

Here's How — Gene Johnson of Camera Club and School Service, KO, in the left foreground, explains a problem in color work at a session of the first class at the Sales Training Center. Representatives of dealers, the group is being taught about Kodak products and how to sell them.

Sales Training Center Class Learns About EK Products

Kodak's Sales Training Center got under way officially last week with a group of 17 dealer representatives enrolled in the course on photographic salesmanship. The center, with Howard F. Kalbfus as director, is designed to thoroughly acquaint dealers and their salesmen with Kodak amateur photographic products and how best to sell them. Two "test classes" have been conducted, but this is the first actual conference of the program.

The course requires 10 days and covers a wide range of subjects aimed at giving a photographic background for successful selling and to outline the steps in photographic sales.

The classes will study all Kodak amateur photographic products sold through the dealer organization, including cameras, both still and motion picture, shutters, lenses, films, paper, chemicals, accessories and equipment. The center also will point out how to get the most out of sales promotion and advertising.

The curriculum is flexible to best meet the needs of those attending from different types of stores—camera, drug, department and specialty stores.

It is planned to have two classes a month, with the next one starting July 26, and to handle approximately 22 classes a year.

Lectures, informal talks, demonstrations, sales dramatizations, and group discussions are augmented by trips through the various Kodak plants to give a complete picture of Company products and operations. Each person will receive a training notebook containing outlines of lecture subjects and transcripts of discussions which "graduates" may use to instruct other store personnel. New

New Dietitian Class Arrives For Year's Study at Kodak

Eight young women have arrived here to compose the fifth Kodak class of dietetic interns. Four hail from the State of Pennsylvania. The others name Ohio, Idaho, Washington and Michigan as their home states.

Having just graduated from four-year college courses in nutrition, they are looking forward to gaining actual experience here in food administration. The one-year administrative course for dietetic interns is under the guidance of Nutrition Adviser Wintress D. Murray and fulfills the requirements the girls must meet to obtain membership in the American Dietetic Association.

From Pennsylvania are Jean E. Oliver of Greencastle, a graduate of Hood College in Frederick, Md.; Mary E. O'Neil of McKeesport, who was graduated from Seton Hill College in Greensburg, Pa.; Arlene J. Wagner of Stoytown, a Penn State grad, and Rose Marie Wagner of Hanover, also from the Pennsylvania State College.

Phyllis M. Bothe of Franklin, Ohio, claims College of Mt. Joseph in Ohio as her alma mater. Bonnie J. Kuehl is from the West. Her home is Genesee, Idaho, and she attended the University of Idaho. From Bremerton, Wash., comes Lois M. O'Neal, who was graduated from the University of Washington; Elizabeth Walker received her degree from Miami U., Ohio.

In Come the New — Ascending the steps of Kodak Office on the first day of their year's stay here are eight new dietetic interns. They are from left, Jean Oliver, Mary O'Neil, Arlene Wagner, Rose Marie Wagner, Elizabeth Walker, Bonnie Kuehl, Phyllis Bothe and Lois O'Neal.

ES&L Members' Savings Hit New High of \$17,240,754

The 55th semiannual report of the Eastman Savings and Loan Association, released this week, shows its assets stood at \$19,109,862 as of June 30 and the 35,971 participating members' savings increased to a new high total of \$17,240,754.

Approximately \$187,300, or 84 per cent of the net income, was paid or credited to members in dividends and \$35,900 was added to surplus and reserves to further strengthen the Association's financial position for the protection of its members.

311 Mortgages Approved

Mortgage records reveal that 311 loans amounting to \$1,431,467 were approved by the Association for the first six months of this year, compared with 270 loans of \$1,170,537 for the same period last year. These include FHA and GI loans as well as the regular ES&L mortgages. Currently, 2800 Kodak men and women are financing their home purchasing through ES&L mortgages, and the report shows that the ES&L has ample resources to help still others with home-buying loans.

Many GI's Helped

The GI loan activity continues at a steady pace, and over 450 veterans have been assisted in the purchase of a home since the inception of the GI loan program. These loans account for more than 20 per cent of the ES&L mortgage portfolio.

During the last six months, 134 ES&L members paid off their mortgages, attaining their goal of debt-free homes, a pride in achievement of which the ES&L shares with the homeowners. A particularly advantageous and convenient feature of the ES&L mortgage program is the payroll

Account Checkup — As Don Ross looks on, Elsie Dangler checks through some of the 35,971 Eastman Savings and Loan account cards at the ES&L's State St. office. The Association's June report reveals savings of these members have attained a new high of \$17,240,754.

deduction method employed for payments.

Home modernization continues at an ever-increasing pace, with more and more Kodak people using the Association's FHA modernization loans to finance their homes to the "new look." Loans have been made for a wide variety of purposes, ranging from the ordinary repairs to winterizing, summerizing and modernizing. Stressing quick service, the ES&L again offers convenient payroll deduction for repayment which may be extended over a three-year period.

116 Complete Program

During the first six months, 116 people have completed their savings program under the installment share account for a total of \$239,475. This program is designed for people with a long-range savings program for a down payment on a home, a son's or daughter's education, retirement, etc. Such an account, with regular deposits and dividends, at the annual rate of 3½ per cent, matures in about seven years. While only a portion

Exhibit Tells Graphic Story

Made to work together for every copy and reproduction requirement—that's the theme Kodak's graphic arts exhibit is stressing at the Mechanical Conference of the American Newspaper Publishers' Association.

The conference, which opened Monday, has brought 1000 mechanical superintendents of newspapers from all sections of the U.S. and Canada to Pittsburgh.

Kodak's exhibit ties together the Company's films, plates, papers, chemicals, processes and equipment, with particular emphasis on Kodalith Ortho and Kodalith Transparent Stripping Films, Kodak Panchromatic Plates, Kodalith Plates and Resist Paper.

Howard Gleason, who recently joined KO's Graphic Arts Studio after three years in Ohio as a graphic arts technical representative for the Company, has had charge of the Pittsburgh exhibit.

For Newspaper Photoengravers — Bill Brown, left, of Advertising; Howard Gleason, Graphic Arts Studio; and Bob Locker, Exhibits Div., give a final okay to the graphic arts exhibit viewed this week by delegates to the Mechanical Conference of the American Newspaper Publishers' Association. The sessions are in Pittsburgh.

Photo Patter.

Just Find the Right Angle And Your Picture Is 'Made'

The choice of camera position, experienced photographers learned many years ago, can make or break a picture. It is an all-important factor in obtaining proper emphasis, and therefore every picture taker should spend some time finding just the right angle.

Vary the Angle

Our illustration today, for instance, owes a great deal to the low angle from which it was taken. Without it, the figure of the girl wouldn't have been anywhere near as predominant. The whole composition easily might have changed. Also, some elements of the picture

Viewpoint — A pretty subject and a pleasing camera viewpoint add up to attractive snapshots like this.

which emphasize the breezy quality of the day, the natural charm of the girl, and the bright sunny warmth of the landscape might have been lost.

A knowledge of the possibilities of an angle such as this always makes it easier when one is seeking good snapshots. But don't forget that there are other good picture-taking angles, too. Certain candid photographers have learned, for instance, that it's easy to make "natural" looking informal portraits of their subjects by picturing them from the side—as they turn in response—or even from the back on certain occasions.

Take Your Time

Sometimes you don't have an opportunity to pick and choose just the picture-taking angle you'd like. In certain action snaps, for example, it's a matter of swinging into position and shooting before the opportunity is lost. Nine times out of 10, however, there is plenty of time to select the most pleasing shooting angle in advance.

Professional photographers seldom take just one shot of any subject. A good feature photographer on assignment usually will shoot five or 10 different angles to get the one outstanding picture required. You can employ the same technique when you have a subject that's really worth while.

So take the time to investigate all the viewpoints from which you might picture your subject. Study the subject from each viewpoint through the camera viewfinder. Shoot the angles which look best. Then, when the negatives are all developed, you should find at least one—and possibly two or more—which will make all the effort worth while.

New TEC Lab — This is an artist's sketch of how the Tennessee Eastman Research Laboratories will look when completed.

Work Starts On 2nd Unit Of TEC Lab

Construction work was started recently on the second unit of the long-planned Tennessee Eastman Research Laboratories at Kingsport, Tenn.

The new three-story addition is scheduled for completion in the summer of 1949 and will provide much needed laboratory space for research.

Work is already under way on four auxiliary buildings which will be a part of the research laboratories.

Completely Modern

Culmination of several years of planning and designing, the new lab will be one of the most modern in the country, providing TEC research chemists with some of the best facilities available.

The new building's design is flexible so that changes are permitted in partitions, equipment and mechanical services, without major construction or maintenance problems.

Construction Confab — These Kodak and TEC officials were under way for the new TEC Research Laboratories building. From left: H. G. Stone, TEC vice-president; Dr. C. E. K. Mees, Kodak vice-president in charge of research; James White, president of TEC; M. K. Robinson, secretary of Kodak; Dr. J. G. McNally, director of TEC research, and C. G. Dryer, TEC Laboratories manager.

TEC Revises Its Terminology—'Estron' Now Designates Yarns

Tennessee Eastman Corporation has announced that, in accordance with the revised terminology recommended by Committee D-13 on Textiles of the American Society for Testing Materials, it would employ the generic word "estron" to designate its cellulose ester yarn and staple fibers.

In announcing this policy, James C. White, president of the company, issued the following statement:

"Tennessee Eastman Corporation has long recognized the need for definite action to clear up the trade and consumer confusion which has resulted from calling by the same name—rayon—two such different fibers as regenerated cellulose and cellulose acetate. We are pleased, therefore, to note the recent action of the American Society for Testing Materials, the membership of which includes representatives of leading manufacturers, distributors, and users of textile products, in recommending that these two fiber types be identified henceforth by entirely different generic names.

"Under the definitions approved by the ASTM Committee on Textiles, the word 'rayon' is confined to man-made fibers composed of regenerated cellulose, such as those produced by the viscose process.

"For the cellulose ester fibers, such as cellulose acetate, the ASTM Committee proposes the adoption of the new generic name

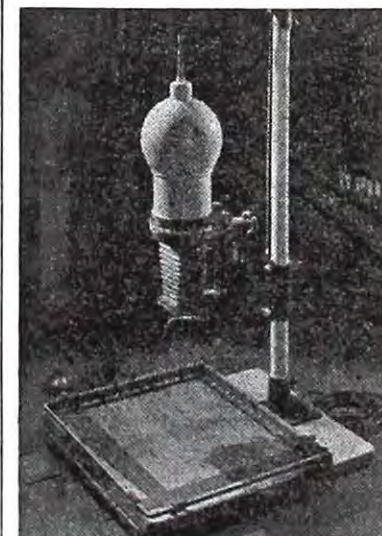

'estron'.

"Tennessee Eastman is wholly in accord with the ASTM recommendation that these two major types of man-made fibers bear different names, and believe that the specific terminology recommended by ASTM should be put into practice.

"Accordingly, Tennessee Eastman will in the future employ the term 'estron' in identifying its cellulose acetate textile fibers.

This is a:

- (a) Kodak Bellows Enlarger.
- (b) Kodak Precision Enlarger.
- (c) Kodak Miniature Enlarger.

Have a Nice Vacation, But . . .

BEFORE YOU LEAVE . . .

1. Think of the inspiration for some enterprising prowler if your house looks like you're vacationing elsewhere. Moral: stop milk and newspaper delivery and arrange for either the post office or a neighbor to hold your mail.

2. Remember that prowlers also look for such tip-offs as drawn shades, unlocked windows and doors, and grass in which cows would like to graze. A neighborhood boy would like the job of lawn-keeper.

3. Think of such precautions as shutting off gas and water at the main valves and electricity at the master switch . . . unless refrigerator or food locker is to be left operating; then disconnect lamps and appliances at wall outlets.

4. Check the car thoroughly and put first-aid kit and flashlight in glove compartment. And have you all your tire tools?

ON THE WAY . . .

1. Ahhh . . . on the way at last! BUT take it easy. Start a little earlier and don't try to cover too great a distance in a day. Long drives make you drowsy. Vary speed and stop occasionally to stretch your legs.

2. Be careful of passing on a mountain road. It's one of the most dangerous tricks tried. A good rule is to use the same gear in descending a grade as used in climbing.

3. Read signs and signals, which are not uniform in all states.

4. To gaze at breath-taking views in large doses, pull off the road and stop. It's part of your vacation to enjoy the scenery.

5. If you leave the children alone in the back seat, lock the doors.

6. Let train tracks be a warning to stop, look and listen. Never guess and take a chance.

AFTER YOU ARRIVE !

1. The primary purpose of a vacation is to r-e-l-a-x, but don't do it all in the sun. Apply a sun oil before sunning. Wear dark glasses.

2. Mother may have had three good reasons for telling daughter she could hang her clothes on a hickory limb, but not go near the water. There may have been no one to watch her; the water was too deep, or daughter had not let an hour elapse after eating before wanting to take a dip. Watch, too, for water that is too shallow in which to dive or which contains obstructions. Don't swim too far.

3. Distribute the weight evenly in boats. Don't stand.

4. Going to woodsy country? Don't sample berries, touch unfamiliar plants or drink impure water. Carry an insect repellent with you.

KODAKERY

Vol. 6, No. 29

July 22, 1948

T. M. Reg. U. S. Pat. Office
Published weekly at Rochester, N. Y.,
with offices at 343 State Street
and printed at Kodak Park.

EDITOR - - - BOB LAWRENCE

Associate editors—Art Wood, Wilmer A. Brown. Division editors—Ike Shynook, Kodak Park; Sidney P. Hines, Camera Works; John Connell, Hawk-Eye; Kaye M. Lechleitner, Kodak Office. Out-of-Rochester editor—Dorothy E. Craig. Staff photographers—Norman Zempel, Jim Park.

It's in the Park

Bill Gets Telescope...Yard Boys Mark 25 Years; Heynemanns Reunited... Students Back on Job

Hank Byers, who recently was graduated from the University of Rochester, has joined the staff of Bldg. 120 Laboratory for the summer. He plans to attend Cornell University in the fall. . . . **Ruth Heisner**, KPAA Office, and **Marge Sale**, Industrial Engineering, Bldg. 12, are spending a week's vacation at Blue Mountain Lake in the Adirondacks. . . . **E. L. Baxter**, Roll

Floyd Whitmarsh, A. Ralph Eckberg. Film General, who observed his birthday July 1, was pleasantly surprised when his office associates tendered him a picnic at his home. . . . **Phyllis DiBartolo**, Time Office, was in New York June 17 to see her mother off for Italy, her first visit home in 27 years. . . . **Herbert Murphy** and **Russ Storan**, Flushing Processing Laboratory, were recent visitors in the Cine Processing Dept. . . . **Floyd Whitmarsh**, Engineering, E&M, who rounded out a quarter-century of service with Kodak recently, received his Eastman medal from **A. Ralph Eckberg**, E&M division superintendent, in a short office ceremony.

Lena Gurnee and **Edna Percy**, Paper Planning, Bldg. 57, together with Edna's husband, Bill, are enjoying a trip to the West Coast and visiting many interesting spots en route. . . . **Betty Lillibridge**, Time Office, has returned from a vacation trip to Troy, N.Y., Bennington, Vt., and Pittsfield, Mass. The high spot (no pun intended) was a plane ride to Albany. . . . Reunited with his wife whom he had last seen in Switzerland last fall is **Dr. Herbert Heynemann**, Research Laboratories, who formerly served on the faculty staff of the Chemical Institute of the University of Zurich. . . . **Max Berg**, Recovery, is showing a long letter which he received from **Al Jarvis**, retired, now in England on a three-month visit with his sisters. His first trip home in 41 years, Al made the voyage over on the Queen Mary and reports that the old home town never looked bet-

Mrs. Heynemann

ter. Enclosed with the letter was a newspaper clipping showing a picture of Al chatting amiably with the Mayor of Cambridge at a county fair which he attended. A member of the Recovery Dept. since 1909, Al retired from active duty early in 1944. . . . **Anna Rautens**, Paper Planning, Bldg. 57, and her husband, **Elmer**, Emulsion Coating, Bldg. 29, are vacationing in the West, with stopovers in Salt Lake City, Utah, and Butte, Mont. definitely scheduled.

Visiting Park?

Are you planning a tour of Kodak Park for members of your family or friends?

If so, you will avoid considerable disappointment and embarrassment by observing the time scheduled for visitors. No tour may start earlier than 8:30 or later than 10 o'clock in the morning and not earlier than 1:30 or later than 3 o'clock in the afternoon. These hours do not apply to Saturdays, Sundays and holidays.

Of 1½ hours' duration, the KP tours are restricted mainly to adults, all children below the grade of high school senior to be accompanied by an adult.

It was suggested that groups contemplating visits to the plant make advance arrangements to avail themselves of guide service provided by the Company.

Members of the Paper Planning Dept., Bldg. 57, gave a farewell party June 25 at the Fawn Club for **Margaret McRae** and **Shirley Pennock**. Margaret has since taken up residence in the South. . . . Recently back from Sturgeon Lake where she and her new husband have been honeymooning is **Arlene Wittman Reagan**, Plate Dept. Arlene was married June 26 in a beautiful ceremony in St. Andrew's Church. . . . **Bob Gifford**, has replaced **Tom Brogan** as a KODAKERY correspondent in the Industrial Engineering Dept. . . . **H. G. (Hi) Hanson**, Roll Film General, has returned after spending his vacation in his home state of Georgia. . . . **Fred Kimball**, Time Office, is an active member of the Rochester Park Band these warm summer evenings. . . . When **Katherine Klimcow**, Box Dept., recently completed 25 years' service with the Company, her friends presented her with a gift.

Bob Gifford

Otelia Thone, Wage Calculation, Time Office, is back at her desk after spending several months in

Hollywood, Calif., where she lunched with several ex-Kodak Parkers, including **Lil Albarian**, **Bill Heagerty**, **Betty Herman** and **Annette Sweeney**. . . . **Lois Reamer** has returned from Genesee Normal and **Dick Hempel** from Cornell to take up summer chores in the Roll Film General Dept. . . . **Marjorie Mayfield**, who was graduated from John Marshall High School last month, has joined the KPAA Office staff in Bldg. 28. . . . Four members of the Yard Dept. observed quarter-century anniversaries with Kodak during the month of July. They are **William Bommelje**, Cleaning; **Edward Wanjon**, Plant Protection; **Alfred Hargrave**, Yard, and **William Moss**, Garage. . . . **Katherine Thomsen** has transferred from Cellulose Acetate Development to Color Control, Bldg. 65. . . . A farewell dinner party was held July 10 at Point Pleasant Hotel in honor of **Glenn Giebel**, Roll Film Packing, who is leaving to make his home in Florida. Arrangements were completed for the get-together by **Pearl Hitzke** and **Fran Molinari**. Glenn was presented with gifts by his friends.

Marjorie Mayfield

Thar She Blows! — History was made at 12:40 p.m. June 28, when **Jim Brethen**, chief steam operating engineer, lit the first fire in the new high pressure boiler in Bldg. 31. **Oscar Sprague**, assistant superintendent of Power, and **Jack Wright**, Bldg. 31 operating engineer, are the watchers, from left.

Ex-Marine One of 1st in City To Receive Campaign Medal

One of three local ex-Marines, the first in this city to receive campaign medals to accompany ribbons distributed during the war, was **Emerson Bowen** of the Employment Office. He was honored last week in a special ceremony in the Marine Recruiting Office in the Federal Building. Bowen was awarded the American

Defense and the Asiatic-Pacific medals by **Maj. Harold C. Howard** of Buffalo, chief recruiter for the Western New York area.

After enlisting in 1942, Bowen was sent to Quantico, Va., and later transferred to the Recruiting Office here where he also carried out public relations duties. In June 1942, he went to Camp Lejeune, N.C., where he was in charge of war bond promotion. A year later he shipped out to Hawaii, subsequently seeing service at Eniwetok, Guam and Saipan.

Wound Up on Okinawa

He was participating in action on Okinawa when hostilities ended in 1945. Bowen held the rank of platoon sergeant at the time of his honorable discharge from the Great Lakes Naval Training Station in November of that year.

While stationed in Rochester, he conducted two radio programs via Stations WSAV and WHEC twice weekly for the Marine Corps League.

Bowen and Howard . . . medal from the major.

. . . and a Fine Time Was Had by All

Big Day — Above is part of the throng of 10,000 that attended the 14th annual KPAA outdoor entertainment. At left, **Shifty Gears** hands out the treats to **Kathy** and **Judy Bliss** and **Kathy** and **Karen Bender**, as **Claribel Bliss**, wife of **Howard Bliss**, FD 2, and **Marion Bender**, wife of **Don Bender**, West Kodak, look on.

J. H. Bergan Dies; Reel Mfg. Foreman

John H. Bergan, a foreman in the Reel Manufacturing Dept., died July 15 after an illness of several months.

Well known in city sports circles about 40 years ago, he once held the city ice-skating championship and was also prominently active in football, baseball and bowling. Joining the Reel Manufacturing Dept. at KP in 1918, he transferred to the Tool Room in 1919. In 1929 he became a member of the Sundries Manufacturing Dept., returning to Reel Manufacturing in 1937 where he served as foreman for eight years.

He had been out because of illness since last February.

P. J. Huberth Dies

Philip J. Huberth, a member of Plant Protection since May 1936, died suddenly July 8. A brother, **Leo**, is employed in the Sundries Manufacturing Dept.

Hunter-Explorer Edits Film at KO

A chance meeting with George Eastman on a "gas boat" traveling up Alaska's Stikine River helped save an Indian guide's life and made Hunter-Explorer John K. Howard one of the earliest explorers to "shoot" with a movie camera. Howard has been at KO this month editing 6000 feet of Kodachrome film he shot in New Zealand from where he has just come.

"Years ago, I met Mr. Eastman aboard this gas boat," Howard declared. "Our hunting parties separated, both planning to meet again at the Hudson Bay outpost at Telegraph Creek. The last night on the trail, my Indian guide slashed his foot with an axe, and after applying a

Greenland, Africa and "down under."

Several U.S. museums, particularly the National Museum in Washington, the American Museum of Natural History, Harvard University's Museum of Comparative Zoology, and the New England Museum of Natural History, of which he was president for several years, have received collections made by Howard.

Stalks Wild Sheep

Best hunting sport he has encountered is stalking wild sheep in the Canadian Rockies. The sheep are wary and difficult to outguess, he added. An angry grizzly bear can be just as ferocious as a lion, he continued, but both, like all animals, will run away rather than attack, if possible.

A lawyer and insurance executive by profession, Howard retired last year, and spends his winters hunting and working for museums, just now returning from a trip to New Zealand for Harvard's Museum of Comparative Zoology.

In addition this year he made a survey for the New Zealand government to estimate whether the game there is of sufficient quantity and variety to bring American and Canadian hunters to the islands.

Interesting fact about the animals there, he continued, is that they all originally were imported.

Next year, Howard expects to return to New Zealand with a group of Americans to participate in a New Zealand expedition.

Edits Exploration Film — John K. Howard, right, hunter and explorer, edits 60 reels of Kodachrome film with the assistance of Phil O'Connor, left, Film Processing Service. Looking at some of the shots made by Howard on his recent New Zealand trip is T. J. Craig, Repair-Film Processing Service mgr.

tourniquet, I took off to locate Mr. Eastman and his party which included a doctor. I found them about five miles back on the trail and they moved up to aid my guide."

A close friendship sprang up between Howard and Mr. Eastman, and almost every year they met in Rochester to discuss the trips each had made.

It was in 1925 that Howard first took movies of his hunts after seeing pictures made by Mr. Eastman with his 16mm. wind-up spring camera.

Starting to hunt as a youngster on his family's ranch in California, he has expanded his field to Wyoming, Montana, Arizona, New Mexico, Alberta, British Columbia, Mexico, Central America,

Accounting Leads H-E Golf League; Carroll Cards 76

The Accounting linksmen passed the halfway point in the H-E Twilight Golf League 7½ points in the van of the second-place Mongrels, by overwhelming the Supervisors in last week's matches, 16-2. Cap Carroll, shooting with the Personnel four, carded a 76 for low gross honors.

Mike Gunn, with a handicap score of 70, hit the blind bogey right on the nose for the fourth time in as many weeks. Others to receive blind bogey awards were Milt Richardson, John Weagley, Hank Bauman, George Meyers, Dick Rahm, John Byrne and Jim McEneaney.

1st Class Enters Training Center

(Continued from Page 1)
or revised material will be mailed out periodically to keep the books up to date.

The center is completely equipped, including a model store supplied with Kodak products, large classroom, darkrooms and demonstration printing rooms.

Those making up the first class are:

Carl Rieber-Mohn, Norway; F. O. Couch, Anniston, Ala.; H. O. Porter, Birmingham, Ala.; Charles Crete, Marysville, Calif.; Richard Crete, Lodi, Calif.; Jerry Dill, New Haven, Conn.; Dorothy Lane, Winsted, Conn.; R. H. Pierce, Winfield, Kans.; W. R. Brown, Kansas City, Mo.; E. M. Barnard, Kansas City, Mo.; Rosina F. Deinlein, Columbus, Ohio; Russell Greathouse, Oklahoma City, Okla.; G. W. Colley, Williamsport, Pa.; W. H. Fleharty, Dallas, Tex.; R. T. Herald, Lubbock, Tex.; R. C. Heath, Salt Lake City, Utah; and H. T. Phipps Jr., Bristol, Va.

ES&L Savings Hit New High

(Continued from Page 1)

of these funds was withdrawn, the money is readily available to these people should the occasion arise. Here again payroll deductions have played their part. At present, some 5400 Kodak people are participating in the installment share program.

The balances of the savings share accounts increased over \$1,000,000 in the past year, with some 20,000 people having this type of account. Drawing dividends at the annual rate of 1½ per cent, the savings shares are for those who wish to accumulate funds for special short-range purposes such as annual insurance premiums, vacations, Christmas, new car, etc.

At midyear, the Association has 10,709 income share certificates outstanding, amounting to over \$8,000,000. Shares of this type may be purchased in units of \$100, dividends being paid at the annual rate of 2½ per cent. The income share accounts are for people with cash available for investment purposes.

In commenting on the semiannual report, Doug Foxall, ES&L head, declared: "The Association was organized in 1921 to provide Kodak men and women with a safe and convenient place to save money on a regular and profitable basis and to assist them in the purchase of a home. I believe the mid-year statement speaks for itself in that these aims are being achieved. ES&L facilities are open to all and its offices and staff stand ready at all times to assist, advise or counsel any Kodak person with a savings or home-loan problem."

Kodakwiz Answer

(b) This is a Kodak Precision Enlarger, A Assembly, which will enlarge from all negatives up to 2¼ by 3¼.

Leaves Kodak Memento — When Visiting Nurse Evelyn Ireland called on Harry Cobb, KP Power Plant engineer, to see how he was feeling, Cobb showed her a B Ordinary Kodak camera which he wanted to give to the Eastman Historical Collection. He hoped to have something of his remain with Kodak now that he is moving to California after nearly 30 years at KP. With the old camera was a card reading "1st Prize—Most Original Ladies Costume—Presented by Eastman Kodak Co." It was won at the June 20, 1896 Field Day at the old Driving Park by Harry's cousin, Hattie Streker, long associated with Mechanics Institute, now RIT.

2 TEC Men Get Merit Certificates

Two Tennessee Eastman men—Herbert G. Stone, TEC vice-president and works manager, and Dr. William D. Kennedy, research physicist—last week were awarded the President's Certificate of Merit.

The award, highest civilian honor for work in the national defense program, was presented in recognition of their wartime ef-

forts under the National Defense Research Committee.

A presentation ceremony was held at the TEC plant, awards being made by Rear Admiral Felix B. Stump, chief, Naval Air Technical Training Command, and Brig. Gen. Robert N. Cannon, commanding general, division artillery, 82nd Airborne Division, Fort Bragg, N.C.

The accuracy of the accompanying statements is insured by a program of audit which subjects the accounts of the Association to an unusually thorough review. In addition to the work of the staff auditor, employed by the Association for the purpose of carrying on a continuous audit of the accounts, there is also a yearly audit by representatives of the New York State Banking Department, another audit by certified public accountants made at the direction of the directors of the Association, and a series of audits and checks carried on by an auditing committee composed of representatives of the three Rochester plants and Kodak Office.

Check and Double Check

Time Slips — Adella Allen is passing through the window to Marian Gardner a stack of time slips which have been filled out by folks in Kodak Office. They'll get a thorough checking before operations begin. Both girls are in KO Payroll.

It all seems so simple. . . . When you receive your weekly check, all nicely itemized for hours, wages, overtime, deductions, etc., it looks so clear and easy! Ever wonder what happens between the time you punch the time clock or fill out your time slip and the time you receive your check?

It's really not simple at all. For one thing, it keeps around 300 people in the four Rochester plants busy every day, keeping records, checking, figuring, finally making out checks and distributing them. A great amount of the work is performed by batteries of almost-magic machines which calculate, tabulate, punch record cards, sort, multiply, write out checks and sign them by the thousands. Then there are scores of tasks which machines can't do which must be performed before your check is slid into an envelope and delivered.

For an insight into the operations required to put your weekly check into your hand, KODAKERY takes you on a tour of the payroll departments of the different plants.

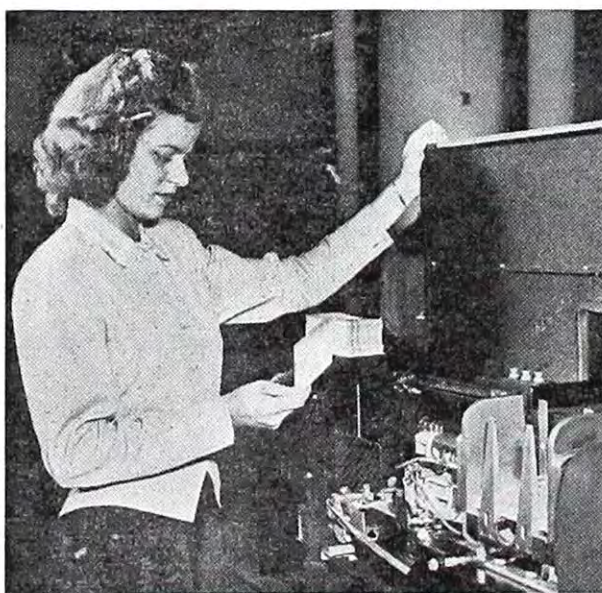

Daily Record — Time clock cards must receive a daily check for record-making purposes, and here June Bohnke, of Timekeeping, Dept. 72 at Hawk-Eye, removes cards from the rack for checking. At the end of the week she collects them, checks them again and sends them to the H-E Payroll Dept.

Wage Calculation — This office of about 75 Kodakers in the Wage Calculation section of the KP Payroll Dept. is fully occupied every day with figuring the KP payroll from clock cards and incentive time cards, as well as with preparing labor cost analyses.

Work Cards — At Hawk-Eye, Evelyn Costigan, left, and Doris Ester operate key punches. They're punching out work cards to indicate hours worked each day and the different types of work done during that time.

Multiplier—

This machine being checked by Gloria Dean, H-E Dept. 20, is a multiplier, which, after controls have been set, multiplies wages and hours correctly.

On Dotted Line—

Margaret McWhinney, left, and Gertrude Fox, both Dept. 93, CW, prepare the check-signing machine for operation.

Ready to Go — Distribution of checks at Kodak Park is handled by the Cashier's Office, and here Elaine Cyran, left, Blythe Bromley and Nancy Heffron fold and insert them in envelopes. Girls are more accurate than machines for this step of the work.

It's Automatic — Betty Lohr, left, and Joan Jurlen inspect progress of the check-writing machine, which writes out checks by the stack! Punched cards put into machine control the printing, so that the correct figures are entered in the correct places. The margin of error is very small, but even so, the girls make continual examinations to prevent errors from creeping in!

Wedding Bells Stopped Careers of H-E Tap-Dancing Sisters

Tap Team — Mom Mula wanted twins—settled for two attractive daughters, whom she dressed alike and who became known as the Mula Sisters tap-dancing team. The Hawk-Eye girls, now married, are Gladys Crisci and Josephine Wyshynski. In the 13-year-old picture at left, Gladys is the one on the left. As they look today is seen in the circle above, and in the three-year-old picture at right, Jo appears on the left.

Hawk-Eye Woman Did 25-Year Stint As Circus Aerialist

When the circus came to town recently, it was lots of fun for the kiddies and older folks too, but it was especially fun for Bessie Rameau of Hawk-Eye's Dept. 10. It brought back nostalgic memories of the more than 25 years she was a trouper under the "big top."

She started in the circus business shortly after the first World War at the age of 19 as an aerial artist. Although terribly afraid upon first contact with the trapeze, she soon overcame the fear by constant practice. In no time at all she felt safer in the air than on the ground.

In time, Bessie became the key performer in an iron-jaw act, in which she would swing from one stand to another with her teeth gripped to a mouthpiece.

During her better-than-quarter century with the circus, the Hawk-Eye woman played in every state in the Union and also visited Nova Scotia, Canada and Mexico, working with the Shrine Circuses, the T. A. Wolf Shows, Dodson's World Fair Circus and many others.

Garden Gab

EVERGREENS

The hot, humid weather has brought on a considerable amount of spider mites in evergreens. Found on the underneath side of the branches, spider mites form a web between the needles. One treatment of control is the lime-sulfur spray, which at this time of year must be used at summer strength. This is usually four to six tablespoons to a gallon of water. Read manufacturer's directions before making up solution.

Spray it on the under side of the branches, completely covering all of them. Use any one of the various garden sprayers. Although the solution should not be used on yews, it may be applied to any of the spruce, fir or balsam type evergreen.

Ten days after spraying with the above solution, wash off evergreens with a hose and repeat this washing every three to four days for a period of three weeks. Do not wash when the sun is on them.

Births

KODAK PARK
Mr. and Mrs. Richard Snow, daughter.

ABOUT THE MODEL

"My family's going to be fully surprised when they see my picture." That remark came from this week's model, Ann Kucy, who planned to keep it a big secret, but knew it wouldn't be long before one of them said, "Hey, Ann. . . !"

You see, the Kucys' mailman brings five KODAKERYs every week to the family's five Kodak members. They are Ann, her twin sister, two brothers and father.

Her favorite sport, by the way, is swimming. It was in May that she started to spend every free, clear-weather moment at the beach.

Mr. and Mrs. Sam McCarrick, son. . . Mr. and Mrs. Richard Cannon, daughter.

Dressmaker Suits in Dark Prints

Suit Yourself — Comely Ann Kucy, CW Dept. 38, models a dressmaker bathing suit that comes in forest green, dark blue or brown backgrounds and tiny floral print of contrasting color. It features a square neckline, full skirt, zipper up the back and straps that tie behind the neck. It's a McCurdy's fashion.

Party Fare Hints Given By KP Girls

What to serve at a party? Several Kodak Park girls were queried along this line and came up with some pretty smart ideas.

Marjorie V. Haines of KP Time Office thought of an appropriate summer-cool and colorful beverage. To sparkling, cold ginger ale she adds one ice cube. But, the ice cube is no ordinary ice cube! Frozen into it are a black cherry and spearmint leaf. It's an effective trick and refreshing just to look at it.

Whenever Elizabeth Williams, E&M, serves Pineapple and Cream Cheese Salad, she is asked for the recipe. It is a cool salad for summer weather. Elizabeth usually serves it with crisp wafers or hot rolls.

Cream Cheese and Pineapple Salad

Soak 1 package of plain gelatin in ½ cup of cold water for five minutes. Drain juice from a No. 2 can of crushed pineapple; heat juice to boiling point. Remove from fire and dissolve soaked gelatin in hot pineapple juice. Chill, and when well thickened, beat in with fork the crushed pineapple and 2 packages of cream cheese. Blend thoroughly. Add pinch of salt and 1 teaspoon of sugar. Fold in ½ pint of cream which has been whipped stiff. Chill until firm.

To make dressing, thin 1 cup of mayonnaise with a little cream. Add juice of good size onion and enough finely chopped green pepper to give it some color.

Claire Hogan, Sundries Mfg., never fails to delight her bridge club with a tasty sandwich loaf. She cuts an unsliced loaf of bread lengthwise into four sections. The layers are spread with deviled ham mixed with mayonnaise, egg and olive, and tuna fish salad. Claire covers the loaf with cream cheese. She has found the combination of the above three spreads especially good, because they are more hearty than the fillings usually recommended.

Elizabeth Williams

Claire Hogan

The Way We Heard It

GUM IT UP—Looking for a new way to fix a salad? Try putting a few gumdrops, cut up, in your next fruit salad to add color and piquancy.

GARLIC TRICK WITH A PICK . . . It's a smart stunt to stick a toothpick through a clove of garlic for submersion in cooked foods and salads. Can be fished out before serving.

MENDING REMINDER—If when doing your ironing you come upon a tear, rip, hole or a just plain thin spot, fold carefully to put this on top—it'll save time when you sit down to mend and will prevent putting away torn, worn things so annoying to discover later.

SMOOTH TUCKS—Tucks in dresses may be your particular problem—they will iron smoothly and easily, with no muzzing, no shiny edges at the crease and fold, if you will put a layer of tissue paper over them and iron.

The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD—NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

Oister Works One-Hitter for 4th Win

Bud Blanks Products, 6-0, For Kaypees

It appears that Manager Jim Gallagher of the city champion Kodak Park softballers has assembled a powerful, well-balanced pitching staff.

Bud Oister leads in victories with four, followed closely by Joe Witzigman with three, Ken Busch two and "Shifty" Gears, one. The Kaypees boasted a 10-2 record prior to last night's scheduled game.

Oister made it four wins as against two losses for the year on July 13, twirling a neat one-hitter as the Park nine blanked Products, 6-0. In the second half of a twin bill on that date the Kaypees settled for a 1-all, 10-inning deadlock, with Ken Busch yielding two hits.

CW Blanks Gleasons

In other Major League games last week Camera Works blanked Gleasons, 7-0, behind the six-hit chugging of Johnny Testa, on July 15, and Hawk-Eye bowed to Delco, 8-1, July 16.

	W	L		W	L
Kodak Park	10	2	Cam. Works	5	7
Balcos	8	4	Graflex	4	6
Wollensak	10	6	Gleasons	5	8
Ritters	5	3	Products	6	10
Delcos	7	5	Hawk-Eye	3	11

GAMES NEXT WEEK

Friday, July 23—8:15 p.m., Rochester Products vs. Hawk-Eye; 9:30 p.m., Graflex vs. Kodak Park.

Monday, July 26—7:30 p.m., Kodak Park vs. Bausch & Lomb; 2nd game, Graflex vs. Hawk-Eye; 3rd game, Camera Works vs. Ritters.

Tuesday, July 27—7:30 p.m., Gleason vs. Ritters; 2nd game, Delco vs. Bausch & Lomb; 3rd game, Camera Works vs. Graflex.

Wednesday, July 28—7:30 p.m., Rochester Products vs. Ritters; 2nd game, Gleason vs. Kodak Park; 3rd game, Bausch & Lomb vs. Camera Works.

Thursday, July 29—8:15 p.m., Ritters vs. Delco; 9:30 p.m., Ritters vs. Graflex.

Going and Coming — Nick Borrelli, CW catcher, lays down a bunt, left, and subsequently scores in the July 15 game against Gleasons, which the Cameras won, 7-0, behind the six-hit hurling of Johnny Testa. Catcher De Voist of Gleasons awaits the peg to the plate, right, which Borrelli beat.

Joe Snook Pitches and Bats KP Dusties to 2 More Wins

The Kodak Park Dusties, keyed to a championship pitch, annexed two more victories last week to spur their drive for pennants in the Champion and Rochester Industrial Softball Leagues.

Pitcher Joe Snook figured largely in both triumphs, abetting his work on the mound with timely stick work.

On July 9, Mike Farrell's athletes went on a hitting spree to down American Laundry, 16-2, in a Rochester Industrial loop fray. Setting down the Laundrymen with two hits, Snook had a perfect evening at bat, chalking up a home run, triple and double in three trips. Catcher Jim Dittman also contributed three hits.

In a Champion circuit contest on July 13, the Kaypee crew edged the Huthers, 4-3, posting one run in the last half of the seventh inning to break a 3-3 deadlock.

Snook registered a brace of hits in the win, one of them a four-master with one aboard.

Stellar work by Jack Finucane behind the plate rubbed out two possible scoring threats by the Huthers, the agile back-stopper throwing out runners at second and third base.

Standings in the Champion League's American division:

	W	L		W	L
Post Office	3	0	Roch. Button	2	2
Kodak Park	5	1	Huther	1	5
Bonds	4	1	A.C.W.A.	0	5

Bldg. 65 Girls Take Loop Lead

Bldg. 65 tallied six runs in the last half of the seventh inning last week to overcome a five-run deficit and defeat Reel Mfg., 19-18, to take over undisputed first place in the KPAA Girls' Twilight Softball League.

In the other half of the twin bill, Medical sustained its third straight setback in as many starts by dropping a 26-8 verdict to the Color Control girls. Edna Kader homered for the winners in the fourth inning. Standings:

	W	L		W	L
Bldg. 65	3	0	Color Control	1	2
Reel Mfg.	2	1	Medical	0	3

Patchen Eliminated

Lois Patchen, KO, advanced to the quarterfinals of the RDGA women's tournament before bowing out, 2 and 1, to June Fegan at Brook-Lea July 15. Lois qualified for the championship flight with a 96-13—83 medal score.

Gene Robinson's 72 was the low gross at Locust Hill last Sunday, while Cap Carroll posted low gross and low net at Lake Shore with a 73-7—66.

KO Gains Fifth Victory Behind Mastrella, 12-5

Pitching six-hit ball and banging out three safeties, Paul Mastrella led the Kodak Office Dusties to a 12-5 win over Atlantic Stamping in the Champion Industrial League last week. It was the fifth win in six starts for Ken Mason's charges and avenged the only loss marring their record.

Memos Capture 8th Straight

Games played in the H-E Intra-plant League last week saw Jim Monks' Memos, defending champs, and the Estimators clinch play-off berths.

The Memos extended their win streak to eight in a row by knocking off the Dept. 29 softballers, 4-3. The league leaders broke up a tie ball game in the last of the seventh on successive doubles by Monks and Ed Sobierajski.

The Estimators took the measure of Recordak Assembly, 9-8, in a game that went nine innings. The winners came from behind a 5-0 count to register the payoff tally on a double by Walt Drojarski, and Gordie Barringer's single.

Drojarski was the big gun at the plate for the Estimators with four hits in five tries, including three two-ply smashes. Scores:

Dept. 29	0	1	0	2	0	0	—	3	5	0
Memos	0	0	2	0	0	1	—	4	10	1

Bleier and Donzella; Grunner and Sobierajski.

Rordk Assm. 5 0 3 0 0 0 0 0 0 8 9 0
Estimators 2 1 0 4 0 0 1 0 1 9 13 0
Marion and Barnes; Werner and Michlin.

LEAGUE STANDINGS

	W	L		W	L

Jim Scott-Louis Moss	16½
Harry Horn-Clayton Benson	16
Jim Weigand-Henry Brown	15½
George Patterson-Bill Hallett	15
Lewis Behrmdt-Harold Gunderson	12

Mastrella

Bob Wallace, like Mastrella, collected three hits, while Mason, with two doubles, and Jack Lynch, with two solid hits, shared in the carnage. Carl Ziobrowski poked out a long triple in the opening canto.

The victory, however, cost KO the services of Pat Lynch for at least two weeks. The stellar infielder suffered a painful finger injury in the seventh while fielding a slashing grounder. Score:

Atlantic	1	3	0	0	0	1	—	5	6	3
Kodak Office	2	0	2	0	6	—	—	12	14	3

Lindsay, Ariola (6) and Burnside; Mastrella and Ziobrowski.

Erv Maeske Wins KPAA Golf Meet

Touring the Lake Shore layout in 76 strokes, Erv Maeske posted the low gross score in the second KPAA handicap tournament of the season last Saturday.

Bob Smith's 84-17—70 won Class A low net honors, while Ike Shynook and John DeVey carded low nets in Classes B and C, respectively.

Other Class A prize winners included George Gustaf and Ray Miller, 71s; Harry Barclay, Gordon Belshaw, Harold Groh, 72s; Frank Weis, Bill Kuchmy, Herb Metzger, Oscar Judd, 73s.

Class B: Shynook, 87-25—62; George Meade, 64; Joe Duff, Jim Feeney, Dan King, 67s; Al Keinz, 68; Frank Pearce, Clarence Auten, Stan Marshall, 70s; Howard Kruezer, Vernon Smith, Henry Spindler, 71s.

Class C: DeVey, 94-33—61; Bill Shaw, 63; Everett Arft, 65; Hal Jackson, R. J. Snell, 66s; Al Metz, 67; Jim Clark, Walt Johnson, Lance Thompson, 69s; W. J. Snell, Al Sill, 71s.

Subject: Boys' Softball Program

Kids' Coaches Convene — "Spike" Garnish, standing, briefs the members of his KPAA Boys' Softball Program coaching staff at the outset of another day's activity. Pictured, left to right: front row: Huron Smith, Barney Farnan, Charlie O'Brien, George (Hack) Kremble, Tim Stapleton; center: "Shifty" Gears, assistant to Director Garnish; Neil Greene, Curt Baker, Bill Bushnell, Frank O'Donnell; rear: Tommy Byrnes, Brooks Kiggins, Tommy Castle, "Fuzzy" Levane, "Dip" Murray. A record enrollment of 2329 boys, competing in 17 eight-team leagues, keeps things moving at a lively clip in the fifth annual program.
