

'48 Review Spotlights EK Events

(Pictures on Page 5)

Stepping over the threshold of the New Year, Kodak men and women can take a look over their shoulders and see behind them in 1948 a year studded with great accomplishments.

In industry, the field of medicine, research, the military, commercial photography, and for the plain delight of the amateur snapshotter, photographic advances through Kodak achievements were felt in ever widening areas.

New cameras, new sensitized goods, discoveries in the field of science and photographic devices of many types were among the Kodak contributions to the betterment of the lot of mankind in 1948.

Television Lab

It was a year that saw the opening of a television lab and collaboration of EK experts with those of other firms to help develop new products outside the purely photographic business.

The year 1948 saw Distillation Products Inc. join the Company as a full-fledged member.

In a year when the Kodak Suggestion System observed its golden jubilee, Kodak folks helped celebrate by taking more active interest, and received thousands of dollars for their efforts.

Employee benefits reached new highs, Kodak people distinguished themselves in the sports world, and increased savings in the Eastman Savings and Loan Association indicated that EK folks are building their plans for the future upon firm financial supports.

As 1948 neared its close, announcement came of a \$13,000,000 Wage Dividend, highest in history of the Company.

Here are the 1948 highlights as they happened:

January—Dr. Samuel E. Shepard, internationally known photo-

(Continued on Page 4)

Barr Heads EK Division

New general manager of Kodak's Sensitized Goods Sales Div. is William E. Barr.

James E. McGhee, vice-president and general sales manager, made the announcement, effective Jan. 1, following the retirement of Frank Andrews, a 36-year Kodaker. (See story on page 4.)

Barr also is continuing as head of the Industrial Photographic Sales Div., which is one of six sections of Sensitized Goods Sales. Barr has moved into Andrews' former 15th Floor KO office and the Industrial Photographic Sales group has moved from the 14th to the 15th Floor.

Barr, who has been with the Company since 1929, had been assistant general manager of Sensitized Goods Sales since August.

New Distribution Center Consolidates Operations

Kodak's plans for a new division of the Company to handle all distribution, scheduling, storage and shipping operations of its Rochester plants, and appointment of Thomas E. McGrath as its manager, were announced last week.

The first of three units of the proposed \$6,000,000 Distribution Center on Mt. Read Blvd. already is in use, comprising 150,000 square feet. The structure eventually is expected to cover some 12 acres, providing some 406,000 square feet of warehouse and shipping space and 117,000 square feet for offices, and giving Kodak one of the most modern structures of its kind. The building is of reinforced concrete construction, two stories in front and one in the rear.

Goal is 1951

Construction is scheduled to start this spring on the second unit of the project, expected to be completed early in 1950. It probably will be 1951 before the entire project as planned now is finished.

The center will be used to store all merchandise manufactured by the Company's Rochester plants and all their shipping operations to domestic branches and foreign outlets. When completed, the center will centralize under one roof operations now carried on at 18 different places in Kodak's Rochester divisions.

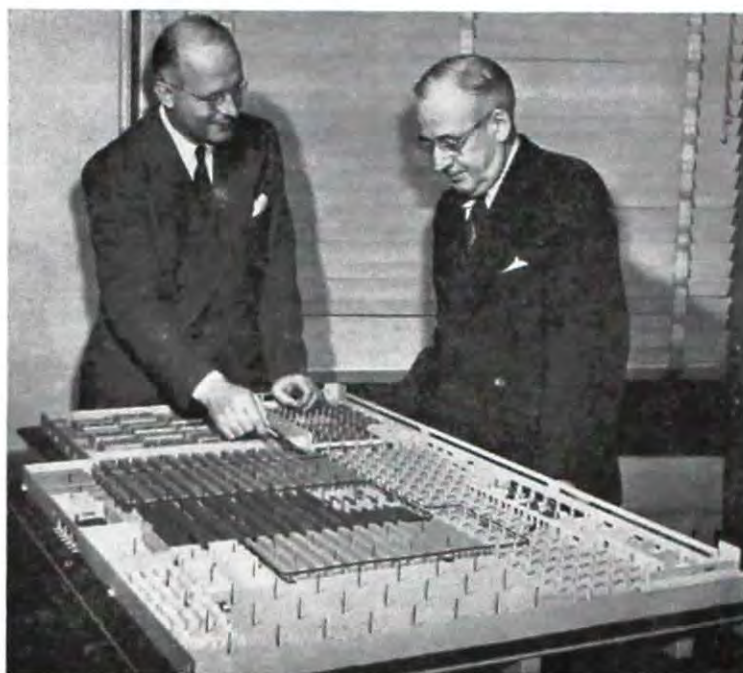

The first unit is only for shipping operations, and no storage facilities will be available until the second unit is completed. Distribution and scheduling operations will start at the center when the second unit is done.

Already the Branch Shipping and Export Shipping have moved from KP, Export Billing from Kodak Park and Government Shipping, State St., are expected to move soon. All the Company's shipping will be handled from there. Goods now are being trucked to the center for shipping.

All latest storage, handling and shipping equipment is being installed and the newest techniques are being employed, with many of the storage facilities scientifically conditioned to meet requirements of sensitized goods, etc.

Its location will give the center the advantage of easy access to railroads and trucks, loading op-

(Continued on Page 4)

Distribution Layout — T. E. McGrath, left, named head of Kodak's new Distribution Center, first unit of which is now in operation at Mt. Read Blvd., looks over a miniature of the project, with Charles Vayo, Company's general traffic manager. All the Company's storage, shipping, distribution and scheduling will be centralized in the building.

4 Doctors Get New Titles In Company's Medical Dept.

New titles were bestowed on four members of Kodak's medical staff, effective Jan. 1.

Dr. John L. Norris becomes director of the Kodak Park Medical Dept.; Dr. James H. Sterner is new associate medical director of the Company; Dr. Gordon M. Hemmett is director of Hawk-Eye Works Medical Dept., and Dr. Rufus B. Crain was named director of Kodak Office and Camera Works Medical Dept.

Succeeds Dr. Slater

Dr. Norris succeeds the late Dr. Benjamin J. Slater as director of the Kodak Park Medical Dept., Dr. W. A. Sawyer, the Company's medical director, stated. Dr. Norris joined that department in 1937. Since 1939 he has been its assistant superintendent.

Dr. Sterner became a member of the Kodak Park Medical Dept. in 1936 and became an assistant superintendent of the department in 1939. In 1942 he acted as consultant and then planned the organization of the medical department at Holston Ordnance Works in Tennessee. In 1943 he investigated industrial hygiene problems connected with the Clinton Engineer Works project, later organizing the medical department there.

Came to EK in '41

Dr. Hemmett joined the Kodak Park medical staff in 1941, transferring to Hawk-Eye in 1943. At Hawk-Eye he set up the plant medical department on a full-time basis and served as chief physician in the department.

Dr. Crain has been a member of the Kodak Office Medical Dept. since 1920, after serving as a captain attached to the British Expeditionary Force in France and Belgium in World War I.

EK Builds Chemicals Lab Unit

2 More Slated to Meet Demand for Synthetics

A new laboratory building, designed to increase production of the Company's synthetic organic chemicals, is in operation at Kodak Park West.

Dr. Cyril J. Staud, director of the Research Laboratories, said the unit is the first of three modern lab buildings planned by the Company to aid in meeting greatly increased demand for its organic chemicals.

Another Unit in '49

A second unit will be completed this year and a third is to be erected later on the site of some of the original laboratory buildings built in 1918. These old structures are being razed.

One story and of brick construction, the new lab building has a total area of 6000 square feet, with 4200 square feet of working laboratory space. It was built at a cost of more than \$300,000.

Many New Features

Designed by EK engineers, the building has these special features:

1. Over-all utility for chemical synthesis. Nine unit laboratories are long and narrow, designed to save steps and provide greater efficiency.

2. An air supply system which provides complete change of filtered air every two minutes. Special jet-injector, using 250 gallons of water a minute, washes fumes from all exhaust air.

3. Acid-proof light-colored glazed tile. The walls have special mortar joints which permit them to be washed down with solvents or strong acids without deterioration or stain.

4. Specially constructed metal racks for mounting equipment and holding flasks and pipe lines.

5. Wire-glass safety enclosures. These sections of the laboratories permit the chemists to stand protected by glass shields while controlling the synthesis of certain chemicals. Walk-in type hoods offer increased ventilation.

William W. Hartman, superintendent of the Synthetic Organic Chemicals Dept. of the Research

(Continued on Page 4)

Medical Appointments — Four members of the EK medical staff received new titles Jan. 1. From left, Dr. Gordon M. Hemmett, director of H-E Medical Dept.; Dr. Rufus B. Crain, director of KO and CW Medical Dept.; Dr. John L. Norris, director of KP Medical Dept., and Dr. James H. Sterner, associate medical director of EK, conferring with Dr. W. A. Sawyer, medical director of the Company.

New Lab Unit — This new laboratory building at Kodak Park West, first of three modern units planned, is designed to increase production of Kodak's synthetic organic chemicals. A second structure will be completed this year and the third one is scheduled to be erected later on the site of some of the original laboratories which were constructed in 1918. These old buildings now are being razed to make way for the new unit.

Variety Stage and Screen Show Scheduled As Foremen's Club Opens 1949 Activities

Joan Brandon
... she's a magician

Radio Comedian, Lady Magician Booked

Kodak Park Foremen's Club members will usher in the new year on a high note of interest Jan. 11, when they gather in the Bldg. 28 auditorium to witness a top-notch movie and stage show.

Featured speaker of the evening, Dr. George Lawton will discuss "How To Keep Mentally Young." A psychologist in private practice specializing in the adjustment problems of men and women ranging in ages from 40 to 85, Dr. Lawton is author of the best-selling volume, "Aging Successfully," and has contributed many articles to leading magazines.

Fresh Start in Life

Recognizing that very little attention was being given to the psychological difficulties of the middle-aged and older, he began in 1936 to concentrate on giving the older folks a fresh start in life. He helps discover their abilities and creative talents and assists in freeing them so that they can contribute these values to the general welfare of all. He also locates outlets in society where they can assume their own importance among their fellow men.

Advertised as America's "First Lady in Magic" is Joan Brandon, a petite and glamorous entertainer who spotlights the stage fare. Her individual approach to magic has been acclaimed in clubs and hotels all over the world. She was the first magician of her sex to appear

Joe Martin

Dr. George Lawton
... keeping mentally young

in a television broadcast.

Artfully blending her skill with comedy, she delights her audiences with such stunts as serving their favorite drinks from an empty cocktail shaker, making her magic cane float through the air, and introducing all and sundry to Harvey, the rabbit who wasn't there.

Also occupying a prominent place on the slate will be Joe "Quiz" Martin, creator of the hilarious radio program, "Burlesking the Quiz Shows." In this audience-participation feature, Martin is said to pack a side-splitting routine of gags and patter, with prizes going to all who take part.

Sports Film

A rare screen treat is in store for those who remain until the close of the evening's bill, according to program chairman Jack Erdle. At this time a slow-motion and closeup color film story of America's AAU and Olympic champions of 1948 will be shown. The film gives track and field fans an opportunity to see their favorite athletes in action. The pictures were taken by C. R. Bearmore, official AAU photographer, who spent two weeks with the U.S. squad before it sailed for Europe and caught many of the standout stars in their qualifying performances.

Tickets for the steak dinner, to be served at 5 p.m. in the second floor cafeteria of Bldg. 28 preceding the show, may be obtained from department chairmen not later than Friday, Jan. 7. The entertainment will commence promptly at 6:30 to allow sufficient time for the extensive program scheduled.

It's Tax Time; Get Your Bill

Here's a reminder to taxpayers—especially new property owners!

Real estate taxes will be due this month, so be sure you get your tax bill and forward it to your mortgage holder if you maintain a tax account with them.

Before Jan. 25

If your mortgage is held by the Eastman Savings and Loan and the arrangements call for payment of the taxes by ES&L, your bill should be sent to the Association before Jan. 25.

Bills covering property located in the city will not be mailed out unless requested by the owner. In surrounding towns collectors usually mail the bills directly to the registered owners.

It's Up to You

City and county records may not have been adjusted to show new owners. In such cases the bills might go to the previous owners or be held by the collectors.

It is the responsibility of the property owner to obtain the bill. Penalties are provided if the taxes are not paid before Feb. 1.

Photo Patter

Things Sure Keep Poppin' During Snapshot Party

Whenever snapshooters get together, the time is ripe for a snapshot party. Such a party is a splendid entertainment idea—whether its intention is serious picture taking or just plain snapshot fun.

The party can take various forms. Guests can be sent out on a "picture hunt"—each one assigned to bring back snapshots of a certain type. Or, a room can be fitted up with a few photo lights at the host's home, and each guest given a picture idea to illustrate.

Tell each one to bring his camera loaded with suitable film. Since most parties will be held at night, the preferred film is one of the "faster" panchromatic types.

For a picture-hunt party, each person, or perhaps two people, can be assigned to picture street scenes; others can picture shop windows, or get snapshots of electric signs. Or you may ask each one just to go out and bring back a snapshot of the most interesting subject he sees on his rambles.

For an "at home" party, a list

of picture titles could be prepared. Humorous titles or assignments are preferable, and guests can serve as models for each picture. One person could be assigned to picture a characterization of Napoleon. The only prop needed is a cocked hat made of paper. Another could picture an Indian climbing a mountain or doing a war dance. The more outlandish the titles, the more room they leave for the picture-taker's imagination—and the more fun he will have arranging his picture.

Properly, snapshot parties should be planned as a series—each member of a group holding one. Then, pictures taken at one party could be exhibited at the next. Such a party series can provide entertainment all season for a group of camera fans and it would be a delightful project for a camera club.

Party Pictures — Only a few simple props are required to make attractive or amusing pictures at a snapshot party. They're a lot of fun for you and your friends.

Shrine to Popular Leader Rises Near Colombia Store

On Bogota's La Septima, the smart shopping street in Colombia's capital city, Munoz Hermanos, one of Kodak Colombia's oldest and largest dealers, has two popular and ultramodern photographic supply shops.

One of these shops is the focal point of every passer-by's attention, according to Armin Baltzer, Kodak Export Dept. member now on a Latin American trip.

The sidewalk right in front of the store's large display window

always is heaped with flowers, and sometimes lighted candles are placed and flicker in the bright sunlight.

Since Apr. 9 the spot has become a national shrine, for it was here that politically popular Jorge Elcer Gaitan was assassinated by a disgruntled ex-public employee, as the story has it. Entrance to the former's legal firm was alongside the Munoz store. Mob-instigated reprisals began; gutting fires, pillage, civil commotion and indiscriminate shooting raged in the city for three days.

Lucky To Be Home

Tommy Jackson, Kodak Colombia's popular manager, lunched that day with his wife, Elisa, at their home in the suburbs. Luckily he caught "the flash" on the radio that bedlam had broken loose, so he remained at home.

Manager of the second of the Munoz stores is Antonio (Tony) Samper, who many will recall was in Rochester during 1945 for special training. Still one of Colombia's first-string polo players, he had gone to Lima, Peru, for an international match and to pick up some Argentine ponies, thereby missing "Black Friday." His brother-in-law, Captain of the Palace Guard, was the first army official to be killed.

Hail Colombia — Don Manuel Munoz, general manager and principal owner of the Munoz Hermanos' stores in Bogota, Colombia, is shown under one of his store's Kodaks signs with Tommy Jackson, manager of Kodak Colombia, and Tony Samper, of the Munoz staff, from left. Flowers are a national shrine for the popular political leader who died in April.

Repaying Debt of Kindness

Greeting his guests from Wembley, England, as they arrived in New York to repay a war debt of kindness, is A. Whitman Crittenden of Film Emulsion Melting, Bldg. 29, at Kodak Park.

In the midst of their luggage before their departure for Rochester are Mrs. George Hall and her daughters, Sheila and Noreen Hall, right. Sheila, now 18, and her brother, Lionel, now 20, were two of the Kodakids who were welcomed into Rochester homes during the days of the English blitz. Lionel stayed with the Crittendens and Sheila stayed five years with Mrs. Crittenden's sister, Mrs. Charles H. Ainsworth, in Rochester.

Recently Mrs. Crittenden was stricken ill, and when the Hall family heard about it Mrs. Hall offered to come to Rochester to care for her children's benefactor.

"I am so very happy there is some way I can begin to repay Mrs. Crittenden for her kindness to Lionel," said Mrs. Hall on arrival.

Lionel now is serving in the British air service, but plans to come to America with his father next summer. And ultimately the entire Hall family hopes to become American citizens.

Safety Men

Stanley Benedict joined the Machine Shop in 1925 and was in Perforator Maintenance, F.D. 2 and F.D. 3 before going to Baryta in 1947. He now serves as maintenance engineer there.

William Olin, Kodak Park fire

Bill Olin Stanley Benedict

chief, has been associated with the Fire Dept. since 1913, when he transferred from Film Shipping. He started in Cine Slitting in 1912.

Walter Foertsch became a member of the Baryta Dept. in 1934, leaving the following year to complete his studies. In 1939 he returned to the Park, spending several weeks in F.D. 3 before transferring to the Employment Office. In 1942 he left for military service and upon his return he again joined the Employment Office staff. He is now serving as coordinator in the Industrial Relations Dept.

Walt Foertsch

Scouts Get Gifts

Games and an exchange of gifts were enjoyed by Kodak Park's Troop 50 Boy Scouts at their Christmas party Dec. 20 in Bldg. 28. In a special service, Robert Lodan, senior scout, offered a prayer and led the singing of Christmas carols, accompanied at the piano by Clarence Duell, Bldg. 99.

It's in the Park

Parties and Journeys Keep Park Folks on the Hop Over Holidays

Powers Hotel ballroom was the scene of the Testing Dept.'s annual Christmas party, and more than 300 members danced from 9 to 1. A buffet supper featured the evening's program. . . .

The lavish buffet supper revived the energies of folks in the Testing Dept. at their Christmas party and dance in the Powers ballroom.

Helen Dowden and Jane Bradley have joined the personnel of the Film Planning & Record Office. . . . A combination bridal shower for Betty Fisher and baby shower for Lynn Smith was given by the girls of the Emulsion Research Dept., Bldg. 3, at the home of Ida Tschiderer. Betty will marry Gordon Cowell, Baryta. . . . Jim and Harold Richards, Bldg. 120, accompanied by Jim's wife and daughter, have returned from a tour of England and France. They visited Mrs. Richards' mother, whom she had not seen in 34 years. . . . Gertrude Roberts, P&S, was Christmas shopping in Manhattan.

The second annual retirement dinner of the Machine Shop was held at the New Dutch Mill Dec. 1. Gifts went to Jake Amberger,

\$6838 Awarded to KP Suggesters; 1584 Ideas Submitted in 12th Period

A total of 1584 suggestions, the largest number in one period this year, was submitted in the 12th period. KP suggesters collected \$6838 in awards to register their best showing in several months. Sixty-nine women shared in the amount. There were 577 adoptions listed for payment.

Two Cine Processing members, Howard Seitzinger, Bldg. 65, and Mary Rice of the Chicago Processing Station, annexed top awards for the period. Seitzinger realized checks for \$350, \$150 and \$15. Howard's first two adoptions apply to the automatic Kodacolor print slitter and chopper. One has to do with the clutch mechanism, the other with a guide bar. The operation of the equipment is improved and made more accurate by employing the principles outlined in his suggestions. The \$15 award dealt with a stamp for the slitter and chopper.

Mary received a check for \$275, her idea pointing to the fact that one of the operations in the identification of packing memos is no longer necessary. This improves customer service by expediting delivery of prints.

Awards of \$200 went to Joseph Mungenast, Metal Shop; Stanley Gardner, Roll Coating, and Egbert C. Cook, Cine Processing.

The adoption of Mungenast's proposal has resulted in the purchase of a rubber for lining and covering metal vessels and trucks, with the adhesive already applied by the manufacturer. Heretofore, it has been necessary for the Metal Shop, when doing this job, to apply the adhesive.

Gardner's suggestion outlined an operative procedure whereby it is possible to change from one width of film support to another without the necessity of a machine shutdown. Cook recommended a less expensive type of screw used on some of the Cine Processing machine racks.

Another Cine Processing member, Hiram Andrus, was awarded \$150 for his idea which demonstrated that a printing machine already in use on one type of film

Howard Seitzinger . . . earns \$515

could be adapted for use on another type. As a result of this production has been increased and waste has been reduced.

Another woman suggester placing high on the list was Marion Marsden, Kodacolor Roll Film Processing, who proposed a change in the working schedule of one of the operations preceding the processing of Kodacolor prints. This has made it possible to effect economies in the use of the time and effort involved.

Checks for \$100 were annexed by Ernest Merritt and shared by Kevin Murphy and Harry Blakley, all of Roll Coating. Merritt's suggestion simplifies the method of applying a chemical solution to

the film support as it is being cast. Murphy and Blakley outlined a method whereby the cost of manufacturing one of the vital parts of a film coating machine has been reduced slightly and the part itself made more efficient.

Cine Processing Dept. people led all other plant departments with 115 adoptions. The Chemical Plant contributed 87, Roll Film & Sundries 70, and Roll Coating 56.

Come on, All, Let's Dance!

Grab yourself a partner and let's dance!

That's the advice being handed out to Kodak Park men and women, young and old, as plans progress for the square dance which the KPAA will sponsor in the new Bldg. 28 auditorium Friday evening, Jan. 21.

Frank Monk's orchestra will furnish the music and there will be prizes for best performances by couples. An advance sale of tickets, priced at 60 cents per person, is now being conducted by the KPAA Office, Bldg. 28. Ducats to be purchased at the door on the night of the dance will be 74 cents each. Festivities will hold forth from 9 to 12, and all KPAA members and their friends are invited.

Doris Cooper, Bldg. 48, is chairman of the planning committee, assisted by Marge Sale, Bldg. 12; Charles Moore, Bldg. 23; Bob Wright, Bldg. 65, and Ruth Heisner, KPAA Office. If sufficient interest is evidenced, another country-style get-together will be staged next month.

For You, Carl

Medal for Malm—Carl J. Malm, right, superintendent of Cellulose Acetate Development Dept., receives 25-year medal from G. T. Lane, assistant manager of KP, at testimonial dinner in the University Club.

Death Takes Three From Kodak Park During December

Deaths of three Kodak Park men occurred in recent weeks. They are Harley Davis, Paper Sensitizing; Luke Flanagan, Pipe Shop, and Harry E. Wheeler, Film Emulsion Coating Dept.

Davis, who died Dec. 18, started in his department in 1921 when it was known as D.O.P. Emulsion, being appointed a trick foreman in 1942. Flanagan passed away Dec. 20. He had been in the Pipe Shop since 1928. A brother, Eugene, is a member of the Dope Dept.

Wheeler died Dec. 10 after a six-week illness. He joined the Printing Dept. in 1919 and in 1934 began duties in F.E. Coating. A son, Edward, is with F.D. 1.

roy's Dec. 15. Joe recently completed his 40th anniversary with the Company. . . . Lou Moulds, a member of Canadian Kodak in Toronto, spent a week with members of the Cine Processing Dept., Bldg. 6. . . . Tom McCabe, P&S, and his wife recently visited New York City for the first time. . . . Agnes Cosco and Frances Desando, Time Office, recently went to New York to meet Agnes' mother and father and Fran's mother who returned from Italy.

Engineering Dept. members held their second annual Christmas dance at Doud Post Dec. 10. Jack Nunn's orchestra furnished the music for dancing and also presented comedy skits. A novel feature was a smorgasbord luncheon. Guy Williams headed up the committee in charge. . . . Charles Edens, Research Laboratories, who does his hunting with a bow and arrow, reported no luck during the recent 14-day period allowed area archers. . . . Ed Wegman, Bldg. 6, is back from a visit to the Chicago Processing Station.

Dr. T. H. James, Research Laboratories, addressed the Rochester Section of the American Chemical Society in Cutler Union Dec. 13. . . . Ev Wadman, Indus. Eng., Bldg. 12, is anxious to get back the Christmas card negatives he loaned to someone at the Park in 1946. . . . Traffic jams part like the Red Sea for Dean Van Dussen, Film Planning & Record, since he spray-painted his car a fire engine hue. . . . Members of the Paper Mill held their annual Christmas party Dec. 21 at Melody Lane with old-timers on hand. . . . John Skinner, Truck Service, and his wife, Mildred, Sundries Mfg., celebrated their silver wedding anniversary on Christmas Eve. John presented the Missus with 25 silver dollars. . . . Bernard Kestler

Jake Amberger, left, was one of the Machine Shop men honored at recent retirement party. Otto Heiligenman, at the mike, was master of ceremonies.

of the Paper Mill landed a pair of tarpon weighing 60 pounds on a recent fishing trip off the Florida Coast. En route home, he stopped off in Pennsylvania long enough to bag a deer.

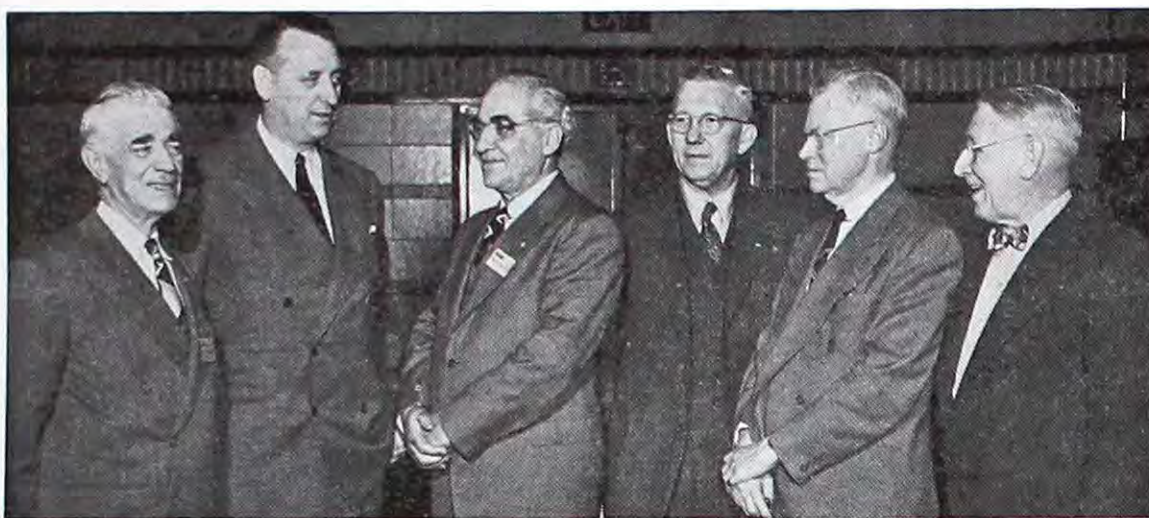

Members of the X-ray Sheet Film Dept. held a party at the New Dutch Mill Dec. 3 to honor Cliff Curtis on his completion of 25 years' service at KP. Herb Bieber, department foreman, presented Cliff with a gift. . . . Harold Casperson, Reel Mfg., recently suffered a sprained rib, the result, he claims, of sneezing too hard. . . . Harold Dainard, Frank Guenther, Roy Greenfield and Clifford Jones, all of Nitrate Cine, Bldg. 58, were guests of honor at a 25th anniversary dinner Dec. 11 at Bay View Hotel. Each received a gift from Rufus Wesson, department head, on behalf of his associates. . . . Members of the Finished Film Supplies Dept., Bldgs. 25 and 12, held a Christmas party Dec. 17 at Turners' Hall. . . . Girls of the Film Planning & Record Office entertained Evelyn Olmstead at the

Spring House Dec. 8. A gift was presented to Ev, who is leaving to assume household duties.

The hunting in Steuben County this season was excellent, according to Harold Vogler, Kodapak, who has a good picture to prove his point. With him on his first try for the big game was his son, Richard. . . . Ethel Ostrom, Bldg. 65, recently motored to Montreal for a weekend visit. . . . A party for Carl Malm, superintendent, and Christopher Kelly was held Dec. 17 by members of the Cellulose Acetate Development Dept. Malm recently observed his 25th and Kelly his 30th service anniversary. . . . A farewell party for Dr. Charles Kibler of the Synthetic Organic Research Laboratory was held by members and their wives at Mike Conroy's Dec. 4. Dr. Kibler is taking a year's leave from his duties because of ill health. . . . Bill Busch, Film Planning & Record, gave his "Doodlebug" its first real test while on a hunting trip in the Adirondacks. "There's just one thing wrong," says Bill. "The darned thing makes so much noise it frightens away the game."

Harold Vogler, right, and his son, Richard, brought home these deer.

New Year Departures — Five retiring Kodakers are shown above with J. E. McGhee, EK vice-president and general sales manager. From left are Fred Hacking, technical representative; McGhee; Ralph Fallert, technical representative; Norman Ferris, Sensitized Goods Sales Dept. correspondent; Frank Andrews, general manager of the Professional Sensitized Goods Sales Div., and J. A. Penfold, salesman. Fallert will retire Mar. 1, the others retired Jan. 1.

Five Retiring Are Honored At Dinner

Five retiring Kodakers were feted at a testimonial dinner held recently at the Rochester Club ballroom, a feature of the December conference of the Company's Technical Representatives. They are Frank L. Andrews, Norman L. Ferris, Ralph Fallert sr., Fred L. Hacking and J. A. Penfold. George Downing, also retiring, was unable to attend because of illness. Fallert will retire Mar. 1, the others retired Jan. 1.

Joined Kodak in 1912

Andrews began his Kodak career on Mar. 14, 1912, as a paper demonstrator. He was located in New York and Detroit until 1926, when he came to Rochester to take charge of paper sales. In 1929 Andrews was made supervisor of the sales of films, plates and papers for professional use. He became general manager of the Professional Sensitized Goods Sales Div. on Jan. 1, 1948. Andrews was the general supervisor of all Sensitized Goods technical representatives who call on nationwide photographers. He was also responsible for the Sales Dept.'s Professional Studio. Andrews is an honorary member of the Master Photo Dealers' and Finishers' Assn. and of the PSA. He has returned to his hometown of Detroit where he and his bride of four months, the former Josephine Haines of Detroit, will make their home.

Ferris started with Kodak on Jan. 14, 1911. He was a technical representative covering the Middle West and Southwest territory until July 1920, when he entered the Sales Dept. at Kodak Office as a correspondent. Since Jan. 1, 1934, he had been a correspondent in the Sensitized Goods Sales Div.

When Fallert retires in March he will have been with Kodak 40 years. He is now a technical representative in the Chicago territory.

Was Technical Representative

Hacking had been a technical representative since he began with the Company in July 1928. He covered territory in the San Francisco area.

A paper demonstrator when he started with EK July 2, 1923, Penfold later became a salesman in the Kansas City territory.

Downing, a special technical representative in Eastern U.S., began service with the Company Jan. 30, 1933. He is now at his home in Hinsdale, Ill.

Over 200 guests attended the dinner, including 115 technical representatives.

J. E. McGhee, EK vice-president and general sales manager, was master of ceremonies. Speakers were T. J. Hargrave, EK president; Dr. A. K. Chapman, vice-president and general manager; Adolph Stuber, vice-president in charge of sales and advertising, and Paul Van Divort, technical representative in New York, who spoke for the technical representatives.

Review of 1948 Spotlights Company's Accomplishments

(Continued from Page 1)

graphic scientist, retires. . . . John P. Newbury named general manager of Eastman Gelatine Corp. . . . Year's report lists total of \$115,661.50 earned by Kodak suggesters in 1947. . . . Kodak Duaflex Camera and Kodak Continuous Paper Processor, Model 1, introduced. . . . CW opens new plastics laboratory. . . . Death takes G. W. Morgan, advertising manager of Canadian Kodak Ltd.

February—Kodak receives nation's Certificate of Merit for vital wartime work. . . . Stephen B. Cornell, chairman of the board of Canadian Kodak Ltd., dies. . . . Hawk-Eye receives Grand Award won in 1947 state safety campaign. . . . Alfred Landucci, president and general manager of Kodak-Pathe, honored by France for civilian service. . . . Kodak Park's industrial power plant cited for outstanding achievement at Washington meeting.

March—Leo O'Halloran of KP wins Kodak bowling singles honors. . . . EK employee benefits reach new high of \$30,521,500 in 1947. . . . Company's sales increase 28 per cent in 1947. . . . Kodak men and women share record Wage Dividend of \$11,613,297. . . . CW men win Lovejoy Trophy and KP girls capture Sulzer Cup in Kodak Interplant Bowling Tournament.

April—Kodak people give 2355 pints of blood to Red Cross. . . . Kodak Suggestion System 50 years old. . . . Hawk-Eye produces new gear-checking device and contour projector. . . . Ted Cox named president of KP Foremen's Club. . . . Kodak sets up new lab to study films for television. . . . Britain honors Maj. Gen. E. P. Curtis. . . . Kodak sales reach \$92,000,000 for first quarter of 1948.

May—Kodak Tourist Camera announced. . . . Bernard H. Holman of KP earns \$2500 to set record amount for single suggestion. . . . New type of film base used by EK in manufacture of "safety" motion picture film.

June—Kodak folks send gifts of clothing to Kodak people abroad. . . . New Kodatron Studio Speedlamp provides lighting with sunlight quality. . . . Recordak Corporation's 20 years old. . . . Dr. L. G. S. Brooker, EK scientist, wins Henderson Award. . . . Kodak camera has 60th birthday. . . . H-E turns out 60-inch lens for Air Force.

July—Home movies reach quarter-century milestone. . . . DPI joins Kodak as subsidiary. . . . ES&L member savings hit new high of \$17,240,754. . . . Suggesters receive \$73,178 for first six periods of 1948.

August—Kodagraph Micro-File Machines added to industrial photography line of products. . . . Kaypees clinch Major Industrial Softball League title. . . . Kodak Color Densitometer, Model 1, announced to trade. . . . Half-year report shows sales at \$192,480,338. . . . Three new models of Kodak Tourist Camera produced. . . . Two

new Kodak Ektar Lenses, f/4.5, made by Company.

September—KP golfers lift Haight trophy from CW. . . . Kodak honors 316 at 25-year dinner. . . . President's Certificate of Merit goes to nine Kodak scientists and engineers.

October—Dr. Samuel E. Shepard, widely known for photographic research, dies. . . . KP tennis team cops sixth straight Rochester Industrial League title. . . . Kodaslide Table Viewer of revolutionary type disclosed by Company. . . . Kodak collaborates on Ultrafax, RCA's new communication system. . . . Harold F. Sherwood of KP receives Rodman Medal at 93rd International Exhibition of Royal Photographic Society. . . . Albert Goodhue, president of Eastman Gelatine Corporation, dies.

November—Complete line of Kodak Cine Ektar Lenses announced. . . . Dr. C. E. K. Mees presented first Progress Medal of Photographic Society of America. . . . \$125,509 goes to Kodak men and women for ideas adopted in first 10 periods of 1948. . . . \$13,000,000 Wage Dividend voted by Board of Directors. . . . A. W. Doree of England wins George Eastman Medal in 14th Kodak International Salon of Photography. . . . J. L. (Les) Harper appointed assistant comptroller.

December—Perley S. Wilcox, chairman of the boards of EK and TEC, celebrates 50th year with the Company. . . . Kodak Fluorescent Dental X-ray Illuminator announced to trade. . . . Death claims Dr. Benjamin J. Slater. . . . Fred Zucco of KO takes top prize in Kodak Men's Singles Bowling Tournament with 652 total. . . . Kodak's Retirement Annuity Plan, Life Insurance and Disability Benefit Plan for protection of its men and women observe 20th anniversary. . . . Sarah Baker of CW takes crown in Kodak Women's Singles Bowling Tournament. . . . New photographic emulsion helps track atomic particles.

1st of 3 Lab Units Opens at KP West

(Continued from Page 1)

Laboratories, declared: "With these modern facilities we now can provide excellent working conditions for our skilled chemists. Additional trained chemists, as new laboratories come into operation, will supply the staff which is essential for greater production."

Kodak will not only be able to put back into the catalog certain important chemicals, but will find the way open for synthesis of entirely new chemicals which have not been available previously, he added. Kodak now lists 3000 chemicals, the largest group of organic compounds in the world.

Party Fetes Retired, New Heads of Cleveland Stores

C. B. Woidt, treasurer and general manager of the EK Stores of Cleveland and Youngstown, was feted at a Christmas party in Cleveland recently. He retired Jan. 1 after over 40 years of service. The party also welcomed Stanley E. Butler, who is Woidt's successor.

Mayne Appointed Patent Director

Daniel I. Mayne has been appointed director of Kodak's Patent Dept., succeeding Newton Perrins, who is giving up active management but is continuing as counsel for the department.

This announcement, made by T. J. Hargrave, Company president, became effective Jan. 1.

Perrins has been associated with the Patent Dept. since November 1917, when he joined Kodak as assistant patent attorney. Following a trip to Europe for the Company, he was made director of the Patent Dept. in September 1933.

Mayne began with Kodak as a patent attorney in April 1929, and became assistant head of the Patent Dept. in charge of chemical patents in 1933.

C. B. Woidt

Woidt began his Kodak career with the Chicago Store in 1908. In 1924 he moved to Minneapolis as manager of the EK Store in that city. Woidt went to Cleveland Nov. 27, 1927, as manager of the EK Stores there which originally opened at 1126 Euclid Ave. on that date.

Butler joined the Company on Mar. 10, 1926, at the Chicago Store. After serving in World War II as a lieutenant in the Navy, he returned to Chicago as assistant manager of the Chicago Store, and was transferred to Cleveland recently.

Many Kodak people from Rochester attended the party.

Distribution Center

(Continued from Page 1)

erations being carried on indoors.

Construction of the project will release for production and other purposes much space now devoted to storage and shipping.

McGrath, who heads the new setup, joined Kodak in 1926, starting in the Cine-Kodak Service Dept. Later he transferred to the Distribution Dept., being appointed department head in 1934. He took over sales priorities in 1941 and since 1945 has directed the Planning and Distribution Dept. at KO.

In 1947 and again last year, McGrath went abroad in connection with coordination of Company distribution operations.

EK to Operate Plant for Navy

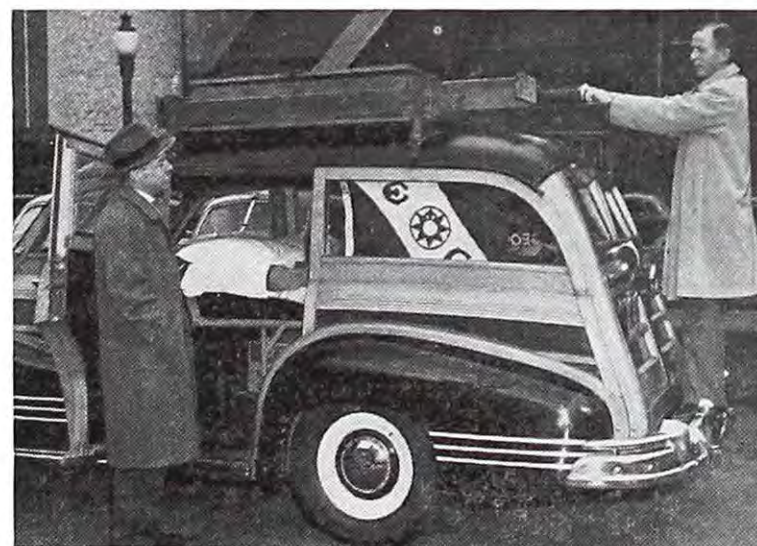

Kodak's Navy Ordnance Division will operate a government-owned plant at 121 Lincoln Ave. for the Navy Department, it was announced this week.

The structure will be used by NOD for research and development work and Navy storage.

The building, formerly a foundry, was erected during the war and operated by Symington-Gould Corp. Later it was taken over by the War Assets Administration.

Now assigned to the Navy Department, operations in the building will be directed by Kodak.

Roving Photographer Lives In Portable Studio-Home

Home Is Where He Stops — Photographer Jack Breed, right, pulls some of his photographic equipment from the top as his friend, Marty Donahoe, KO Sales, examines the station wagon. Besides sleeping quarters, he has space for all his photo equipment, food and a small stove.

The Jaunty Jack III—a station wagon, trips of which consist of "expeditions in exposure"—caused much comment around KO while its owner, Photographer Jack Breed, was at KO.

Breed, all-around cameraman, flies the flags of the Explorers' Club and the National Geographic Magazine in his wagon which serves as his portable studio, bedroom and kitchen.

Specializing in outdoor scenic color photography, he has "shot" Mexico, Canada, New England and much of the West, using both the Cine-Kodak Special Camera and the Kodak Reflex Camera as part of his equipment.

His most recent expedition was right around his boyhood home—photographing the fall foliage of New England. This he did for Life Magazine. His pictures have

also appeared in the National Geographic, Holiday, Arizona Highways Magazine, Collier's, Cosmopolitan and Coronet.

Each of his station wagons—he's now on his third—has taken about 300,000 miles before he has turned it in. And this, he added, includes many miles of driving where roads were unheard of.

In Utah, he photographed the virtually unexplored Arches of Stone and Monument Valley, which were of particular interest to him since he had majored in geology at college.

One of his recent assignments done with a Cine-Kodak Special Camera was a movie for the Botany Woolen Mills showing life on a Colorado sheep ranch and eventually the processing of the wool into bolts of cloth.

Dramatic Tale of 3 Years in India Unraveled by English-Born KP Girl

She was in Calcutta the day Ghandi died. She had the privilege of riding the special horses of the Maharaja of Mysore. She's been stalked by a ferocious, man-eating tiger. She's killed panther and black buck.

These are but a few of the experiences had in India by sparkling, English-born Gloria Keeler of the Cine Spooling Dept., KP.

Now 30 years of age, Gloria is an attractive brunette. She spent three years in India, having gone there for the British Red Cross in 1945. Her job was to set up and decorate recreation halls and clubs. Later she established her own interior decorating and gown shop. She met her husband, Lynn, in India, and after a whirlwind courtship of one month,

Gloria Keeler

they were married in November 1945. He was in that country as an engineer for the Hindustan Aircraft Factory.

Hunting was a favorite sport of the Keelers, who often took trips from their home in Bangalore, South India, to hunt the native wildlife of that country.

Here in Rochester, friends admire the young woman's purses and shoes made from crocodile shot by her husband. The couple also hunted for tigers, panthers, elephants and wild pigs. One of their experiences with a tiger was wholly unexpected, however. Having walked a short distance from their car in the dense jungle, Gloria sensed something behind her. She was horror-struck when she turned and saw a man-eating tiger crouched for the kill. Several yards behind the animal, Lynn saw the scene and took the shot that saved her life and caused an earth-shaking roar from the injured feline.

It Took 12

The near-by villagers celebrated that night, for this particular beast had caused havoc for some time. Twelve men later lugged him out of the deep ravine into which he had plunged.

Most breath-taking for its beauty, Gloria recalls, was the garden of the Krishna Ragasaga Hotel just outside of Mysore. Reputed to be one of the loveliest gardens in the world, comparable to the Taj Mahal, Gloria can only say that it's like a wonderland, beyond description. She was especially impressed by the 200 colorfully lighted fountains and the extravagant cypress trees.

It was in Mysore that she and Lynn became acquainted through a mutual friend with the Maharaja of Mysore, "quite a big noise," as she describes him. They rode his special horses and against rules took pictures of the interior of the Maharaja's palace. It's a luxurious

It Stalked

Her—
Gloria Keeler's life was saved when her husband Lynn shot the man-eating tiger with which they are pictured.

place with furniture pieces including solid silver and gold chairs. Gloria revealed that the father of Sabu, child star in the movie "Elephant Boy," was keeper of the elephants for the Maharaja.

Vacation in Africa

The KP woman and her husband did much traveling in India. They also vacationed in East Africa with friends and while there flew by plane all over the country. When flying low, they saw herds of zebras and giraffe running across the "veldt" or plains.

Traveling, however, is nothing new to Gloria. As a child, she traveled all over Europe with her mother, who was a well-known concert pianist.

In describing her impressions of India, she states that it's like going back in history 200 years. Babies don't know the feel of water; they are rubbed with oil. Mohammedans, lovers of animals, do not believe in killing them, even though greatly diseased or very old. People of the Parsee religion do not believe in burying their dead, who are placed on a sacred grill and devoured by vultures and the hot sun. Much internal unrest caused the Keelers to leave.

Gloria feels that, because of her many travels and experiences, she has "a story" to tell. Thus she's compiling material to write a book.

The Missing Purse

Doris Schaeffer, KO Employees Benefits, and Teddy Curtis, Sales, hailed a taxi in the 5 o'clock rush Dec. 23, dashed into the Blue Bus station to buy tickets. There, Doris discovered that her purse with \$30, glasses and license, was gone. Was it in the taxi! Teddy provided the fare. (They stood all the way to Watertown.)

The perplexed girl returned to her KO desk Monday and first thing to greet her was the purse she'd left behind.

Knit It Yourself

Nothing more welcomed by "him" than a crew neck sweater! This one pictured requires five four-ounce skeins of wool and is worked with a pair of No. 2 10-inch needles and a pair of No. 6

10-inch needles. A set of No. 2 double point needles is necessary to work the neck.

Free directions may be obtained from your KODAKERY Office or by writing to KODAKERY, Pattern Dept., 343 State St.

Elsa Acclaims Applesauce In Brownies

"They're better after several days." That's Elsa Jobe's selling point for her applesauce brownies. If she has to make "something sweet" for say Wednesday, and has time to whip it up only on the previous weekend, she brings out her applesauce brownie recipe. The applesauce keeps the brownies moist. The flavor improves.

Elsa, who is a member of Bldg. 48 General, adds that she likes them almost as well plain as with chopped nuts. When she wants to make them a little more party-like, she mixes in coconut and cuts the brownies into dainty bars. Her brownies are not doughy and they raise nice and high.

APPLESAUCE BROWNIES

1/2 c. shortening (scant)
1 c. sugar
2 eggs, well beaten
2 squares baking chocolate
1/2 t. vanilla
1/2 c. applesauce
1/4 t. soda
1 c. flour
1/2 t. baking powder
pinch of salt
1/2 c. nut meats broken, or 1 c. coconut, or both.

Cream shortening and add sugar. Add eggs and melted chocolate. Add vanilla. Dissolve soda in applesauce and add. Sift flour, measure and sift together with baking powder and salt. Add to mixture. Add nuts and spread into square cake pans, about 8x10, 5/8-inch

A Cake No Less! —

Yes, the little white lamb on the table is a luscious cake made by Elsie Burlingame, left, and admired by Kay Koppler, right. It was the sensation centerpiece at the H-E Final Inspection Dept. noontime Christmas dinner. Fresh shredded coconut gives it that woolly look. Elsie says it takes two cakes to do it.

Bedtime Story

Six Hours' Sleep Is Too Few; Dr. Prindle Gives Right Cue

"Very few people can get along on six hours of sleep a night." It's a fact, maintains Dr. Sarah Prindle of KO, but the question is, "How many of you try this feat habitually and think you're getting away with it?"

The result of too little sleep rears its ugly head in work, face and disposition . . . poor, tired and dull, respectively. Lack of enough sleep may run down your health in general.

Why sleep? The "why" of it specifically is to recover from the fatigue incurred by the brain and voluntary muscles during wakefulness.

Seven to nine hours is the sleep requirement of most adults. But to determine just how much shut-eye you need, it is suggested that you run an experiment with yourself over a long period of time. Ask yourself how much you need to feel well-rested and good-natured the next day. How much sleep do you need to do your best work tomorrow? The average individual's period of highest efficiency, lasting four or five hours, usually begins about noon. Does your peak of efficiency last this long?

Once determining how many hours you need, get this amount as consistently as possible.

Complete relaxation and a well-aired room are conducive to sound sleep, the doctor added. Avoid heavy eating just before retiring. It's also recommended to raise the bedroom window and air the room

well for just one hour before jumping under the covers. Close it for the rest of the night. That's the new theory for the healthiest ventilated room during cold weather.

How 'bout it? Are you going to turn in your required number of sleep hours nightly? Dr. Prindle has only your best interests at heart when she advises that you do.

If you're a pie-lover, Marie Ryan, Cellulose Products Sales, KO, has two pie fillings that are mighty good.

Lemon Chiffon Pie

1/4 cup melted butter
1 cup sugar
3 tablespoons flour
3 slightly beaten egg yolks
Juice and grated rind of 1 lemon
2 cups milk
3 stiffly beaten egg whites
1/2 pint whipping cream

Marie Ryan

Blend butter with sugar and flour; add egg yolks, lemon juice, rind and milk. Fold in egg whites. Pour into 9-inch pie tin already lined with unbaked pie crust. Bake in hot oven (450°) for 10 minutes, then in moderate oven (325°) for 35 minutes. Let cool and top with 1/2 pint whipped cream.

Pecan Pie

3 beaten eggs
1 cup brown sugar
1 cup light corn syrup
1 cup pecan halves
1 teaspoon vanilla
Beat eggs and sugar until thick; add corn syrup, nut meats and vanilla, pour into 9-inch pastry-lined pie tin. If desired, nut meats also may be sprinkled over filling after pouring in crust. Bake in slow oven (300°) for 1 hour.

The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD —NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

Jenkins' 35 Points Sets Scoring Record in KP League

Emul. Making, Bldg. 12 Top Departmental

Bldg. 12 and Emulsion Making won three games to keep their records bereft of defeat, and Frank Jenkins set a new scoring record. The preceding paragraph pretty well sums up the holiday happenings in the KPAA Departmental Basketball League.

Jenkins

Jenkins, cavorting with Bldg. 36 in that team's 59-28 rout of Field Division 5, bombarded the baskets for 35 points. This total, which was made on 14 field goals and 7 free throws, eclipsed the old record of 34 set last season by Doug LaBudde.

Bldg. 12's sternest test was a 42-37 joust with Roll Coating Dec. 16. Thereafter Jed Bullock's boys won hands down.

Cage Schedules

ROCHESTER MAJOR INDUSTRIAL
Thursday, Jan. 6—7:30 p.m., Camera Works vs. Taylor at Franklin.
Tuesday, Jan. 11—9 p.m., Kodak Office vs. Camera Works at Franklin.

CHAMPION INDUSTRIAL
Thursday, Jan. 13—8:45 p.m., Kodak Park vs. Ritter at Ukrainian Hall, 292 Hudson, corner of Wilson.

Red Overmyer Pacing Parkers' Point Production

RG&E ended Kodak Park's three-game victory streak in a recent Champion Industrial League game, but the Kaypee conquerors could not stop Ronnie Overmyer, "Red" ripped the cords for 15 points to run his four-game total to 72.

Despite the setback, Harry Horn's outfit continues to lead the loop's Eastern Division with a 3-1 record. Kodak Park's leading scorers in league competition:

Burke Bowls New Gals' High

Al Standing and Lorraine Burke shared the bowling spotlight over the holidays.

Lorraine set a new season record for Kodak women pinsters, giving her softball arm a good workout Dec. 20 at Ridge with a 234 solo in the KPAA 12-Team wheel. Standing rolled a 633 series with the help of a hefty 267 singleton. Leaders:

CW Quint Leads Dusty Keglers

When the first-half firing ceased prior to the holidays, Camera Works led the Major Industrial Bowling League by five full games. Eddie Keenan, with a 194 average, leads the CW keggers. The mark is one pin shy of the league leader, Elmer Eckert's 189 average, sixth best in the individual standings, tops the fourth-place Hawk-Eyes. Also boasting 189 marks are Walt Lentz and Herb Scheuch of

Sports Roundup

Chuck Calls 'em... Keglers Await Tourneys

Chuck Alletto, CW court campaigner of many seasons, has turned referee. Chuck is officiating in both the Champion and Rochester Major Industrial Leagues. ... There just ain't no Santa Claus, say Frances Laging and Caroline Brooks of the KPAA Girls' 16-Team League at Ridge. Frances' spills of 177-154-209 and Caroline's lousy 168, 168 and 186 were good enough to make the grade in the T-U Women's Classic but, as luck would have it, qualifying tests were deferred for two weeks because of the holidays. ... Virginia Doane, Finished Film team keglette, who is averaging 171 for the

Shifty's plight.

season, racked up 537 but chalked it up as just another good night

on the lanes. Ginny's already entered in the Classic. ... Harold Gears of the KPAA Office is nursing a pair of bruised hips following a brief fling at the parallel bars in the new KP gym. "Shifty" claims the bars are set too close together in the first place.

Entries for the C. K. Flint Men's Singles Tournament, scheduled for Jan. 22 at Ridge Hall, must be turned in at the KPAA Office no later than Jan. 14. The event is open to all members of the KPAA who bowl in a sanctioned league. ... KP bowlers are also urged to begin selecting partners for the Feb. 12 mixed threesome.

Receive President's Trophies — Fred Zucco and Sarah Baker, winners in the men's and women's divisions of the second annual All-Kodak Bowling Tournaments, receive the President's Trophies from T. J. Hargrave, Company president. Looking on is Cap Carroll, second from left, HEAA director and tournament chairman. Besides the wrist watches, Freddy and Sarah received \$100 and \$50 first place cash awards.

CW Notches 68-42 Win

Camera Works' high-scoring basketballers won their second game in as many starts in the Rochester Major Industrial League before the holidays, and Kodak Office suffered its second straight setback.

Chuck Gray collected 14 points to pace CW to a 68-42 win over Rochester Buttons. Ken Mason's KO cagers bowed to Hickok, 67-54. The belt-and-buckle boys led 30-20 at half-time. Box scores:

Mason Tops KO Scorers

Ken Mason's 21 points in the Penpushers' recent 49-33 win over Shipping gave him a comfortable lead over his nearest rival in the Kodak Office Basketball League's individual scoring race.

Rochester Branch held undisputed possession of first place as the league resumed play last night following the holiday recess. The Bombers made it three straight Dec. 15 by nudging Repair, 38-35.

LEAGUE STANDINGS					
	W	L		W	L
Roch. Branch	3	0	Shipping	1	2
Penpushers	2	1	Repair	0	3

Games Jan. 12
7:30 p.m.—Repair vs. Office Penpushers; 9 p.m.—Shipping vs. Rochester Branch. Place—State Street auditorium.

Bob Sullivan, Shipping.....	3	9	1	19

Paperweights Win, Lead Gals' Loop

Erasing an 11-1 first quarter deficit, the Paperweights finished strong to nose out Bldg. 23, 25-24, in the KPAA Girls' Basketball loop Dec. 28 at the Park. Margaret Betlam's 13 points sparked the rally. Shirley Carmichael scored the same total for the losers.

Edna Kader's 13 tallies helped Bldg. 65 notch a 25-19 triumph over Bldg. 12. Standings:

W		L	
	W	L	
Paperweights	2	0	Bldg. 12
Bldg. 65	1	1	Bldg. 23
	0	2
