

Jersey Freshman Wins Grand Photo Award

A 15-year-old freshman of Summit, N.J., today is the winner of a Grand Prize worth \$500.

Richard Crummy also gets an additional \$100 for taking top spot in Class 4 of the Fourth Annual National High School Awards. Kodak sponsors the competition.

Dick was a pretty happy lad when told by telephone of the judges' decision. In fact he was speechless for a couple of seconds.

He explained that he was out riding with his dad when he saw what turned out to be the Grand Award winner. He calls it "On the Farm." Pictured is a weather-beaten barn, and a horse is nibbling the sparse grass near by.

Unanimous Choice

The judges were unanimous in their selection of the print. In their opinion it had the greatest interest, appeal, and showed the most perception on the part of the lensman.

Besides the Class 4 — Pictorial Beauty — there were three other \$100 winners. In all, there were 348 cash awards totaling \$3500 that went to students in the U. S.

Class 1 was captured by Gordon White of Freeport, N.Y. Robert J. Moore of Santa Rosa, Calif., won in Class 2 and William R. Brink of Holland, Mich., was first in Class 3. Each receives \$100.

There's a new feature, too, in the 1949 Awards. The high school attended by each of the major prize winners receives a special award. This includes a new Kodak Flash Bantam Camera and photographic books intended to provide the foundation for a photographic library. Thus the Company hopes to assist schools in their photographic and visual education work.

\$75 Awards

There was a \$75 prize in each class for second place. These went to Bill Blankenburg, Beresford, S.D.; Sig Snelson, Los Angeles, Calif.; Lois Mack, Chicago, and Fred W. Morss, Richmond, Calif.

Third prizes of \$50 each were received by Edmund R. Rogers Jr., West Haven, Conn.; Luis M. Rodriguez, Caracas, Venezuela, S.A., who is attending Canterbury School, New Milford, Conn.; Louis Lisch, Los Angeles, Calif., and Robert W. Braun, Key West, Fla.

Judges for the competition were Joseph Costa, chairman of the

(Continued on Page 4)

\$900 for an Idea!

It will be a happier summer for John P. Vaeth, Bldg. 48 at KP. He's richer by \$900 due to his latest suggestion.

John's award was highest of the 616 adopted in the fifth period at the Park. He suggested cutting the size of the velvet used in 35mm. magazines, and there's no loss in its effectiveness, while saving on costs.

In the period KP people received a total of \$7392.50 on their ideas. Fifty-six women shared in the awards. This award total puts the Park's idea earnings at about \$45,000 for the first five periods.

Triplex Microfilmer—First shipments of Recordak's newest model in the microfilming field were made from the Hawk-Eye Works in the last period. Designated the Recordak Triplex Microfilmer Model RF, it features interchangeable film units with photographing ratios of 35-1, 28-1, 24-1 and 19-1. Making a final adjustment to one of the models is Roman Kwiatkowski of the H-E Recordak Assembly Dept.

1st Triplex Recordak Units Sent

Another new product makes its debut in the microfilming field. The first shipments of the new Recordak Triplex Microfilmer Model RF were made from Hawk-Eye Works in the fifth period.

The new model represents the best in design and utility. It features interchangeable film units with photographing ratios of 35-1, 28-1, 24-1 and 19-1.

Duo Feature

Units with reduction ratios of 35-1 and 28-1 incorporate the "duo" feature. In this method, half of the width of the 16mm. film is exposed the first time the film is run through the unit. The film is then rethreaded and run through the machine again. This exposes the other half in much the same principle as that used in exposing Kodak Cine Eight film. Standard, full-width photos are made with the 24-1 and 19-1 film units.

To add to its versatility, the new model also has the reversal mechanism used in previous commercial models. The front and reverse sides of documents can be photographed automatically by means of an ingenious device. It turns the documents over after they have gone through the machine the first time and runs them through again to photograph the reverse side. The reversing mechanism is lever operated. It can be set for all exposures or for individual items selected by the operator as circumstances demand.

Blends Well in Office

The new microfilmer is designed to blend well with modern office equipment. It is styled in keeping with the new Recordak styling plan, started with the Duplex model. It is completely equipped with an alarm system, including a film movement monitor. This shuts off the machine and signals the operator by means of a light if the film drive fails for any reason. This feature was utilized first with much success in the Duplex model.

Any business document from a

What About YOUR Retirement Annuity?

Did You Do a Little Multiplying When You Got Your Personal Statement?

Did you spend quite a bit of time studying your Retirement Annuity status when you got your individual statement two weeks ago on how you personally stand in regard to various Company plans?

If you're like most Kodak folks you did, because that's quite an important item in your future plans.

Chances are you multiplied the amount of annuity accrued to your account in 1948 by the number of years until your retirement age and then added the amount already accrued. That gives you some idea of what your annuity will amount to when you retire, assuming that your earnings were to continue at the 1948 rate and the Plan is not changed.

There's a little more multiplying you can do. Just multiply this amount by your life expectancy — approximately 15 years for men at age 65 and approximately 22 years for women at age 60. This will show you how much you would receive if you live the normal life expectancy.

A lot of people wondered, too,

what their annuity would cost if they bought it themselves.

Well, actually, few insurance companies offer such a policy known as a straight life annuity, except under group contracts. If an individual buys such a policy and does not live until he retires, he gets nothing. If he lives only a year after he retires, he collects for only one year.

Expensive for Individual

However, if any of us should desire to buy such a retirement annuity as provided by the Company, it would cost a man at age 65 about \$16,500 to provide a monthly income of \$100, or a woman at age 60 about \$22,000.

Here's an actual example of the retirement of a Kodak Park man. For this article we'll call him Joe Brown. He worked at the Park 29 years before retiring. During that time he averaged \$45 a week, and he was making \$77 a week at the time of retirement. Under the Company's Retirement Plan, Joe is receiving \$78 a month from Metropolitan. It would have cost Joe \$12,870 at the time of retirement if he had purchased a straight life annuity of \$78 a month from an insurance company.

\$141 Monthly

The Browns also receive \$63 a month from Social Security, which, plus the \$78 a month from Metropolitan, gives them \$141 a month in all. This total assured income supplements the income which the Browns have already provided through their own savings and investments.

If Joe lives the normal life expectancy of 15 years after age 65, he will receive \$14,040 from his Retirement Annuity. And, of course, if Joe lives to a ripe old age, he'll receive a great deal more than that.

Here's another actual case of a man who has been at Kodak Park since May 1939. His starting rate was \$25 a week. He's 37 years old today and he's making just over \$70 per week. He is accumulating annuity at a rate which will give

him an annual annuity of \$1620 when he reaches age 65 provided there is no change in Kodak's Retirement Annuity Plan. That means he'll get a check for \$135 each month for life if he retires under the provisions of Kodak's Annuity Plan. His Social Security benefits, together with those of his wife, will amount to about \$80 a month. That makes a total of \$215 a month of assured income after retirement in addition to such retirement provisions as he himself makes.

What would this man's \$135 a month annuity cost if he were to buy it at age 65? At present rates, the bill would come to \$22,275. And what can he expect to get from his Kodak annuity? If he lives the normal life expectancy of 15 years after his retirement, Metropolitan will send him monthly checks totaling \$24,300.

The big point, of course, is this: Under Kodak's Retirement Annuity Plan you get a check every month as long as you live. And Kodak has paid the full cost.

This Is It—Joe Costa, right, puts the grand award seal on the photograph entered by Richard Crummy of Summit, N.J., as the two other judges watch. Ken Williams, left, Clifford Ulp and Costa selected the winning entries in the Fourth Annual National High School Photo Awards sponsored by Kodak.

The Colonel's Amused—And so were the others in the picture as they read clippings from New York papers regarding the tests of new night photographic equipment in the metropolis. The picture was taken soon after Col. George W. Goddard landed at Rochester for the tests here. From left, Mert Lewis, Government Sales, KO; Colonel Goddard, Raife Tarkington, Research Lab staff, KP, and Art Simmons, H-E Manager's Office. (Story and other pictures on Page 4.)

ES&L High In U.S. on FHA Loans

The Eastman Savings and Loan is among the country's leaders in making modernization loans (FHA Title I loans).

This was announced in a letter received by the Association from Arthur J. Frentz, assistant commissioner of Title I Section of the FHA in Washington.

As of December 1948, the Association had loaned over \$560,000 for such modernization projects since July 1, 1947, the letter points out. Currently, the Eastman Savings and Loan is making this type of loan for practically every type of residence improvement. Included are painting and decorating, heating plants, kitchen and bathroom modernization, garages, driveways, screens, new roofs, etc.

Simplified Procedure

The procedure is very simple. The borrower fills out a standard application blank for the loan desired at the ES&L. Within a short time he is notified of the action taken on his application. Usually, in cases of necessity, he can get the cash within 24 hours. Otherwise, the cash is ready for him within a few days. There is no expense connected with this type of loan other than repayment of principal and interest by the convenient payroll deduction method.

It is recommended that those who are planning on paying for home improvements with the proceeds of a modernization loan secure approval of the necessary loan before signing contracts or otherwise definitely committing themselves to begin the work.

2 Get Medals At Pittsburgh

Membership in the Quarter Century Club of the Pittsburgh Store was doubled recently when Manager W. C. Mosher presented Eastman Memorial Medals to Ann Southworth and Herbert F. White.

Ann began service with the Pittsburgh Store May 26, 1924, in the Developing Dept. as a printer, and has served in this capacity since that time.

Herb got his start in the photographic business in 1919, when he joined the Ralph Harris Co. in Boston. He joined EK Stores, Inc., Pittsburgh, as a traveling salesman on May 26, 1924.

Herb covered the western half of Pennsylvania until 1946, at which time, because of ill health, it became necessary for him to stop traveling. Since then he has been in charge of the Order Dept. and handles professional sales correspondence.

"Why is love like a mushroom?" "I don't know. Why is love like a mushroom?"

"Because you don't know if it's the real thing until it's too late."

"Mrs. Mackle is a perfect wizard. Yesterday she bounced one off of three trees and a caddy, right onto the green!"

Keeps Hand in on Vacation

Movie Maker—One of Hollywood's top photographers, Charles Roshier, center, examines some cine film with Edward Curtis, left, EK vice-president, and Harris Tuttle, Sales Service, on his recent visit here. Roshier was on a vacation.

'Tain't Funny

Don't Take Any Chances with Poison Ivy; Maybe You Just Think You're Immune

By Dr. Nathan Francis
Kodak Medical Staff

A lot of jokes are made about poison ivy, but it isn't funny just ask the person who's had poison ivy dermatitis.

He'll probably tell you he's never had quite so much discomfort.

Poison Ivy Quiz

1—Q. How long after touching poison ivy will dermatitis develop? A. Usually from several hours up to 48 hours.

2—Q. What can be done after touching poison ivy? A. Wash the affected areas with laundry soap within 5 to 15 minutes after exposure.

3—Q. Are eruptions contagious? A. No. The contents of blisters and the oozing serum cannot produce irritation in others, even the most susceptible people.

4—Q. Can clothing, dogs or the fur of other animals carry the harmful agent? A. Yes. Clothing has been known to cause dermatitis even after hanging in a closet for as long as a year.

5—Q. Can dry leaves, dead twigs, roots, etc., cause poison ivy dermatitis? A. Yes.

6—Q. Can a person get poison ivy dermatitis without actually touching the plant? A. Yes. Small fibrous hairs on the underleaf of the plant may be blown onto someone standing in the vicinity and thus cause dermatitis.

7—Q. Are injections of any value after once acquiring poison ivy dermatitis? A. Injections of various extracts after the eruption is present have little or no value and may actually do harm.

And if you're one of those people who think they're immune to poison ivy, you've got another think coming.

It's tricky stuff. Maybe you once sat in it and think you can do it again without harm. If you do though, it's quite likely you'll be eating off the mantelpiece for the next 30 days.

First You're Sensitized

In the past, perhaps you've touched it without ill effects. But, like most of us, you develop poison ivy dermatitis upon the second exposure to it. A first exposure is required to sensitize you. As in all allergies, this first contact does not protect you; it makes you susceptible to the next and following contacts.

A small number of us can touch poison ivy, sit in it or perhaps even eat it over a period of years without ill effects because sensi-

Famed Hollywood Lensman Takes 'Postman's Holiday'

Like the postman who goes for a walk on his day off, Cinematographer Charles Roshier enjoys shooting 16mm. Kodachrome movies with his Cine-Kodak Special Camera in his leisure hours. He is as proud as any amateur of his new Cine Ektar lenses. Also, he enjoys talking about photography with his many friends at Kodak when he has a vacation.

Roshier, who recently visited Kodak, is one of MGM's outstanding directors of photography. He received an Oscar for his work on "The Yearling." Most recently, he completed work on "Red Danube," which is an adaptation of the book, "Vespers in Vienna." It will be released soon with such stars as Ethel Barrymore, Walter Pidgeon, Janet Leigh, Peter Lawford and Louis Calhern. Calhern got his start playing stock in Rochester.

Before "Red Danube," Roshier filmed "Neptune's Daughter," starring Esther Williams and Red Skelton. He also did the Esther Williams picture, "On an Island with You." The Rodgers and Hart story, "Words and Music," is another.

He's one of the veteran Hollywood photographers, having been active there since 1911. For 13

years he shot all of Mary Pickford's movies. This is his 20th year with MGM. Now he specializes in Technicolor movies. "Red Danube" was his first black-and-white film in five years.

On his first visit to Kodak in 1908, Roshier was photographed with George Eastman and Frank Noble. Roshier recalls with a smile, "There've been some changes made since then."

Photo Patter

Inside Shots Required in Home Album

Every amateur photographer takes pictures of his home. As a rule, he makes only outdoor snapshots of the house. These are important, but they don't tell a complete story. Some shots of the rooms are required.

Making interior pictures is different from snapshotting outdoors in sunlight. The main change is in lighting and exposure.

Indoor picture making of this type is based upon time exposures, except where flash is used. That means you must have some firm support for your camera. A tripod is your best bet. You can improvise if you lack one.

Show the room just as you know it. That's important. You probably won't be able to include everything in one shot. Take two or more pictures of each room.

There's another important rule. When possible, leave enough clear space between the camera and the nearest piece of furniture. Any object close to the camera will appear large in comparison with objects farther away.

Unless you make your pictures indoors at night with flash or floodlight, the illumination of the room will be one of your biggest problems. In daylight hours you can rely upon daylight coming through the windows. This can be supplemented with a reflector to brighten a dark corner.

Exposure for interior pictures depends upon the amount of illumination, type of film, lens aperture, and the general characteristics of the room. A room with dark carpets, hangings and woodwork will require longer exposures than one light in tone.

Since exposures vary widely, the safest plan is to take at least three of each room. Vary them from 2 to 20 seconds at f/16, or the largest opening of a box camera. If there is only one window in a room, double those figures.

Watch the ivy, Bub!

tization may not occur with the first exposure, even the second or third; in fact, it may not occur until years have gone by. Then, suddenly, immunity to poison ivy ends and is gone forever.

The best advice, if you would avoid poison ivy dermatitis, is as old as the hills but it can't be improved on—"Leaflets three, let it be!"

Coast-to-Coast Roundup

MARY WALSH, Chicago Lab Purchasing Dept., has an unusual cigarette case which her brother Jim sent on from Japan. The cover bears an imprint of a thousand-dollar bill, and she has a lighter to match. . . . Visitors from Rochester to the Chicago Branch have included C. R. Resler, S. G. Hall and F. G. Small, all of Sales. . . . Harry Wright, Chicago Lab Cine Production, has an exotic collection of rings which he found in the bazaars of India and Persia while touring Asia during his stay in service.

Perley Wilcox, chairman of the Kodak board of directors, and Adolph Stuber, vice-president in charge of sales and advertising, visited the New York Branch and were escorted through the new building by Manager Tom Connors. . . . Camera Chi is the name of the recently reorganized Chicago Lab Camera Club, with John Ryan at the helm; Bob Booth, vice-president, and Roberta Brany, secretary and treasurer.

The bowling league of the Pittsburgh Store officially closed its 1948-49 season with a dinner held at the Royal York Dining Room. Following the dinner the group journeyed to Forbes Field to see a baseball game between the Pittsburgh Pirates and the Brooklyn Dodgers. The "Bums" won. . . . Henry Guell, Cine-Kodak Processing, and Walt Stolle, Color Control, both of KP, were at the Chicago

Lab recently, where they gave a talk on Kodachrome color control to the department heads and control personnel. . . . Roger Jablon, Chicago Lab E&M Dept., came up with a new Crosley car which the Maintenance Dept. carefully hides away from time to time, much to Roger's chagrin.

Homey—When you make snapshots of your house don't forget to make some pictures of the interior. They are "musts" for a complete record of your residence and will be interesting in the years to come when you look over your picture album.

It's on Paper—Close to 1400 persons toured Bldg. 57 areas June 1-2-3 during the Paper Service Dept.'s "Open House" program. Numerous Paper Division operations were shown to families of department members. Here Robert Bryce, together with Mrs. Bryce and their two children, Ann and Donald, look on as Homer Peters, at right, describes the workings of a paper thickness tester.

New Booklet Gives Glimpse Of Park and Its Products

A new illustrated booklet, "Kodak Park, Its Products and People," made its first appearance last week.

The manual was prepared by the Company's Public Relations Dept. It contains both text and pictures and covers the plant's major film and chemical producing techniques as well as its research and recreation facilities.

3 KP Folks Die Suddenly

Three KP members died suddenly last week. They were Gordon Weit, Power Dept.; Arthur J. Spacher, Machine Shop, and Steve B. Zborowski, Plant Protection.

Weit, a member of the Power Dept. since 1935, passed away June 6. A sister, Gertrude Townsend, is in Film Emulsion Melting.

Spacher had been associated with the Machine Shop since 1940. He died suddenly June 8.

Zborowski died June 1. Starting

Although prepared specifically for visitors to KP, copies of the booklet will be in the mail for all plant people, a spokesman for the Public Relations Dept. announced.

Scouts Attend Outing

Fourteen Scouts of the Park's Troop 50 attended the Keystone District Potlatch at Camp Cutler June 3-4-5.

at DPI in 1943, he transferred to KP in 1948 and since had been a member of Plant Protection.

Five-Period Total Hits \$45,000 As 616 More KP Suggestions Click

KP suggesters rang the bell to the tune of \$7392.50 during the fifth period, the KP Suggestion Office announces.

Of the 1613 ideas submitted, 616 were adopted, with 56 women sharing in the distribution of checks. Augmented by \$7368 in additional awards, the total paid out during the first five periods approximates \$45,000.

A member of Bldg. 48 General is the period's leading suggester. He is John P. Vaeth, who receives a check for \$900. As a result of his suggestion, the velvet which is placed on the 35mm. film magazines has been reduced in size with no loss in its effectiveness. This has effected a saving in material costs.

Nau Receives \$300

George J. Nau, Baryta, was a \$300 winner. The acceptance of his suggestion has made it possible to reschedule some of the handling work in the Baryta Dept.

Another high winner was Frank Maslyn of Kodacolor Roll Film Processing, recipient of \$200. Maslyn noted that on some occasions the last print of a customer's roll of vest-pocket film was damaged in the processing operations. The conditions causing this situation have now been corrected through the application of modifications which he advanced.

Suggests Cleaning Device

A device for cleaning walls, which may be used in certain KP departments, was recommended by Charles L. Snyder, Yard, who collected \$180. A piece of this equipment was purchased for use in the Cine Processing Dept. and has been found successful in cleaning walls more efficiently than by the method formerly used.

Among the leading suggesters for the period was Evelyn Mitchell

John Vaeth, left, who received \$900 suggestion award, shows Stephen M. Tucker, assistant superintendent of Sundries Mfg., how velvet is placed on 35mm. film magazines.

of the Roll Film Pan. Spool. Dept., who receives an award of \$140. A different method of inspecting retina film has evolved from her idea which enables the operator to sort out possible defects without damage to other rolls of film in the tray being inspected.

An out-of-town Kodaker, John Augustine of the Washington Processing Station, was awarded \$100 for an idea which resulted in the design of a rather unique device for the removal of both screws from the 16mm. magazines at the time they are being opened for removal of the film for processing.

A quantity of developer solutions is saved by the use of a sliding measuring stick which Roger

D. Steege, Chemical Mix, proposed for adoption in chemical mixing operations in the Cine Processing Dept. He received \$85.

Two Men Collaborate

Two members of the Sheet Metal Dept. collaborated on an idea which netted them a check for \$80. They are Louis LaDelfo and Roy Rush, who devised a new method of fabricating plymetal joiners produced in the department. The suggestion has brought about a saving in the cost of the product.

Anna Peri, Kodacolor Print Accounting, and Alexander Kemp Jr., Machine Shop General, were awarded \$70 and \$50, respectively, for their ideas.

Goin' Places and Doin' Things with Kodak Park People

Robert Hall, Cotton Washing Dept. general foreman, has returned to his desk after an illness of three weeks. . . . Ray Bowman, Printing, visited the air show in Buffalo on Memorial Day, where he enjoyed a jet plane exhibition and an inspection of a new Constellation. . . . George Appleton and Tommy Thompson, Garage, put on a fine show recently at the children's picnic of St. Joseph's Villa in Greece. George disported himself as a clown, while Tommy put his trick horse, Duke Thunderbolt, through its paces. . . . Betty Wolfrom, Kodapak, and her husband, Stanley, Emulsion Coating, are spending a week's vacation with Betty's parents in Lynchburg, Va. . . . Fred Dierdorf, Garage, en route by motor to the West Coast, spent Memorial Day at the Grand Canyon in Arizona. . . . Among the many Bldg. 65 folks afflicted with the wanderlust these pleasant spring weekends were Ethel Ostrom, who motored to Montreal; Ella Markle, who spent the weekend in Toronto attending her son's wedding; Elissa Zannie and Louise Cirrincione, both of whom went to New York City, and Dolores Mengel, who, together with her husband, spent several days in Syracuse. . . . John Norman, Acid Plant, celebrated his 34th service anniversary with Kodak June 3. All but three months of his 34-year span were spent in the Acid Plant. . . . Alma Lindhorst and Grace Kaufman, Bldg. 12, recently motored to Miami, Fla., stopping off in the Blue Ridge and Pocono Mountains en route. . . . Wearing engagement rings in the Film Planning & Record Office are Jean Steel, Helen Dowden and Delores Post. . . . Alice Wallace, Research Laboratories, has returned to her duties after a five-week illness. . . . Earl Crocker, Bldg. 34, accompanied by his wife and aunt, recently spent a vaca-

tion in Washington, D.C., and visited in Virginia. . . . Ed Rizzo and Wally Ewin, Printing, were among those who braved the Decoration Day chill for a weekend of fishing at the Thousand Islands. Two other members of the department, Jim Troth and Merle Puffer, visited Washington, with Merle also getting a glimpse of Williamsburg. . . . Grace Massey, Sheet Film Packing, entertained friends from Washington, D.C., at Niagara Falls

Karl Warner, left, looks on as Joseph Golan presents gift to Mae Smith.

over the holiday weekend. Also playing host to out-of-town visitors was Ed Lazeski, who welcomed friends from New York City and Warsaw, Poland. . . . Film Planning and Record folks were also active over the Memorial Day weekend. Bea Oliphant, in New York, took time out to see them run at Belmont Park, while Jean Hughes and Eleanor Slater toured historic Boston. Lillian Wohlscagel and her husband saw the sights in Vermont. . . . Harold Short, Sheet Film Packing, and Gerry Congdon, X-ray Sheet Film, Bldg. 12, attended the annual Bay View Gun Club dinner at Bay View Hotel. . . . Clayton Benson, KP

employees' activities director; Joseph Minella, KPAA executive secretary, and Lysle (Spike) Garnish, KPAA staff member, attended the annual conference of the Industrial Recreation Association in Detroit June 6-7-8.

Ruth Fischer and Dolores Stopelbein, both of the Paper Service Dept., spent the Decoration Day weekend in New York City, where they topped their restaurant circuit with visits to the famous Stork Club and Sardi's. The girls also enjoyed an open-air show in Washington Square. . . . Mary Meyers, Sheet Film Packing, Bldg. 12, and her husband, Tommy, Bldg. 29, are vacationing in Mary's home state of Alabama, with side trips scheduled to Louisiana, Mississippi and Florida. . . . Margaret Egan, Sheet Film Packing, recently entertained friends from Liverpool, England. Returning with them to New York City, Margaret welcomed her mother, who arrived from England aboard the S.S. Caronia to make her home in Rochester. . . . Lillian Beck, Inventory Control, Bldg. 12, and her husband, Homer, Bldg. 65, spent the holidays with relatives in Malone, N.Y. . . . Girls of Bldg. 30 Office, 24 strong, held their annual party at the Spring House recently. Dorothy Van Hee was chairman of the affair. . . . Marjorie Dows, ES&L, and her husband, Robert, Bldg. 59, together with Betty Dows, Bldg. 3, observed Decoration Day in the true American spirit by paying a visit to Gettysburg.

Mae Smith, Safety Cine, Bldg. 12, was presented a gift by her associates during a dinner held in her honor June 1 in the service dining room. Mae plans to retire soon after 35 years' service with the Company. . . . Cold weather failed to halt picnic plans of the Purchasing Dept. which gathered at Webster Park May 26. A picnic supper was served and a variety

of games run off in a heated pavilion. Arrangements were completed by Helen Rauber, Charles Schwader and Peter Tierney. . . . It's a new boy for the Hasenauers. Peter and the former Bernice Hogan of Paper Sensitizing, Bldg. 57. . . . Florence Korsch, Safety Cine, has left to start basic training with the WAC at Camp Lee, Va. Her sister, Lois, is in Printing, Bldg. 48. . . . Warren (Bud) Ginett and Bob Feeney, Bldg. 30, recently

journeyed to Cuba with the Naval Reserve. On the return trip from New York City, Ginett was in charge of a 50-foot patrol launch being delivered to the Coast Guard Station at Summerville. . . . Rosemary Sullivan is showing an engagement ring from Allen Martin. The wedding is set for September. Both are in Paper Fin., Bldg. 42. . . . Ellen Converse, X-ray Sheet Film, has left the Company to be married.

Idea in Action—A recent suggestion approval resulted in the acquisition of the tire demounter now being put to practical use in the KP Garage. Above, Roger Adams, who submitted the idea, demonstrates the gadget for Al Bryant, right, garage foreman. The demounter expedites removal of stubborn truck tires.

EK Lab Studies Tests Of Aerial Photo Flash

Testing — These members of the Kodak Research Laboratories at KP set up this special equipment atop Bldg. 59 to record the spectral-energy distribution of flashes from the cartridges dropped from a USAF plane making tests of night photographic equipment here. From left, John Streiffert, Fred C. Eisen, John Tupper, H. R. Condit and Dr. R. N. Wolfe. The cartridges are rated at 50 million candlepower.

(Other picture on Page 1)

Results of aerial photographic tests made last week are being studied by Air Force experts and Kodak technicians.

Thousands turned out all over the area to witness the display. A B-17 of the AF was the focal point as it droned over the city and studded the darkened skies with light flashes from new-type cartridges.

Purpose of the project was to test new night photographic equipment, according to Col. George W. Goddard, chief of the Photographic Laboratory at Wright-Patterson Air Base, Dayton, Ohio. While the AF crew was operating in the skies, Kodak technicians were making their tests atop Bldg. 59.

Raife G. Tarkington of the Kodak Research Laboratories staff explained that the EK tests were de-

signed to measure intensity of the light and the proportion of colors found in light rays from the flashes.

Some 50 cartridges were dropped from the B-17 as it wove its pattern over the city. The cartridges are rated at about 50 million candlepower each.

Also tested in the flight were automatic electrical timing devices. These are designed to open the shutters of the cameras in synchronization with firing of the flashes.

The B-17's installations included four special cameras. Three were arranged to take three pictures simultaneously, one vertically and the other two at oblique angles. The fourth took vertical shots. Kodak high-speed film was used.

After the plane had flown over other sections of the city it circled KP, where cartridges were dropped for the special tests there.

Participating in the Bldg. 59 operation were Dr. R. N. Wolfe, J. L. Tupper, John G. Streiffert, H. R. Condit and Fred C. Eisen. Howard R. Johnson, Bldg. 59 maintenance chief, assisted.

Colonel Goddard and his aides flew to Rochester on the afternoon of the tests. They were greeted at the airport by Tarkington, Mert Lewis of KO and Art Simmons of H-E.

Freshman Wins Top Photo Award

(Continued from Page 1)

board, National Press Photographers' Association; Clifford Ulp, director of art, Rochester Institute of Technology, and K. W. Williams, manager, Photographic Illustrations Div. of EK.

Besides the awards listed above, there were 85 prizes of \$10 each for special merit; 250 of \$5 each for honorable mention, and 100 others received certificates of merit.

A larger percentage of girls was represented in the 1949 competition than in other years.

Skylighted — This unusual picture was made by Ward Davidson and Darby Merrill of the Research Lab at KP in testing the power of the AF's flash cartridge last week. It was made with a 4x5 camera with an Ektar f/4.7 lens and loaded with Kodak Super Panchro Press, Sports Type Film. The lens aperture was wide open. The shutter was opened just before one of the aerial flashes and then closed. The shadow of the camera is cast across the paper. This picture is believed to be one of the first ever taken on the ground by the light of aerial flash sufficient to photograph a newspaper clearly.

Curtis to Get UR Degree On Monday

Edward Peck Curtis, Kodak vice-president, will receive an honorary degree at the University of Rochester's 99th annual commencement on Monday, June 20.

A leader in Rochester civic and industrial life and in national affairs, Curtis won high military distinction in World War II.

He entered military service as a major in 1940 on the staff of Gen. Carl A. Spaatz, then chief of the Plans Division of the Air Force staff, became a colonel in 1942 and took part in the invasion of North Africa the same year. He was chief of staff of the Northwest African Air Force and participated in the Tunisian campaign, getting the rank of brigadier general.

Military Honors

He went to Italy as chief of staff of the 12th Air Force and was transferred to England as chief of staff of the Strategic Air Forces under Spaatz, receiving the rank of major general in 1945. He holds the American Distinguished Service Cross and Distinguished Service Medal, Legion of Merit, French Legion of Honor, and the insignia of the Honorary Companion of the Military Division of the Most Honorable Order of the Bath.

He joined Kodak in 1920 as a member of the Comptroller's Office, later going to the executive Sales Dept. In 1921 he went to the Motion Picture Film Dept. From 1922 to 1924 he was in the Company's Research Laboratories,

Edward P. Curtis

afterwards rejoining the Motion Picture Film Dept., of which he became sales manager in 1929.

After returning from military duty in 1945, he was elected a Company vice-president and became supervisor of sales of Kodak's professional motion picture film throughout the world.

Curtis is a member of the Committee on the Organization of the Executive Branch of the Government under the Hoover Commission, and has served as a member of the Secretary of War Advisory Board of Non-Appropriated Funds, the War Department's General Staff Committee on Reserve Policy, and of the Air Board for formulating policy for the Air Forces.

He is chairman of the Rochester Chapter of the American Red Cross, and served as campaign chairman of the Red Cross Fund drives in 1947 and 1948. He is a member of the boards of the Chamber of Commerce and the Community Chest.

He is trustee-at-large of the National Society for Crippled Children and Adults, a director of the Army Air Forces Association, a member of the Memorial Post of the American Legion and of the Wings Club. He is a member of the PSA, American Society of Cinematographers and the Society of Motion Picture Engineers.

Curtis was graduated from Williams College, which awarded him an honorary degree in 1942. Hobart College presented him a doctor of laws degree in 1947.

This Way? — Perley S. Wilcox, right, Kodak's Chairman of the Board, tried his hand at coloring a Flexichrome print recently when he visited the Flexichrome Studio at KO. His teacher is Jack Crawford, head of the studio.

Hawk-Eye Ships First Lot of New Recordak Units

(Continued from Page 1)

3x5-inch reference card to papers up to a width of 9½ inches can be recorded with the 35-1 unit. The 28-1 unit, because of the larger film image, will take documents up to 7½ inches wide. Material up to 14 inches in width can be photographed with the 24-1 unit.

Widespread application is seen for this latest Recordak to issue from the Hawk-Eye plant, not only in banks but in department stores, government agencies and industrial plants as well. Economy of operation is a big attraction.

The 35-1 unit, aimed primarily at banks, will record over 20,000 check-size images on a 100-foot roll of 16mm. film. This capacity is three times as great as the previous existing model. It is expected that the 28-1 and 24-1 units will find a large market in department stores for making permanent records of monthly statements, sales checks, credit slips and other documents. The 19-1 film unit is designed for applications where larger film images are desired.

Flexichrome Makes Big Hit

Interest was high... there was a lot of enthusiasm.

That was the report brought back from New York, where the Company last week introduced its newest process—Flexichrome.

The exhibit and demonstration of the process drew large numbers of potential users from advertising agencies, art agencies, commercial and catalogue houses, portrait studios, etc.

Three colorists turned out Flexichrome prints, a movie explained the process and the exhibit showed examples of the work and the materials required.

As announced last week in KODAKERY, the Kodak Flexichrome Process is a new method of making full-color pictures from black-and-white negatives or from color transparencies. The technique employs a special photographic print on which dyes are applied with brushes.

Chosen for Panel

Nathaniel Hubbell, assistant director of training for Kodak, will participate in a four-man discussion panel at Cornell University. It will be part of the third annual conference of plant training directors July 7 and 8.

Theme of the conference is "Essential Conditions to Effective Training." The panel session in which Hubbell will take part has "Evaluating Effects of Management Training" for its topic.

The conference is sponsored by the New York State School of Industrial and Labor Relations.

Hubbell took part last weekend in the management conference of the National Metal Trades at Lake George. "Trend in Management Training" was the topic there.

On The Farm

The winners! Here they are . . . cream of the snapshots entered in the Fourth Annual National High School Photographic Awards. The contest was conducted by Kodak.

Out of thousands of entries, these were the first and second places in the four classes.

Grand prize winner was Richard Crummy of Summit, N.J. His picture, "On The Farm," at left, also captured first place in the Pictorial Beauty class. Above, are the other pictures that held top position in their classes. . . . Athletics, School Life and Around Town, left to right.

The picture at right and the ones below came in second in their respective classes. The picture titled "Pensive" was clicked by the only girl winning first or second, Lois Mack, Chicago.

A total of \$3500 was awarded in this . . . the biggest of student picture-taking contests.

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD—NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

KP Dusties, Kaypees Set Pace in Major Softball

Weis Scores Low Gross 76 In KP Tourney

Clubbing his way around the LeRoy layout in 76, Frank Weis topped a field of more than 240 in the first KPAA golf tournament of the season last Saturday.

Jack Kennedy came up with low net in Class A, turned in an 82-15-67 card. In Class B George Griffith shot an 81, which with a 16 handicap gave him a net 65. Roy Ireland topped Class C swingers, posting 98-33-65.

Low net winners, handicaps included, follow:

Class A—Kennedy, 67; Pat Harrington 69; Charles Hopkins 70; Walt Weiland 70; Eugene Hutter 70; Oscar Judd 71; Louis Gerhardt 72; Gabriel Fyfe 72; G. D. McMann 72.

Class B—Griffith 65; Mike Golisano 67; William J. Wilkins 67; E. A. Dalaker 68; J. F. Reinhard 68; Ed Goodrich 69; A. O. Wheeler 69; Jim Curtin 70; William Shaw 70; B. W. Eddy 70; F. K. Bohan 71; J. L. Delabarto 71; Frank Pearce 71; George Bettin 71; R. R. Ross, Anthony Demassimo, Gordon Wagner, Harry Jackson Jr. and D. M. Stephens, 72.

Class C—Ireland 65; Ken Putnam 67; Fred Ritz 67; Roy Bloom 68; Harold Lindsay 69; Louis Polozzi 69; R. L. Punnett 70; Don Wolz 70; Stan Fullwiller 71; Harry Irwin 71; Dick Nichols 71; Doug Reese 72; Henry Markle 72, and Don Cook 72.

PATCHEN, MOORE WIN

Collaborating for a nine-hole 38 score, Lois Patchen and Bob Moore won the KOC's Mixed Scotch Twosome last Friday at Lake Shore.

First prize for low net was shared by three twosomes. Jim Forgense and Connie Shaw turned in the best card—46-13-33. The Ray Walsh-Anne Connaughton and Don Sullivan-Mildred Meisch combines also had 33 nets, but used bigger handicaps.

Sharpshooters — Sharpshooters all are these members of the KP Musketeers, Class A champs in the Rochester Rifle Range competition during the season just closed. From the left, seated: Carl Withey, captain; Robert Olin; rear row: Jerry Sullivan, Joe Bartosch, Lou VanEpps and Stan Morrow. The sextet also took top honors in the Fabricators' League.

Estimators Hand Memos Loss, Take H-E Softball Loop Lead

Lou Kenyon's Estimators moved out in front in the Hawk-Eye Intraplant Softball League by knocking off the pace-setting Memos by a 6-3 count. Cap Carroll, on the hill for the winners, gave up three runs in the first inning and then blanked the Memos the rest of the way.

Bill Hutchings' line-drive single that rolled for a home run was the big blow for the losers. Walt Drojarski showed the way at the plate for the Estimators with a home run, counting one man ahead of him.

The Memos bounced back two nights later to record a 14-5 win over the Engineering softballers. Memos 3 0 0 0 0 0—3 6 2 Estimating 2 0 2 1 0 x—6 6 3 Gruner and Sobier; Carroll and DeHond.

Dept. 61 3 0 1 0 1 3 1—9 8 4 Recordak 6 2 0 0 6 9 x—23 13 3 Hess and Lewis; Rockefeller and Romanko.

Memos 4 0 3 2 0 5 0—14 14 1 Engineering 3 0 0 0 0 2 0—5 8 3 Gruner and Sobier; Metildi, Mance (6) and Ross.

KP, CW Top Tennis Race

A close race for top berths loomed in the Rochester Industrial Tennis League following last week's activity, with Camera Works pressing Kodak Park's title defenders.

Ted Mosher's Cameramen pulled another upset last week by trouncing Kodak Office, 3-0, putting them in a tie for runner-up spot with the Balcos who shaded Hawk-Eye, 2-1.

The Kaypees appear well on the way to another successful season, having defeated Kodak Office, 3-0. John Schilling and Ike Shynook, KP pair, bested Jim Archibald and George Eaton in a hard match, 6-1, 7-5. The winners overcame a 5-1 deficit in the second set to take the verdict.

Also registering triumphs for the Kaypee cause were the tandems of Jack Englert-Cliff Schmidt and Joe Rorick-Jim Van Allan. Englert and Schmidt stopped Gene Johnson and Jim Barnes, 6-1, 6-2, and Rorick and Van Allan hurdled Al Clair and John Yager, 6-0, 6-2.

In the CW-KO match Dave Flint and Ben Morgan turned back Eaton and Archibald, 3-6, 6-3 and 8-6. Also notching wins for CW were Ted Mosher and Ed Kindig, who stopped the Johnson-Barnes combine, 6-4 and 6-3, and Don Albert and John Metcalf, conquerors of Clair and Yager. The latter match went straight sets, 8-6 and 6-2.

Standings as of June 9:

	W	L	Pts.
Kodak Park	6	0	12
Camera Wks	5	1	10
Balcos	5	4	10
Wollensak	3	3	6

Robinson Cards 174 in U.S. Open

Gene Robinson, CW golfer, who qualified the previous week with a sparkling 148, fell by the wayside in U.S. Open play at Chicago.

Carding 174 for 36 holes, Gene failed to qualify for the final two rounds. His second round last Friday was 85.

In first-round play Thursday Robinson was in constant trouble and came up with an 18-hole 89. He turned in a 47-42 card.

GAMES NEXT WEEK

Monday, June 20—1, Ritter vs. Balco. 2, Delco vs. Hawk-Eye.

Tuesday, June 21—1, KP Dusties vs. American Laundry. 2, Bond vs. Camera Works.

Thursday, June 23—1, Rochester Products vs. Kodak Office. 2, Gleason vs. Kodak Park.

(Games played at KP Lake Ave. ball park. First games, 8:15 p.m.)

Office Tamps Delco 16 to 1 For 1st Win

Mike Farrell's KP Dusties and Leo Gallagher's Kaypees kept their records bereft of defeat, and the hitherto hapless Kodak Office nine crashed the win column. Add CW and H-E losses to this report and you have last week's happenings on the softball front in a nutshell.

The KP Dusties came through in both Major and Champion leagues. After thumping Products, 9-0, the Farrellmen turned back DPI, 5-3, in the Champion Industrial for their fourth straight in that circuit. Red Warner and Sid Dilworth hit home runs to help Joe Witzigman, who hurled a seven-hit-

Red Warner

beat Distillation. Bud Oister tossed a sparkling two-hit game against Ritter as the Kaypees won, 4-0. Most of the winners' seven blows came in a big four-run second inning that settled the issue.

In the first half of the June 9 doubleheader Ken Mason's KO crew snapped a three-game losing streak with a vengeance. Scoring in every inning except the third and fifth, the Office outfit pummeled Delco, 16-1.

Auspicious Debut

In his first start, Paul Mastrella authored a three-hit mound job. His batterymate, Norm Hyldahl, led the assault, collecting four hits in as many plate appearances. George Schaller had three for five, and Fran Biggs three for four. Bob Sullivan batted out two hits, including a triple, and Chuck Arnone contributed a timely double. In addition to starring afield, along with Shortstop Bob Wallace, John Gorecki clouted a long triple.

Stromberg-Carlson eked out a 4-3 win over Hawk-Eye. Gerry Santangelo, Corky Schwind and Jimmie Hanselman wielded the big sticks for the Hawks.

Camera Works scored two runs in the seventh to go ahead of Graflex, only to lose out 8-7. Graflex routed Ed Mayer with a four-run third-inning uprising, but Howie Chandler, his successor, was charged with the loss. Each team garnered six hits, with a half-dozen CW errors contributing heavily to the loss.

George Sundt drove in two runs with a triple in the opening canto that saw Camera Works take a 3-0 lead. Red Haight collected two for three.

CW Loop Opens; Granger Clouts 2

Glen Granger's two home runs sparked Dept. 4 to a 22-1 win over Bldg. J in one of the CW Intraplant Softball League's opening games.

In other American Division lid-lifters NOD Stock Record nipped NOD Dept. 79 Production, 6-5, and NOD Engineers trounced NOD Dept. 84, 16-4. Dept. 84's Bob Perrin hit a homer, as did Axel Johnson of the winners. Chem Lab beat Development and Office, 12-11.

In the National Division John Harradine's circuit smash paced Dept. 30 to a 5-4 verdict over Stock and Inspection; Tool Room won, 4-3, from Depts. 37-38-56; Accessory Dept. walloped Press Dept. 20-8, and Depts. 20-21 turned back Maintenance, 14-9.

He's Out

Herb Schumske, Shipping center-fielder, is out on a close play at first base in a KO Intraplant Softball League game. Ernie Webb is the Rochester Branch first-sacker. The Branch nine won the game by a 14-5 score. On the same evening last week the Penpushers outscored Repair, 21-19, in the KO loop.
