Huge X-ray Probes Heart of Steel To Help Produce Stronger Castings

A 250,000-volt X-ray "eye" that can look through 4 inches of steel is helping to develop new metal casting techniques and speed inspection of quality castings at the Westinghouse Foundry and Copper Mill at Linhart, Pa.

Recently installed along with a complete X-ray laboratory, the machine, an industrial jib crane unit developed and manufactured at the Westinghouse X-ray Division in Baltimore, will be used to inspect finished castings.

In connection with the gigantic X-ray apparatus, Westinghouse uses Kodak Industrial X-ray Film, Type K, in 8 by 10, 10 by 12 and 14 by 17 sizes, in large quantities. Kodak X-ray film exposure holders, film corner cutters, liquid X-ray fixer and replenisher and X-ray developer and replenisher also are used in the large operation.

Dual Role

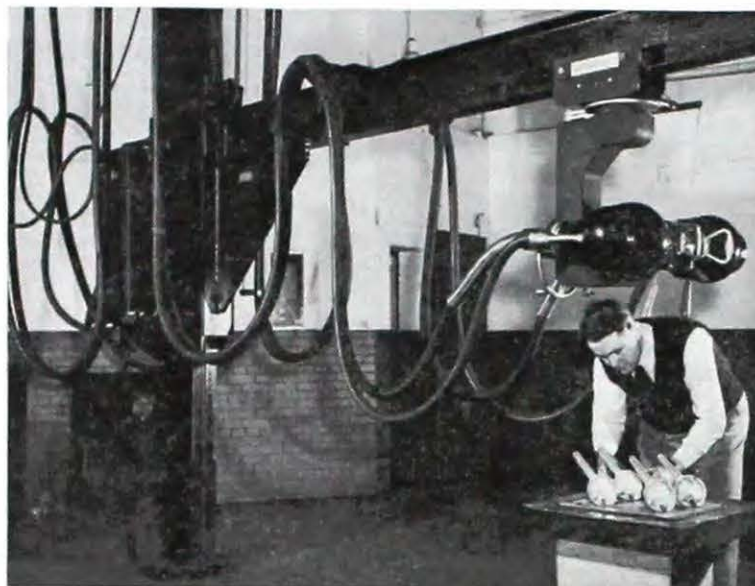

The X-ray unit will perform its dual role in development and inspection by providing X-ray pictures revealing the internal structure of the castings. Formerly "sample" castings were machined to destruction—literally torn apart—to reveal any internal flaws.

"In developing a new casting technique," W. J. Laird, foundry superintendent, explained, "the first or pilot castings will be X-rayed, and if internal flaws are revealed, the foundryman can study the radiograph and alter the production method so that the defect is eliminated or minimized."

"Any localized flaw, such as a cavity, inclusion or crack that has a minimum dimension of the order of one per cent of the thickness of the object, can be detected. In addition to revealing internal flaws without destroying the casting, radiographic inspection is quicker than other test methods and provides a permanent record."

Laird cited a recent experience in developing a casting method for an aluminum switchgear handle with an iron insert, as an example of how X-ray speeds up the job

(Continued on Page 4)

X-ray Giant — This 250,000-volt jib crane X-ray machine, which was developed and manufactured at the Westinghouse X-ray Division in Baltimore, is being used to inspect castings and help develop new casting techniques at the Linhart, Pa., plant of Westinghouse. It takes X-rays through 4 inches of steel.

RCA Savants Confer at KP

Three of the key men of the Radio Corporation of America in development of Ultrafax came to Rochester last week to confer with Kodak Park scientists on phases of the system.

"Hot photography," the high-speed film-processing method developed by Kodak in wartime by the Kodak Research Laboratories, has a vital part in Ultrafax. The RCA communication system is capable of sending a million words a minute, as demonstrated recently in the Library of Congress at Washington.

The visitors were Donald Bond, (Continued on Page 4)

Science Parley — Kodak scientists get together with a trio of RCA men at Kodak Park to confer on Ultrafax, the high-speed communication system developed by RCA with the aid of EK. From left, examining special tubes used in the system, are Charles Kunz, technician, and T. Gentry Veal, research associate of the EK Research Laboratories; Donald S. Bond, K. J. Magnusson and Charles J. Young, of the RCA lab at Princeton, N.J.

51,500 Kodak Folks To Share in Payment

\$13,000,000.

That's the amount of Wage Dividend 51,500 Kodak men and women in the Western Hemisphere will receive next March as a result of the action of the Company's Board of Directors this week.

It will be the largest in total amount of money in the history of the Company, surpassing last year's record-breaking payment of \$11,600,000.

Rate is 2 1/4 Per Cent

The Wage Dividend rate of 2 1/4 per cent is the same as last year. This means that, according to the formula, Kodak people will receive 2 1/4 per cent of wages earned in the five-year period, 1944-48. Dollarwise, the payment will amount to \$22.50 for each \$1000 earned.

Approximately \$9,000,000 will be received by the more than 32,000 Rochester people, compared to last year's \$8,200,000.

Kodak men and women who have been with the Company five years by the end of 1948 will receive a Wage Dividend of about 5 3/4 times their average weekly earnings for the last five years. Those who have been with Kodak less than five years will receive amounts proportionately.

All Kodak folks who came with

the Company on or prior to Oct. 1, 1948 and who are at work at the year's end will get a Wage Dividend. Those starting after Oct. 1, 1948 but before Jan. 1, 1949 will be entitled to a Wage Dividend if still with the Company on the date of payment next March.

This will be the 37th Wage Dividend payment since the Company started the plan back in 1912 and brings the total amount shared by Kodak folks to \$103,000,000.

The percentage of the Wage Dividend payment was determined when the Board of Directors declared a dividend on the common stock of 50 cents for the quarter, bringing to \$1.60 the total cash dividend this year, the same as last.

Based on Stock Dividend

The Wage Dividend formula is based on this total amount of cash dividend on the common stock. For each 20 cents by which dividends declared on the common stock exceed 70 cents, the Wage Dividend rate is 1/2 of 1 per cent (.005) of all earnings within the five calendar years preceding the date of payment.

Since this year's cash dividends total \$1.60, this is the way the formula works: \$1.60 minus 70 cents which equals 90 cents. Dividing this by 20 cents gives 4.5. Multiply 4.5 by .005 and this gives the Wage Dividend rate of 2 1/4 per cent.

To determine an individual's Wage Dividend, his earnings during 1944-48 are multiplied by this rate.

The Board of Directors also declared a stock dividend on the outstanding common stock of one share for each 20 held, in addition to the cash dividend.

6 Entries Keep Slates Clean In State Safety Campaign

Six of Kodak's entries still had perfect marks this week as they moved into the second half of the 13-week statewide Accident Prevention Campaign.

The seventh week, just completed, was the first one of the campaign in which no lost-time accident was reported by the EK contestants.

The campaign, which is sponsored by the Associated Industries of New York State, closes on Christmas Day, Dec. 25, when the winners will be chosen. Awards normally are presented at a big dinner meeting in March at the Chamber of Commerce.

Still clinging to their 100 per cent ratings without a reportable lost-time accident were the Navy Ordnance Division and Roll Coating Dept., Finished Film and Sundries Dept., Service Depts., Research Division, and the Cine Processing Dept., the last five of KP.

Hawk-Eye 99

Hawk-Eye, which won the grand award for the 1947 campaign, is down to 99 per cent but still was striving to keep its record from further blemish. The score for Camera Works also stood at 99 going into the eighth week of the campaign. Last year CW won a special citation for compiling a record of 1,640,411 man-hours of exposure before a lost-time accident was reported. Hawk-Eye's record was 1,797,396 man-hours.

The Cine Processing Dept. at KP, which was runner-up to Hawk-Eye in the campaign last year, was still in the 100 per cent bracket this week for the 1948 competition. This year they are shooting for the top.

Lowest mark of the Kodak entries in the 13-week campaign is 96, listed for two KP units. Six have 99 per cent, two report 98 during the year.

Stay Safe Today! — Joe Bach, safety supervisor at the Navy Ordnance Division, points out NOD's perfect mark thus far in the statewide Accident Prevention Campaign to Angela Muscolo, Dept. 79, as he urges continued success.

Kodachrome Meets Test, Hot 'n Cold, Pole to Pole

Captain Calls—Capt. Robert S. Quackenbush Jr., in charge of Naval photography, examines a reproduction of a Kodachrome picture of the Missouri, only Navy battleship in active commission. At left is Chuck Resler of KO Sales, who during the war had charge of procurement and distribution of photographic supplies for the Navy. At right is John Whittle, head of Kodak's Govt. Sales Div. The trio renewed acquaintances when Quackenbush was in Rochester to address the Kodak Camera Club.

After putting Kodachrome film to the severest tests of frigid North and South Pole temperatures and the torrid heat of Bikini, Capt. Robert S. Quackenbush Jr. has high praise for the film.

Strange Twist In 'New Look'

Gag Backfired—After Lully Davidson found two ancient cuspidors as props for a picture, she put one near her boss' desk as a gag, but maintenance men unknowingly went along with the gag and gave them a high luster.

"How efficient can you be?"—that's what KO's Photographic Illustrations Div. wants to know about Maintenance's night force.

Elizabeth (Lully) Davidson, a prop girl in the division, had searched for days to find two brass cuspidors. She needed them for a "small town" election night picture planned by the division.

Eventually, she came up with two spittoons which looked as if they had sat for years near some country store's cracker barrel and pot-bellied stove. Actually, Lully borrowed one from the Rochester Museum and the other from George Gillette who, it was discovered, had one in his KO Patent Dept. office.

Just for a joke late one afternoon, she placed one of them near Manager Ken Williams' desk, the other in the studio's reception room. Joke was on Lully the next morning when two gleaming cuspidors nearly blinded her.

A Maintenance night force janitor had used plenty of elbow grease to make them fairly sparkle—and even filled them with water, ready for use!

"There is no difference in effectiveness of the film when shooting it with the temperature at 100 degrees in the shade or 40 below zero," he declared.

The captain, in charge of all Naval photography, spoke before Kodak Camera Club members recently, showing some of the pictures he obtained at the South Pole. He was in charge of photography on Adm. Richard E. Byrd's last expedition there.

Interviewed prior to the camera club meeting, Quackenbush said that photography did a great job in mapping one-quarter million square miles of territory. One hundred thousand aerial and 8000 ground still pictures were shot on the trip, in addition to 300,000 feet of motion picture film, 80,000 feet of it in Kodachrome.

Record of Trip

"We have a documentary film record of the entire trip, from the purchasing of the dogs in Newfoundland to leaving the Bay of Whales on our way home," he said.

"It strikes most people as strange when they hear there is tremendous light at the Poles," he explained, "but great reflection from the ice must be taken into consideration when adjusting shutter openings."

At present, "The Silent Land," made at the South Pole under the captain's direction on 16mm. Kodachrome and later printed in 35mm. Technicolor, is being circulated in theaters throughout the country.

Quackenbush was in charge of Naval photography at Bikini's "Operation Crossroads," and then after the South Pole trip, he headed an expedition to the North Pole.

Booklet Describes Kodak's Lenses

A new, completely revised edition of the Kodak Data Book, "Kodak Lenses, Shutters and Portra Lenses," is available.

It incorporates extensive changes. Besides covering fundamental theory and formulas, the booklet describes Kodak Lenses for still photography and includes data sheets on each lens. The section on shutters explains such things as shutter efficiency and internal flash synchronization.

The booklet contains a comprehensive and detailed section on the application and use of Kodak supplementary lenses, and this section also includes two-color graphs for easy reference. Price is 35 cents for each copy.

Photo Patter

Yule Cards Present Personal Touch If YOU Make 'em Photographically

How about personal photo greeting cards this Christmas? Now is the time to begin in order to have them ready in plenty of time for mailing.

No matter how inexperienced you are in picture taking, you can have photo greeting cards this year. There are many ways of making them. You can take a picture with the Christmas message right in it—as in our illustration—or have that favorite picture you took last year printed with a mask bearing your greeting. Also you can purchase Christmas folders in which the picture is inserted.

A little advance preparation is all that's necessary. Decide whether you want a family shot, just the children, a landscape with a signpost greeting, a shot of your house or a table top. One clever card we saw recently was a picture of a house at night in winter. The family name appeared in one corner of the picture on a driveway reflector sign.

A Christmas message may be built with a child's alphabet blocks and the child photographed as he places one of the letters. Clever Christmas settings can be arranged on a table top and photographed with your message of good cheer. The possibilities of what you can do with a picture are limitless.

After the picture is taken, your photofinisher can take over and do all the necessary printing while you lean back and relax until it's time to address the envelopes. However, if you like to do your own printing, photographic cardstock with matching envelopes is

It's Fun—Here's a simple Christmas card made photographically. You can think of numerous other ideas, and they're lots of fun to make.

available at your photo dealer's. Then, if you want to dress up the cards even more, use green and red inks to tint the edges and give them a real festive holiday look.

Let's suppose you already have a favorite negative that you'd like

to use as a greeting card. Your problem is solved easily by the use of masks bearing appropriate holiday greetings. These masks are supplied with a variety of openings for different size negatives. You simply combine the negative and mask and print away. Your photofinisher also has a supply of these masks in case you'd like him to do the work. Just pick out the greeting and he does the rest. He also has greeting card folders into which you slip the picture you want for a particular person.

Here's another help. A free booklet, "Photographic Greeting Cards," is available. Write the Sales Service Division at 343 State St. for it.

2 Kodakers Shift To Manila Posts

The Pearl of the Orient has attracted two Kodakers, one from the Paradise of the Pacific.

Which is another way of saying that Bill Reinhardt, who has been in KO Export, and Dave Thompson, who has been with Kodak in Hawaii, have transferred to the Kodak House in the Philippine Islands' capital, Manila.

Reinhardt was first associated with CW's Payroll Dept., transferring from there in 1927 to Canadian Kodak. There he was assistant to the Export Dept. manager at the time he enlisted in the RCAF. He has been in KO Export since the first of 1947.

Thompson went to Kodak Hawaii after 2½ years at Kodak Office and the Cincinnati Store. He is to act as manager of Kodak's retail store in Manila.

Dublin House's Delegate Studies EK Repair Methods

"I want to see the new modern equipment for repairing cameras," declared Vincent Corcoran, first visitor to Kodak Rochester from the Kodak House in Dublin, Ireland.

When Vince decided to vacation in New York with a brother, he suggested to J. J. Stafford, the manager of Kodak Dublin, that he come to Rochester to see Kodak and study new repair techniques.

EK Handbook Assists Police

A handbook to aid police photographers in the many fields of investigation has been prepared by the Company.

"Photography in Law Enforcement" is intended to serve as an introduction to law-enforcement photography for the novice and as a reference book on specific photographic problems. Equipment, problems of exposure, and dark-room technique are discussed.

Information and pictures for the book were gathered by Eddie Burke, Sales Dept. As a member of the Rochester Police Force from 1914 until 1936 when he joined Kodak, Burke pioneered in using photography as a police department aid.

Don McKibben, of KO's Sales Service Div., put the material into book form.

It gives detailed information on such subjects as identification, fingerprints, automobile accidents, homicide, arson, burglary and many other fields. Also included are recommendations for conducting drunken-driver test movies. In addition, the latest information on special types of photography—for example, infrared and ultraviolet photography, X-ray photography, spectroscopy and color photography—is given. Examples are cited in which photography played a big part in capturing criminals.

An extensive bibliography is listed in the back of the book for those who wish more information on particular phases of photographic investigation work.

"Photography in Law Enforcement" can be ordered from Kodak dealers at \$2.75 per copy.

Began at 14

Vince joined the Dublin house as an apprentice repairman when he was 14 years old. The Company sent him to technical school, and Vince has chalked up 16 years with Kodak already.

Following trips to Niagara Falls and Boston, he sailed for Ireland.

From Emerald Isle—Vince Corcoran, right, of the Repair Dept. of the Kodak House in Dublin, Ireland, toured KO's Repair Factory the other day to see how things are done there. Above, with George Glaser, center, he watches Ralph Kinzel repair a precision camera at his new workbench.

It's Safety First in Every KP Dept.

Safety Device — Warren Kendall, left, group safety leader in the Yard Dept., shows E. L. Cook, superintendent, a method used to remove heavy tires from trucks without endangering safety of repairmen in the KP garage. Device bears weight of wheel.

Study at Iowa

Two KP men have returned after completing a 10-day course in "Quality Control by Statistical Methods" given at the State University of Iowa. They are Bob Tuve, Industrial Engineering, and John Vaeth, Sundries Dept.

The studies were offered by the university to afford representatives of industry an opportunity to apply statistical methods to quality control and to explore the possibilities of application within their own organizations.

Tuve, engaged in quality control problems in the Industrial Engineering Dept., and Vaeth, a quality control engineer, will apply the information gained from the course to their duties at the Park. Approximately 60 attended the 10-day sessions at the university.

Park Beats DPI In Chess Matches

The Kodak Park chess team, KPAA entry in the Industrial Chess League, opened its 1948-49 season on a victorious key Nov. 8 as it humbled DPI, 10½ to 4½, in a series of close matches. Ed Shantz featured for DPI with a win over the Park's ace performer, Dr. Max Herzberger. Complete results:

Kodak Park	DPI	
Dr. Herzberger	Ed Shantz	1

Safety's the thing—right down the line at Kodak Park. More than 60 group safety leaders render staff assistance to the plant's Safety Dept. as part of this program.

Each department, it was pointed out, has its own safety program in which the group leader strives to prevent accidents in the department. He sets up a safety committee to channel necessary information, conducts frequent inspections of equipment and stages contests to promote interest in safety methods. He also prepares bulletins and manuals to acquaint his people with efforts toward accident prevention, investigates and reports accidents occurring in his department, and reviews suggestions dealing with safety.

Activities of these key men are directed by the Safety Dept., and they meet monthly to discuss safety problems. The following department leaders are active at the Park:

E. Edmondson, F.E. Coating; W. Kendall, Yard; F. J. Newberg, Paper Sensitizing; L. Werth, Paper Finishing; R. Gell, Paper Mill; E. Plummer, A. Coapman, Cine Processing; R. Newman, J. Stutz, Shipping; C. Goldey, C. DeMallie, G. Gustat, Industrial Engr.; S. W. For, A. Koabab, Testing; P. Dean, Plate; S. Benedict, Baryta; A. E. Weyraugh, Accounting; W. Foertsch, Employment; J. Tozier, Chemical; H. Long, Film Emulsion; K. Boyd, Cine & Sheet Film; A. Rahm, Roll Film; W. Thompson, Sundries; J. Griffin, Paper Service; E. J. Rahrs, Syn. Chem.; J. E. Gramlich, J. L. Brown, Engr. & Maint.; K. R. Brooks, E&M Stores; C. O'Neil, M. Norris, C. G. Edwards, Power; F. Lustyk, Electric Engr.; H. Lea, R. Bishop, Indus. Lab; M. Piker, J. Baybutt, Roll Ctg.; H. W. Lombard, Gelatine; H. R. Wright, Res. Lab; J. Meagher, Box; H. Crouch, Mfg. Expts.; W. H. Zimmerli, Wood Cell; N. Davis, A. Jones, E&M Metal Shop; A. C. Kriake, E. Albrecht, E&M Mach. Shop; P. Culbertson, Paper Plann.; R. Dennis, Cafeteria; D. Whitcomb, J. Darling, Color Control; Dr. L. Tanghe, Cell. Acet. Dev.; C. Parker, E&M Shops (Perf. Maint.); O. E. Zabel, E&M Engr.; C. L. Moore, H. G. Cooke, E&M Admin. Staff; W. Olin, Fire.

In future editions, KODAKERY will carry pictures and brief introductions to acquaint you with the safety men of your department.

Creamy Concoction — Bill Millington of the Cafeteria Dept. runs off a batch of ice cream from the recently installed equipment in the subbasement of Bldg. 28. Some 400 gallons of the frozen dessert are furnished daily to cafeterias.

KP Calendar

Noon hours in KPAA gym, third floor, Bldg. 28:
Monday—Movies 12:10-12:50.
Tuesday—Round dancing 11:15-1:30.
Wednesday—Table tennis, shuffleboard 11:15-1:30.
Thursday—Round dancing 11:15-12:30; square dancing 12:10-12:50.
Friday—Movies 12:10-12:50.
Thursday evening, Nov. 18—KPAA "A" Bowling League Turkey Shoot, Ridge Hall.
Sunday, Nov. 21—Finger Lakes Shoot, KP Gun Club, Beatty Rd.
Monday evening, Nov. 22—Major Industrial Softball League banquet, Barnard Exempt Club.

Suggestions Posted

The lists of suggestions which were approved in the 10th Period and those not accepted in the 11th Period at Kodak Park have been posted on bulletin boards in departments throughout the Park, the Suggestion Office announced.

Most auto accidents occur on Saturday and Sunday. It's a great life if you don't week-end.

Park Makes Own Cream

Kodak Park's cafeteria patrons are enjoying a wider variety and improved quality of frozen desserts these days with the recent installation of ice-cream-making equipment in the subbasement of Bldg. 28.

This innovation assures the plant's cafeterias of approximately 350 to 400 gallons of ice cream daily, with an additional storage capacity of 900 gallons. All of the various dining room areas now are being supplied from this central unit daily.

Included in the equipment are a freezer, a package filler, two refrigerators, compressors to furnish refrigeration, and a defroster, as well as a shaper for making up containers. Stainless steel tables complete the facilities.

It's in the Park: Halloween Figures Invade KP . . . Breakfast Ride Postage—2 Million Yen . . . Romance in a Rut

When Jack Kier, group leader in the Inventory Control Dept., Bldg. 58, arrived at the office one morning last week, he was met by a staff of "well-dressed" assistants. The Halloween spirit was

The Halloween spirit was very much in evidence in the Inventory Control Dept. Among the masqueraders were Helen Alt, Madeline Lamb, Ann Smith, Connie Cobb, Mary Prendergast, Lois Garrison, Lucille Sherbert and Frances Meisenzahl, but we don't know who's who here.

maintained during the recess period when cider and doughnuts were served. Taking part in the masquerade were Helen Alt, Madeline Lamb, Ann Smith, Connie Cobb, Mary Prendergast, Lois Garrison, Lucille Sherbert and Frances Meisenzahl. . . . A series of technical meetings held recently in the Cine Processing Dept. drew the following men from Kodak's Processing Laboratories: Eldridge Beck, Hollywood; Leonhard Welz, San Francisco; James Eaton, Chicago; George Negus, Washington; George Allyn, Flushing, and Henry Ballou, Toronto. . . . Dinner and dancing featured the party held Oct. 27 at Elser's Farm in Buffalo

Road. Heading up the committee were Esther Brotz, Ruth Fischer, Dolores Stoppelbein and Roy Bloom.

Elmer Ford, Paper Sensitizing Coating, celebrated his 18th wedding anniversary recently by giving a birthday party for his two children, Patricia Ann and LeRoy. Friends and immediate members of the family were on hand later in the evening to observe the three-fold occasion. . . . Jim Lane, Industrial Engineering, and Hugh Drake, Paper Finishing, recently visited Canadian Kodak in Toronto to compare similar manufacturing operations performed at both

plants. . . . Arnold Stevens, Printing, who observed his 25th anniversary with the Company Oct. 29, was pleasantly surprised when his department friends gathered for ice cream and cake. A gift was presented to Arnold, who spent one year at Hawk-Eye before coming to the Park.

Jim Maloney, Jack Ferran and Jim Smith, who left the Addressograph Section of the Time Office for military service, are now taking basic training at Camp Breckenridge, Ky. . . . Group One members of the Paper Sensitizing Coating Dept. held their annual clam bake Oct. 23 at Newport House. Featuring in the day's fun were Fred (Commodore) Hammas, Art Spitzer and Jim Bender. . . . Several KPAA girls enjoyed a breakfast ride Oct. 31 at the Griffith Stables in Pittsford, under the direction of Mickey Way, Industrial Engineering. Enjoying the ideal autumn weather were Connie Howard, Time Office; Marge Sale, Industrial Engineering; Betty Fields, Research Laboratories; Ruth Farrell, Industrial Engineering; Ruth Heisner, KPAA Office; Hilda Louriet and Helen Bowen, Paper Finishing. . . . Orville Martin, Industrial Engineering, and his family recently made a weekend trip to Baltimore, Md., where they saw Notre Dame defeat the Navy team, 41-7. The Martins visited Gettysburg on the return trip.

Inflation's here did you say? It's worse in China, says Donald Warfield of Film Planning & Record. Don recently received a letter from a friend in the Far East bearing postage adding up to almost two million yen. . . . William Reich-

Don Warfield and his very expensive letter.

enberger, recently retired member of the Film Storage Dept., Bldg. 32, was presented with a gift by his friends in the Film Emulsion Coating Dept. . . . We hear that a daughter has been born to Mary Jane Neuendorffer, formerly of Film Planning & Record, in Watertown, Mass. . . . Ruth Heisner, KPAA Office, and Doris Cooper, Printing, attended the Army-Stanford game in New York City Nov. 6. In Buffalo for the Icecapades on the same day were Ralph Matthews, Camera Works, and his wife, Marion. KP KODAKERY, and Marie McKenna, Bldg. 26, and her husband, Jim, Chemical Plant Lab. . . . Agnes Cosco, Time Office, makes the observation that romance hasn't changed much through the ages. "The ancient Greek gods also used to sit in the moonlight and listen to a lyre," she muses.

Frank Crego, Warehouse, Bldg.

203, has returned to his duties after recovering from a major operation. . . . That fine tan belongs to Joan Lang, Roll Film Packaging, back from a Florida vacation. . . . Also back from a short stay in the Alligator State is Ruth Hymer of the Dept. of Manufacturing Experiments. . . . Senior scouts of the Park's Troop 50 and their girl friends enjoyed a recent party at Canatota Lodge, Webster-on-the-Lake. Chaperones were Mr. and Mrs. Harry Paddock, Mr. and Mrs. Clayton Alt, Mr. and Mrs. Arthur Loomis and Scoutmaster Lester (Buck) Brown.

A retirement party in honor of Walter Kleinhenz was held at the Dutch Mill recently by members of the Distilling Dept. The festivities were conducted by candlelight when a power failure visited the building. Walt received a gift presented by George Weizer, Solvent Storage foreman, on behalf of his friends in the department.

George Weizer, foreman of Solvent Storage; Walt Kleinhenz, and Al Bright, general foreman of Distilling, from left, at party for Kleinhenz, now retired.

Thurston Aide Taught Kodaker Tricks of Trade

It's Magic—The wand Ken Raleigh, KP, waves in above picture was presented him by the late Howard Thurston. Magic and sleight-of-hand have been Ken's hobby past 30 years.

Not everybody can fool people and make them like it. An exception is Ken Raleigh, Film Development Dept., Bldg. 6, Kodak Park, who has been doing it for years.

Practicing his hobby of magic and sleight-of-hand with great success for the past 30 years, Ken, known to his audiences as "The Gay Deceiver," has performed before local smokers, banquets, and various organization benefits. One of his earliest appearances was on the old Chautauqua circuit of hallowed memory.

It was the renowned Howard Thurston, during a performance here around 1918, who first inspired him to take up legerdemain as a hobby. Later he struck up an acquaintance with Billy Russell, Thurston's trick inventor and critic, who showed him the first rudiments of sleight-of-hand and other tricks.

Dove Completes Act

Today Ken's repertoire spells a crowded evening of fun. His feats include the floating lady, bloodless surgery, and rabbit in the hat, as well as any number of card specialties. Lending added color to his stage offerings is a white Java dove, a remarkably gentle bird, which serves as an ideal household pet for Mrs. Raleigh when not acting as a foil for his master.

"It takes quick thinking to be a magician," says Ken, mindful of the time in Brockport when one of his stunts soured because of slow thinking on the part of a prop man.

At one of the magicians' conventions, he met Edgar Bergen of radio fame, who imparted to him some secrets of ventriloquism which he is applying to his dummy, "Mickey McGinnis," another feature of his show. He also lists among his friends such eminent wand-wavers as Dante, John Mulholland, Blackstone and John Ramsey.

His son, Robert, now attending Denison University in Ohio, formerly assisted him with his act. Now Mrs. Raleigh has inherited the chores and she also handles the props backstage.

A perfectionist at heart, Ken is pointing for the next convention of the group, scheduled for Chicago in June 1949, where he hopes to add to his assortment of wonders.

Hargrave Appointed

Kodak's president, Thomas J. Hargrave, has been appointed associate chairman of the Rochester Hospital Fund, which will launch a \$6,940,000 financing program for local hospital expansion and modernization.

In accepting the appointment, Mr. Hargrave called the hospital building project "of the utmost importance to the continued well-being of the community."

RCA, KP Men Study Ultrafax

(Continued from Page 1)

engineer; Charles J. Young, specialist in facsimile, and Knut J. Magnusson, mechanical design engineer, all of the RCA laboratories at Princeton, N.J.

They conferred with Dr. C. E. K. Mees, Kodak vice-president in charge of research; Dr. Walter Clark, department head, black and white photography and graphic arts; T. Gentry Veal, research associate, and Charles Kunz, technician in the EK Research Laboratories.

"Of course we're depending to a great extent on Kodak for the ultimate perfection of Ultrafax," said Bond, "and we've never had a single occasion to be disappointed."

Although commercial application of Ultrafax is still a few years off, it is adaptable to many uses and can be tailor-made to suit a variety of purposes, according to Bond, spokesman for the group.

"Newspaper publishers are especially interested inasmuch as it would enable them to transmit page dummies from a central point to many branches," he explained. "News photos by Ultrafax may be sent faster and are experimentally more popular than those now being circulated by wirephoto."

Bond suggested that the postal system, the military services and

Kodakwiz

ANSWER

(Question on Page 2)

This is a Kodak Negative File which provides protection for your negatives. Transparent envelopes hold the negatives and the index offers easy, quick identification.

other government agencies, along with telegraph companies, railroads and other public groups, will find Ultrafax useful, what with its close relations to the latest developments in television.

The Kodak high-speed unit which is incorporated in Ultrafax uses a continuous flow of heated photographic chemicals and a heat-resistant film. It reduces over-all processing time for a single frame of motion picture film to about 45 seconds. This compares with the normal time of 40 minutes for processing at ordinary temperatures.

Owns Chinese Studios—C. N. Kuo, left, who visited KO recently, is proprietor of the Chelsea Studios located in Chungking, Shanghai and Hankow. He established the Hankow studio more than 20 years ago, and has been a user of Kodak products for as long, he declared. Now planning to pioneer in color portrait photography in China, he has just completed three months' study at the New York Institute of Photography. Above, he and Morley Reid, Export, display Chinese embroidered silk he brought to Morley.

Test Inspection—Dolores Pickett of Kodak Park's X-ray Sheet Film Dept., Bldg. 12, demonstrates the training procedure for X-ray film inspection. The girls learn in daylight how to inspect under normal operating conditions. It is this department that produces industrial X-ray film such as that used in Westinghouse's 250,000-volt X-ray machine.

Camera Club Section Meets Huge X-ray Probes Steel

(Continued from Page 1)

Charles Hurlburt and Don Nibbelink, KO, and Alton Parker and Joseph Hale, KP, will serve as judges for the Kodak Camera Club Color Section's November slide competition. The meeting is scheduled for 8 p.m., Tuesday, Nov. 23, in the women's lounge of Bldg. 28 at the Park.

Those planning to enter slides in the event are requested to submit them at the Camera Club not later than noon of Nov. 23.

Turkey sandwiches and coffee will be served gratis to all those in attendance.

Owing to the later judging date for the Kodak International Salon, entries will be accepted up to and including Nov. 18.

Holston Officers Installed at Annual Banquet

Nearly 50 members, their wives and guests attended the third annual fall banquet of the Holston Kodak Club Wednesday evening, Nov. 10, at Ridgmont.

Duncan E. Kincheloe and Adwin Dexter of TEC represented the "Upper East Tennessee branch" of the club. "Rumor to the contrary notwithstanding," Kincheloe told the group, "shoes are still worn in Tennessee in the winter."

Installation of officers elected in August highlighted the business session. The gavel-passing ceremonies saw Elwood D. Dobbs, KP, take over the presidency. Other new officers are Wilbur Connelly, KP, secretary, and Albert Zornow, KO, treasurer.

A high spot of the entertainment program was a series of inaudible impressions in which Grace Sill, KO, impersonated Dorothy Shay, "the Park Ave. Hillbilly," and the Andrews Sisters were portrayed by Arold Watkins, Edward Pike and Fred Sill. The latter is the club's retiring president.

On the committee for Wednesday's party were Francis B. Thorne, retiring treasurer, and Wilbur Connelly. Responsible for sound effects and music was Dave Carroll of the Park.

Holston Entertainers—Laughs were a dime a dozen at the Holston Kodak Club's annual dinner last Wednesday night at Ridgmont. Impersonating the Andrews Sisters above are, from left, Ed Pike, Arold Watkins and Fred Sill, all of KP. "The Park Ave. Hillbilly," seated, is Grace Sill, KO. The club, composed of Kodak people who were at Holston Ordnance Works, Kingsport, Tenn., during war years, was organized in 1946.

There's a new twist to the old adage, "Like father, like son." Nowadays, daughter is showing similar colors to Mom by following right along in her footsteps. It's safe to say, "Like mother, like daughter!"

A few of the many EK mother-daughter combinations are pictured here.

They are (1) Nellie Ruthven, H-E Dept. 38, and daughters Mary Ann, left, H-E Dept. 35, and Nancy, H-E Dept. 14. (2) Veronica Hanlon, KO Ind. Rel., and daughter Sherry, KO Sieno. (3) Elizabeth Farley, H-E Timekeeping, and daughter Betty, H-E Payroll. (4) May Greenfield, KO Stock, and daughter Helen, KO Roch. Br. Billing, enjoying handiwork. (5) Coming into NOD are Josephine (Bobbie) LaManna, Dept. 16, and mother, Vadie LaManna, Dept. 75. (6) Ann K. Crosby, KP Kodascope, and daughter Alice, KP Color Print Service. (7) Gloria LaRane Shelton and mother, Irene LaRane, who both work in CW Dept. 38. (8) These mothers and daughters are all members of KP Paper Finishing Dept. On the left are the daughters, Marie Beckwith, Dorothy Purcell and Patricia Jewell. From center are mothers Lucy Jewell, Florence Purcell and Marie Beckwith.

Kodak Mexicana Claims Margarita's Best Telephone Operator in Country

In Mexico City, when you dial ERicsson or MEXicana 13-2505 you'll hear a dulcet "bueno" which belongs to Margarita Rivadeneyra, the "best telephone switchboard girl in all Mexico," according to Rodney Sadleir, Kodak Mexicana, Ltd.'s manager.

To this Sadleir added, "She can cajole a harried long-distance operator into giving our salesman a quick connection with Guadalajara, Merida, or Monterrey when traffic is heavy. And when there is need for a special shipment of motion picture film for Mexico City's 'Hollywood,' and I've got to get Dick DeMallie's cooperation in Rochester, she works miracles with the international operators!"

All this, the "charm" in her voice, her politeness and patience make possible.

Take a Lesson

When one of Kodak's dealers in Mexico City finds his telephone girl getting into the bad habit of "polishing off" customers, he invariably suggests to his girl that she pay attention to the way Margarita treats them when they phone Kodak Mexicana.

When Margarita and her sister Carmen, also a member of the staff, started with Kodak, they came in a chauffeur-driven Cadillac. Before the sisters switched to a smaller car of their own, the curious found out that their father is an important industrialist and the vice-president and part owner of the Parque Delta baseball league, one of the two furnishing Mexicans with the thrills of professional baseball, just as popular below the border as it is in the States.

When They Started

How did they start with Kodak? Well, both wanted jobs. They answered a Kodak want ad and have been with the Company about three years. Their previously protracted trips to New York City to see the shows and buy clothes are now limited to the time of their yearly vacations. They confine their social interests and sports to off-hours.

Both girls insist, "It's fun working for Kodak." As a matter of fact, Margarita has never been absent or tardy. This is such an exemplary attendance record that when she once asked Mel Lundahl, Kodak Mexicana's assistant manager, for an afternoon off, Mel was so dumbfounded he blurted out, "What for?"

In her customary soft, unhurried voice, she replied: "Why I'm taking

Took Admiral to Game — Margarita and Carmen Rivadeneyra got "time off" from Kodak Mexicana to take Admiral W. F. (Bull) Halsey and Walter Thurston, U. S. ambassador to Mexico, to a professional baseball game in Mexico City. From left are Sr. Carlos Rivadeneyra, father of the girls, Margarita, Ambassador Thurston, Admiral Halsey and Carmen.

KODAK OFFICE

Bernadine Heuther, Roch. Br. Billing, to Ralph Gordon, Ridge Construction. Pat McAllister, Sales, to Don Herzog. Jane Laragy, Mail & File, to Bill Cole.

Admiral William Halsey to the ball game!

Simple Reason

For Mel that was definitely a new excuse for time off for a ball game, but as Margarita just as definitely deserved a "break," he facetiously suggested: "Go ahead, have fun and don't forget to bring me a picture of the Admiral."

She did—the next day. Here it is reproduced—one of the "shots" by the local news photographers who are Margarita's father's friends . . . therefore Margarita's.

Make 'em Yourself

Any youngster would love wearing this cute, matching set in winter. It would make a nice Christmas gift.

The hat front and cuffs of mittens and socks are knitted in any three combinations of colors that you like. Instructions are for medium size, 12, 14 and 16.

For your free direction sheet, stop in your KODAKERY Office or drop a post card to KODAKERY, Pattern Dept., 343 State Street.

The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m. Tuesday of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS, KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD — NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

(Continued on Page 7)

Fashion Footnote

Vivian Salter, KO Roch. Br. Billing, is the attractive model for this Forman suit. She wears a fashion new this year . . . that of combining a striped jacket with a plain color skirt. The stripes are a charcoal gray on a light gray background. The skirt also is a soft shade of gray. Unusual V-shaped pockets break the stripe in the lower part of the jacket.

Cage Conference—Harry Horn, president of the KPAA Departmental Basketball League, confers with three of league's whistle-tooters prior to league opener last week. Pictured above, from left: Harry Trezise, Horn, Jake Riley and Henry Brauner. Twenty teams compete in the circuit's two divisions.

KO League's 'Weak Sisters' Bolster Lineups This Season

When the four Kodak Office basketball teams go to the post Dec. 1, Shipping and Repair, second division teams in the 1947-48 KORC Intraplant League, will rank with the best of 'em.

Now's Time to Enter Kodak Pin Tourney!

Entry blanks for the second annual Kodak Singles Handicap Bowling Tournament are now available at the KPAA, CWRC, HEAA and KORC offices. Cap Carroll, chairman of the tourney committee, urges all Kodak men and women bowlers planning to enter the tourney to file entries as soon as possible. Because of the anticipated record entry list, the task of figuring handicaps will be a tremendous one. A \$100 first prize for men and \$50 top award for women, plus hundreds of other cash prizes, will be awarded. Men will bowl Dec. 4-5, and women Dec. 12. The handicap will be 70 per cent.

At least their coaches feel this way, and such optimism not only is rare within the coaching fraternity, but is usually a reliable forecast. Dom DeFendis, Repair mentor, probably would win the optimists' medal. His team finished in last place, winning only one of 12 contests. "We have a better - balanced team this year," Dom declares enthusiastically. In addition to four holdovers from last year's club, the Fixers boast a new center, Hank Zona, former CW cager who towers around 6-2.

Repair's veterans are Jack Lynch, who has been pounding the hardwoods some 14 years, and Defendis, both of whom are guards. Dom starred at Edison Tech in 1942-43. The Fixers' forwards are "Curly" Gilmore and Carl Ziobrowski. Defendis is also counting heavily on the speedy Rudy Almagault, Al Bertman, Jim Barry, George Schaller and Bob Morthorp, the latter another six-footer.

Tony Adams, whose Shipping snipers finished with four straight last season, are ready to resume where they left off. The former East High cage luminary assumed the Shipping coaching chores at mid-season, and the Vets immediately did an about face.

Of that team Wilbur Heise, Duane Doty, Chuck Arnone, Jim Duignan and Bob Beaney are back. Doty and Arnone were among the league's top scorers, and the stocky Heise ranks with the league's best playmakers. A trade in which Shipping got Don Neufeglise from Rochester Branch for Tommy Ioannone also figures to bolster the Vets.

Other additions to the Shipping roster include Bob Sullivan, Peter (Bullets) Damick, and Hal Hess. "Sullivan and Damick are excellent prospects, and Hess' height (he's 6-1½) should help us," Adams declared.

While the Shipping mentor feels the Penpushers are the team to beat again this year, "I think we're just the team that might do it," Tony predicts.

Kodakeglers Win Prizes

This week's Old Topper Bowling Contest prize list names eight Kodakers for \$10 awards. They are Ray Denman, Clarence Bissell, Tom Messare and Bob Reynolds of CW; John Juengst, Bill Koehnlein and Vic Melanson of KP, and Eleanor Clar of KO Girls' League.

20 KP Departmental Quints Launch Play; Bldg. 23 Upset

National Division basketeers copped the spotlight last week as play opened in the KPAA Departmental League on the new Bldg. 28 hardwood. Four games were completed Nov. 8, returning Power, Roll Coating, Bldg. 12 and Ind. Engineering as winners. With Joe Rorick and Adolph (Butch) Buescher meshing 18 and 13 points, respectively, Power lived up to its name by crushing Cafeteria, 66-27.

Although Stewart Mickelson racked up a total of 15 points, Testing dropped a 48-39 decision to Roll Coating. Something of an upset was the 43-36 victory turned in by Bldg. 12 over Bldg. 23. Jack Shea led the winners' scoring with 9 points, Ben Holloway's 8 tallies pacing Bldg. 23.

In another fast fray, Bob Lane and Doug LaBuddle led the attack as Industrial Engineering defeated the Emcos, 47-29.

Even closer scores were registered Nov. 11 as six contests were decided. The Plate team had to battle all the way to edge a game Wood Cellulose outfit, 24-21, while F.D. 5 upset Color Control, 22-18, after trailing 10-6 at halftime. Burnett Eddy's 10-point spree enabled Synthetic Chemistry to halt Bldg. 58, 26-19, and Film Emulsion tripped Bldg. 65, 23-17, after trailing 17-13 at the half.

Two other clubs displayed plenty of power, Engineering downing Bldg. 14, 50-12, and Emul. Making racking up a 70-34 decision over Emul. Research. Jim Kannalley stole the show for Wilson Pask's Emulsion Makers, shaking loose for 12 buckets and 3 free throws to post a 27-point total for the evening. Ed Tierlynck's 6 field goals led the Emul. Research attack.

League standings:

NATIONAL DIVISION					
	W	L		W	L
Power	1	0	Syn. Chem.	1	0
Engineering	1	0	Emul. Making	1	0
Bldg. 12	1	0	Bldg. 23	0	1
Indus. Engr.	1	0	Testing	0	1
Film Emul.	1	0	Emul. Research	0	1
AMERICAN DIVISION					
	W	L		W	L
Roll Coating	1	0	Color Control	0	1
Plate	1	0	Bldg. 65	0	1
F.D. 5	1	0	Bldg. 58	0	1
Cafeteria	0	1	Bldg. 14	0	1
Emul. Coating	0	1	Wood Cellulose	0	1

League Shoots At KPAA Club

KPAA Gun Club will play host to the Finger Lakes League marksmen Sunday, Nov. 21. The eight loop teams will converge on the Beatty Road range at 8 a.m., with the firing continuing all day.

Some 160 nimrods competed in the club's third annual blind draw turkey shoot last Sunday. Members who won fowls included George Barnes 2, Robert Barry, Ed Siebert, Sam Cox, Howie Van Auken, Charles Jutsum, E. R. Taylor, Barney Agnes, Frank Harter and Ross Wilmer.

Other Kodakers who won were Charles Lissow, Edwin Engel 2, Frank Pike and Melvin Huff.

Top Average—Virginia Doane, above, with an average of 170 in the KPAA Girls' 16-Team League, is leading Kodak's keglers to date. In eight weeks of bowling, Virginia has crayoned six 500 series.

KP Gals Roll Two Records

Second best women's series of the season was turned in last week by Oneata (Billie) Leckie of the Kodak "5" in the KPAA Girls' 16-Team League.

"Billie" posted a 543 three-game total on games of 163, 190 and 190. In the same league two new season marks were established by the Finished Film five which rolled 846 single game and 2383 series records. Virginia Doane, 532, Charlotte Rehberg, and Madeline Lamb sparked the Film five.

High individual game last week was posted by Ann Kalish, who toppled the timber for a 212 count in the H-E Girls' Ridge League.

MEN'S LEAGUES

Margie Pecora, CW Wednesday.....	204
"Sandy" Priest, KPAA 12-Team.....	202
Madeline Lamb, KPAA 16-Team.....	198

Sports Roundup

KP Trapmen Slate Meet; H-E Pin Notes

KPAA trapshooters will tangle with the Glen Haven Gun Club Nov. 20 in the first of a home-and-home series. The event, a 50-bird regulation trap affair, will be held at the Irondequoit Bay layout. All bird-busters from each club are eligible to compete, it was announced. The date for the return meet at the Beatty Road range has not yet been decided.

Florence McDermott and Dorothy Fox of KP participated in the Mohawk Field Hockey tryouts held at Wells College Nov. 13-14. On Nov. 20-21 the girls will journey to Hunter College in New York City for the Northeast Field Hockey sectionals.

The Tool Room five in the H-E Men's Ridge League picked up three wins over the Ringers to move into first place when the Scientific quint dropped three to the Grumblers. . . . Ted Herold, bowling with the Wig Wags in the H-E Ridge wheel, copped the individual high singleton with a 218 game. . . . Chester Walzak's 223 showed the way in the Saturday Shift League, enabling his Dept. 10 club to pick up three from the Memos. . . . Ann Kalish, rolling for the Recordak quint in the H-E Girls' Ridge League, broke all season's records for single and series marks with her 212 singleton and 481 series garnered on games of 115-212-154. Previous high for the season was Helen Allen's 181 and Mary Tuzzalino's 464. Alley Sallies set a new three-ply mark in the H-E Girls' loop over the previous high of 2074 by the Bulldozers. . . . George Romanko and Wally Iselhard teamed together to pace the Warner-Swasey five to three wins over the Red Hots in the H-E Webber League. Both turned in identical scores of 611. Ralph Schlenker's 247 was the high solo in the H-E Webber wheel last week.

Shirley Wahl, KO Girls.....	190
Oneata Leckie, KPAA 16-Team (2) 190	
Stella Siwicki, CW Friday.....	189
Ella Mae Twamley, KPAA 16-Team 184	
Eleanor Sill, KPAA 16-Team.....	182
Celia Nagel, H-E Ridge.....	179
Peggy Brule, H-E Ridge.....	178
Ruth Miller, KPAA 16-Team.....	178
Doris Ester, H-E Ridge.....	175
Pauline Bartley, KPAA 6-Team.....	174
