July 21, 1949

'We Need Them'—That was the comment of Arthur Pfennig, left, director of the Film Center for Education in Berlin, as A. E. Schubert, assistant general superintendent of Development and Engineering at CW and responsible for Recordak Engineering at H-E, demonstrated this Recordak machine. Pfennig was here with a group of German educators touring the U.S.

Microfilming Used in Germany To Restock Damaged Libraries

Microfilm is doing a big job in educating Germans. Arthur Pfennig, director of the Film Center for Education in Berlin, brought that information on a visit to Kodak. He is touring the U.S. with other German educators. They're here with the blessing of the American Military Government in the Western Zone.

Destruction of libraries in Germany during the war left the country with a great dearth of books. And the lack of materials for copying of available books has delayed the rehabilitation of the libraries.

Film Lack Hurts

Microfilm is being used in an attempt to fill the breach. But there's a major difficulty here, too. It's the lack of sufficient microfilm to do the job, says Pfennig.

Unsettled conditions in Germany

due to the delay in agreement on a peace treaty are blocking the importation of film, he said. Meanwhile Pfennig's group is using every piece of film it can obtain. Much of it is being reclaimed from old stocks. Master copies are being made on 35mm. film and then duplicated with 16mm.

Pfennig's group, called the Landesbildstelle, was formed in 1921 by a small circle of teachers interested in audio-visual education. Now it is financed by the present German government, which recognizes the organization as a vital factor in educating the nation's youth and adults.

Death Takes Harry D. Haight

Harry D. Haight, 83, who for 20 years was manager of Kodak's Industrial Relations Dept., died Friday at Fort Lauderdale, Fla.

His Kodak career covered a span of 43 years and a wide variety of positions and responsibilities. He

Harry Haight
colorful career ends.

joined the Company in 1902 and was named manager of the Robey-French Company, now Eastman Kodak Stores, Boston. Later he became a member of the Legal Dept. at Kodak Office, toured South America seeking possible branch locations, and during World War I handled the sale of cellulose acetate to the government as Kodak's Washington representative.

He was named head of the Industrial Relations Dept. in 1920, continuing as such until 1940. He was counsel to that department until he retired in 1945.

Haight possessed a keen understanding of human nature and deep sense of fairness which made him outstanding in his field. His interest in the welfare of Kodak people as Industrial Relations head still is in evidence in various Company plans. Monuments to his activity along these lines are the Eastman Savings & Loan Association which he organized and the Kodak residential tracts of Meadowbrook, Koda Vista and Bone-steel which he developed. He was active in the ES&L for many years

(Continued on Page 4)

4 New Photographic Products Announced to Trade by Kodak

Several new products are being announced this month by Kodak. Included are a new line of color compensating filters, new-type safelight filters, a special back for the Kodak Master View Camera, a new Kodalith Blue-Sensitive Film and a new Kodak Commercial Thin-Base Film.

The last two are for the graphic arts field. The thin-base film is especially intended for use in gravure printing and layout work for making continuous tone negatives or positives. The base of the film is only .0035-inch thick.

Made for Specific Use

The Blue-Sensitive film, which has no antihalation backing, is made specifically for users who literally want to reverse an image by exposure through the back of the film.

The special back—3¼ by 4¼—is interchangeable with the standard 4x5 back of the Master View Camera. It is produced in answer to requests for an adapter back that would permit the use of the smaller size film and permit the making of 3¼x4 lantern slide plates with this camera. It is priced at \$28.

The new color filters have practically self-explanatory designations. The Company thus has taken steps to dispel confusion about selection of the correct filter.

New Terms Clearer

Previously the terminology of the color compensating filters has been a language with symbols of its own.

Here's an example of how the new designations work. Take the Kodak Filter "CC-05M." The "CC" means it is a color compensating filter. Its density is .05. And the "M" means it is magenta in color. Hence it absorbs green.

The new series includes yellow filters (to absorb blue); magenta

filters (to absorb green); cyan (to absorb red); red (to absorb blue and green); green (to absorb blue and red); and blue (to absorb red and green).

The filters are spaced uniformly in density, instead of geometrically. Now the difference between successive filters in any given series is .10, except between the first two in each series. Here the difference is .05. These changes are made possible by Kodak's development of better dyes for filter making purposes which can be kept to closer tolerances.

Give Better Control

As a result of the new uniform progression between filters, photographers now can control much more precisely the color of light entering the camera. This also controls color of the finished picture. The new series also permits one filter to be used in most instances where two or three were required.

The new filters replace to some degree the CC filters offered by Kodak. A chart comparing the old and new filters is included in a revision of the booklet, "Compensating Filters for Kodak Color Films." A table of applications also is provided.

Prices About Same

Free copies of the booklet are available. They are provided by the Sales Service Division of Kodak. Prices of the new filters approximate those of the old CC filters.

The new and improved type of safelight filter offers a number of advantages to photographers, graphic arts workers, and others

requiring special darkroom lighting for the safe handling of sensitized products.

The new filters differ from previous Wratten Safelights in that they are made with a single sheet of glass on which is coated the Wratten filter gelatin, instead of two sheets of glass with a gelatin filter between as heretofore available.

The special gelatin-coated glass, plus a diffusing material, is encased in a Tenite coating for protection against scratches and rough handling.

Light Quality Improved

By manufacturing Kodak Safelight Filters in the new manner, light transmitted through the safelight is of an improved quality since the light is distributed more evenly than heretofore. The new filters are also stronger than previous models. In most cases, they will remain intact and not leak unsafe light even if the glass is cracked, because the gelatine coating normally remains unbroken.

The new safelight filters will not be damaged by water or processing solutions splashing on them accidentally. They are also highly resistant to moisture vapor. These factors add considerably to the life expectancy and serviceability of the filters.

Parking Lot Shift Announced by KO

The visitors' parking lot has been moved from the big lot at the corner of State and Factory Streets to Factory and Mill Sts. This latter space will be reserved exclusively for visitors.

Outsiders coming to Kodak and those from Hawk-Eye and Kodak Park are asked to obtain tickets from the attendant in the lot, have them stamped at either of the KO reception desks, and upon leaving return them to the station operator.

This free parking privilege does not apply to any outsider, KP or H-E person if he is working regularly, even on a temporary basis, at KO.

The entire area at State and Factory Sts. now is being rented on a weekly or monthly basis to KO members.

Reception Honors Dr. Staud On 25th Kodak Anniversary

Several hundred people attended the tea and reception held in the Service Dining Room, Bldg. 28, Kodak Park, on July 10, in honor of Dr. Cyril J. Staud's 25th anniversary with Kodak.

Dr. W. O. Kenyon, head of the High Polymer Dept. of the Research Laboratory, acted as master of ceremonies at the affair. He introduced Ivar N. Hultman, Company vice-president, who presented Dr. Staud with his service pin and medal.

Dr. Jones Speaks

Dr. L. A. Jones, head of the Physics Dept. of the Research Laboratory, spoke briefly on the work done by Dr. Staud since he first came to Kodak Park in 1924, and then presented him with gifts from Research Laboratory staff members. In addition, Dr. Staud was given a leather-bound souvenir book containing a congratulatory address, a portrait, a caricature, and a register of guests, as well as many snapshots taken on the occasion.

Started as Chemist

Dr. Staud, who is now director of the Research Laboratory, began his career with Kodak on July 7, 1924, as a chemist in the Organic Research Dept. of the Research Laboratory under the direction of H. L. B. Gray. He was appointed head of the newly established

Emulsion Research Laboratory on Aug. 7, 1931, and director of the Research Lab on Aug. 25, 1947.

Congratulations—Here's the receiving line at the tea given in honor of Dr. Cyril J. Staud in honor of his 25th anniversary with Kodak. From left, S. W. Davidson, Mrs. Davidson, Dr. Staud and Mrs. Staud, R. P. Loveland, also of the Research Laboratory, Bldg. 59, is in the foreground.

Mediphotog

MRS. LAWRENCE HAFSTAD
... she blows 'em up.

Photomicrography is a pretty big word, but that's what Mrs. Lawrence R. Hafstad does at Georgetown University Hospital for the Georgetown University School of Medicine. A photomicrograph is a greatly enlarged picture, and in hospitals generally is of bacteria, blood, organisms, etc. From these, doctors get a lot of information they couldn't get otherwise, and besides it gives them a permanent record of conditions that might change.

Above, Mrs. Hafstad is about to insert a slide in a microscope to make a photomicrograph. She was engaged in special photography for the Federal Bureau of Investigation for five years before joining the hospital as medical photographer. She also does photographic work for several other hospitals in her laboratory.

Mrs. Hafstad, incidentally, says she uses Kodak products "almost exclusively" in connection with her hospital work.

1st Castaway: "Good heavens, cannibals!"

2nd Castaway: "Now, now, don't get in a stew."

Photo Patter

Don't Overlook Little Things When You're Picture Taking

Most folks take pictures when a big event takes place. Don't overlook the little things that occur daily if you're looking for good picture material. Begin at happening is good for a snapshot. How about mother hanging out the wash, or working in the kitchen? Picture baby getting a bath; Junior building a model airplane. Dad working in the garden would make a good shot, too.

Main thing is to make your snap tell a simple, appealing story. Stop looking for world-shaking events. Concentrate on the little things for a while.

The illustration today is a good example. It tells a nice little story—ordinary, though, isn't it?

This shot was made with a single synchronized flash on an ex-

Turkish Manager 'Sold' On Beauty of Homeland

In Turkey Armenag Shaheniantz is interested mainly in sales of Kodak products. He's manager of Kodak (Near East) Inc. at Istanbul. Now on his way home after a six-week stay, Shaheniantz will sell anyone interested on the beauties of Turkey. That's just a sideline, though. This was his first visit here and he studied firsthand newest processes and products of Kodak.

It's 'Great Place'

Shaheniantz thinks Turkey is the greatest place in the world. In his opinion it should be included in the itinerary of every traveler going abroad.

The fabulous mosques, their resplendent central domes rising above all other buildings in their vicinity, are among the main beauties of the country. Their architecture dates to the Byzantine era.

Climate Like Rochester's

"Most people do not realize that Turkey has a climate much like this section of the United States," the Kodak visitor pointed out. But Turkey has the added advantage of its geographic position on the Black and Mediterranean Seas. The warm currents of the seas temper the climate.

Homes in Turkey are quite modern. Reforms instituted by President Kemal Ataturk, the national hero, who died in 1938, are being carried on by President Ismet Inonu. The Kodak manager believes President Inonu is one of the world's leading administrators. His achievement in keeping Turkey neutral in World War II was cited as one of his major accomplishments.

People of Turkey are quick to accept innovations, the visitor said. And they prefer better things. A Turk purchasing a camera invariably will select the finer one with the faster lens.

Shaheniantz explained that the extent of importations of photographic goods depends upon the dollars available. He sees brighter prospects for increasing imports in

the future.

The Republic of Turkey is becoming stronger with development of its natural resources. Marshall Plan aid is helping to make this possible. Chromium, copper, oil and coal mines are being developed. And agricultural interests, including its famous tobacco crops, cotton and fruits, are being expanded.

People in Turkey are most grateful for the assistance from the U.S., said Shaheniantz. And they hope to continue close ties between the two countries.

Shaheniantz joined Kodak 24 years ago as a salesman in Cairo. He represented the Company also in Syria and Palestine before going to Turkey.

Flint Announces KP Appointments

The following appointments have been announced by Charles K. Flint, KP general manager:

Donald B. Kimball, general superintendent, Paper Depts.; John P. Helphrey, assistant general superintendent, Paper Depts.; Francis B. Thorne, assistant superintendent, Chemical Plant; John L. Patterson, assistant superintendent, Chemical Plant, and Joseph F. Burns, purchasing agent. They are effective now.

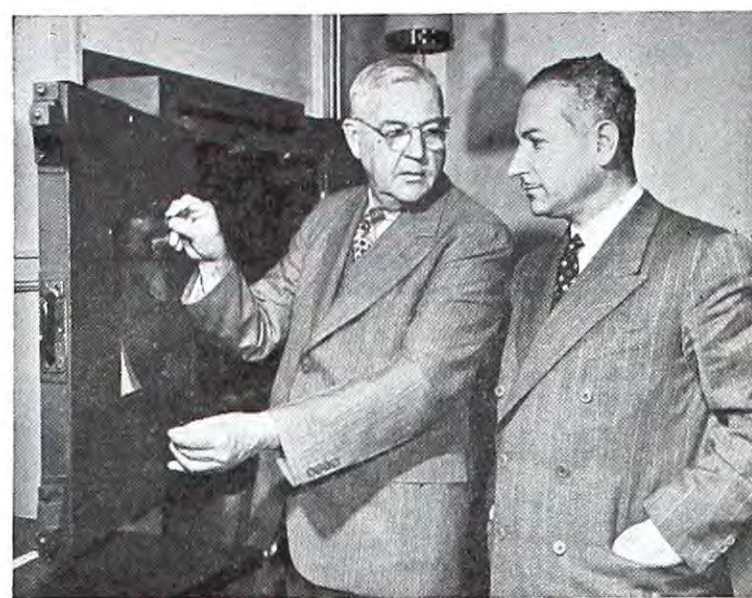

Film Truck—This is the new mobile camera unit of Informational Films Division at KO. It's a panel truck that also serves another purpose—the transportation of bulky equipment. It fills a long-felt need for a means of moving the paraphernalia necessary for motion picture production—lights, cameras, flats for sets, furniture and other props. The platform specially built on top of the truck makes it possible to mount a camera for outdoor shooting. That's Ray Cooper, Informational Films cameraman at the camera on top. His assistants are Bob Weaver and Rudy Almagault.

Arts Talk—One of the stops Armenag Shaheniantz made while in Rochester studying new Kodak processes and products was the Graphic Arts Studio at KO. Here Vic Hurst, Graphic Arts Sales Div. manager, left, discusses films with him.

Kaye's Travels

Editor Sees Destruction Of 2 Ages in Visit to Italy

(Editor's Note: This is the second in a series of stories by Kaye Lechleitner, KODAKERY KO editor, about her trip to Europe.)

It was strange to drive through the huge bombed industrial and oil refinery areas of Naples, now being rebuilt gradually, and then to go to the city of Pompeii to see the destruction done by the eruption of Vesuvius in 79 A.D.

Sufficient columns and walls have been dug out intact from the

volcanic ash to see the layout of the ancient city, the temple of Apollo, the forum of Jupiter. In the museum there, one sees kitchen utensils, coins, dice and statues which had been preserved under the ash.

That same day we drove from Amalfi to Sorrento. The Mediterranean and sky were both blue blue, and the winding road runs along the high cliffs of the coast, with orange and lemon groves terraced steeply up and down from the road.

In Sorrento, we shopped for linens and inlaid woods. Italy, we found, was the place to buy souvenirs. Here, the leather goods in Florence, the Venetian glass, and the silk scarves and ties in Milan and Como were all lovely.

An audience with the Pope was one of the most thrilling experiences of our trip. We were in a group of 200 Americans arranged in two semicircles in the Red Room of the Vatican in Rome. The Holy Father, dressed all in white, circled the room, shaking hands with each person, allowing his ring to be kissed. He asked each if he were a tourist, a student, where he was from in the States, and gave medals to everyone. He made it quite informal, showing much sincere interest in every person.

Sightseeing in Rome proved rugged, for there were so many things we wanted to see: Rome of antiquity with its Colosseum and Appian Way; religious Rome, the gorgeous churches with their mosaic pictures and statuary, climaxed by St. Peter's, the Vatican Museum; modern Rome, the shopping district near the Spanish Stairs, the tremendous sports arena built by Mussolini.

AMALFI'S CATHEDRAL
... No, Kaye didn't climb the 62 stairs.

1st Clip—

Snapshots of simple events like this become outstanding pictures if they're sharp and well composed. This was made with a flash.

Goin' Places and Doin' Things...

Associates of **Floyd Hovey**, Cine Processing, tendered him a luncheon June 23 honoring his 25th service anniversary with the Company. Mrs. Hovey was on hand to see him receive his 25-year pin from **Ronald Scott**, department superintendent, and a beautifully inscribed book from **Al Meili** on behalf of the group. Telegrams and

Supt. **Ronald Scott** congratulates **Floyd Hovey**. **Harold Haritt**, ass't. supt., is at left, and Mrs. Hovey at right.

letters from Floyd's many friends in Kodak's Processing Stations throughout the country were read. Another dinner, held in his honor June 24 at Point Pleasant Hotel, was attended by many department members. . . . **Mike Tomzack**, Bldg. 34, and his wife, recently spent a vacation in Florida and toured the Southern States. . . . **Clara Younglove** is back in the ES&L Office, Bldg. 26. . . . The Synthetic Organic Research Laboratory was well represented at the Organic Symposium held in Madison, Wis., June 20-22. **Bruce Graham** stopped off on his way to Oregon and Washington to visit relatives; **Fred Spangler** interrupted a return jaunt from the Rockies, and **Jack Thistle** took his family along to visit relatives in Iowa. **Verne Wilson** motored out, **Ilmari Salminen** went by plane to Chicago, and **Dr. C. F. H. Allen** took the train, stopping off in Cleveland to visit his daughter. **Dr. Arnold Weissberger** traveled by boat to Detroit and was laid low by the heat, spending two days in a Lansing, Mich., hospital, before proceeding to Madison.

The Industrial Relations Department held its annual picnic June 23 at Lake Shore Country Club. Among the "casualties" were **Lysle (Spike) Garnish**, who walked into the path of a raw egg in the egg-throwing contest; **J. Henry Parker**, who stiffened a left arm in the crab race, and **P. C. Wolz**, who was hit by a pitched ball during the ball game. . . . **Glenna Graham** and **Audrey Kauffman**, Bldg. 30, have returned from a sojourn in New York City where they enjoyed several movies and plays. . . . **Reta Butler**, Gelatine Plant, has left the Company to take up domestic duties. A luncheon in the service dining room was given her by friends, and a gift was presented by **Marguerite Timmons**, **Ann Kraemer** and **Beatrice Dewaele**. . . . **Steve Maley**, Testing, made great strides toward completing his cabin-raising bee. Busy with hammer and nails were **Bill Slayton**, **Bob Waite**, **Bill Ramsey**, **Neil Coombs**, **Eben Stephens**, **Jerry Reynolds**, **Bob Doyle** and **George Stewart**, all of Testing.

Harriette Archer, Dope Dept., whose prints and transparencies have captured many prizes in Kodak Camera Club competitions, has left the Park to assume housekeeping duties in Geneseo. Her husband, **Herb**, is at Kodak Office. . . . **Lloyd Robinson**, Kodapak, with his wife and daughter, is visiting his father and sister in Cleveland. . . . **Ethyl Reinhardt**, N.C.P., has fully recovered from a recent operation. . . . **Sebastian Coene**, Yard, sailed July 8 from New York City for Belgium to spend three months in his home town which he has not seen for more than 20 years. . . . **Mabel Redfern**, Bldg. 65, reports a marvelous vacation in Buffalo and nearby Crystal Beach.

George Gridley, Acid Plant, to-

gether with Mrs. Gridley and son **Jack**, recently spent a week's vacation motoring to New York City, where they enjoyed a three-day sight-seeing tour. Returning via the Adirondacks and Saranac Lake, they stopped at the Deerwood Music Center, where their other son, **Roger**, is playing with a student orchestra and choir for the summer. . . . **George Brackley**, who retired from Kodak Park in 1942, recently paid a surprise

visit to the Gelatine Plant while here from his home in Largo, Fla. . . . **John Johnson**, Dope Dept., and his wife, **Mary**, will sail for England July 28 aboard the S.S. Washington. They plan to visit relatives and friends they have not seen in 26 years. . . . **Leo Debrovski**, Bldg. 30, acted as chief pharmacist's mate on the recent Naval Reserve cruise to Cuba. . . . **Adolph Buescher**, Power, has been given a year's leave of absence from the Company and will leave this fall for Palo Alto, Calif., where he will work for his master's degree in engineering at Stanford University. . . . **Ben Schove**, Roll Film, is vacationing at Buck Lake in Canada. . . . **Jessie Harrington**, Bldg. 65, spent several days in her home town of Perry. . . . Back from a motor trip to Glacier National Park, the Canadian Rockies, Seattle and Victoria are **Marion Schairer**, Paper Service; **Loretta Harrigan** and **Frances Erath**, Bldg. 12, and **Elsie Courtwright**, Bldg. 26. . . . **Maurice Moss** has returned to the Accounting Dept. after spending a year at Eastman Gelatine Corp. in Peabody, Mass. . . . **Wilma**

Danny Fowler, **Dave Jardine**, toastmaster, and **George Patterson**, l. to r., pictured above at Fowler's 40th EK anniversary party.

Oette, Dope Dept., and her husband, **Edwin**, Bldg. 57, escaped the recent heat wave by frequenting the cool lake country of Michigan. . . . New faces in the Cine Processing Dept. include **John Braun**, **Merwin Wall** and **Robert Smith**, all of the University of Rochester; **Don Schoessler**, South Dakota School of Mines and Technology, and **George Stark**, Union College and Syracuse University. . . . **Jeanne Brown**, Bldg. 30, and **Ruth Downs**, Kodak Office, are back from an extended tour to Lake Tahoe, Yellowstone, Yosemite and points west. Among their interesting experiences was a short "jail term" in a caged wagon in Reno, Nev., where they were "accused" of not wearing Western regalia.

Members of the Finished Film Supplies Dept. were pleasantly surprised June 24 by a visit from **William Eden** of Hollywood, Calif. **Bill**, a former member of the department, came East with Mrs. Eden to attend the graduation of their son, **Kenneth**, from Purdue University.

Harry Wagner and **Carl Thayer** have joined the Kodak Park Public Relations guide service staff.

. . . **Peg Hill** and **Gladys Maier**, Paper Sensitizing, recently spent a week end at the Sun Canyon Dude Ranch. . . . **Ray Bopp** has returned to Bldg. 30 after a vacation in Boston. . . . **Wesley Thompson**, Dope Dept., the "Daddy" of the Brockport Drum and Bugle Corps, realized his ambition last month when his outfit placed second in the area competition held in Red Wing Stadium. . . . **Betty Hislop**, Bldg. 65, recently spent a week's vacation in New Hampshire. **Mary Donahue**, also of Bldg. 65, visited her sister near Cleveland.

Frank Saile was presented with a gift by his associates on the occasion of his retirement from the Film Emulsion Coating Dept. July 1. . . . **Mary Herlihy**, KODAKERY correspondent in the Industrial Laboratory, is spending a leave of absence at her home in Salem, Mass. . . . New Mexico has nothing on New York when it comes to heat, says **Dave Thorne**, Dope Dept., who recently returned with his family from a trip to the Southwest. . . . **Mary Ann McGrath**, ES&L, is back at her desk after recovering from injuries suffered in an automobile accident. . . . **Al Williams**, Testing, and his wife, **Betty**, Paper Service, have returned from an extensive trip to the West Coast. After renewing old acquaintances at Tennessee Eastman, they headed for California and Washington, visiting Grand Canyon, Yosemite National Park, Glacier National Park and Yellowstone. They were accompanied as far as New Mexico by **Charlie Moreland**, Testing, and his wife, **Harriett**, of Camera Works.

Augie Paglinco has returned to N.C.P. after a six-week absence following an operation. . . . **Daniel (Danny) Fowler**, Kodapak, who recently completed his 40th year at the Park, was the honored guest June 15 at a party held at the Forest House. **Danny** received a useful gift from his department friends. **David Jardine** was toastmaster, with **Leo O'Halloran** song leader, accompanied by **Janet Hamann**, Bldg. 46, at the piano. On the party committee were **Betty Wolfrom**, **Charles Servis**, **Jardine**, **William Gavitt**, **Paul Coon** and **Tom Davis**, Bldg. 29.

P. C. Wolz, assistant superintendent of KP Industrial Relations, and **Warren Stephens**, of the same department, recently enjoyed a week-end of fishing at

Sacketts Harbor where they caught their limit of small-mouth bass. . . . Recent vacationers at Beaver Lake included **Leonard Ford**, Fire Dept.; **Iva Ford**, Kodapak; **Alice Elphick**, Bldg. 12; **Floyd Masden**, Bldg. 30, and **William Elphick**, Bldg. 30, and Mrs. Elphick. . . . **John Harrigan** and **Richard Callon**, Bldg. 29, and **Everett Wadman**, Wage Standards, Bldg. 2, are taking a group of 11 Boy Scouts on a 90-mile canoe trip through the Central Adirondacks. Starting from Old Forge July 10, the party hopes to make progress at the rate of 12 miles daily, enjoying swimming, fishing and mountain-climbing on the way.

Nelson Sweetheimer, Dope Dept., is enjoying the fishing at Sodus where he recently bought a cottage. . . . **Charles Ernstberger**, Power, is taking his family to California for a visit with relatives. . . . **Charles Schautz**, Bldg. 30, recently won a television receiver in a contest at the Meadowbrook Association picnic. . . . **John R. Byers**, Synthetic Organic Research Lab, and Mrs. Byers, attended the International Kiwanis Convention in Atlantic City June 20-22. **John** is president of the Northwest Rochester Section.

Last-Minute Advice — New KODAKERY correspondents in Portrait Sheet Film, Bldg. 12, KP, get tips from **Marion Matthews**, right, KP KODAKERY staff. **Marion** left last weekend on trailer trip to West. The trio, from left: **Violet Taylor**, **Helen LaBore** and **Mildred Pembroke**.

Bill to Rescue In Boat Blaze

Modesty becomes a real hero, especially **Bill Woodbury** of the KP Research Laboratory.

Woodbury

Bill, a member of Rochester's Coast Guard Auxiliary flotilla, was recently the central figure in a river rescue which was reported belatedly by a local newspaper. Going about his business near the Rochester Yacht Club, Woodbury's attention was directed to a cabin cruiser in the Genesee River which was spurning flames.

As excited crowds watched from the banks, **Bill** unmoored his 26-foot steel cruiser, the *Nautilus*, and headed it out toward the burning craft. Using one arm to keep the two boats together, he emptied the contents of a 4-pound carbon-dioxide extinguisher with the other. The blaze was soon under control and the KP sailor turned about and made for his home port.

The identity of the aquatic fireman perhaps never would have been known were it not for the fact that all members of the RCGA are obliged to file an assistance report. **Bill** is also affiliated with the Rochester Power Squadron, another organization which stands ready to help fellow yachtsmen in time of need.

2 Retired KPers Die

Two former KP folks, **Charles McBride**, 84, and **Daniel S. Welch**, 69, passed away recently. Both had completed long terms of service with the Company.

Marion, Hubby Head West In New Trailer

Resuming her travels of last summer, **Marion Matthews**, of the KP KODAKERY Office, and her husband, **Ralph**, of Camera Works, left Rochester last Saturday with their new trailer in tow, headed for the wide open spaces of the West.

They hope to revisit many of the scenic spots they saw last year, including the Bad Lands, Black Hills, Yosemite National Park and others. They also are looking forward to a stopover in Salt Lake City, Utah, one spot which they missed during their 25,000-mile tour of 33 states, Mexico and Canada. From here they will drive on into California for several days' stay with friends and relatives.

With the couple on their projected seven-week jaunt are their niece and nephew, **Joan** and **Billy Balsley** of Waterloo, N.Y.

Pinch-hitting for **Marion** in the KODAKERY Office during her absence is **Monica Powers**, formerly of Bldg. 26.

KP Picnickers Fete Lummiss

Some 145 members of the X-ray Sheet Film Dept., Bldg. 12, enjoyed the group's annual picnic June 25 at Thursam's Grove.

The event was combined with a celebration for **Ernest Lummiss**, who completed 25 years' service with the Company June 2. **Ernie's** associates surprised him with a "timely" gift presented by **Herbert Bieber**, department foreman. Superintendent **Henry T. Ireland** attended the affair and spoke briefly during the dinner program.

Retired Machine Shop Man Turns to Useful Hobbies

Adolph Leyrer and his wife, above, harvested 84 quarts of strawberries.

Retirement does not mean inactivity, at least not for **Adolph Leyrer**, formerly of the Machine Shop, Bldg. 23. A planer operator for many years prior to his retirement about 18 months ago, **Leyrer** lives a versatile life.

Besides painting his house both inside and outside, **Adolph** has found time to take care of a good-sized garden, a hobby which he thoroughly enjoys. His special pride is a strawberry patch from which he has harvested 84 quarts of berries, averaging better than a pint per plant.

An ardent baseball fan, **Adolph** seldom misses a game at Red Wing Stadium unless it interferes with his singing schedule at the Teutonia Liedertafel, of which he is an honorary member.

Skyline Surgery—Kodak Park's towering north chimney is wearing its new look after workmen recently completed the job of replacing 51 feet of its top with a new brick exterior. A more difficult phase of the operation is now in progress as the skilled crew works on scaffolding inside the stack, removing the old lining and replacing it with a heat-protective type to within 40 feet of the top.

Coast to Coast

The entire San Francisco Lab personnel literally "got Bob's goat," when Manager C. R. Antz celebrated his 25th anniversary with the Company. For this occasion he was presented a three-day-old kid, immediately christened "Perfume." Seems that Bob had a yen to have a goat grazing around the Antz farm. And his 25th anniversary was an opportunity lab folks couldn't resist!

Don Hooper, technical representative in Oklahoma and Arkansas, has added to his territory the panhandles of Oklahoma and Texas and three towns in New Mexico. One of his new customers insisted that he try his luck in some real fishing country and Don reports that the result of a weekend excursion brought in eight rainbow trout!

H. D. Haight Dies

(Continued from Page 1)
as a director and officer and he served as vice-president of the Kodak Employees Realty Corp.

His career before joining Kodak was colorful and reads like a Horatio Alger story. He began working at an early age before finishing grammar school and at 19 headed a highly successful business of his own as a Chicago cattle buyer. Later, lured by the West, he went to Wyoming as a cowhand.

He returned to Chicago and eventually entered the sewer contracting business but was forced to give this up when his health failed. While recuperating, he built himself a camera, and shortly after organized his own company to manufacture cameras and other photographic goods. A few years later, the company was sold to the old Rochester Optical and Camera Company. Soon after, he joined Kodak.

M. B. Folsom Elected

Marion B. Folsom, Kodak treasurer, last week was elected a director of the Federal Reserve Bank of New York, largest of the nation's 12 Federal Reserve Banks.

He was nominated for the post in June and was elected by vote of the member banks.

Session on Selling—Howard Kalbfus, director of the Kodak Office Sales Training Center, discusses selling points of the Cine-Kodak Reliant Camera with four EK salesmen who attended classes in Kodak's Retail Photographic Training Conference last week. From left are Walter Opp, Oklahoma City; Kalbfus; Bill Campbell, Dallas; Thomas Rust, Nashville, Tenn.; and Samuel Wilbourne, San Antonio, Tex.

4 EK Salesmen Take Course At Sales Training Center

Four EK salesmen were among the group enrolled in Kodak's 25th Retail Photographic Sales Training Conference which concluded last week. They are Willard C. Campbell, Dallas, Tex.; Walter P. Opp, Oklahoma City, Okla.; Thomas D. Rust, Nashville, Tenn.; and Samuel D. Wilbourne, San Antonio, Tex.

Dealer representatives attending the classes were Wade H. Andrews Jr., Wier Drug Co., Starkville, Miss.; Richard B. Heim, Heim's Camera Shop, Orlando, Fla.; Harry

A. Lasky, Keystone Stationery Co., Camden, N.J.; Alexander S. Layman, Layman's Camera Shop, Philadelphia, Pa.; and Benjamin E. Lum, Wm. E. Lum Jr., Inc., Petersburg, Va.

Others Take Course

Others were Ridsen A. Lyon, Fox & Lyon Drug Store, Wadesboro, N.C.; Paul E. Neumann, Staudt & Neumann Co., Aurora, Ill.; Arthur Ruhnke, Ruhnke Photo Shop, Stuart, Fla.; Donald C. Smith, Custer Pharmacy, Milwaukee, Wis.; Karl B. Summers, Premier Photo Service, Parkersburg, West Va.; W. Earle Tallmadge, Cornell Cooperative Society, Ithaca, N.Y.; George C. Wallace, Miller & Wallace, Palm Beach, Fla.; Paul R. Carter, Porter's Baxter Hotel Pharmacy, Bozeman, Mont.; and William Maga, W. H. Killay and Co., Inc., Athol, Mass.

EK Industrial Relations Program Studied for Future Use in India

Ideas borrowed from Kodak's industrial relations program soon may be applied in India.

They will be carried back by Hassah K. Chandrasekhara. He's assistant commissioner of labor for the province of Mysore, India.

Chandrasekhara especially was interested in Kodak's statistical methods and the benefits and recreational facilities provided here.

A quiet man with a friendly smile, he is one of 600 young men now in the U.S. to study industry.

"There is no comparison between the standard of living here with that of India," Chandrasekhara said.

Cleanliness Surprising

Kodak somewhat awed him, the Indian official said. After he toured Camera Works, he compared CW to the operating room of a hospital, it was so clean and neat.

"In India we are just beginning. Your country has progressed far in the mechanization of industry," he explained. Now that India has achieved independence, the country is interested in switching from an agricultural to an industrial economy.

Chandra, as he is called in the U.S., is in New York as a guest of the State Dept. of Labor. Carl Louison, a representative of the department, accompanied him to Kodak. They were escorted through CW and KO by Ralph Welch, superintendent of Industrial Relations at CW, and Tom Robertson, head of the EK Public Relations Dept.

It's This Way—Hassah K. Chandrasekhara, center, assistant commissioner of labor for an Indian province, talks over Kodak's industrial relations program with Ralph Welch, left, Camera Works, and Carl H. Louison of the New York Department of Labor.

Fred W. Chapman Retires After 43 Years with Kodak

Fred W. Chapman of the Washington Office Government Sales Div. retired recently after 43 years of service with the Company. He began his Kodak career Sept. 24, 1906. At one time he was a member of the Export Sales Div. and served with Kodak Mexicana from April 1927 until May 1930. Chapman also spent several years as a Kodak salesman. He joined the Washington Office in 1943.

Several Rochester people and many local and out-of-town dealers were present at the surprise dinner held in Fred's honor at the Burlington Hotel. Keith Lewis, manager of the Washington Office, was toastmaster. Informal talks were given by many of Chapman's friends, including T. F. Pevear, assistant general sales manager; John Whittle, manager of the Government Sales Div.; Ross Robertson, manager of the Rochester

Branch, and Randall Satterwhite, Sales Dept., all of Kodak Office.

Camera Clubbers Planning Picnic

Kodak Camera Club members and their families are being alerted for the gala annual picnic to be held Saturday, Aug. 20, at Seneca Park.

Earl Wallace, Safety Dept., serving as general chairman in charge of arrangements, reports that tickets will be available at the Camera Club, Bldg. 4, by Aug. 1.

Festivities for Fred—Fred Chapman, retired member of the Washington Office Government Sales Div., is shown above surrounded by some of the guests at his retirement dinner. Mrs. Chapman is at the extreme right.

Microfilmer Rides a Donkey

A Kodagraph Micro-File Machine, Model E, found its way by donkey back to the isolated village of Mazapil, Zacatecas, Mexico, recently.

It was on a 1600-mile, 30-day trip through five states in Northwestern Mexico. Sponsoring the trip were the Benjamin Franklin Library and the Instituto Nacional de Antropología e Historia.

Purpose of the expedition was to obtain for further study docu-

mentary copies of the valuable 16th and 17th Century manuscripts located there.

Approximately 20,000 pages were photographed in 10,000 exposures by the Kodagraph Micro-File Machine in this time.

The trip, made by train, auto and bus, as well as donkey, covered much the same route as that traveled by the early Spanish conquerors and missionaries in Northwestern Mexico.

Kodak Park's Yard Dept. is on the air!

With call letters of KEA 449 and KA 3710 the department recently set up a two-way radio intercommunication system to control its mobile equipment—Diesel engines, cranes, trucks and tractors.

Eight mobile units are equipped with the two-way radios, and the dispatching headquarters can keep in constant touch with them to direct their movements. The units now go from job to

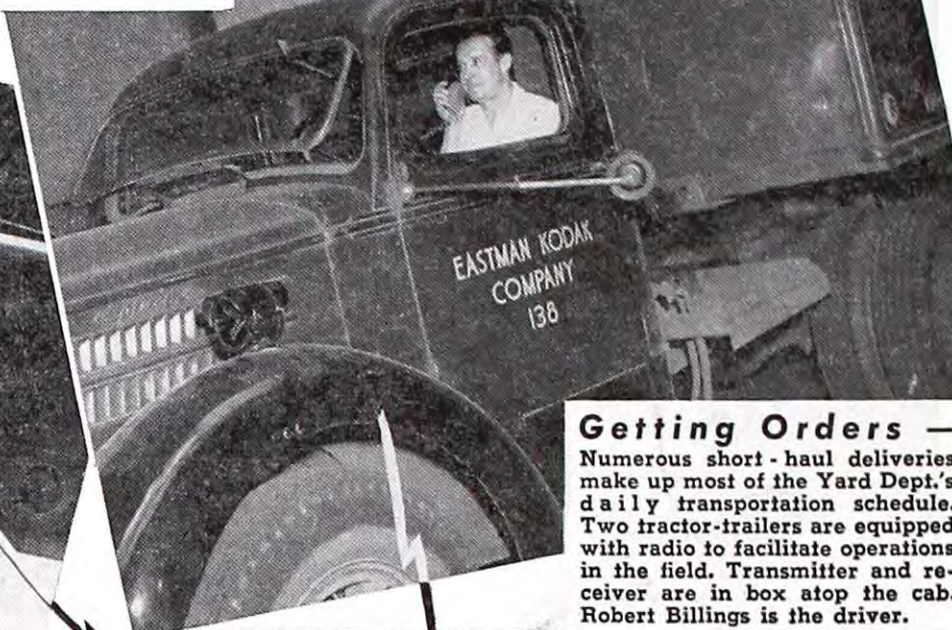

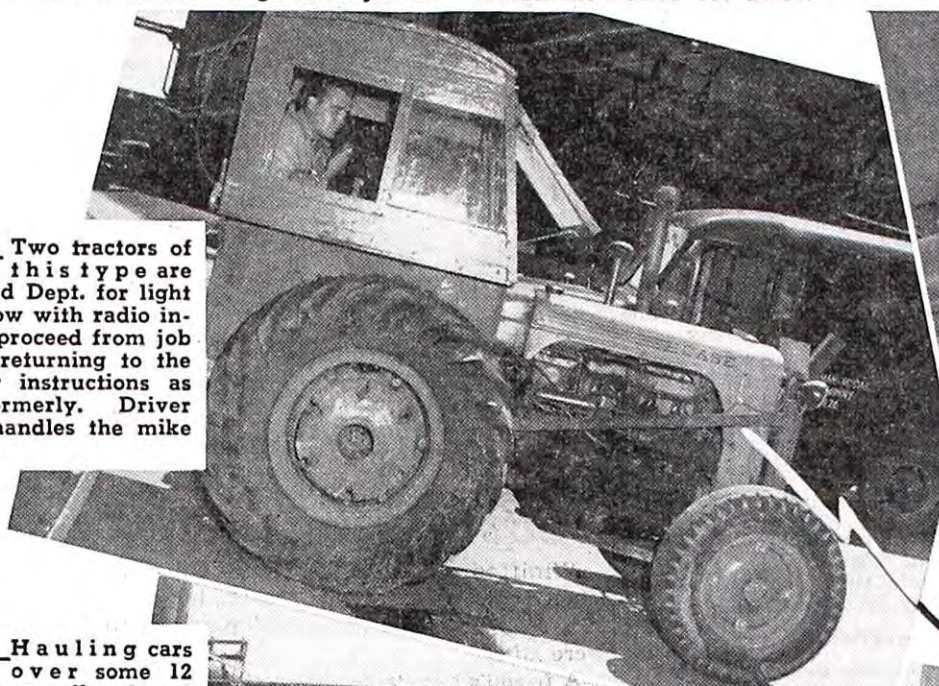

job after receiving instructions by radio, instead of going back to the office for further orders as was necessary under the old system.

Operating efficiency for routine jobs has been greatly improved and the units are available for emergency duty immediately upon receiving the broadcast message.

The radio system has a range of some 15 miles and is designed to reach to any point within the Park's 400 acres.

On the Go — Two tractors of this type are used by the Yard Dept. for light hauling duty. Now with radio installations they proceed from job to job without returning to the Yard Office for instructions as was done formerly. Driver Harold Fraser handles the mike for this shot.

Getting Orders —

Numerous short-haul deliveries make up most of the Yard Dept.'s daily transportation schedule. Two tractor-trailers are equipped with radio to facilitate operations in the field. Transmitter and receiver are in box atop the cab. Robert Billings is the driver.

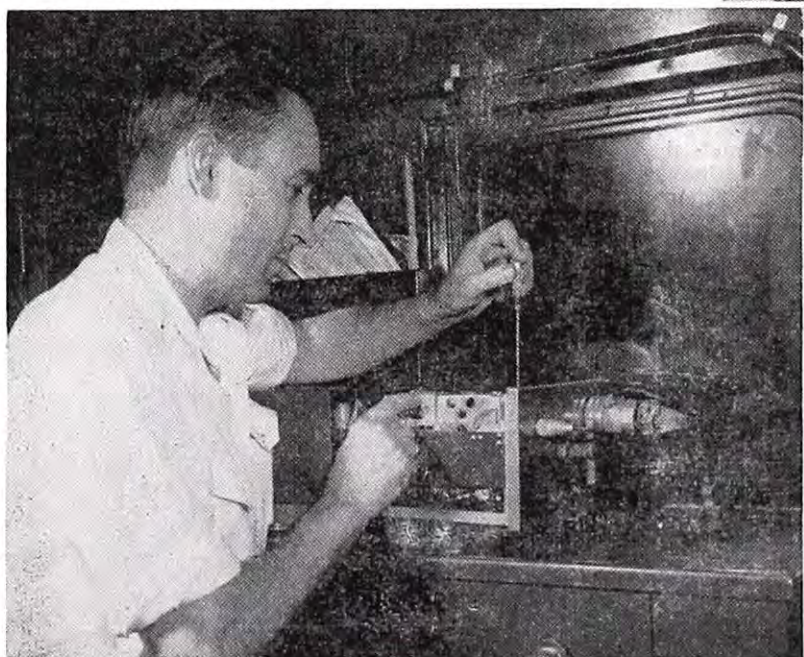

Next Move — Hauling cars over some 12 miles of intraplant railroad and sidings keeps the Park's two Diesels busy. Direct radio communication cuts unnecessary running time. Engineer George Hosley at controls of Diesel No. 6, gets instructions from headquarters while moving cars at KPW.

Hub — Nerve center of the system is the dispatcher's headquarters in the Yard Office, Bldg. A-15. Here requests for services are received by telephone and broadcast to desired units. Above, E. L. Cook, Yard Dept. superintendent (standing), beams approval as Dispatcher Bob Glass relays an order.

Listening In — An additional remote control unit is used in the Traffic Office, Bldg. 26, to dispatch the Diesel engines which move freight within Kodak Park limits. Below, Marion Kohl takes a message from one of the engineers.

Where To? — Among the Park's mobile units equipped with the two-way radio are two light-duty cranes, one of which is shown above. Al Carstairs, driver, talks with dispatcher to get his next assignment at KP West.

Transmitter — The main transmitter which relays outgoing and incoming conversations is located on the 9th floor of Bldg. 23 and is directly connected with a special antenna on the roof. Jim Hardee, Industrial Engineering, left, above, and George Emery of E&M Engineering discuss technical points of the transmitting unit's operation.

Check-Up — Keeping the radio equipment in good working condition is the part-time duty of Dick Scales, left, E&M Electric Shop. Dick holds a second class radio operator's license. Here he makes a minor adjustment in the set in one of the Diesels.

Camera Works' Only Forewoman, Mary's Also 25-Year Club Head

On the Job — As forewoman of the Brownie covering section in Camera Works, Mary Gray makes frequent contacts to inspect the work of the girls.

In 1907 a young girl of 15 followed in her sister's footsteps by joining her at Camera Works. She took over a small gluing job on Kodak's box Brownie cameras. This young girl was Mary Gray, now a forewoman in the very same department in which she started.

"I thought I'd stay 40 minutes and I've stayed over 40 years," says Mary. "I'm not sorry I did, either."

Today, she holds the distinctive position of being the only forewoman in the plant. Not only that, she's president of Camera Works' 25-Year Club. When she received her 40-year pin, she was the fourth Kodak woman ever to mark this milestone with the Company.

Mary has good reason to be proud of her record in Camera Works, and she is. She's held some sort of supervisory position ever since 1914. During the war years of '43 to '47 she took over the supervision of special work in the CW Training Dept. Her present job entails responsibility for the quality of work done by the crew of girls who cover Kodak's Brownie Targets Six-16 and Six-20.

Accomplishments in CW

Mary claims her outside interests are few. "All my accomplishments have been in Camera Works," she said. "I don't like to sew or keep house." She does enjoy cooking, however. Being of Scottish descent, she's a member of the Daughters of Scotia and was head of the group in 1940. "I'd go miles to hear a bagpipe," she said, as she told of how her father was a great bagpipe player. Both her parents were born in Scotland.

She likes to travel—preferably by plane, and has been to Florida four times to visit a sister. She's vacationed in California too.

Mary is a member of a large family, many of whom have been, or are, Kodak people. Two nephews now are in Camera Works, while a brother, a sister and another nephew are at Kodak Park. A cousin, Bill Gray, has the longest service record, 44 years, among Kodak salesmen. He betters Mary by two years.

Winnie's 62 Sets — Here's Winifred Quinn with her corner cupboard collection of cups and saucers. The cup she holds has small golden legs which support it.

KP Girl's Corner Cupboard Boasts Cup 'n Saucer Collection

Winifred Quinn, KP Industrial Engineering, is a cup and saucer collector. For this reason, her friends and relatives have no gift problem when the occasion arises. In fact, most of her 62 sets were gifts.

A friend's gift started her collection of cups and saucers seven

years ago. Since then she's bought only three herself.

Some of Winnie's prettiest were brought from Europe by her brother, Lt. Col. Robert Quinn. He found six good-looking sets in Germany.

"The two from Italy are especially unusual," she said. One cup and saucer set is made of dark blue glass. The over-all pattern gives an appearance of lace. "The cup has a gondola scene, and you'd think a doily had been placed on the saucer," she added.

Three of her sets are antiques. One is an heirloom more than 100 years old. It was given to her by a friend whose family had cherished it for many generations. Another heirloom was a birthday gift from her father. Small golden legs support the cup. The china is a delicate shell type and is translucent. She also owns a 56-year-old demitasse set.

In her collection are cups and saucers from England, France, Czechoslovakia, Japan, Italy, Germany and Belgium, as well as Canada and the U.S. The set from Belgium was a gift from Mary Ballieu, Manufacturing Experiments, KP Bldg. 14.

The corner cupboard in which the colorful collection is displayed was a gift from the KP girl's mother. Winnie found it waiting for her when she returned from a trip to California.

While some of the irreplaceable cups are kept for display, Winnie says that she uses most of her china cups and saucers quite often.

H-Eer Submits Cooking Hints, Peach Pie Recipe

"Quite a cook" is how friends refer to Ruth Wagner, H-E Control Center operator. She's constantly on the lookout for good recipes and cooking hints.

Here are two hints she's picked up recently:

For cakes that require several hours of baking, such as pound and fruit cakes, spread salt over the bottom of the oven or on cooky sheet. Completely cover an area a little larger than the cakepan. This trick makes it unnecessary to line the cake pan with paper. The cake will come out with a delectable golden brown crust. Salt should go into the oven at the same time as the cake.

The other suggestion is to rub a teaspoon of powdered ginger on duck before putting it into the oven to roast. "It creates an unusual and deliciously different flavor," says Ruth.

One of the H-Eer's favorite recipes is for:

PEACH CUSTARD PIE

Put one pint of drained home-canned peaches in uncooked pie crust.

Mix and beat: ½ c. evaporated milk, ½ c. water, 1 egg, 1 scant c. sugar, ½ t. salt, few drops of vanilla. Pour mixture over peaches and sprinkle top with a little cinnamon. Bake in 375-degree oven for 20 minutes, then at 250 degrees for 20 minutes. Do not allow mixture to boil or bubble.

Make 'em Yourself

Here's something pretty to work on during your summer evenings. Alternating yellow and lavender pansies edge this little doily. Shaded cotton threads are used in the two colors for an effective blend of flower tones. Pick up your free directions today in your KODAKERY Office or send a post card request to KODAKERY, 343 State Street.

About the Model

Dolores Kawalik is a member of the Payroll Dept. at Hawk-Eye. A Kodaker for seven years, she came to Rochester in 1942 from her home town, Batavia.

She enjoys baseball from a spectator's point of view; tennis and fishing as an active participant. Silver and Conesus Lakes are her favorite fishing rendezvous.

Right now, however, she's looking forward to vacationing in New York City in October.

Smart Sheer—

Dolores Kawalik of Hawk-Eye models this good-looking Sibley's frock. The gray and white print is set off effectively by a wide linen collar. The plunging neckline is restrained by an inset, the same fabric as the dress.

The Market Place

KODAKERY ads are accepted on a first-come, first-served basis. Department correspondents in each Kodak Division are supplied with ad blanks which, when your ad is typed or printed on them in 25 words or less, are put in the Company mail addressed to "KODAKERY," or handed in to your plant editor. All ads should be received by KODAKERY before 10 a.m., Tuesday, of the week preceding issue. HOME PHONE NUMBERS OR ADDRESSES MUST BE USED IN ADS. KODAKERY reserves the right to refuse ads and limit the number of words used. Suggested types are: FOR SALE, FOR RENT, WANTED, WANTED TO RENT, LOST AND FOUND, SWAPS. KODAKERY READERS ARE ASKED TO PLACE ADS ONLY FOR THEMSELVES AND HOUSEHOLD—NOT FOR FRIENDS OR RELATIVES. TO DO THIS IS TO DENY SPACE TO THE PEOPLE OF KODAK FOR WHOM THIS SPACE IS RESERVED.

AUTOMOBILES FOR SALE

Buick, 1941, tudor special. 84 Adams St. 5:30 to 7 p.m.
Chevrolet, 1941 Master deluxe tudor sedan. 680 Brown St., Apt. 8.
Ford, 1941 tudor, \$625. Cul. 1756-M.
Hudson, 1949, 109 Linden St.
Pontiac, 1933, roadster. 183 Norton St.
Pontiac, 1940, deluxe sedan. 114 Canton St., after 6 p.m.
Pontiac, 1940 four-door sedan, \$495. Glen. 0176-W.
Pontiac, 1940 sedan, \$475. Also 1936 Pontiac sedan, \$100; Neptune outboard motor, 2½ h.p., \$25. 370 Merchants Rd.

FOR SALE

AQUARIUM—With standard, 20-gal. Also German police pup, 9 months, licensed; girl's 24" bicycle. Char. 2246-W.
AUTO RADIO—RCA 6TMI, controls on chassis. Cul. 6175-R.
BABY CARRIAGE—Storkline, \$20. Also carpet sweeper, \$5. Glen. 3699-J.
BABY CRIB—Maple. Also basinette; Taylor-Tot. Cul. 6970-J.
BABY SITTING—Afternoons. Mrs. Florence Wheeler, 206 S. Fitzhugh St., Locust 5241.
BED—Hospital, 760 Helendale Rd., Cul. 4121-M.
BED—Metal, with springs, \$15. 376 Genesee St., Gen. 3275-W, evenings.
BED—Single, metal. Also 2 bedroom chairs; night table; yellow formal, size 12. Gen. 6287-W.

HEATER—Gasoline, for automobile. 574 N. Goodman St.
HOT WATER TANK—Thirty gallon, with side-arm heater, \$10. Glen. 5721-M.
HOUSE TRAILER—12½', sleeps three, brakes, \$700. Char. 2565-R.
IRONER—Speed Queen, electric, portable, \$40. Glen. 3843-M.
KITTENS—Six weeks old, for a good home. 219 Alpine Rd.
LAMPS—Pair, end table, hand-painted, \$10. Mon. 4538-W.
LIVING ROOM SUITE—Also rug. 33 Mead St., Locust 9348.
LIVING ROOM SUITE—Mohair frieze, 2-pc. turquoise. Glen. 7415-W.
MATERNITY DRESS—Size 16, black crepe, satin trim. Gen. 3930-J.
MOTOR—1947 Champion O.B., 4.2 h.p., auto. pull starter, \$95. Cul. 4432-J.
MOTOR BIKE—1947 Whizzer, equipped with basket, generator, 2 lights. 231 Shepler St.
MOTOR BIKE—Whizzer, Schwinn frame, fully equipped, extra parts, must sell. Also girl's 26" bicycle, balloon tires, \$10. Glen. 6160-M.
MOTORCYCLE—1948 Indian Bonneville. Fully equipped, run 1700 miles, 284 Magee Ave.
MOTORCYCLE—Harley-Davidson, 1944, good condition; will sell or swap. 1563 Manitou Rd.
MOVIE PROJECTOR—Kodascope Sixteen-10. Also carrying case, \$100. Webster 55-R.
OUTBOARD MOTOR—1949 Mercury 3½ h.p., \$115. Cul. 2340-R, after 5 p.m.
PHONOGRAPH—Portable electric, \$200. 998 Garson Ave.
PAINTING—Reasonable estimates without obligation for houses and garages during summer, good work done. Mon. 5257-M.
PIANO—\$20. Hamlyn 2816.
PLYMOUTH MOTOR—1935. Also 17" tires, windshield, or complete car. Glen. 3539-R.

Housing: Country Style—Harold Tebo of Kodak Park's Baryta Dept. recently solved his housing problem by acquiring title to old School No. 1 in Greece which he plans to remodel into a modern Colonial-style home. The schoolhouse, a one-story structure, has been in operation since pre-Civil War days. Harold plans to convert the two large classrooms and several smaller rooms into a huge living room, two large bedrooms, two bathrooms, kitchen and dining alcove. As part of the alterations, the windows will be reset, new ceilings added, floors refinished, and landscaping done to the spacious grounds. The Tebos hope to be living in their new quarters early next year. Above, Harold looks over his new property. At right, he's in one of the schoolrooms complete with blackboards, desks, etc.

FOR SALE

POWER PLANT—Kohler electric, gasoline operated, produces 1500 watts, 110 volts, 60 cycle A.C., fully automatic, for camp or farm. A. G. Palmer, Stewart Rd., Scottsville 30-F-13.
PUPPIES—A. K. C. registered cocker, blacks, blondes, reds, fine pedigree. Cul. 5559-M.
RADIO—Silvertone AM-FM console model. Hamlyn 0841.

Dusties Trim Products To Advance in Playoffs; 4 EK Teams in Running

Kodak Office, KP Dusties, Camera Works and the Kaypees were still in the running for the Major Industrial League softball playoffs at this writing, but inclement weather made it impossible to determine just when any of the EK teams would next see action. Showers on Monday delayed the tournament one night, and CW was to have played its July 18 postponed game July 19.

Bernice Blasts Homer to Give Bldg. 101 4th Win

Bldg. 101 girls last week copped their fourth straight victory to remain undefeated in the KPAA Girls' Softball League.

The loop leaders defeated Testing, 15 to 11, as Bernice Buckman hit a home run with two on in the sixth inning to break up an 11-11 duel.

Also coming through was Bldg. 12 which edged Bldg. 65, 9-7, for its first triumph of the campaign. The hitting of Betty Evans, who homered in the second and fourth innings, featured the game. Standings:

Bldg. 101	W L	Bldg. 12	W L
Bldg. 65	4 0	Testing	1 3

Sports Roundup

Joe, Leo Televised ... Int. Umps Visit KP ... H-E 'Ace' Meet Set

Joe Minella, KPAA executive secretary, and Leo Gallagher, KP Major team pilot, were interviewed over WHAM-TV before the start of a recent softball game telecast from the Lake Ave. field.

Special guests at the recent KPAA Instructors-All-Star exhibition game last week at the Lake Ave. field were International League umpires Max Fellerski, Lynn Doudy and John Gallin, in

town for the Rochester-Buffalo series at Red Wing Stadium. The arbiters enjoyed a pleasant chat with their mutual friend, Ned Bauer, KP noon-hour strike-and-ball caller.

Hawk-Eye golfers are looking forward to the annual HEAA Hole-in-One Tournament slated to get under way early next month. As in past years it will be held on the School for Deaf field adjacent to the Ave. E plant.

Joe Rorick, Kaypee net team member, took in the New York State championship at Forest Hills, L.I., while vacationing in the metropolitan New York area. Joe was particularly impressed by the play of national champ Pancho Gonzales, Irv Dorfman and Billy Talbert.

Kodak Park took undisputed possession of first place in the Rochester Industrial Horseshoe League last week. Paced by Clarence Auten, Charles Nichols and Charlie Kester, the Kaypees handed Hawk-Eye its first setback of the season, 14-11.

The aforementioned KP trio turned in 4-and-1 records. Charlie Shea and Charlie Graves led the H-E tossers, each winning three out of five.

Kester of the Kaypees ran his individual season's record to 21 and 2. Standings:

Kodak Park	W L	Products	W L
Hawk-Eye	6 0	Taylor	3 5
Gleason	6 1	Pfauder	1 6
Camera Works	5 2	Ritter	0 5

Waasdorp Cards Low Gross 46

Gordon Waasdorp paced the KP Paper Service Golf League linksmen last time out with a 46 gross over the nine-hole route.

What Gives? — This confusing scene was captured by a KODAKERY photographer at a KPAA Kodak West Softball League game on the DPI diamond last week. The runner, George Sage, F.D. 5, it seems, was trapped in a run-down play between first and second. Other participants, from left, are Joe Franz, Renegades' pitcher, who dashed over to cover first; Ed Neuwirth, the catcher, and at extreme right, Jim Moyer, first baseman. Renegades won, 3-1.

Renegades Win 4th Straight In Kodak West 2nd-Half Race

The Renegades, first-half winners of the KPAA Kodak West wheel, are off to a fine start in the second-half campaign. Last week they racked up their third and fourth wins of the season.

Following up an 8-3 verdict over Synthetic Chemistry, Jim Moyer's club belted F.D. 5, 3-1, as John Burkhardt homered with two mates on the sacks to account for the winning margin. Jim Sage, F.D. 5 rightfielder, also hit for the circuit to post the only tally for George Kelch's aggregation.

F.D. 5 broke even for the week by lacing Wood Cellulose, 8-1, as Murray Emmerich bested Al Walker in a mound duel.

Synthetic Chemistry and Wood Cellulose played to a 2-2 deadlock in a hot battle between hurlers Jerry Braz and Alex Walker. Bill Zimmerli, the Termites' second sacker, knotted the count with a timely double.

Instructors Win and Lose

The KPAA Boys' Program instructors, chaperoned by "Spike" Garnish and "Shifty" Gears, enjoyed a postman's holiday last week by appearing in exhibition games against all-star teams at both Lake Ave. and Ridge fields.

The mentors, with Gears on the hill, turned back a Lake Ave. loop aggregation, 3-2.

The tables were turned at the Ridge layout as the All-Stars registered a 1-0 win, with Herb Jennings besting Gears on the mound. Hero of the fracas was Syd Gamlen, who poled a home run.

In another exhibition contest the Electric Shop outdistanced the Millwright Shop, 13-4, to cop the trophy, a gold-plated funnel.

Another non-league rumpus saw the Welders, led by Gerry Kress, best the Tin Knockers, piloted by Tony Carbone, 12-10.

Branch '9' Wins With Hagen, 2-0

Ralph Hagen and Paul Mastrella hooked up in a gilt-edge box battle last week as Rochester Branch nudged Shipping, 2-0, at Brown Square. The win solidified the Branch nine's first-place hold in the KO Intraplant Softball League.

Hagen, the winning twirler, released just one bingle. A single to rightfield by youthful Dave Ocorr in the fourth inning was the lone Shipping safety.

Yare Starts It

One of the four hits off Mastrella came in the opening canto and paved the way for what proved to be the deciding run. Lee Yare singled, advanced to second on a sacrifice, scampered to third on a wild pitch, and scored on Fran Biggs' fielders' choice. Biggs subsequently scored the second tally in much the same manner as run No. 1 was produced.

With the exception of the fateful first, Mastrella was the master of the situation at all times. The Shipping slinger sent 10 Branch batsmen back to the bench via the strikeout route.

Jim Manion, Branch, turned in the night's fielding gem with a spectacular catch in centerfield. Biggs played a bang-up game at third base.

The scheduled Penpushers-Repair game was postponed.

League standings:		W	L
Branch	5	1	Penpushers 2 3
Shipping	3	3	Repair 1 4

Chris Shoots 68 in CW Loop

Compiling 8½ points between them, John Metcalfe and H. R. (Chris) Christenson walked off with top prize money in the CWRC Golf League's July 13 session. Metcalfe turned in a 70-9-61 card, while Christenson shot a 68 over the 14-hole route, netting 60 with an eight-stroke handicap.

Bryant-Frederick 2nd

Second prize went to Herb Bryant and Ken Frederick, who posted 61 and 62 nets, respectively, for eight points.

Tying at 7½ points were the Paul Brown-John Kwiatkowski and Joe O'Brien-Ray Wakefield tandems.

Nine two-man teams competed. The league shoots every Wednesday evening at Braemar Country Club.

Cannan Posts KP Low Gross

Jack Cannan's 73 won low gross honors and Ralph Kruzemark copped low net in Class A with a 73-5-68 card last Saturday at Lake Shore. The pair thus topped a field of nearly 175 in the KPAA's second men's handicap event of the season.

Prize winners by classes: CLASS A: Low gross, Jack Cannan 73. Low net, Ralph Kruzemark 73-5-68. Milt Dow 69, George Zimmerman 70, Claude Van Valkenburgh and Bill Wilkins 71; Irv Maeske, Harry Brewer, Harry Melvin and Dan King 72.

CLASS B: Low net, James Ashburner 92-25-67, Robert Sherman 85-18-67, Clarence Auten, Al Walker and Anthony DiMassimo 69; Jack Huse, Norm Davis, Fred Ritz and Lloyd Lowry 70; William Klem, Wilford Uderitz, Robert Snook and Shirley Smith 71; Roy Sill, Ed Towse, C. Dean Woods, Harold Hogan and William Shaw 72.

CLASS C: Low net, William Dewhurst 95-32-63; William Flood, Leonard Prescott, Don Maggio and Frank Powers, 69; Ken Bump 70; Cy LaPorte, Don Kelly, Bob Harris and Robert Kaufman 72; Roger Hall 73.

Blind bogey (75): Art Wren, M. Searle, Harry Trezise, George Bishop, H. Davies, Bert Stumpf, Harry Fischer, R. McNeil, Burnett Eddy, Don Welch, P. Hasenauer and Jim Murphy.

Kaypees Book Oklahomans For Aug. 5 Exhibition Tussle

Softball, Western style, will be served up to local fans Aug. 5 when the Oklahoma Cowboys invade Kodak Park's Lake Ave. field. The exhibition contest with Leo Gallagher's Kaypees under the lights will start at 8:30.

The visitors will be led by Paul Snyder, known to his fans as "the Carl Hubbell of softball." The Bartlesville, Okla., native has four no-hit softball victories to his credit this season.

Also on the team are "Cactus" Glyn Brawley, a crack basketball player who can run the 100-yard distance in less than 10 seconds; Russ Hill, a former NCAA star at Oklahoma U.; Bill Dagg, a Ponca City lad who leads the club in hitting; Don Etter, 6-foot, 4-inch catcher; Leroy and Lerayne Teft, twin brothers, who make up one of the best infield combinations in softball, and Carol (Red) Rikli, pitcher and coach, now making his ninth tour with the outfit.

Skipper Gallagher will have his full KP roster on hand for the fray, including pitchers Shifty Gears, Bud Oister and Herb Jennings; catchers Al Tinsmon and George

Cowboy players pictured above are "Red" Rikli, pitcher, and "Cactus" Brawley, shortstop.

Beane; Tommy Castle, George Krembel, Ralph Taccone, Ralph Woodhall, Charlie Dick, Herb Morris, Joe Farrell and Mike Golisano.
