalf of his associates. . . . **Jack Walsh**, Machine Shop, has been busy of late denying rumors that he is another person of the same

Bill Keller, left, Paper Service, receives gift presented by Milton Fillius, department superintendent, marking Bill's 40th service year.

name who has been mentioned frequently in connection with a local school board controversy. . . . **Betty Lillibridge**, Time Office, is recovering nicely following an operation in St. Mary's Hospital. . . . The Rev. **Milton F. Arndt**, formerly of Roll Film Packaging, now is pastor of a church in Greece. . . . **Lloyd Javet**, Bldg. 25, who knows all the answers about baseball and basketball, recently worked the public high school sectional cage meet at the Armory. . . . **Ray Klee-hamer**, Film Emulsion Coating, has returned from a four-week trip through the South which took him to New Orleans for the Mardi Gras and to Florida for some deep-sea fishing. . . . **Phyllis Dunbar**, Tab & Folder, has returned for part-time duty after a long illness. . . . "Sparky" **Zubert**, Shipping, starred in the recent victory of the Kelly Celtics over the Detroit Pioneers in National Open Soccer Cup competition here last week.

**George (Hack) Krembel**, F.D. 1, has blossomed out as a table tennis threat following two noon-hour victories over the redoubtable **Harold (Shifty) Gears**, KPAA Office. . . . **Pat Garety**, back at her desk in the Time Office after a long illness, reports that her pet dog, Vic, a birthday gift from her department admirers last year, has outgrown the lap stage and now requires plenty of room to turn around in. . . . **William Roche**, Kodapak, displayed his culinary ability by bringing in a chocolate-covered cake inscribed "Happy Birthday to Leo" for **Leo Jensen**, also of Kodapak. Bill claims that baking is a hobby with the men in his family.

When **John Currie**, Metal Shop, recently reached his 25th milestone with Kodak, his friends rigged up a display over his desk recalling his years of night trick duty. To **Leonard Lang** goes the credit for the art work. . . . A farewell luncheon was held Thursday noon, Mar. 11, in the new service dining room for **Frances Mercury**, Bldg. 3, who is leaving soon on a trip to Italy. A gift of nylon stockings was presented. . . . **J. E. Gramlich Jr.**, recently appointed assistant superintendent of the E&M Field Divisions, was the dinner guest of his associates and their wives Mar. 6 at Monroe Golf Club. **William Hall** left acted as toastmaster for the post-dinner ceremonies during which "Red" was presented with several gifts. **A. R. Eckberg**, E&M Division superintendent, played host to the group at his home before the party. . . . Another interesting dinner party was held at the Chamber of Commerce on Mar. 5 where friends and associates of **Dr. Joseph B. Dickey** honored his recent appointment as associate director of research for Tennessee Eastman. Dr. Dickey was presented gifts by **Dr. E. B. Towne**, in addition to an "honorary degree" received from **William Neely** of Kodak Office. Dancing and refreshments followed the dinner. Serving on the committee in charge were Dr. Towne, Dr. Harry Coover, Dr. Emmett Martin, M. Susko, Ted Stanin and George Taylor.

John Currie of the Metal Shop got quite a surprise when he arrived at his department to find this display in observance of his 25th year with EK.

**Sam Tillman**, Printing, recently observed his 25th service anniversary with Kodak when members of the department enjoyed ice cream and cake at an informal get-together arranged in his honor. . . . **Syd Gamlen**, Engineering, was among the Central YMCA residents who assisted in canvassing Y members for used clothing to be sent to displaced persons interned in the American Zone of Germany. . . . **Frank Humphreys**, Carpenter Shop, Bldg. 23, received a pinochle player's biggest thrill recently when he held a double run in a single deck during a noon-hour session with friends. . . . Fourteen members of Emulsion Melting attended a spaghetti dinner Feb. 27 at the home of **G. Merton Jinks** in honor of **Howard Van Saun**, who has left the Company to operate a photographic supplies store. . . . **Anne Zack**, Printing, was married recently to **Martin Chesler**. . . . **Charles Coomber**, Kodacolor, Bldg. 65, has been named commander of the Crane Engert Post, American Legion, in Walworth, N.Y. Second vice-commander is **Darwin Reed**, Yard Dept.

# Suggesters Earn \$8621 in 2d Period With High Single Award of \$1000

(Other picture on Page 1)

Suggesters at Kodak Park appear to be headed for another banner year. The Suggestion Office reports that \$8621.50 was paid out for 598 adopted ideas in the second period.

Of 1546 suggestions submitted during the period, 612 were reviewed and 598 adopted. Comparison figures show that \$17,723.50 already has been paid out in 1948 against \$13,164.50 for the same time last year.

## \$1000 for Bahr

Arthur W. Bahr, a member of the Roll Coating Dept., posted the highest award of the period, \$1000. It was his first adoption. His suggestion led to a change in the procedure of handling film support waste. Whereas cores of waste were unwound in the Roll Coating Dept. and sent to Recovery, they now are sent to Recovery for the entire operation.

A Paper Mill member, **Kenneth J. McGowan**, received \$600 for an idea concerning the use of a metal control device in chemical measuring tanks.

## Cloth Changed

**Albert N. Fagg**, Cine-Kodak Processing, earned \$500 for a suggestion which resulted in a change in the type of cleaning cloth used in the department.

Several changes in the layout for taping and inspecting reels, proposed by **Aubrey C. More**, Bldg. 48 General, led to the replacement

\$600 Idea — Kenneth J. McGowan of the Paper Mill received an award of \$600 in the second period for his idea dealing with use of a metal control device in chemical measuring tanks.

of a hand-operated type of dispenser by a foot-operated unit to effect a saving in production time. His idea brought him \$250.

Three men were awarded \$200 each for their ideas. A suggestion by **James Powers**, Film Emulsion Coating, scored by pointing out that some materials formerly discarded as waste in the P&S Dept. still are available for use. A new method of packaging orders for chemicals, submitted by **Neal Waringa**, P&S, eliminates several handling and repacking operations.

**William E. Auten**, F.D. 1, designed and built a hoist which is being successfully used in the erection of overhead steel members.

**Clifford R. Short**, Roll Film Slitting, and **John Zurowski**, Reel Manufacturing, received \$100 each for their ideas. Short recommended elimination of a film defect test which was found to have been superfluous and Zurowski altered the design of dies used in the manufacture of vest pocket reels.

## Checks for 65 Women

Topping the Park's women suggesters, 65 of whom are cited on the winners' list for the period, is **T. Joan Solarek**, Garage. Her proposal had to do with an accounting procedure. She was awarded a check for \$90.

The Cine Processing Dept., abetted by 27 winning ideas from various Processing Stations, led the plant with 131 adoptions.

## Charles Battersby Dies

**Charles E. Battersby**, Paper Mill, died Mar. 8, after being out ill since last Aug. 21. A member of the Pioneers' Club, he started in the Paper Mill on May 5, 1919, transferring to F.D. 3 in 1928 and to the Paper Mill, Bldg. 62, on July 10, 1931. Two brothers, **Ervin T.**, Projection Lab, and **Francis J.**, Warehouse, are at the Park.

All for Fun — These Troop 50 Scouts and leaders planned the spring frolic held last Monday evening in Bldg. 28. From left, Patrol Leader David Gillan; Scoutmaster Buck Brown; Patrol Leader Thomas Athanas; Harry Paddock, troop committee chairman, and Clayton Alt, assistant scoutmaster.

# Scouts Enjoy Spring Frolic

Fun galore was provided when the Park's Boy Scout Troop 50 held its spring frolic in the old Bldg. 28 auditorium on Monday evening, Mar. 22.

The program began at 7:15 and included round and square dancing, community singing, a quartet and sound movies, topped off by refreshments served by the Scouts. Several KP families acted as a reception committee.

Planning the affair were **Harry Paddock** and **Clayton Alt**, Bldg. 26; **Earl Happ**, Safety; **John Braund**, Bldg. 42; **Lester (Buck) Brown**, Bldg. 34; **Albert Leusch**, Bldg. 18; **Art Loomis**, Bldg. 46, and **Silas Hulse**, Bldg. 14.

## Trustee Candidates

Wright Robert E. Wright, Bldg. 65, and Astrid Wallace, Bldg. 6, are among the candidates for trustee on the slate in the KPAA election now under way. Their names were missing from their pictures in the last edition.

# They Scored in First Period

The following numbers represent the suggestions which were adopted in the first period of 1948 at Kodak Park:

## Company's Operations Told In 1947 Annual Report

(Continued from Page 1)

to rigid precision standards, of the most varied product line in the plant's history. Several new glasses of the rare-element type were introduced for finer lenses and the coating of glass surfaces was improved.

Production of most chemicals by Tennessee Eastman attained a new high during the year, aided by increased facilities. Plastics produc-

tion was only slightly under 1946, despite industry-wide drop in demand due to inventory adjustments. The year saw a new plant for production of Teca, acetate staple fiber, begin operation.

The Company's plants in England, France and Australia operated at capacity during the year with a continuing heavy demand for products.

### ... Expanding Uses of Photography

Highest Company sales in history in 1947 were attributed to two factors—pent-up wartime demand and widening interest in and use of photography in its many expanding fields.

Picture-taking activity among amateurs was greater than ever; there was a marked upswing in photographic applications in business and industry; portrait and commercial photography was at a high level; radiography was used in the medical field more than ever before and photography in newspapers was given new emphasis.

Demand for color and black-and-white films continued strong, with sales of black-and-white roll films setting a new record. Kodachrome continued a leader in the color field, with the newer Ektachrome attracting an increasing market. Cine-Kodak films were marketed in greatest quantities ever and sales of X-ray film ex-

ceeded anything in the past.

Kodak's photographic papers continued high in popularity and a wide use of the Company's extensive line of prepared photographic chemicals prevailed.

Demand for Kodaks, Brownies, and precision cameras was high in 1947. Kodascope and Kodaslide projectors, filters, lenses, enlargers and units for flash photography were sold in large volume and accessory sales topped those of any previous year.

Sales of Koda and Teca, acetate yarn and staple fiber, reached an all-time high in a rapidly expanding market. Development of new types of fabrics is expected to open more apparel fields to their use.

Although demand for all plastics was under 1946, Tenite was being utilized by more and more molders who demand strength and quality. New sales records were set by certain dyes, chemicals and solvents.

### ... Advertising Program Extended

The largest reading audience in the Company's history was reached by its extensive 1947 advertising program carried on through the medium of 240 magazines and other publications to tell the story of photography and of Kodak products and services.

Photography's widening horizons in business, industry and science were promoted in advertising in appropriate trade and scientific media. Another special program, started during the year, emphasized that photography has become an around-the-clock actuality and that pictures can be taken day or night, indoors or out, in black and white or color. Other campaigns were devoted to value of picture-taking, to color photography, Cine-Kodak equipment, movie

making and to promoting photography in the juvenile field.

Among outstanding promotional activities for the year were the nation-wide Newspaper Snapshot Awards with 75 participating newspapers, and the National High School Photographic Awards which attracted twice the entries of the 1946 contest.

Specially-designed exhibits and informational and promotional films were other vital activities.

At Tennessee Eastman, advertising and promotional activities were accelerated in 1947, with emphasis on Tenite, TEC's plastic, whose industrial applications were promoted in a special campaign in metropolitan newspapers, and TEC's chemicals were advertised extensively.

### ... Research Reaches New Fields

In its never-ending quest for new products, new uses for established products and improved methods and techniques, with emphasis on high-quality production, Kodak carried out an active research program in 1947.

This was true, not only in Rochester and Kingsport, but also at the Harrow plant of Kodak Ltd., the Vincennes plant of Kodak-Pathé and the Abbotsford plant of Kodak Australasia.

The extensive program was pursued in its Research Laboratories, development departments and pilot plants by staffs of trained scientists and engineers.

Among the Company's contributions to the world of science during the year, as a result of its research, have been special photographic plates for use in nuclear physics and in the new 200-inch Palomar telescope, which is, in

reality, the world's biggest camera. In keeping with Kodak's policy of serving pure science, the first preparation of "isotopic" methyl iodide was completed last year.

At Tennessee Eastman, research and development of products and processes were stepped up during the year, directed especially toward new and improved textile fibers, plastic compounds and specialized organic chemicals. Among outstanding achievements was the development of a new all-purpose lubricant for acetate filament yarn, and progress was made in the synthesis of several basic chemicals. New techniques in the production of cellulose esters brought about higher quality and reduced costs.

The Company is planning considerable expansion in research facilities in Rochester and Kingsport, some of which is already under way.

Mike Farrell, manager of the Kodak Park Dusties' softball team last season, received a pleasant surprise recently when members of the team presented him with a gift. Mike will pilot the Dusty champions again this year.

Merton Buchholz, a member of the Chemical team in the F.D. 4 League, proved that a new ball can be the answer to a bowler's prayer recently when he pounded out games of 192, 197 and 202 for a 591 count.

## EK Pair Cops Vets' Title In Badminton

Veterans doubles championship in the annual Western New York Badminton Association tournament last Sunday was won by John Jung and Cliff Schmidt of the Kodak Badminton Club.

In the women's doubles Margaret Michlin, KO, and Alice Brown, Buffalo, annexed runner-up honors. This pair advanced to the finals before losing to Ethel Marshall and Bea Massman, Buffalo, who won the same title in the KORC Badminton tournament the previous week.

Jung and Schmidt defeated Phil Michlin, H-E, and Del Altenburg, Buffalo, 15-14, 15-3, in the vets' finals. Twelve members of the Kodak club participated in the tournament held at Niagara Falls Country Club.

Andy Andrews, KORC basketball commissioner, was the guest of honor at the KO Intraplant League's banquet last Thursday night. Andrews, working with Harry Irwin, KORC director, guided the league to a highly successful season in its first year. Ken Mason and his Office Penpushers—league champions—along with Fred Fogarty, KO Majors' coach, and Barney Pilot, KORC president, were among the special guests attending the affair held at the Mt. Hope Firemen's Exempt Club.

First foe of Kodak Park in its opening game of the 12th annual Central "Y" invitation basketball tournament Tuesday night was the East Rochester Merchants' outfit. Jack Brightman's Kaypees won the tournament last year.

Despite inclement weather, nearly 250 snipers turned out for the KPAA Gun Club's merchandise shoot last Sunday at the club's Beatty Road range. Thirty prizes were awarded on "lucky hits" in the trap and skeet competition. President Warren Stephens of the Gun Club reports.

Gene DeHollander, one of the leading skeet shooters in this area, was "hard luck" man in the shoot. Gene splintered four rounds of 10 birds each and added a skein of 25 more, only to miss out on the luck of the draw for a prize.

Bob Gillmor, who pastimes with the EWO five in the KPAA Friday B-8 loop, did the same thing with his weekly series totals, carding 430 three times in a row. Lucille Earls, former T-U Women's Classic champion, and one of the city's leading keggers, has joined Kodak Park.

### Durand-Eastman

The beautiful winter scene reproduced here is the work of Art Wignall, KP, and was taken at Durand-Eastman Park. Wignall first became interested in photography as a hobby in 1936, and has since been actively engaged in many functions of the Kodak Camera Club.

## Kodak Camera Club News

The Camera Club's spring term of educational courses in photography is scheduled to get under way early in April, with every indication of a heavy registration. A 12-week course in elementary

photography, finishing in June, will be given on Monday and Tuesday evenings. No prerequisite is necessary for this class. Color exposure and composition on Mondays and hand coloring on Tuesdays are also listed, the former to be of eight weeks' duration, and requiring full knowledge of the mechanical use of a Bantam or a 35-mm. camera. Special field trips are tentatively slated.

Practical photography, to be taught on Wednesday evenings, deals with the use of advanced equipment, paper development and printing methods and their application. Thursday evenings will be devoted to elementary pictorialism, which includes field trips, print discussions, composition and negative quality. A special course in nature and closeup photography will start Wednesday, May 26, with six meetings scheduled.

### CLUB CALENDAR

Apr. 16—Dinner meeting and color slide competition.

Apr. 21—General meeting, with Larry Keighley, chief photographer on special assignments for the Saturday Evening Post, as speaker.

Apr. 23—Dinner meeting and monochrome print competition.

Are you photogenic? Perhaps you could serve as a model during photographic classes and demonstrations. If interested, bring or send a brief description, including a recent picture, of yourself to Kodak Camera Club's headquarters in Bldg. 4, KP. Your applica-

(Questions on Page 2)

- There are 19 pieces of equipment in the Kodak ABC Photo-Lab Outfit, providing everything for basic developing and printing processes in the home.
- Kodak Ready-Mounts are pressboard frames for home mounting of Kodachrome transparencies.
- Kodak Park drivers have operated the Company's cars and trucks approximately 5 million miles without an accident.
- Dr. Hans T. Clarke, Kodak consultant, recently was honored with the Ribbon of the King's Medal for his scientific work during the last war.
- Kodak Employee Benefits reached \$30,521,500 in 1947, an all-time high.
- Ethel Reinhardt rolled 641, including her 129 spot, to win the C. K. Flint trophy in the women's singles handicap bowling tournament this year at Kodak Park.

tion will be entered in the files and you will be called when needed. Regular application forms will be mailed on request.

Additional instructors are also needed in carrying out the club's educational program. If you are interested in teaching some phase of photography and feel that you can qualify, send in your application for consideration by the Educational Committee.

All those who took part in print competitions during the past season are reminded that merit award points must be compiled and turned in to the club by Apr. 16 if they are to apply on 1947-48 records.

## Pride of the Press

**T**OPS in drama are many of the news photos chosen to hang in the 12th Annual Exhibition of the Press Photographers' Association of New York, now on display in New York City. Here are a few of the best, submitted by staff photographers on New York City papers.

## Suggestions... To Change Short To Long

Some women still are sticking to their "gams" and maintaining membership in the Just Below the

Knee Club. But to those finding that the pressure of today's styles has crept over them, the problem of getting more wear out of still good clothing is most prevalent.

Making a cap sleeve blouse from a short dress is a solution changing the entire effect of the original purchase. For girls who wish the same frock in the new length, however, here are several alteration suggestions.

So you have a good suit with a short skirt! If letting down the hem is only partially satisfactory, try opening up the waist band and lining with a stiff material. More room around the hips will be needed, so let out seams slightly. It also will be necessary to move the zipper up. It's a major operation, but in the long run, won't it be worth it?

### Try Taffeta

One Kodak girl found that adding a band of colorful taffeta to the skirt of a black dress, and carrying the idea further by putting a matching taffeta bow at the neck, made a new look out of an old. Another spruced up her short wool-jersey dress with the same trick; however, she used black faille instead of the taffeta. Adding material to the hem is a neat idea with which several variations can be made to suit your particular dress.

How 'bout transforming a suit into a suit dress by attaching the skirt to the hip-length jacket? One girl did and likes it.

Last suggestion is the insertion of a band of material into the body of the skirt or at the waist. For example, a white wool can be made long, and stunning at the same time, by inserting into the skirt a candy-striped material cut on the bias.

Any other ideas?

### Creates Own Bonnet —

Every year at this time Florence Stomczewski of the KP Package Engineering Dept. designs and constructs her own Easter bonnet. Florence's pretty creation for 1948, as she models it above, is a picture hat with a brim made of Kodapak. The open crown is smothered with clusters of purple violets and green leaves. A small orchid satin bow sits on the back of the crown and two wide satin streamers which tie under the chin complete the attractive headpiece.

## Make 'em Yourself

If your lampshades are soiled, worn or faded, why not slipcover them.

A direction leaflet for making this slipcover also gives instructions for making two other designs. It can be had free in your KODAKERY Office.

## Is Your Rug Leading a Clean, Long Life?

### Spot the Spot With Right Remover

"Snug as a bug in a rug," is the way Mohammedans felt about their luxurious Persian rugs. They used them as sleeping bags on their long treks to Mecca.

Most of us today have no apparent inclination to curl up in one, rather prefer using it as a floor covering.

How to maintain the appearance of a rug or carpet is a timely topic today. These floor "cushions" are in such great demand that manufacturers are not able to meet it. The condition exists as a result of limited production during the war. By 1949, however, a multi-assortment is expected to be available.

### Spots Before Your Eyes

Meanwhile, we gals have to be shoving furniture around over holes of sundry origin. And of course, there's always the problem of spots—spots of all types and sizes. Here are some helpful hints on how to remove them:

1. Scrape up spilled food with a spoon. Most food spots may be flushed out with warm water. Greasy foods will require a solvent (such as carbon tetrachloride, Carbona or Energine). Always blot a wet spot dry with towel or cloth.
2. The greatest enemies of rugs and carpets are unhousebroken children and dogs, particularly dogs. Spilled beverages too are common. Blot out immediately and flush with clear water. Use an old bath towel for blotting. If salt-bearing liquid dries into rug, color may change while spot remains. Remove by diluting one part of Carbona soapless lather with five parts of clear, lukewarm water and add about three tablespoons of white vinegar to each quart of liquid. Saturate spot with solution and allow to stand for a few minutes.

utes. Blot up and repeat until discolor is removed.

3. Remove wet paint with turpentine, followed by a solvent. Remove dry paint by softening spot only with liquid paint remover; scrape off, follow with turpentine.

4. In past years, the greatest disfigurer of hotel-bedroom carpets has been ink, which often was shaken upon the floor by guests testing the old-fashioned pens on the desks. Ink and iron rust should be flushed out with water and blotted with a soft, dry cloth. Some inks cannot be removed. If stubborn, try ink iradiator No. 1 solution, available at stationery

counters, or oxalic acid solution, saturated. Always flush well with clear water.

5. Blood should be flushed out with cold water before blood dries.

6. Chewing gum should be moistened with carbon tetrachloride and worked loose with a teaspoon.

7. Candle grease is most easily removed with Stoddard's solvent.

8. Soot or imbedded dirt spots may be taken out without damage to the wool or colors by using a quick-evaporating cleaning fluid. Be sure entire rug does not need to go to the cleaners; otherwise the spots you work on will be noticeably brighter and lighter.

### On the Spot

Al Walker of KP Wood Cellulose Dept. looks on with interest as his wife efficiently removes a spot from the carpet in their home. She finds that quick removal with the right solution adds longevity to the carpet.

## Scoutin's Fun, Tells Estelle

The 36th anniversary of the founding of girl scouting in this country, celebrated Mar. 12, was

observed with more than passing interest by Estelle Wiemer of Hawk-Eye's Cleaning and Inspection Dept.

A first class scout and assistant scout leader for a number of years, Estelle devotes much spare time to the activity.

She joined Troop 40 of this city in 1940 and later transferred to Troop 58 as an intermediate scout. She soon advanced to senior patrol leader and became an assistant leader when only 18.

The Hawk-Eye girl has taken a tramping and trailing course qualifying her to teach nature study when the troop goes camping for a week outdoors during the summer. "The camping trips are financed by the girls themselves," she says, "by working throughout the year on such projects as conducting paper drives, presenting a Christmas play, and selling seasonal cards. The proceeds go into the camping fund."

Estelle feels well-rewarded for time and effort put into scouting by the enjoyment she gets out of working with young girls.

Estelle Wiemer

## Spring Unwelcome To H-E Girl— Likes Icy Weather

Contrary to popular thinking, the coming of warm weather is not a welcome thought, at least to Hawk-Eye's Helen Callipare, for it means hanging up her ice skates for the season.

Helen is the sister of Tony and Paul Callipare, well-known Rochester speed skaters, and is anxious to follow in their footsteps in Western New York speed skating circles. Although she has been skating for the past 10 years, this season was the Hawk-Eye girl's first try at competitive racing.

During the past season she competed in the Women's Division in two meets. The first was for the Rochester championship at Cobbs Hill in which she came in second in the 440-yard race. On the following weekend she traveled to Jamestown, where she captured second place in all three races in which she was entered—the 220-, 440- and 880-yard races.

Next year the H-E girl intends to have made for her a pair of special speed skates, and, with an early practice start, hopes to turn second-place finishes into firsts.

Helen Callipare

**KODAK OFFICE**  
Mary Conroy, Repair Factory, to Henry White... Lillian Russell, Repair Factory, to Arthur LaForce, KP.

## Marriages

**KODAK PARK**  
Lerosa Brockman, P&S, to John Beattie.

**CAMERA WORKS**  
Marian Oppel, Dept. 63, to Michael Falco, Dept. 33... Dixie Valinus, Dept. 14, Bldg. J, to Casimer Nowack.

**HAWK-EYE**  
Rosemary Damia, Dept. 26, to Raymond Dee.

**KODAK OFFICE**  
Kay Laing, KP Bldg. 30, to George Bartlett, Shipping.

## Births

**KODAK PARK**  
Mr. and Mrs. Jerry A. Storry, a son... Mr. and Mrs. John F. Schultz, a son... Mr. and Mrs. Samuel D. Taylor, a daughter... Mr. and Mrs. William Connelly, a son.

**CAMERA WORKS**  
Mr. and Mrs. Stanley Malmgren, a son... Mr. and Mrs. Fred Freemesser, Jr., a daughter... Mr. and Mrs. Roy Underwood, a daughter... Mr. and Mrs. Ted Mosher, a son... Mr. and Mrs. Frank Culotta, a son.

**HAWK-EYE**  
Mr. and Mrs. Carl Nortier, a daughter... Mr. and Mrs. Don Felter, a daughter... Mr. and Mrs. Harold Pyritz, a daughter... Mr. and Mrs. John Miller, a daughter.

**KODAK OFFICE**  
Mr. and Mrs. Carl Shinneman, twin boys... Mr. and Mrs. Carroll Casey, a son... Mr. and Mrs. James Perry, a son... Mr. and Mrs. Don Neufelgie, a son... Mr. and Mrs. Joe Demchok, a son.

**Tulip Time** — Elaine Fischer of the KO Market Research Dept. models a chic suit and hat from Edwards. Reasonably priced, the beige outfit features a scalloped collar accented by stitching, a column of brown glass buttons, stiffening in the front panels of peplum and gored flare skirt. Tulip plant is from Blanchard's.

## Red Cross Slates Cooking Classes

Two classes in basic cookery will be held Wednesday evening, Mar. 31, and Thursday evening, Apr. 1, announces Mrs. William P. Allen, Red Cross nutrition chairman. To register, call Red Cross Nutrition Service at Main 7420.

"The business girl, the new homemaker and the June bride will find the course particularly helpful," said Mrs. Allen. Class members prepare various types of foods and learn the scientific methods back of basic recipes. Something about table setting, food buying and kitchen management also is taught.

## A-Hinting We Will Go

**LUNCH TRICK**—If you cut a section of the paper plate along with the pie next time you pack a lunch box, the pie will be less apt to crumble.

**TEMPER-SAVER**—Instead of losing your temper and shaking the life out of your toaster, try using a soft toothbrush to get the crumbs out. Don't shake it up and down.

**ALREADY SOAPED** — Place a small hand brush, bristle side up, in the soap dish. Keep the soap on top of the brush and when you need to use the brush it already will be full of soap.

## The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD — NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

### AUTOMOBILES FOR SALE

Ford, 1931 Model A coupe. Also 1937 Ford tudor. 46 Braddocks Rd., Braddocks Hts. evenings and Sundays.  
Plymouth, 1936 tudor sedan, new plugs, clutch, muffler, tail pipe, \$275 or best offer. 77 Strathmore Dr., Char. 0838-R.  
Oldsmobile, 1938. St. 5846-L after 5:30 p.m.

### FOR SALE

BABY CARRIAGES—Two. Also Westinghouse cabinet radio; baby's high chair. 102 Maria St. after 5 p.m.  
BED—Cot size, complete with spring, \$40. Also casting rods, American Fork & Hoe, pistol-grip type, \$12. Gen. 1869-J after 6 p.m.  
BED—DAVENO—Simmons. Also 3-pc. fiber porch set. Gen. 2749-M.

BED—Single, brown metal, complete. Cul. 4611-R after 6 p.m.  
BICYCLE—Boy's. 822 Norton St. evenings.  
BICYCLE—Boy's, \$10. H. Shorter, 110 Breck St.

BICYCLE—Boy's Roadmaster, balloon tires, \$20. Cul. 4225-J.  
BICYCLE—Girl's, balloon tires, accessories. Gen. 5491-J.  
BICYCLES—Two, boy's 26", \$10 each. Char. 0178-J after 5 p.m.

BIRD CAGE—Metal, with standard, \$7. Also Shoo-Fly, \$3. Gen. 6383-M, after 3 p.m.  
BOAT—Sixteen ft., Ed Long lake model with steering wheel and glass windshield, running lights, canvas cover, 16 h.p. Neptune outboard motor, \$300. Gen. 6187-W.

BOAT—Thompson, 14 ft., cover, oars, 5 h.p. motor, Williamson 4488 or KP Ext. 7190.  
BOAT—Twelve-foot weldwood and Neptune 5 h.p. alternate motor, \$140. 74 Wisconsin St., Sundays and evenings.

BUFFET—Cherry, breakfast. East Rochester 181-J.  
BUSHES—Red raspberry, Latham. Char. 1951-R.  
CAMERA—Bantam Special, f/2.0 lens, carrying case, filter, flash attachment, \$125. Char. 0994-M.

CARPET SWEEPER—Bissell, \$3. Also porcelain-top table. Gen. 6557-R.  
CHILD CARE—Young mother will take care of children in her home days while you work. Gen. 3012-R anytime.  
CHILD'S AUTO—\$3. 44 Briarcliff Rd., Char. 1319-R.

CLARINET—Symphony, metal, includes case and lyre. Cul. 1156-M.  
CLOTHING—Black persian lamb trim coat, size 12. Also lime print crepe and fuchsia dresses, size 11. Gen. 3469-W.  
CLOTHING—Boy's, age 6, brown suit, 100% wool, short trousers; green spring coat and cap; black raincoat; roller skates. Gen. 2693-M.

CLOTHING—Boy's blue 'tween spring coat, size 4; girl's snowsuit, size 2; navy blue tailored dress, size 16, \$3.50. Char. 2835-J.  
CLOTHING—Gray spring coat, navy spring wool suit, light blue silk 2-piece suit, all size 16. 95 Highland Pkwy., Mon. 5201-J.

CLOTHING—Lady's suits, one brown, one gray and white stripe, size 16 long. Gen. 4222-W.  
CLOTHING—Man's English gabardine topcoat, size 38, \$20. Char. 1248-M.  
CLOTHING—Man's suit, gray stripe, 2 pair pants, size 36. Also gray folding baby carriage. Gen. 6383-M after 3 p.m.

CLOTHING—Semi-dressy lady's beige suit, and off-white dress, both gabardine, size 10, for 5'2" or under. Gen. 2672-M.  
CLOTHING—Suits, dresses, size 16. Also suitcase with hangers. Char. 2782-J.

CLOTHING—Two spring coats, 2 winter coats, dresses, all size 12, 14. 187 Goodwill St., Gen. 5058-W.  
COAT—Aqua, black braid trim, size 14. Also formal, black net, size 14. Gen. 7140-M.  
COAT—Black shortie, mouton lined. Cul. 3179-W after 5:30 p.m.

COAT—Boy's spring, and cap. Also 2 Eton suits; coat-and-leggings set, for child 3-5 years; bathinette; reed stroller; little boy's suits. Gen. 4212-M.  
COAT—Chesterfield, size 16, brown. Shoes, size 7AAA, black. Gen. 4758-W.

COAT—Girl's, spring, with matching hat, rose, size 3. 359 Rugby Ave.  
COAT—Lady's brown gabardine spring, size 14. Also boy's two-tone brown sport coat, size 6. Cul. 2904-M.

COAT—Lady's, wool, deep wine. Persian lamb collar, size 14-16. Gen. 3787-J.  
COAT—Man's, tan gabardine twill, size 40, \$25. Char. 0067-R.

COATS—Girl's spring, two, one yellow with matching bonnet, size 3; one rose, size 4; boy's, gray spring coat, size 6. Also bassinet with stand. Hill. 1258-R.

COATS—Children's spring blue, size 8, \$10, red, size 7, \$12. Mon. 1846.

### FOR SALE

COATS—Two, black fitted, winter with silver fox collar, navy fitted, spring, both size 16-18. St. 4141-L.  
COOLERATOR—Top-icer, 100-lb. capacity. Also dining room fixture, 5 upright shades. Gen. 0814-J.

CRIB—Maple. Also chest of drawers and springless baby scale. Char. 1906-W.  
CRIB—Kroll, blonde maple, large size, and chest of drawers for child, \$35. Also high chair, training seat, playpen and pad, walker and tricycle. Char. 1879-R.

DARKROOM ACCESSORIES—Lighting equipment, timer, scales, \$25. Char. 1503-J, after 6 p.m.  
DAVENPORT—And chair, velour, \$25. 627 Clay Ave., Gen. 3790-W.

DAVENPORT—Colorful, striped, matching chair. St. 2674-R.  
DINETTE SET—Lined oak, 5-piece. Also white icebox, 50 lb.; occasional table. 29 De Jonge St.

DINING ROOM SUITE—Nine-piece, oak. St. 4631-X.  
DINING ROOM SUITE—Solid walnut, \$135. 277 Martin St. after 5 p.m.

DINING ROOM SUITE—Walnut, 9-piece, modern. 364 Birr St.  
DINING ROOM SUITE—Walnut, 9 pieces. Gen. 1707-W after 5:30 p.m.

DINING ROOM TABLE—Six matching chairs, dark mahogany, Duncan Phyfe. Also 9x12 blue Wilton rug with pad. Gen. 5724-W.

DOOR—Gumwood, single panel, finished with hardware, 30"x80"x1 1/4", \$12. Char. 0794-R.  
DOUBLE DESK—Flat top, mahogany. Gen. 0585-M.

DRAFTING SET—Keuffel & Esser, model 795-8 Minusa, \$25. Char. 0067-R.  
DRESS—Blue sheer, size 14 1/2. 437 Wellington Ave., Gen. 1459-J.

DRESSER—Mahogany, 3 1/4' wide, \$10. Gen. 5616-J after 6 p.m.  
DRESSES—Sizes 9 and 11, will do alterations. Main 3514-J between 6-7 p.m.

EVERGREENS—Ornamental. Also trees suitable for screening and windbreak, dig yourself. 560 VanAlstyne Rd., Webster 154-F-12.

FIELD GLASSES—German, 8x45. Carl Ballinger, 336 Lone Oak Ave., Char. 0956-W.  
FORMAL—Pink, size 10. Also gray silk suit, size 18. 318 Marlborough Rd.

FRIGIDAIRE—Apartment size, \$60. 1757 E. Ridge Rd., Cul. 7167.  
FRIGIDAIRE—Six cubic feet, \$60. Mon. 4905.

FURNITURE—Antique brass table, lamp. Also chrome kitchen set. Hill. 1773.  
FURNITURE—Drum table, golden cherry, \$15. 207 Whittington Rd., Cul. 6942-R.

## Paperweights Win Girls' League Tilt

The Paperweights loomed as winners of the KPAA Girls' Departmental Basketball League crown following their 15-4 victory over the Kodapests on the old Bldg. 28 court last week. Hazel Luce featured for the victors with 6 counters, and Marion Ellis scored all of the Pests' points.

Bldg. 12 girls were awarded a 2-0 forfeit victory over Industrial Relations in the other half of the scheduled double bill. Standings:

## KP Kegler Rolls Record 682

## Tops Statler's 681 for New Season High

Splintering the sticks to the tune of 682, James Weigand, KP kegler, established a season series record in Kodak bowling circles last week. Rolling with Field Division 4 in the KPAA Thursday "A" League, Weigand tossed games of 255, 226 and 201 to eclipse the previous three-game high by a single pin. Bill Statler, KO American wheel pin buster, who crayoned a 681 six-ply score in the early weeks of the 1948-49 campaign, held the record prior to Weigand's spree.

Cameron Jardine, KPAA Thursday "B" bowler, and Ralph Nicoletta, CW Saturday sheller, came up with 258 solos.

Among the women Kodakers, Madeline Lamb, of the KPAA 16-Team League, topped the field with a 226 effort.

Leaders in the various Kodak circuits last week included:

HIGH SINGLES LAST WEEK

## Johnston Crayons Three 145 Games

Alex Johnston, a member of the Bldg. 32 team in the KPAA Trickworkers' League, became eligible for the Triplicate Club recently when he rolled three consecutive games of 145 on the Ridge Lanes.

**Rack Up Record**—Although upset in the playoffs by Dept. 11, Johnnie Coia's Dept. 49 outfit, pictured above, established a record at Camera Works, breezing through a 15-game regular season schedule in the Intraplant Basketball League without losing a game. From left, front: Frank Orlando, Manager Coia, Dom Bocrell, Joe Galasso; rear: John Bonacci, Ray Bliss, Larry Marinetti, Dick Walker. Dept. 25 won the playoffs.

**Pin Tourney Victors**—Pictured in the above layout are winners of recent CW, KO and KP bowling tournaments. At top, Cyril Krenzer, second from right, and Frank Cullotta receive Myron J. Hayes and Newton B. Green trophies, respectively, from the donors, for first and second places in CWRC Singles Handicap. Ralph Welch, CW Industrial Relations supervisor, is in center. Lower left, winner of the second annual KPAA Men's Handicap Singles tournament and the D. A. Babcock trophy, Roger Abrey, receives his prize from Babcock, superintendent of the Emulsion Ctg. Dept. at KP. At right, below (l. to r.), are Pete Russi, Kay Flannigan and Louie Amann, winners of the KORC Mixed Triples event Mar. 14.

## Engineering Takes Over Lead In KPAA National Division

Bob Horn and Earl Hogan copped scoring honors last week as Syd Gamlen's Engineering hoopsters chalked up three wins to take the loop lead in the National Division of the KPAA Departmental circuit.

Following a 2-0 forfeit verdict over Cafeteria, the Engineers balked Testing, 42-33, and smothered the Emcos, 64-20. Film Emulsion and Bldg. 23 remained one-half game apart in the standings, the F-E crew taking a 2-0 forfeit win from Cafeteria, and Bldg. 23 tripping Emulsion Research, 47-34, as Ben Holloway and Murray Bellnap found the range for a total of 22 points.

John Young tallied 19 counters as Bldg. 58 defeated Bldg. 14, 48-26, with John Elwell posting 14 points for the losers. Stewart Knell rang up 15 for the Power quint as his outfit stopped Bldg. 14, 34-24.

**Bldg. 12 Swamps Bldg. 58**  
Ray Thomas' Bldg. 12 aggregation rolled up one of the season's biggest totals when it humbled Bldg. 58, 51-37. Ralph Abel's 12 markers for the losers was tops.

Standings in the American division remained the same, Bldg. 30 hanging on to its top berth by virtue of three wins—a 34-29 triumph over Emulsion Research, a 37-26 decision over Synthetic Chemistry, and a 48-33 bid over the Emcos. Starring in the triumphs were Wilson Pask, who registered 41 points for the series.

Jim Moyer's Synthetic Chemistry five stayed in the stretch drive by tossing a 32-24 upset at the high-flying Industrial Engineering outfit. Jerry Rauber led the scoring attack for the West gang, with Pete Day and Doug LaBudde shining for the losers.
