

Manhattan History — Two bound volumes of facsimile prints from a history of New York City on microfilm, and a print of the original letter regarding purchase of Manhattan by the Dutch, were presented recently to Mayor O'Dwyer at his home. From left, Martin G. Mannix, Register's Office; Mayor O'Dwyer, holding the volumes; Lewis Orgel, Register's Office; Grover Whalen; Dutch Consul Wilhelm Cnoop-Koopman and Dr. Victor Teixeira de Mattos, Dutch Consul General.

Microfilm 'Condenses' History of New York

A 440-page history of New York City, placed on microfilm by the Recordak Corporation, was presented to Mayor William O'Dwyer recently at ceremonies in connection with celebration of the city's Golden Jubilee.

Acting Director Lewis Orgel of the City Register's Office received the roll of 50 feet of 35mm. microfilm from George McCarthy, president of the Recordak Corporation, for presentation to the Mayor.

Date Back to 1665

The film presented to the Mayor represents the efforts of the City Register's Office to give the history behind famous sites in New York as disclosed in official city records which date back to 1665, with some of the earliest in Dutch and Old English script.

Along with presentation of the film were two bound volumes of facsimile prints to be placed in the Mayor's office at City Hall. These are 10½-by-13-inch photographic prints made from the microfilm images on the 50-foot roll.

Another highlight of the ceremonies at Gracie Mansion, Mayor

Board, Officers Named at DPI

Dr. C. E. Kenneth Mees has been named chairman of the board of directors of Distillation Products Inc., and Donald McMaster is the new president.

Other members of the board are: R. W. Albright, vice-president and general manager; Graham C. Mees, vice-president, and I. L. Houley and Cornelius J. Van Niel.

Other Officers

Other appointments announced are: Secretary, M. K. Robinson; assistant secretary, W. F. Shepard and H. S. Woodruff; treasurer, J. L. Harper; assistant treasurer and assistant comptroller, R. T. Sullivan; assistant treasurer, D. H. Fulton and J. D. Fewster.

Norris D. Embree is the new director of research.

Jointly operated by Kodak and General Mills since 1938, DPI became a Kodak subsidiary in July when the Company purchased the General Mills interest.

Heartbeats and Light Beams

Clearer Heart Diagnosis Possible With Newly Developed Electric Ear

There's a new medical tool, known as the electric ear, which bids fair to revolutionize diagnosis of heart ailments.

Known in scientific circles as the electrostethograph, the ear listens in on human heart sounds and records what it hears. The scientists who have developed it are using it to study heart murmurs with greater accuracy than the human ear can achieve. They use some Kodak Linagraph films and papers as vital parts of the process.

Three scientists of the College of Medicine of the University of Nebraska—Dr. Lowell F. Dunn, Dr. Walter Rahm Jr. and Dr. Albert Freed—are responsible for the designing and development of this machine. They explain that it tells more about what is going on in the heart than the electrocardiograph, which records the heart's electrical waves, and is far more sensitive and accurate in its hearing than a trained physician with his stethoscope.

Recorded as Squiggles

The electric ear is a machine that turns the sound of a beating heart into beams of light, then takes pictures of the beams, recording them as squiggles on a roll of photographic paper. Sounds are picked up by a crystal microphone placed over the heart.

They are amplified and turned into moving beams of light flashing across three cathode ray tubes. One tube shows low-frequency sounds, the second middle-frequency sounds, and the third the high-frequency sounds.

High-speed pictures are taken by the camera built into the machine, and the developed film shows three wiggly lines, one representing each frequency.

These permanent pictures can be compared later on in life, or during an illness, to determine what changes have occurred. They can thus help in spotting heart changes earlier. This is of vital importance with children in particular. Some heart murmurs may be due to damage to the heart or, on the other hand, to causes not serious at all.

New Heart Test — Dr. Lowell F. Dunn (seated on bed), professor of clinical physiology and internal medicine at the University of Nebraska College of Medicine, developed the electrostethograph which writes a legible record of heart sounds. At controls of the device is Dr. Albert E. Freed of the University Hospital. Above is a sample of the record obtained on photographic paper. The upper one is a record of a healthy heart, and the lower one of a heart which has an organic murmur and shows other defects.

The electric ear can help to determine whether the trouble is organic and whether activities should be limited. Studies are being made of dozens of children who have had rheumatic fever, the most serious disease of childhood. It often leaves scars on the heart valves with resultant murmurs. The electric ear can't be tucked into a doctor's bag in its present form, but it does provide a new and tremendously vital tool for hospital examinations.

Company to Receive 'Oscar' 4th Year for Annual Report

Kodak's 1947 annual report was judged best for the fourth consecutive year in the photographic equipment industry classification by an independent board of judges for the Financial World Annual Report Survey.

Presentation of the bronze "Oscar of Industry" will be made to a representative of the Company at the Annual Awards Banquet Oct. 21 in the grand ballroom of the Hotel Pennsylvania in New York. Weston Smith, vice-president of Financial World and originator of the annual report surveys, will present the trophies at the banquet, which will be attended by more than 1000 business leaders from many parts of the country.

Annual reports from more than 4000 corporations were submitted in the eighth national survey, and these were judged in 100 industrial classifications for the "Best of Industry" awards.

The jury for the final selections was headed by Dr. Lewis Haney, professor of economics at New York University. He was assisted by Dr. Glenn Griswold, publisher of Public Relations News; Sylvia F. Porter, financial editor of the New York Post; Elmer Walzer, United Press financial editor, and Lester Tichy, industrial designer, who served as art director.

Booklet Prepared On Books, Plates

Several completely new sections are incorporated in a new edition of "Kodak Films and Plates for Professional Use." More up-to-date information on uses and applications of current Kodak Films and Plates also is provided in the new booklet.

This enlarged edition now includes information on the "Storage and Care of Films and Plates," "How to Handle Kodak Sheet Film," and "Filing and Storage of Negatives."

The descriptions of films and plates and their suggested uses in the various fields of photography—portraiture, illustrative, press, copying, duplicating and slide making, color photography, and technical applications—have been brought completely up to date. The latest information on filter factors and development data also has been incorporated in the revised tables.

EK Men Honored — Seven Kodak men were among those receiving the President's Certificate of Merit in a ceremony last week at the Chamber of Commerce in recognition of their services to the armed forces during World War II. Brig. Gen. Kenneth C. Townsend, above, presents a certificate to Joseph Mihalyi of Camera Works as other recipients watch. From left, they are: For-dyce Tuttle, CW; Dr. Herbert Trotter Jr., NOD; Dr. Stephen M. Mac-Neille, CW; Dr. Edward D. McAllister, NOD; Dr. Carl F. J. Overhage, KP; and Dr. Geoffrey Broughton, KP. Rear Admiral F. E. Haerberle, who made the address, is at right. Two other Kodak men voted the awards—Dr. Emmett Carver and George Alvin Richter of Kodak Park—were not present at the ceremony.

Foremen's Club Opens Season Oct. 12 With Sports Stars, Ex-Marine Wag

The 1948-49 fall and winter season of the Kodak Park Foremen's Club will open on Columbus Day, Oct. 12, and its leaders will put the accent on sports in a well-rounded program.

The new Bldg. 28 gymnasium will be the scene of the opening meeting, secretary Art Sundberg announced, and plans have been completed to accommodate a large turnout of members for the steak dinner to be served in the second floor cafeteria starting at 5 p.m. Headlining the bill will be Pauline Betz, internationally famous tennis star, and Sandor Glancz, former world's table tennis champion. They will present a table tennis exhibition, and a tennis clinic conducted by Miss Betz.

Heralded as an exciting demonstration, the Betz-Glancz performance includes such stunts as kicking and blowing the table tennis ball, making returns with the forehead, using odd-sized paddles, and other surprising feats. In a special feature, two local experts will oppose the visitors.

Miss Betz, four times U. S. champion and 1946 Wimbledon winner, also has won table tennis laurels, including the Winter States, Pacific Coast, California and Florida titles. At 21 she won a scholarship to Florida's Rollins College, where she played on the men's tennis team.

Something New—The opening fall meeting of the Kodak Park Foremen's Club will offer something different in the way of entertainment when Pauline Betz, left, noted tennis player, and Sandor Glancz, right, former world's champion table tennis player give an exhibition in the new gym at KP. This first dinner meeting is set for Columbus Day, Oct. 12, in the recreation building.

Jimmy Swan, ex-Marine actor-humorist, whose side-splitting story of his four exciting years in China and the South Pacific is labeled for popular appeal.

Born in England, Swan came to America at the age of 6 following the close of World War I, in which his father was killed in action. After an early education in the schools of Jamestown, N.Y., he entered the University of Southern California, where he majored in art and dramatics. Upon graduation there followed four years in vaudeville before appearances in "Of Thee I Sing" and other plays.

Soon after the attack on Pearl Harbor, Jimmy enlisted in the Marines and participated in many invasions in the Pacific Theater including New Britain, Peleliu and Okinawa, following which he spent five months in the Far East and China. The show opens promptly at 7 and will be preceded by a short musical program. Tickets for the dinner may be procured from department chairmen not later than Friday, Oct. 8.

Jimmy Swan
... he's a riot.

Glancz is recognized as one of the world's best players, capturing the championships of Hungary and Germany when he was 18 and going on to win the crowns of Austria and England. He added the world's doubles title with Victor Barna in 1933. He came to the United States in 1934 and introduced the spectacular type of game which features drop shots and lightning-fast forehand drives.

Contributing a bit of humor to the evening's program will be

KO Man Honored By Photo Society

Harris Tuttle, KO Sales Service, has been awarded a fellowship in the Biological Photographic Society. Presentation was made at the group's September convention in Philadelphia.

The honor was given Tuttle in recognition of his contribution to the art of making medical motion pictures during the past 25 years. Tuttle is also a Fellow of the Society of Motion Picture Engineers and Royal Photographic Society.

Color Conference—Outstanding color experts of the country participated recently in a three-day session at Kodak Park. Front, from left, Walter C. Granville, Container Corporation of America; Miss Dorothy Nickerson, color technologist, Department of Agriculture; Morton C. Bradley, Harvard University; and Carl E. Foss, color consultant, Princeton, N.J. Rear, l. to r., Richard S. Hunter of the Henry A. Gardner Laboratory; Ralph M. Evans, superintendent of Color Control Dept., KP; Dr. Isay Balinkin, physics professor, University of Cincinnati; and Dr. Deane B. Judd, physicist, National Bureau of Standards.

Accitoon

"NOW, WHAT DID SHE SAY TO GET?"

... if it wasn't bandages you'd better get some, because that's what you'll be needing if you absent-mindedly ignore the traffic lights.

Color Experts Confer at KP

Seven nationally famous color experts, representing various fields of work, recently attended a three-day session at Kodak Park as guests of Ralph M. Evans, superintendent of Color Control.

The meeting, arranged at the request of Dorothy Nickerson, color technologist, Production and Marketing Administration of the Department of Agriculture, consisted of seven lectures, each accompanied by more than 100 slides.

Book Presented

While here the group was entertained at the Genesee Valley Club and at Evans' home. An autographed copy of Evans' latest book, "An Introduction to Color," was presented to each guest.

Here for the lectures were Richard S. Hunter, instrument specialist, Henry A. Gardner Laboratory; Dr. Isay Balinkin, professor of physics, University of Cincinnati; Dr. Deane B. Judd, physicist, National Bureau of Standards; Walter C. Granville, assistant director, Department of Design, Container Corporation of America; Dorothy Nickerson; Morton C. Bradley, Fogg Museum, Harvard University; and Carl E. Foss, color consultant, Princeton, New Jersey.

Photo Patter

Snap Those Youngsters To Record School Days

IT'S TIME to start thinking of fall picture possibilities again. And right now there's one that none of us should overlook—children everywhere are back in school.

We all should take pictures of the youngsters at this time, because they supply a photographic record of our children growing up. A series of snapshots—one taken each year of this particular event—will provide cherished memories for years to come.

You don't have to rig up a lot of lights or make any great preparations for just an ordinary snapshot will do. In cases like this, it's the picture itself that counts, not the artistry of the photographer. Any parent can make a good pictorial record of the children going back to school.

From the standpoint of technique, only a few things are essential. Hold the camera steady, have it properly focused on the subject, give the correct exposure, and remember to advance the film for the next picture immediately after each shot to prevent any chance of double exposure. With advanced cameras having variable shutter speeds and lens openings, a good average exposure for these snapshots is 1/50 second at f/11 with ordinary snapshot film.

Study Illustration

Our illustration today is a good example of how such a snapshot might be made. The fact that it was taken when the boy and girl were not looking directly at the camera gives it a natural quality which posed snapshots do not always have. But unless your camera can be set to give an exposure of at least 1/100 second, don't try action shots like this. It takes a shutter speed such as 1/100 second to stop movement of the subjects during the moment of exposure.

Two other suggestions you might find helpful are these: Keep the background simple so that all interest will be centered directly on your subject, and don't stand too far from your subject when taking your picture. A picture-taking distance of 6 or 8 feet is best in most cases of this type. The camera then is close enough to clearly record facial features. When pictures are taken at greater distances, children are likely to appear "lost" in them.

- Brownie 2-A Camera.
- Kodak Jiffy Camera.

Hospital Benefits Listed at \$29,102

Hospital credit of \$29,102 was received by Kodak men and women through Rochester Hospital Service membership during July.

The RHS reports that 326 claims were filed during the month for 1943 days of coverage. Kodak Park members had 196 claims for 1117 days, receiving \$17,018 in hospital credit; Camera Works, 64 claims, 406 days' coverage, \$6176 credit; Hawk-Eye, 51 claims, 300 days, \$4463 credit; Kodak Office, 15 claims, 120 days, \$1445 credit.

The report shows that a Camera Works man received \$481 credit on one claim, and another was credited with \$476 on a single claim. A Kodak Park man, since joining the RHS, has received \$512 in credit on four claims, a Hawk-Eye woman \$309 on two claims, and a Kodak Office man \$409 on four claims.

Golden Days—Those first days back at school are important to the youngsters and to the whole family. The return to school also is a good time to make a picture record which shows the growth of the youngsters from year to year.

It's in the Park

Ridin' Rough on Laura . . . Best Baby Sitters . . . Stork's Report in Error, Says Reisinger

The summer is now really complete for Carl J. Malm, superintendent of the Cellulose Acetate Development Dept. Carl recently flew to New York to meet his 80-year-old mother who

Carl J. Malm chats with his 80-year-old mother in the garden of his home after her arrival by plane from Helsingfors, Finland.

arrived via a Scandinavian Airlines plane from Helsingfors, Finland, on her first visit to the United States after stops in Sweden, Denmark, Scotland and Newfoundland. Carl arrived at the airport just 10 minutes before his mother's plane landed and reports it was one of the most exciting moments of his life. . . . Making their own dresses this summer and doing it right well are Anita Busch and Peg Driscoll of Industrial Engineering. . . . Celine and Bob Halbrook, Time Office, shoved off for a 10-day vacation in St. Louis, following which they planned to head for Union City, Tenn.

Phyllis Mors, Color Testing, Bldg. 6, has been appointed a KODAKERY correspondent in that department. . . . Mr. and Mrs. William Jostmeier celebrated their 50th wedding anniversary Sept. 25 at the Johnson House in Churchville where a group of Kodak friends turned out to make the occasion a joyous one. Bill, who retired from the Film Emulsion Dept. in 1941 after completing 36 years' service, came to Kodak from St. Louis, Mo., in 1911. The Jostmeiers have four children and five grandchildren. Bill has been confining his activity to a mink ranch which he maintains at his Spencerport, N.Y., home. . . . Jim Bradstreet, Machine Shop; Dick Bradstreet, Film Magazine, and Stan Hall, Color Control, enjoyed Labor Day weekend at Lake Baskatong, 140 miles north of Ottawa, where they found the fishing much to their liking.

Dr. Max Herzberger, Research Laboratories, will serve as president of the New York State Chess Association for the coming year. The announcement was made at the State Tournament held in Endicott, N.Y., recently, Dr. Herzberger finishing sixth in the competition. . . . Bill Fry, Roll Coating Chemical Division, escorted his great-granddaughter to the picnic held recently in Seneca Park by the Roll Coating Chemical Division. Eleanor Moser was chairman of the affair. . . . Members of the Industrial Relations Dept. conducted a clambake at Glen Edyth Sept. 16. . . . "Family Circle" by Cornelia Otis Skinner is the latest addition to the KPAA lending library. . . . Still trying to catch up on her sleep after a busy vacation at the Northwoods Dude Ranch is Laura Smith of Reel Inspection, Bldg. 64. . . . A family picnic for schedule planners of the Emulsion Coating Dept. was

held Sept. 12 at the home of Bud Davis, a former member of the group. Games, sports and refreshments were enjoyed, with Charlie Lombard coming off with first prize in African golf.

At a "Welcome Home" party for D. A. Babcock, superintendent of the Film Emulsion Coating Dept., held in the Bldg. 28 cafeteria Sept. 9, members enjoyed a tasty steak dinner, following which color slides taken on his summer tour of England, France and Switzerland were shown. . . . George McComber, Plant Protection, recently motored to St. Regis Falls to return his daughter, Loretta, to high school for her junior year studies. . . . Ed Goeller and Walter Henderson, Roll Coating Chemical Division, have received Eastman medals upon completing 25 years of service with Kodak.

A farewell dinner for Muriel Wilson, Color Print Production, was held Aug. 27 at Crescent Beach Hotel. Muriel is leaving the Park to be with her husband, Bob, F.D. 1, who is beginning studies at Clarkson Tech this fall. . . . Betty Jane Hogan and Dorothy Bergstrom, Time Office, recently vacationed in Washington and Philadelphia, taking time out to attend the wedding of Dottie's sister, Sally, in Jersey Shore, Pa. . . . We hear that Bob Wright and Russ Bates, Industrial Engineering, had seven tots to care for when their wives went on a sit-down strike during a week's sojourn at Keuka Lake.

A bridal shower for Loula Alden was given Sept. 14 by the girls of Bldg. 3, Emulsion Research, at the home of Betty Buckley. Assisting as hostesses were Lynn Smith and Betty Dows. Loula, KODAKERY correspondent in the department, was presented with a gift by the group. . . . Della Winkler, Film Planning and Record, achieved a lifelong ambition while on a recent trip to the West Coast. Della flew out aboard a DC-6 and

Mr. and Mrs. William Jostmeier were feted by friends Sept. 25 on their golden wedding anniversary.

sat in on a Lux Radio Theater program in Hollywood. . . . Leo Gallagher, Planning, Bldg. 23, enjoyed a pleasant surprise during his stay at Park Avenue Hospital when his daughter, Gail, visited him to celebrate her fifth birthday. Her mother, Mildred, Reel Mfg., accompanied her and helped serve cake and ice cream. . . . Francis Davey, Power, while on a return motor trip from Cranberry Lake where he picked up his son, Charles, a student at the Syracuse University Forestry School there, was sideswiped by a truck and had to put up his car for repairs. . . . Marjorie Gears, daughter of "Shifty," the Park's softball twirling maestro, has joined the office staff of the Film Planning and Record Dept. . . . George Reisinger, Paper Finishing, claims it isn't so. Genial George and his wife received a flood of congratulations by mail and phone recently upon the birth of a son, but the surprised couple had to tell everyone that it must have been someone else. "I'll be there with the cigars when the time comes," says George. . . . Loretta Chamberlain, Roll Film Verichrome Spooling, spent her vacation in sunny New Mexico this summer.

A dinner party was held at Dozier's Sept. 16 by members of the Sundries Mfg. Dept., Bldg. 18, in honor of Sarah Gilmartin, who celebrated the completion of 25 years' service with the Company. Ray Lutz presented her with

J. P. Foley presents gift to Sarah Gilmartin at dinner party celebrating her 25th year of service with Kodak.

a gift on behalf of associates. The Eastman service pin and other gifts were presented by J. P. Foley, general foreman. . . . Warner Draught, Paper Service, is back from a vacation which took him to Washington, Mt. Vernon and Alexandria, with brief stopovers in Philadelphia and New York City on the way home. . . . Mabel Zemaitis, Film Planning and Record, is recovering at home after a recent operation. . . . Maryanne Klein, Export Billing, who on Sept. 11 was married to John C. Moody, E&M, was entertained at a shower prior to her wedding, at which time she received many lovely gifts.

Fred Shea, Cine Processing, is telling his wife to listen to the radio more often. Mrs. Shea recently won \$150 worth of groceries for correctly answering a radio quiz question over the telephone. . . . W. C. Vaeth, Research Laboratories, has returned from a short visit with his sister in Giesen, U.S. Zone of Germany, after a round trip by air. . . . Alberta Maher, Sundries Quality Control, was entertained by her associates at a farewell dinner Sept. 24. Alberta is leaving to take up household duties. . . . Monica Calkins, Cafeteria, Bldg. 28, and her son, John, have returned from a vacation trip to the Chicago Railroad Fair, Glacier National Park and the West Coast, taking time out to be guests on the late Tom Breneman's "Breakfast in Hollywood" program. Returning via the Southern route, they visited New Orleans. . . . John Ricey and John Yates, Film Planning and Record, both back from recent vacations in Canada, are arguing the merits of their fishing skill.

Bob Glass Gets Glad Hand And \$500 Suggestion Check

Equals Record — Carey H. Brown, left, superintendent of Service Depts., was on hand to congratulate Bob Glass, center, when he received a check for \$500 from E. L. Cook, Yard Dept. superintendent. The check, which represented a suggestion award, equaled the previous high received by a Yard Dept. man.

When Robert J. Glass received a suggestion award check for \$500, E. L. Cook, Yard Dept. superintendent, and Carey H. Brown, general superintendent of the Service Depts., were on hand to extend their congratulations.

The amount equaled the previous high award received in 1944 by a Yard Dept. member. Glass's suggestion concerned the expediting of certain types of service work. He has had 15 adoptions to date, including a previous high of \$60

which he received last March.

The number of suggestion ideas submitted by Yard Dept. people has increased by almost 100 per cent in the last two years, according to John H. Bushfield, KP Suggestion System secretary.

Riding Class, Sewing Slated

Fall classes in horseback riding and supervised instruction in sewing are being organized by the KPAA for girl members.

Beginners' and intermediate classes in riding will be held Wednesday evenings at the Griffith Stables in Pittsford under the direction of Mickey Way, Industrial Engineering, Bldg. 12. Further details may be obtained at the KPAA Office, Bldg. 28.

Arrangements again have been completed with the Singer Sewing Center in Ridge Road West to offer sewing instruction at reduced rates (8 lessons for \$8).

In addition to basic sewing for beginners and helpful hints for advanced pupils, a special home decoration course will cover the making of slipcovers, draperies, tailored and ruffled curtains, and bedspreads. Complete information is available at the KPAA Office, Ext. 2193.

'Miracle in Paradise'

A safety film, "The Miracle of Paradise Valley," will be shown to Kodak Park people in Bldg. 28 gymnasium during the noon hours of Oct. 5-6-7-8.

The motion picture, produced by the Sinclair Oil Refining Co., and dealing with accident prevention in rural areas, will help to spotlight a plantwide safety campaign sponsored by New York State Industries.

Bridge Play Starts Oct. 4 at Park

The KPAA Bridge Club's first get-together of the 1948-49 season will be Monday evening, Oct. 4, in the subbasement of Bldg. 28 beginning at 7:30 p.m., according to Dick Miller, Bldg. 26, president.

Frederick Chandler Dies

Frederick Chandler, a member of the Cine Reel Dept., died Sept. 21. Chandler started in the Roll Coating Dept. in 1919 and transferred to Cine Reel in 1944. He had been out ill since Sept. 3.

Stage Set for Big Shindig To Honor Sam Kaufman

A man can win a lot of friends in 40 years, and Sam Kaufman, foreman of the Composing Room, Bldg. 48, will meet most of them Oct. 9. Department members and other friends will gather at Terrace Gardens that evening to help him celebrate the completion of four decades at KP.

Sam has seen plenty of type and printed matter come and go. He'll tell you that the paper used by the Printing Dept. in a single year would make a 25-inch band around the world, with an overlap from Rochester to Albany for gluing. It's a far cry from his early days in the basement of Bldg. 2, says Sam, where, under the supervision of E. P. Flynn, one of his first duties was to operate a proof press.

Bad Day for Sam

Sam recalls one instance when George Eastman brought in a plate from which proofs were to be made. Unnerved by the presence of his visitor, Sam dropped the plate and damaged it beyond repair. Expecting the worst, he cast timid glances in Mr. Eastman's direction. The latter, true to the repute in which he was held by all who knew him, simply smiled and

assured him that another plate would be provided the next day.

In those days, Kaufman continues, all type matter was set by hand, involving a much slower method than that employed with the Printing Dept.'s modern typesetting machines today. He also remembers 10-hour days, 6 days per week.

Sam's family has been associated with KP for many years, his father and two brothers, Dave and Louis, being former members. One of them owned a house that stood almost on the present site of Bldg. 48. Two of his daughters also have been associated with the plant.

Casting a philosophic eye about him, Sam agrees that the "good old days" were less hurried and perhaps conducive to a more peaceful frame of mind, but feels that the young people of today have many more opportunities than ever before.

Comptrollers' Conference — Stanley M. Kowalski of KP, arrangements chairman for Comptrollers' Conference at the Park, is in right foreground discussing the program with, l. to r., L. Joynt, Canadian Kodak Ltd.; R. S. Leonard, TEC; J. E. Doyle, KP; J. R. Hodge, Recordak Corporation; F. C. Smith, Eastman Gelatine Corporation; A. T. McKay, Taprell Loomis Division, and R. G. Fisher of Kodak Office. The conference lasted four days.

Comptrollers Discuss Problems At Annual Conference Here

Representatives from Eastman Kodak companies and subsidiaries in the United States and Canada gathered at Kodak Park last week for the Fourth Annual Kodak Comptrollers' Conference.

Kodakery Gets New Member

New editor of the out-of-Rochester edition of KODAKERY, which goes to all members of

Pat Connorton

Company stores, branches, laboratories and processing stations throughout the country, is Patricia L. Connorton. She is succeeding Dorothy Craig, who left the Company to be married. Pat is a June graduate of the School of Journalism at Marquette University, Milwaukee, Wis., where she filled the post of feature editor for the campus weekly, The Tribune. She was also an editor of the college yearbook, and served as vicepresident of the Marquette chapter of a national women's honorary journalism sorority.

Pat is a niece of Cecilia Connorton of the Kodak Office Advertising Dept.

C. J. Van Niel, general comptroller of the Company, opened the meeting Sept. 22 by welcoming the 45 delegates. Technical sessions, featuring the discussion of miscellaneous accounting problems, were conducted Wednesday, Thursday and Friday.

TEC Men Attend

Among those who took an active part in the program were L. F. Johnson and R. L. Flanary, Tennessee Eastman Corporation; I. L. Houley, T. M. Bonnar, E. R. King, W. B. Bull, C. H. Grashof, Harmar Brereton, J. L. Harper, T. J. McCarrick and Van Niel, Kodak Office; F. H. Connelly, Camera Works; Stanley Kowalski, J. E. Doyle, R. A. Sherman, H. B. Robertson and L. Thomson, Kodak Park, and James Spence, Canadian Kodak.

Arrangements for the conference were made by a committee composed of Kowalski as chairman, assisted by Doyle, and R. G. Fisher of Kodak Office. A dinner at Monroe Golf Club on Friday evening, followed by golf and luncheon on Saturday, terminated the four-day program.

"Doctor, do you think cranberries are healthy?"
"I've never heard one complain." Park, Ext. 2385.

Argentine Pioneer in Medical Photography Uses Kodachrome to Illustrate U. R. Lectures

Dr. Pedro Belou, internationally known scientist and professor of anatomy of the Faculty of Medical Sciences, University of Buenos Aires, Argentina, also is a pioneer in medical photography.

The doctor, who has been visiting at KO, first began using photography in the field of medicine in 1914. During his 33 years of teaching, he has used photography more and more in his classroom, he declared. Today, he is using Kodachrome almost exclusively.

Now on a lecture tour, which he opened last week at the U. of R.'s School of Medicine and Dentistry, the doctor has brought with him approximately 10,000 feet of Kodachrome and black-and-white film to illustrate his various talks.

After speaking at university medical schools in Ann Arbor, Chicago, Washington, Philadelphia, Baltimore and Boston, the doctor and his wife, who is his photographic assistant, will go to England.

There, the doctor will show his films at Cambridge and Oxford and before the Royal Society of

Surgeons. In Paris, he will address the Academy of Sciences and the Academy of Medicine. From there he will go to Switzerland and perhaps Sweden.

A noted author on anatomy, he is an honorary member of the Academies of Medicine of Paris, Barcelona and Madrid, among others.

Anatomy Expert — Dr. Pedro Belou, right, professor of anatomy of the Faculty of Medical Sciences, University of Buenos Aires, examines a print of an X-ray on display in KO's Medical Technical Service Lab. With him is Dr. Manuel Zariquiey of Kodak's Medical Technical Service, Latin American Div.

Kodakwiz

ANSWER

(Question on Page 2)

This is a Brownie Target Six-20 Camera. One of the simplest cameras in the Kodak line, it is especially suitable for the beginner in photography. Besides its easy operation for taking snapshots it is equipped to take time exposures.

Jane: "I don't intend to be married until I'm 30."

Joan: "I don't intend to be 30 until I'm married."

Olson's 73 Wins CW Golf Meet

Ed Olson's 73 won low gross honors in the third and final CWRC golf tournament of the season last Saturday at the Country Club of Rochester.

Olson carded a 37 on the out nine, and came home in 36.

KP Cage Loop Planned

Plans for the 1948-49 Departmental Basketball League are being mapped by the KPAA. Holdovers from last season, as well as newly-organized teams, are urged to file entrance applications with the KPAA Office, Ext. 2193, at once.

Photo Award Winner Makes Own Equipment

Handy Hobby — Nicky Gentry, 15-year-old Kingsport, Tenn., award winner in Kodak's 1948 High School photographic contest, is shown looking over some photographic equipment he's made. Nicky examines the smallest and largest of his homemade cameras. Also shown in above picture is enlarger the youthful photo hobbyist made from potato chip can. His prize-winning entry is shown in cut at the right.

Nicky Gentry, 15, of Kingsport, Tenn., cannot only make a prize-winning photograph, but he also makes his own equipment.

A sophomore at Dobyns-Bennett High School, Nicky recently won an award in the still life division of the National High School Photographic Awards, sponsored by Kodak.

The prize-winning still life photo was an unusual shot of some window plants in direct sunlight. The contest was the first that the young photographer had ever entered.

Much of Nicky's photographic equipment has been constructed out of odds and ends. A prime example of Nicky's ingenuity is the enlarger with which the award-winning photo was blown up. This device was built from an old potato chip container fashioned onto a tripod of water pipes.

The cameras which Nicky has made range in size from a small two-inch affair constructed of cardboard and adhesive tape to a large one built from an old box. Nicky has several albums filled with evidence that his homemade cameras work.

Having been interested in all phases of photography for several years, Nicky plans to carry his hobby further. He has ordered several new pieces of equipment for both taking and developing pictures, and intends to follow his avocation into the professional fields when his schooling is completed.

Nicky's Prize Photo — This snapshot, entitled "Light and Shadows," won an award for Nicky Gentry, Kingsport, Tenn., high school sophomore, in the third annual National High School Photographic Awards, sponsored by Kodak. Nicky makes his own photographic equipment from odds and ends.

Kodak Pays Tribute To 25-Year Folks

Men and women who joined Kodak in 1923 were honored by the Company last week at its annual 25th anniversary dinner at State St. A total of 316 folks observing their 25th year were paid tribute—287 from Rochester and 29 from out of town. Those noting 40 years in 1948 also were guests. It was a delightful occasion, highlighted by a talk by Donald McMaster, vice-president and assistant general manager, with the mystifying feats of magic by the renowned John Mulholland climaxing the evening.

- 1—Donald McMaster, vice-president and assistant general manager, who made the principal address.
- 2—Table of Camera Works folks. From left: Frank Bovenzi, Earl Carson, Joseph Nighan, Charles Hellems, Joseph Dunbar, Ed Cesel, Art Brown.
- 3—Mabel Harris, Toronto Store, and Anna Carey, Philadelphia, admire some of the floral decorations.
- 4—Mary Gray, Madelen Hoch and Marjorie Barnes, Camera Works, look over the camera display.
- 5—A. E. Amor, visitor from Kodak, Ltd.
- 6—Ignas Matulis, Henrik Gotcsik, George Kosel and James Druz of Hawk-Eye, chat before dinner.
- 7—Vic Rayment gets an identification badge from Kay Flannigan as Ruth Massing and Ed Fraser look on. They're from KO.
- 8—KP Table. From left: Clarence Cross, Merwin Staples, Martha Caldwell, Charles E. Kendall, Louis McManus, Eleanor Kerwin, Fred Hill, Norm Schenkel.
- 9—Fred D. Tubbs, Kodak Park, receives congratulations from Dr. A. K. Chapman, vice-president and general manager.
- 10—Anna Carey and John Walsh of the Philadelphia Store are greeted by J. E. McGhee, vice-president.

KO Girl Plans First Visit 'Home' To British Town in 20 Years

Now—and Then—The big smile on the face of Frances Smith, KO Medical, emanates from thoughts of England and her proposed trip "home" for the first time in 20 years. In the small circle, Frances is seen as she appeared 20 years ago. It's her passport picture. She called attention to the Colleen Moore haircut. "Most kids wore their hair that way," she commented.

"I'm just wondering if my family will know me," speculated Frances Smith of KO Medical as she told of her proposed trip next month to England. It will be the first time in 20 years that she has seen her four sisters and three of her brothers. Another brother is a resident of Rochester, while still another returned to his family's native town of Bradford, Yorkshire, in 1940.

Lost 17 Pounds

"I think I've changed a great deal," she added, saying that she now weighs 17 pounds less than she did when she came to this country at the age of 18 to live with her aunt in New York City. She claims a great deal of water has passed under the bridge since then, and now "everyone's so excited about my coming over. There'll probably be a big family reunion," she said with anticipation.

They Corresponded

The nine Smith children have kept in close touch with each other, but it's still a great occasion to see seven of them for the first time in 20 years. The brother who is a Rochesterian will be the only one of the nine unable to make the get-together.

Frances' mother passed away when Frances was seven years old, while her father died when she was but two. "My father was a member of the King's Guards in the reign of Queen Victoria," she revealed. In those days they wore red coats and big plush hats, she said, in remarking that the changing of the guards was one of the sights she again wants to see.

Other itinerary plans include a visit to Kodak Harrow and sight-seeing in Scotland and Ireland. She also hopes to visit Bordeaux, France, where she'll meet the people who befriended one of her brothers after he was injured in the Battle of Dunkirk.

Frances told of her sister, Mary Cumming, who was badly injured by a rocket bomb during the war. The Cumming home was destroyed twice and their present house is

It's School Lunch Time Again —Pack Attractive, Filling Meal

The school bell has rung and it's time once again to start packing lunches for Junior. What kind of lunches are they going to be? The same old thing . . . peanut butter and jelly sandwiches?

Did you ever stop to think that the lunch you pack for your student-child may affect the kind of grades he'll bring home at the end of the semester? It's quite true, reveal Nutrition Adviser Winifred D. Murray and her assistant, Marion Byrne. Poor schoolwork often can be traced back to an unbalanced or uninteresting lunch.

Consider the lunch box in terms of building the morale as well as the body, they advise. There's no end to the boost in grades and outlook a few tucked-in surprises can give. Try carrot sticks, celery, firm tomato, olives, dried fruit, fresh fruit, pickles, and mixed nuts.

Salad a Real Treat

Paper cups or glass containers of salad, baked beans or fruit jello are real treats. A thermos of hot soup and a paper cup into which to pour it are guaranteed to hit the spot. This is the sort of thing that makes the packed lunch exciting for the kids, instead of tiresome. And, too, the nutritional value added by the food that's a surprise is immeasurable.

The dietitians emphasize that

the third which they have built.

Frances leaves Oct. 8 to sail on the Queen Elizabeth. Friends in KO Medical wish her bon voyage and a happy reunion. They'll await her return in the middle of November.

milk is the mainstay of the child's lunch. If not bought in school, it should be provided for in the lunch box. The young high school girl needs plenty of eye-appeal in salads and substantial dishes to overcome the sweet-tooth fancies of her age. The high school boy's omnivorous appetite and ostrich-like digestion do not exist solely for the astonishment of the family. They're an S.O.S. for the protein and energy foods, the fuel and the building materials his body needs.

Pack a filling lunch. A growling stomach may be funny or embarrassing and then forgotten. But the student who has hunger pangs logically doesn't do his best in school. Extreme cases of hunger may result in dizziness and general weakness.

Plan the Menus

Mom, it need not always be you who is responsible for packing, but you certainly are the executor in the so-doing. Lunch box contents should be planned each day for the following day or several days in advance. Think of them when both buying and preparing food for other meals.

Decide upon an area in the kitchen to prepare the boxed lunch and have all materials on hand. Now ready to begin, you can be sure that Junior will be at his nutritional best to bring home grades that are his best.

The Way We Heard It

PACKAGE-COOKERY—Foods cooked while packaged soon will be a way the homemaker can prepare her meals. Newest trend is the use of transparent film which remains wrapped around foods while they are being cooked.

Rah! Rah! Football!

C'mon, Team!—In contrast to sober bench-players flanking her, Carolyn Kuhls, Roch. Br. Order, gives a rousing, realistic cheer. She wears just the thing for the football season—a gay plaid skirt, handsome corduroy jacket with large pockets, and white wool jersey blouse with tiny collar and button-down front. They are Forman fashions.

Turn Leftover Meat into Good 'Roly-Polys'

If there are only two in your family, you undoubtedly have many meat leftovers from beef, ham and chicken.

Sylvia Cooper, KO Patent, makes roly-polys with any extra meat she has.

Recipe for Two

1 cup Bisquick.
¼ cup milk, approximately, to make stiff dough.

Roll mix about ½ inch thick on floured board in oblong shape. Spread on about 1 cup ground meat—either beef, ham or chicken. Roll across short width and cut ½ inch thick. Place in ungreased baking pan and bake in hot oven (450°) 12-15 min. or until golden brown.

Serve hot with gravy. For beef roly-polys, use roast beef gravy; for chicken roly-polys, use chicken gravy, and for ham roly-polys, use white sauce.

White sauce. Melt 1 tablespoon butter or margarine and blend with rounded tablespoon flour. Gradually stir in 1 cup milk and ¼ teaspoon salt, stirring constantly until thick. If thicker sauce is desired, stir in mixture of cold milk and flour until reaching desired thickness. Serve with dash of paprika.

Sylvia Cooper

The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD—NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

LOST—Woman's wristwatch in Bldg. 28 or along Ridge Rd., near KP, Monday noon, Sept. 20. KP Ext. 6276.

KP Finished Film Cops Softball Title

Barhite Tops EK Pinmen With 658 Set

John Barhite's booming 658 series blazed the trail in Kodak bowling circles last week. Shooting in the KPAA "A" League, John crayoned games of 192, 208 and 258. The latter score was also the best solo to date.

Zoe Bickel rolled a 203 in the KPAA Girls' 16-Team League. The next best women's solo was a 201 by Josephine Mrak in the KO Girls' loop. Janice Stillman, KPAA 16-Team, posted a 200.

H-E Keglers 'Hot'

H-E keggers were in mid-season form, with four notching six-ply three-game totals. They were Kraft, Leonard Doell, Walt Gluchowicz and Les Thayer. . . . Trailing by eight pins going into the final frame, the Tripods eked out a two-pin victory over the Vollendas in the CW No. 1 wheel when Ed Fien, Dick Hamilton, George Dash, Lou Schnorr and George Krewaitis struck out.

Andy's Their Man —

Hero of the Interplant Softball Tournament was Andy Vogel, shown above leaving the mound with his KP Finished Film mates giving him the glad hand. Film nine beat CW Tool Room in titular game. In the "victory march" above, from left: Al McEntee, Sparky Zubert, Elmer Smith, Vogel, Cy Norton, Harry Horn and Al Benedict. In action photos of first-round games, Ed Barney, CW leftfielder, slides safely into plate in fourth inning of H-E-CW game, upper right. Scene from KO-KP game, lower right, shows Harry Horn reaching third safely in sixth as ball eludes KO third baseman Dick Mayberry.

Bears, Yanks Grab Leads

The Bears, KPAA Ridge League champs, were three games up on their F.D. 5 rivals, Kodak West leaders, in their post-season series on the DPI diamond, as of last Friday.

Abe VerCrouse's outfit, idle since the conclusion of the regular loop season, demonstrated that it had lost none of its softball savvy by jolting the Kelchmen, 2-0, 3-1 and 1-0, in the first three tilts.

A three-hit ball game was seen on Sept. 22 as winning pitcher Roy Sill allowed one safety and Murray Emmerich, F.D. 5 hurler, yielded two. The Bears capitalized on four miscues by the opposition to push a brace of tallies across the plate.

Syd Gamlen Connects

Herb Carpenter twirled his mates to a 3-1 victory Sept. 23. Emmerich was again charged with the loss. Syd Gamlen poled a home run to deep center.

Sill again blanked F.D. 5 on Friday as Bill Oehlbeck tripled and scored on Ed Sheck's single to give the Bears a 1-0 win.

George Kelch's outfit qualified for the series by weathering the Kodak West double-elimination playoffs after winning the first-half gonfalon. The F.D. 5 aggregation posted a 1-0 triumph over Wood Cellulose Sept. 20 in the finale after the latter had eliminated the Renegades by a similar score.

Yanks Lead Lake

In the KPAA Lake Avenue Noon-Hour League playoffs Jack Connolly's Yankees dropped their opener to the Dodgers, 4-2, before coming back to take the next two.

After beating "Shifty" Gears in the opener Sept. 17, the Dodgers bowed to Joe Snook, 3-0, Sept. 21. The following day Ralph Woodhall's double with Don Stollery and Tommy Castle on the sacks set the stage for a 4-0 Yankee triumph.

Ridge Banquet Set

The KPAA Ridge Noon-Hour Softball League will have its annual dinner at Barnard Exempts Oct. 4 at 7 p.m., according to Prexy Frank Kane.

Vogel Hurls KP to Wins Over KO, CW

Milt Alt's KP Finished Film softballers, competing in the Interplant for the second successive year, made their 1948 bid a successful one. The Filmmen won the post-season classic last week, nudging the CW Tool Room, 3-2, in a tense extra-inning finale. The KP nine gained the finals by trouncing the KO Penpushers, 12-0, in their opening test.

The CW outfit advanced to the championship game by thumping the H-E Estimators, 14-8, in the semifinals Sept. 22.

Ken Mason's KO nine won third-place honors, outslugging H-E, 12-10, in the consolation game.

Ludwig Hits 4-Run Homer

Andy Vogel was the hero in Kodak Park's conquest, hurling both games. He struck out 12 and gave up only one hit against Kodak Office. A 10-run sixth made it a complete rout. Bill Ludwig's grand-slam homer was the biggest contribution to his team's 14-hit total, but Cy Norton collected three for four, including two doubles. Harry Horn and John Streb clouted triples.

In the deciding fracas Vogel released six scattered hits and was invincible in the clutches. He got seven CW batsmen on strikeouts.

With the score tied 2-all after the regulation 7-inning distance, "Sparky" Zubert singled, stole second, advanced to third on a fielder's choice and scampered home on a passed ball. Vogel then retired the side in order in the CW half of the eighth.

Ed Mayer, who had previously set down Hawk-Eye, was again in fine fettle the next night. He yielded but four hits and came through with a timely bingle in the CW third. Joe Gerew, whose homer with the bases loaded helped Mayer's cause in the H-E game, tripled with a mate aboard in the fifth against the Park outfit to tie the score.

Al Wilkens, John Yates and Horn contributed fielding gems to snuff out CW bids. Line score: KP Finished Film ... 020 000 01-3 4 1 CW Tool Room ... 001 010 00-2 6 2

Andy Vogel and Sparky Zubert; Ed Mayer and Connie Jankowski, Ted Moeney.

KP Dusties Enjoy Big Season

Manager Mike Farrell fondles trophy KP Dusties received for winning American division championship in Champion Industrial League. Howie Niedermaier, left, Corky O'Rourke and Joe Snook look on admiringly.

SPARKED BY Bill Reynolds and John (Corky) O'Rourke, whose booming bats spoke loud and often, and the strong-armed pitching of Joe Snook and Howie Niedermaier, the Kodak Park Dusties won 25 and lost 6 during the softball season just completed.

Climax to the successful 1948 campaign was the team's advance to the semifinals in the 82-team field in the Champion of Champions' tournament. Mike Farrell's boys won the American division pennant in the Champion Industrial League with a 10-1 record, and finished second in the Rochester Industrial circuit with an 11-3 mark.

O'Rourke, sidelined with an injury in the stretch drive, compiled

a .392 stick mark, right behind Reynolds who hit a hefty .413. Snook's 13 victories led the slab staff, while Niedermaier bagged 11 wins. Individual batting averages follow:
