YOUR Community Chest

Little Roger's Quite a Guy, DPI Man Finds on Clinic Visit

Roger Performs — Here's one of the most unusual youngsters you could ever run across. His name is Roger and he's one of the kids at the Cerebral Palsy Clinic. Herb Winterroth of DPI watches as Roger practices on the piano under the direction of Ruth Klaucke of the clinic staff. He's coming right along, too, and he's getting a lot of valuable exercise in the bargain. At right, Herb tells Frank Cole about Roger and his trip to the clinic.

By Herb Winterroth
(DPI Machinist)
as told to Bob Lawrence

I didn't even know what cerebral palsy was till the other afternoon. That was when I went out to the Cerebral Palsy Clinic on East Ave.

With Community Chest time in the offing, Kodak people have turned reporters to tell you about various Chest agencies. This is the fourth in the series. Herb Winterroth of DPI is the reporter and the subject is the Cerebral Palsy Clinic.

Folsom Gets Degree Apr. 11

Marion B. Folsom, Company treasurer, will receive an honorary degree of Doctor of Commercial Science from New York University. It will be awarded Tuesday, Apr. 11, at a dinner in the Waldorf-Astoria in New York.

Folsom is one of 50 outstanding business and financial leaders of the country to receive degrees. They also will participate in a two-day conference marking the school's 50th anniversary.

On Apr. 10 Folsom will address the group on "The Conduct of Business in the American Economy."

A leading authority on Social Security and benefit plans for industrial employees, Folsom served the national and state governments on these matters. He also is active in the Committee for Economic Development, which is concerned with plans to maintain high levels of employment and production.

I thought cerebral palsy was like polio.

Mrs. O'Brock, the clinic director, set me right. She told me it's the result of a brain injury before, during or shortly after birth.

Its effects vary depending on the extent and part of the brain injured. Some children can't control their hands. Others their legs. Some can't sit up. Others can't talk, and so on.

"The clinic's job is re-educating muscles," Mrs. O'Brock explained. "The uninjured part of the brain must be trained to take over the functions of the injured part."

That may sound simple. It isn't. It's a long, hard and tedious task, but they're doing a fine thing. It takes a lot of care and patience.

They use all the latest methods and always are trying out new ones.

They teach the kids to do things for themselves, using all kinds of ingenious devices to help them. They make a game out of everything they do. It makes it fun to learn.

They're taking care of some 50 kids now, ranging in age from 2 to 12 years.

The children don't get all the attention. The parents come in for theirs, too. They have to learn how to help the children overcome their handicap.

I'd like to tell you about one of the kids I saw.

His name is Roger . . . 9 years old and blind. When he came to

(Continued on Page 4)

H-E Makes New Ektar Lens Line

Kodak optics have entered a new field.

The products involved are the Kodak Process Ektar Lenses in shutters for use in Graphic Arts.

They are turned out entirely by Hawk-Eye, involving some 20 departments, both optical and metalworking.

The new lens is an important addition to the Company's line of high quality Ektar Lenses, now found in Kodak projectors, movie and still cameras, commercial cameras, enlargers, television cameras, etc.

Kodak Process Ektar Lenses in shutters are used in the large process cameras employed in photoengraving, photolithography and photogravure to reproduce pictures and type matter in all lines of printing, covering both color and black and white.

Better Reproduction

The lenses give better reproduction and improve photographic quality, along with greater ease of operation.

Several new optical and mechanical features in the lenses make them outstanding in their field.

An example is the "built-in" aperture control, an entirely new idea for lenses of this kind. Conventional lenses require special aperture control accessories attached to the exterior.

Lumenizing of the lenses, an improved interior barrel design and special treatment of edges of all optical elements combine to reduce loss of light going through the lens.

Made from Kodak's rare-element glass, the lenses are color corrected to produce excellent results. They will render fine lines sharply.

A set of six filter frames is supplied with each lens.

The Company conducted extensive research into the needs of the Graphic Arts field before producing the lenses. They have been undergoing trade tests for the past year and have met with enthusiastic response in the field.

The lenses are made in four focal lengths—12-, 18-, 24- and 30-inch. Prices range from \$575 to \$1000, including federal excise tax.

New Ektar Lenses — Better reproductions are being obtained in the Graphic Arts with the new Kodak Process Ektar Lenses in shutters. At left Bud Ramsdell of KP Engraving Dept. employs one of the new lenses in copying work. At right is Loretta Mularz performing final inspection in Dept. 23 at H-E where the new lenses are being produced. Other pictures Page 4.

Convention Contacts — Kodak representatives from all divisions in Rochester and from many sections of the country were on hand at the Master Photo Dealers' and Finishers' Convention in Cleveland to boost Kodak's products. At top Carl Newton, left, of the Fox Co., San Antonio, Tex., discusses advertising with J. W. Royer, Ray Shady and Don Silver of EK Advertising Dept. Above, Warren (Stubby) Starrett, right, EK salesman of Oak Park, Ill., tells customer E. Arnold Smith of Norwich, Conn., about the Kodaslide Table Viewer. EK had big display of products.

Aid Rushed to Flood Victims By Amateur Radio Operators

Emergency relief in flooded areas last week was greatly expedited when Kodak amateur radio operators volunteered their assistance to the Red Cross. Some Kodak families in flooded sections were among those assisted through efforts of the Rochester Amateur Radio Emergency Corps.

Hank Blodgett, H-E; Roger Williams, Lew SanFilippo and Dick Briemer, NOD, and Linc Kendall, KP, helped staff a two-meter high-frequency setup between Red Cross headquarters and its trailer canteen in the field.

And the Rochester Mobile Unit Club, which had been formed on Tuesday, was pressed into action on Wednesday. Among its members are Ralph Amdursky, KO, and Jack Auer, former CWER. Their 10-meter radios are installed in their cars.

With telephone lines down through much of the area and phones often inaccessible, the radio units speeded up rescue operations.

The Army duck, motor or rowboats would push through the water to the canteen or to one of the car radios with information on aid required. "Fuel oil is needed here, medications and food there, send a station wagon to meet evacuees," they directed.

Claude Robinson, KO, fought the flood in his Ballantyne Rd. home, Lee Schlacter, H-E, was marooned at his Scottsville home. And Walter Conley, KO, flew back from a Detroit business jaunt only to complete the trip to his Crittenden Rd. home in a rowboat.

Music, Fun, Dinner Program Set By Foremen for 3 Ladies' Nights

One of the nation's outstanding name bands, plus a lineup of stellar variety entertainment, is in store for Kodak Park Foremen's Club members and their ladies in the Bldg. 28 gym Apr. 18-19-20. It is the annual Ladies' Night program.

18-19-20. It is the annual Ladies' Night program.

Ted Weems and his orchestra will provide the bulk of the stage entertainment. Widely known for his many recordings, Weems has filled engagements in the country's finest hotels, in addition to special appearances in theaters and at private functions.

Almost as well known is another member of the organization, Elmo Tanner, whose intricately melodious whistling has identified the band on the radio networks. Also contributing to the success of the group are Glen West, guitarist and comedy vocalist, and Billy Blair, "300 pounds of fun and rhythm."

Sharing the stage bill will be the Chords, two young men who give interpretations of musical instruments and impressions of leading orchestras, and lovely Judy Kelly, novelty and acrobatic dancer.

A platform artist with a cheerful outlook on life will be heard. He is Dr. Murray Banks, brilliant young psychologist, whose stories

Trio of Stars—Ted Weems, at left, will bring his musical aggregation to KP for the annual Ladies' Night program of the Kodak Park Foremen's Club Apr. 18, 19 and 20. In center is Judy Kelly, shapely novelty dancer, and at right is Dr. Murray Banks, brilliant psychologist who presents a unique program of stories and dramatizations.

and dramatizations provide a unique entertainment feature.

Steak dinners, to be served each evening from 5 to 6:30 p.m., will inaugurate each of the three days' programs. Intermittent movies will be shown in the gym from 6 to 6:45, to be followed by the introduction of new officers for the 1950-51 season, the drawing for door prizes, and the entertainment. Dancing from 9 to 12 will complete the evening's festivities.

Photo Patter

Snapshot Material Abounds On Streets of Any Community

Are you one of those people who dig out the camera only when going on a scenic vacation trip? If so, you are missing some good photographic bets.

Attentive Audience—This old soldier really had his audience with him when telling his vivid tales of battle to the shoe-shine boys. Street scenes like this one abound in many cities.

Many excellent shots can be taken right in your own city or town—street scenes that tell wonderful stories. There's an endless variety in any community. You can picture people everywhere—working, playing, buying, selling, hurrying or just loafing.

Then there are the market places, the parks, water scenes and boats. Every community has its architectural patterns, traffic patterns, its pedestrian flow.

On Your Vacation

You can very well suit this program to your vacation, also, if you visit particular towns for a time. They all have their own picture possibilities.

A good way to operate in snapping people on the streets is to keep your camera inconspicuous. In this way you can find groups of people—say workmen on a construction job—and picture them before they become conscious of the camera and gape into the lens. Try to keep the settings as natural as you can.

Tempo of the City

Capture the tempo of the city, the hurrying crowds if it's a busy place; people in the parks or conversing on the corners if the town is a quiet one.

Take advantage of the light. Sometimes long shadows fall on the pavement to give a dramatic effect. Or there may be a geometrical precision in a cobblestone street or the structural steel framework of a new building.

Watch for unusual angles. For instance, traffic and pedestrians will form a pattern when viewed from a high office window or a roof. You'll find plenty of picture possibilities by just looking around for them.

Booklet Describes Special Film Use

A 16-page Kodak catalogue of materials for industrial radiography describes films for use with X-ray equipment of varying kilovoltage and with specimens of varying thickness and density. Information on relative speeds and contrast of different X-ray film emulsions is provided in a handy chart. This enables the radiographer to select quickly the particular material best suited to his needs. The catalogue is free.

Tristan's 27-Year Research Brings Mayan Indian Book

A work of 27 years has been completed by Jose Tristan, KO Export Dept.

"Bibliografia Maya Yucateca" is a 125-page bibliography of the Mayan Indians on the Mexican peninsula of Yucatan and Central America.

Copies of it have been accepted by the Smithsonian Institute, Carnegie Institute, the Library of Harvard University and many other libraries throughout the U.S. and Latin America. From them he has received letters of gratitude for his fine work. One was from Prof. Alfred Tozzer, head of Harvard's Anthropology Department.

The Rochester Museum, the U. of R. and the Rochester Public Library also have copies.

The bibliography contains more than 1000 references to newspapers, books and magazines in Spanish, French, German and English.

Jose, who was born in Costa Rica, first became interested in Mayan Indian remains there. Later, he studied the extensive ones in Yucatan and Guatemala.

Their civilization intrigued him, he declared. Theirs was the highest in the Americas from before the birth of Christ until several years

before the arrival of the Spaniards.

Agriculture—the need for the people to know when to plant and harvest—led them to a tremendous analogy of astronomy. Their calendar listed a year of 365 days, plus leap year.

Their mathematics, he continued, were based on the system of 20, and they were able to make calculations such as those predicting eclipses.

The King, priests, nobles, middle class and slaves made up the Mayan society. It was quite democratic and a man could rise from one class to another. The people exercised their free will in voting.

Considered by some historians as the most moral people ever to live, they were much concerned with integrity, good behavior and worship, Tristan added.

His next project is a book on the history of constitutional law in Latin America and its relation to the environments of each country.

Mayans Had Books—Jose Tristan, right, shows Leo Garate, an associate in KO's Export Dept., a photostat of a page from a Mayan book. He's also holding a carved stone from the Mayan civilization. Under Leo's arm is Tristan's 125-page bibliography on the Mayan Indians.

Camera Works Designer Chosen

Kenneth A. VanDyck, design engineer in the Styling Division at Camera Works, has been elected to membership in the Society of Industrial Designers. VanDyck joined Kodak in 1945. He was graduated from Carnegie Institute of Technology in 1939.

Kodak's Advertisements Tie a String

Reminder Ad—Norma Auer, left, and Virginia Smith of Kodak's Advertising Dept. look over the first of the Company's advertisements featuring the tear-off "reminder." It's reproduced in full size at right.

A "string-around-the-finger" technique is being tried on Kodak advertisements.

It's a tear-off reminder in the lower right-hand corner of ads in the current "picture-taking" campaign.

The first appeared in the Mar. 25 Saturday Evening Post. It's also in the Apr. 3 Life.

The idea is to get people to tear the little tab off and put it in their pocket or purse to remind them to buy film. It will likewise serve as a "memory-jogger" for those who don't tear it off.

KODAKERY

Vol. 8, No. 14

Apr. 6, 1950

T. M. Reg. U. S. Pat. Office

Published weekly at Rochester, N. Y., with offices at 343 State Street and printed at Kodak Park.

EDITOR — BOB LAWRENCE

Associate editors—Art Wood, Wilmer A. Brown, Division editors—Ike Shynook, Kodak Park; Sidney P. Hines, Camera Works; John Connell, Hawk-Eye; Kaye Lechleitner, Kodak Office; Edith Rogers, DPI; Woman's editor—Hilda Roman, Out-of-Rochester editor—Pat Connorton, Staff photographers—Norman Zempel, Jim Park.

1950 KPAA Board

Victors' Smiles — Victors in the annual election of KPAA officers were George Patterson, president, left, and Herbert Shaw, treasurer, pictured at top. Seated in front row, below, from left to right: Edwin Hart, Bldg. 30, trustee; Audrey Klippel, KODAKERY, recording secretary; Patricia Sullivan, Ind. Engineering, trustee; Audrey Herrick, Bldg. 29, trustee; James Culhane, Film Planning & Record, vice-president. Standing in rear, from left to right, are James Gallagher, F.D. 10, trustee; Charles McCracken, Bldg. 12, second vice-president, and Michael Corrigan, Printing, trustee.

Goin' Places and Doin' Things . . .

Nelson (Mickey) Siem has returned to his duties in Bldg. 29 after completing a three-year hitch with the Marine Corps. Mickey covered half of the globe in his travels, visiting France, Italy, Sicily, Africa, Greece, Puerto Rico and other ports of call. . . . Members of the Film Control Dept., Bldg. 26, tendered a luncheon party for Barbara Spink and C. V. Otis. Both have transferred to the Testing Dept., Bldg. 6. . . . Bert Sperry, Paper Mill, and his wife, together with two friends, left by automobile recently on a vacation trip to Florida. Their destination was Clearwater. Post cards received by friends indicate that the weather is fine and the Southern cooking excellent. . . . Frederick Smith, Roll Coating, and his wife, Maxine, Bldg. 48, are leaving Apr. 2 for El Monte, Calif., to visit relatives. . . . Ed Wispelaere, Specialty Products, and his family will move into their new Sea Breeze home Apr. 1. . . . Hazel Smith, KODAKERY correspondent for the Sundries Press Dept., Bldg. 48, is recovering at home from an illness of several weeks' duration. . . . Thomas Kane, Film Emulsion Melting, is another Florida vacationer. . . . Perry Ainsworth, retired Specialty Products Dept. shipping clerk, recently visited his many friends in Bldg. 34.

Beulah Craft has replaced Katherine MacKerchar as KODAKERY correspondent in the Portrait Sheet Film Dept., Bldg. 12. . . . Bob Cameron, formerly at DPI, has transferred to the Park's F.D. 5. . . . Members of the Plate Dept. extended their sympathy to L. E. Bliss, department superintendent, whose wife died. Mr. and Mrs. Bliss had observed their 40th wedding anniversary Mar. 13. . . . Girls of the Wage and Salary Administration Dept. entertained Lenore Maybee at a pre-nuptial dinner Mar. 22. Lenore will be married Apr. 8 to Robert Bauer, F.D. 9. . . . Paper Mill members held their annual retirement party Mar. 18, with James Hawes, Paul Moser, Michael Manning, John Towriss, James McArthur and George Tagg in attendance as honored guests. K. J. MacKenzie, superintendent of the Paper Mill, presented gifts to the men on behalf of their friends. Harold Trost officiated as master of ceremonies for the occasion,

Beulah Craft

which featured music by the "Harmonichords," Bob Strut and Bill Gray; Fay Thompson's orchestra, and Walter Randall's "one-man band." . . . Folks in the Plate Dept. are tendering their sympathy to Myrtle Jennejohn, whose mother died recently.

Vera Francis receives congratulations from Austin Culligan. Vera retired after 37 years with Kodak.

A testimonial dinner party was given recently at the Moose Club for Vera Francis, Box Dept., who retired after completing 37 years' service. Assistant Superintendent Austin Culligan made a gift presentation, and John Braund entertained with several vocal numbers. Cyril Fay served as chairman of the affair. . . . Wally Baker, Accounting, Bldg. 26, is the newly-elected president of the Union College Alumni Association of the Genesee Valley. Wally acted as master of ceremonies at a recent meeting which featured John McLoughrey, coach of last season's undefeated Union football team, as guest speaker. Baker is also chairman of the committee arranging a Union College Glee Club concert Apr. 21. . . . Harold Yahn and Wally King, Printing, were among the first to identify themselves in one of the photographs illustrating the recent Saturday Evening Post article on Rochester. The boys appear in the "quitting time" scene snapped at the Ridge Rd. gate. . . . Some 30 Emulsion Coating Dept. Shift 1 members had a bowling party Mar. 23. Following bowling, the group enjoyed a steak dinner. Cards topped off the evening's fun. William Johns, Jack Silver and William Lemon made up the arrangements committee.

Ronnie Trumbull, a former member of the Time Office, recently visited his former associates while home on a between-terms vacation from Rollins College in Winter Park, Fla. Ronnie reports

getting credit for such subjects as water skiing, golfing and swimming! . . . Walter Dick and Joseph O'Rourke, Metal Dept., Bldg. 60, represented the Rochester Section of the American Welding Society in a contest with Buffalo and Toronto members. The quiz was a feature of a welding and metalurgy forum held in Buffalo's Sheraton Hotel Mar. 23. Ed Habel served as one of the judges. Adam Brodman, Ind. Eng., also attended the parley. . . . Carol Miller and Betty Rowe, Film Control, have returned from New York City.

Earl Kage, Research Laboratory, was a member of the cast of "The Medium," a two-act chamber opera tragedy presented by the Opera Workshop of the Eastman School of Music in Kilbourn Hall. . . . Ed Jones, Testing, was tendered a farewell dinner party by his associates. Ed is leaving for Texas to enter the Army Air Force as a cadet. . . . Clarence Kehoe, head of the Sundries Tool and Die Dept., recently celebrated his 40th anniversary with the Company. He was presented a gift by department friends in an informal ceremony at his home, where he was confined by illness.

Close to 50 friends and associates of Edward Meyers feted him at a dinner recently. Ed retired from the Film Magazine Dept. Mar. 1 after completing more than 21 years' service at the Park. H. G. Hanson, assistant superintendent of the Sundries Dept., was the guest speaker. A purse was presented to Meyers by the group and Mrs. Meyers received a corsage. . . . Rupert Kuenzel, Industrial Laboratory, has returned from a Florida vacation which included a trip all the way down the peninsula to Key West. En route he visited friends in Washington, D.C., and Charlotte, N.C. . . . Agnes Nichols, Veterans' Service, Bldg. 28, was the guest of a group of her associates at a luncheon in the service dining room Mar. 23. Agnes has transferred to Supervisory Training, Bldg. 99. Attending the affair were C. A. Benson, Joe Minella, Clarence Duell, Ruth MacRae, Audrey Klippel, Ruth Heisner, Bunny Ellsworth, Margaret Bliet, Helene Gardner, Dorothy Kimmel, Marion Matthews and Ike Shynook.

Ed Meyers

No Dull Moments for Pete Manhold

Ol' Man River of song and story has nothing on William (Pete) Manhold of Kodak Park's Accounting Dept. In some 44 years of activity in varied fields of endeavor, Pete truly has merited the label, "man of distinction."

Back in 1906 Pete got a job as office boy in the Accounting Dept.

Just before the outbreak of World War I, he left the Park to cast his lot with the New York State Police when that organization was still an equestrian outfit. He was assigned to Troop A and stationed in Batavia. Infantry and cavalry drills every day made up a rugged regimen, he recalls, but he stayed on for 1½ years, earning the rank of sergeant.

Former Baseball Pitcher

Always an athlete, Manhold held down first base and pitching berths on several KP championship baseball teams around 1914. When injuries forced him out of action, he turned to umpiring and worked semipro contests in this vicinity for about a quarter of a century.

Probably one of the oldest active bowlers in Rochester, he has been a familiar figure on local alleys for 42 years. He was a member of the old Camera League which drew Kodak's best pinmen soon after the turn of the century. In 1919 he fashioned a 300 game, the third on record in local bowling competition. Right now he bowls three

Ray H. Farman, KP comptroller, congratulates Pete Manhold, left, on long-time service record.

evenings weekly and averages 178 in two circuits. He has been on the board of directors of the Rochester Bowling Association for 8 years.

Much of Pete's spare time is devoted to the enrichment of the community. As a Gray Man he has been traveling regularly to the Veterans' Hospital in Canandaigua. There he has helped arrange trips to football and baseball games and other entertainment for the patients. For the past 10 years he has served as a director of the Knot Hole Gang and for the past 25 has served in a similar capacity at Maplewood Y. He has been chairman of the Y men's group at Camp Cory for 15 seasons, and currently is holding the office of vice-president in the Kodak Park Pioneers' Club.

One of his favorite interests is

the annual Rochester Community Chest campaign, in which he has assisted as auditor for 28 years, something of a record. Press him a little more and he'll tell you about the time in 1916 when he appeared for one week at the Lyceum Theater in the cast of "Kodaki San," a KPAA-sponsored musical production.

A 'Kodak family'

Pete is proud of what he likes to call his Kodak family. A son, Gerald, formerly in Bldg. 12, compiled a brilliant athletic career at Syracuse University. He was named an All-American goalie in soccer in 1940 as well as playing top position on the varsity tennis team. A daughter, Doris, was formerly a member of the Cine Processing Dept. Pete has three grandchildren.

One brother, Jack, is in F.D. 3, and another, Carl, retired from Cine Processing about three years ago. Two sisters, Louise and Elfreda, the latter his twin, once held

Manhold as a state trooper.

down duties in the Paper Packing Dept., then located in Bldg. 2.

Still a youngster at heart, Pete keeps himself in shape for his many other commitments by playing handball and volleyball.

Nesbitt, Derby Win at Euchre

Francis Nesbitt and Lyman Derby, Emulsion Coating pair, copped the fourth and final KPAA men's doubles euchre tournament of the season Mar. 29 in Bldg. 28.

The winners won 8 games and lost 2 to pile up a total of 105 points, 5 counters ahead of Ed Bischoff and Clarence Bratcher, Cotton Washing. Both teams qualified for the citywide tourney, sponsored by the Industrial Management Council. It will be held Apr. 25 in the KP cafeteria. Close to 600 twosomes are expected to compete.

Also making the prize list last week were George Abrey-Frank Finley; Frank Robinson - Ralph Crego; Norm Singleton-Carl Oette; James Flanagan-John L'Homme-dieu; Levinus Jackson - William Field; Tom Noll-Frank Humphreys; Warren Crump-John Reed, and Lloyd Wood-Hans Ritchie.

The following KP combinations previously have qualified for the IMC play: Oette-Singleton, William Wilder-Leonard Hysner, Robert Brice-James Lerkins, Louis Pallozzi-George Popp, John Reber-Bernard Reber, and Frank McGregor-Raymond Clark.

Horace Robinson Taken by Death

Horace E. Robinson, a retired superintendent of the Printing and the Sundries Manufacturing Depts., died Mar. 23.

A native of England, he came to this country in 1896 and joined the KP Finished Film Dept. in 1906. In 1918 he was appointed assistant superintendent of the Printing Dept. and in 1929 became superintendent of Printing and Sundries Manufacturing. He left the Company in 1939 because of illness and retired from active duty in 1944.

Bridge Sessions Set

The KPAA Bridge Club will conduct the final two sessions of its handicap tournament Apr. 10 and 17 in Bldg. 28 to end activities for the current season. A spring dinner party is planned tentatively.

Show Curtails Noon Schedule

A change in its noon-hour activities program for the next two weeks has been announced by the KPAA.

Due to the Spring Show which will engage the facilities of the Bldg. 28 gym from Apr. 10-14 inclusive, there will be no movies or games during the entire week. Only the rifle range in the sub-basement will be open on a regular schedule.

The following week, Apr. 17-21 inclusive, noon-hour movies will be presented every day, Monday through Friday. This will mark the conclusion of indoor activities until fall.

Spring Show—One of the many acts on the KPAA's star-studded Spring Show next week will be Sam Linfield's Crazy Scouts, who will present a comedy-tumbling routine. In addition to the evening performances, Apr. 10-14, there will be matinees Wednesday, Friday and Saturday, Apr. 15, for children and trickworkers.

First for Dallas Branch — E. Newton Carter stencils box of chemicals aboard the first freight car load destined for the new Dallas Branch. Bob Newman, right, foreman, and Jack Schaeffer, general foreman at the Distribution Center at KPW, keep an eye on the loading operations.

74 at Kodak Given Diplomas In RIT Convocation at Park

Seventy-four Kodak members were presented diplomas Tuesday night. They are members of the 1950 class of the Management Division of the RIT Evening and Extension School. Ceremonies of graduation and the annual dinner were in the Bldg. 28 cafeteria at Kodak Park where Russell C. McCarthy, head of the Industrial Management Council, gave the diplomas. The class was introduced by Dr. Mark Ellingson, RIT president.

The Kodak graduates are:

Management III (A)

Kodak Park—Steve E. Adams, Leonard J. Bader, Paul R. Beaumont, Fred W. Benz, Walter J. Berl, Fred G. Blum Jr., Kenneth E. Case, James B. Crosby, Louis J. Daignault, George L. DePape, James E. Dittmar, Devere M. Dodson, Ernest L. Donadoni, Edward C. Dreschmidt, Harold S. Dreschmidt, Raymond L. Elliott, David H. Gleason, Eugene B. Harding, Ralph G. Hoppe, Kenneth W. Judge, Wallace L. Knack, Robert L. Knapp, Karl R. Litzberger, Gerald M. Lunger, John R. Malby, James M. Meagher, Jack D. Michie, Joe A. Nolin, Joseph G. O'Brien, Clifford H. Price, William J. Revelle, William P. Roggie, James H. Ruffie, Walter C. Sealey, Arnold J. Shoniker, William H. Siegwald, William F. Slayton, Frank A. Smith, Walter E. Snell, Francis R. Tacy, William H. Unterborn, George A. Zoller.

Kodak Office—Frederick A. Garlick. Camera Works—Roy J. Colegrove, John V. Kery, Clarence G. Streib, Clarence W. VanDuser.

Hawk-Eye — Kayward G. Clarke, Norman L. Harward.

Navy Ordnance Division—John J. Magee, Eugene A. Steger, Buron D. Wasson.

Distillation Products Industries — Donald A. DeHollander.

Roger's Great Guy

(Continued from Page 1)

the clinic two years ago, he couldn't walk. He does pretty well now.

What's even more remarkable, he's learning to play the piano. They say he has perfect pitch.

He sang a song for us and played another. Not bad, either.

Roger has a couple of aids he uses—a cane and a football helmet. The latter is to keep him from bumping his head on unfamiliar objects.

The clinic's a wonderful and a cheery place. They're sure doing a swell job.

Herb Winterroth of DPI, who reports to you today on the Cerebral Palsy Clinic, might have "covered" any one of eight other agencies that do the same type of work with Community Chest funds. These are: Association for the Blind of Rochester; Convalescent Hospital for Children; Medical Motor Service; Rochester Hearing Society; Rochester Hospital Council; Rochester Rehabilitation Center; Tuberculosis and Health Association-Rochester Committee; Visiting Nurse Association.

Management III (B)

Kodak Park—David E. Crumb, Arthur Dale, James E. Dittmar, Raymond L. Elliott, Clarence C. Herrmann, Armand L. LaMay, George D. MacPherson, Arnold J. Shoniker, Donald C. Treadway, Joseph A. Zimmer.

Kodak Office—Ruth L. Beldue, Josephine F. Haire, Raymond A. MacNally. Camera Works—Richard E. Border, Roy J. Colegrove, Donald W. Napier, Carl N. Heuer, Robert J. Reed, Jane H. Taylor.

Navy Ordnance Division—Anna B. Trombly, Elsie L. VanHanehem.

40 Years for Marie—

Marie O'Donnell, who celebrated her 40th anniversary with Kodak on Tuesday, is receiving her gold service pin from Ray Pope, head of the Distribution Center's Export Billing Dept. She'll retire from Kodak tomorrow. Her Kodak friends will fete her at a party Apr. 11 at Brook-Lea, and on Apr. 21 she'll leave for Miami, Fla. The first 19 years of her Kodak stay were at Kodak Office.

Branch Plan Offers More Dealer Help

Better and more complete service to its dealers will result with the appointment of assistant managers for sales in the Company's six U.S. branches. Names of the men filling these posts were announced recently.

James E. McGhee, vice-president and general sales manager, said that certain sales supervisory activities formerly centered in Rochester have been moved into the Company's distribution branches. "We expect the change will help us give more active assistance to dealers and will bring a better understanding of dealers' problems," McGhee declared.

"What we are doing is moving our selling effort into our branches to provide more direct service to dealers."

McGhee said more salesmen have been added to the Kodak field staff to step up the frequency of dealer contacts.

"We have also hired additional technical representatives who will help us provide service to commercial and industrial users of Kodak products," he added.

Appointed as assistant managers for sales are: Gerald B. Zornow, New York Branch; Stanley A. Brady, Rochester Branch; Langdon Common, Chicago Branch; Thomas D. Major Jr., Los Angeles Branch; Wylie S. Robson, San Francisco Branch, and Eric D. Sittenstatter, Dallas Branch.

The new assistant managers for sales will operate under direct supervision and authority of the branch managers.

5 Years Ago

(KODAKERY, Apr. 3, 1945)

Two Kodak-Pathe men visit Rochester—Alfred Landucci, plant manager and a director, and Georges Moreau, Board of Directors member. This is their first visit since the war began.

Frank W. Lovejoy, chairman of the Company's Board, wins Rotary Civic Achievement Award for 1944. He is honored "for his quality as a citizen of Rochester and for his long-time influence on the life of the city through his leadership at Kodak."

Eight Bastogne heroes, veterans of fighting in France, visit Hawk-Eye. They remarked: "These range finders, telescopes, tank periscopes and bombsights are saving lives of hundreds of our buddies daily."

David Hall, Kodak Park Industrial Lab, and Charles Pope, Industrial Engineering Lab, receive Distinguished Service Award from the Ordnance Department.

Harold Adams of the Army's Psychological Warfare Branch is back as salesman with Kodak after 23 months in Africa, Italy and France. As a war photographer he took combat and other war pictures for both Army Intelligence and the OWI.

Curtis in England — Edward P. Curtis, right, Kodak vice-president in charge of European sales, advertising and distribution, is shown in conference with E. E. Blake, chairman of the Board of Kodak Ltd., England, and general manager of the European and Overseas Organization. Curtis' business trip also took him to France and Germany. He returned yesterday on the Queen Mary.

Kodak Teams Cop Top Spots In IMC Bridge Tournament

Kodak teams placed first in both championship and consolation sections of the recent IMC Open Pair Match Point Duplicate Bridge Tournament in Bldg. 28, KP. Ten Kodak teams in all shared in the prize money.

Park Men Champs

First in the championship section to win were Charles Vilbrandt and William Parker of KP with 283.8 match points. They received \$10. Wallace Andrus and Robert Chasey, also of KP, placed fourth with 255.9 points for \$5, and Dr. A. W. Tyler and Dr. William Feldman of CW were fifth with 255.1 points for \$4.

Ninth place and \$3 went to R. A. Mahone and Richard Miller of KP with 238 points. Ray Happ and Wilson Battey of KP made 10th for \$3 with 237.4 points.

KO Girls Win

In the consolation section, North-South winners were Gertrude Davis and Hilda Standish of KO with 180 points. They won \$5. Winning \$4 in second place were Herbert Foley and Clay Vallandigham of CW with 178.5 points.

East-West consolation winners were S. S. Fierke and Donald Bellis of KP with 194 points. DPIers

Clyde Eddinger and Homer Brooks won fourth with 174 points and Carl Presgrave and Robert Whitley of CW were fifth with 172. Each of the latter teams won \$3.

Two qualifying matches Mar. 14 and 21 preceded the final match Mar. 28. There were 120 entrants. Ken Klingler, DPI recreation director, was chairman of the tournament committee.

Ralph Strikes Oil—in Home

Ralph Amdursky struck oil last week! It gushed right up in the basement of his Barry Rd. home.

The Photographic Illustrations Div. cameraman discovered that water from melting snows had seeped into his basement.

The draining tiles under the basement floor were doing a good job of carrying it off. There were two pools of water near the furnace, though, and Amdursky wanted to get rid of them.

He decided to chop two holes in the floor to carry the water off faster.

The first hole did a good job.

The second brought in oil! Ralph had hit a quarter-inch pipe which carried oil from the tank to the furnace.

Ralph shut off the oil in a hurry. Then began the messy mopping-up job.

Oh, yes, the water's gone now.

Booklet Revised On Photography

A newly revised edition of the popular booklet, "Developing, Printing, and Enlarging," has been issued by Kodak.

It describes the basic methods of each with easy-to-follow instructions and illustrations. There are sections covering the preparation of solutions, required equipment, developing charts, and a clinic with hints on attaining good quality in both negatives and prints. It is 25 cents per copy at all Kodak dealers.

Making New Ektar Lenses at H-E — Shown here are some of the operations that go into the production of the new Kodak Process Ektar Lenses at Hawk-Eye. At left is Christine Vamonaco engraving a lens barrel with stop marks and other data in Dept. 38. At right George Phillips does final assembly work in Dept. 82. Other pictures and story on Page 1.

Coast to Coast

A freak blizzard trapped Salesman Robert Tobin, EK Stores, Inc., Sioux City, overnight at an automobile service station near Tyn-dall, S.D. Manford Spring, another Sioux City Kodaker, spent the night at the store. Visibility was less than 25 feet, due to heavily falling snow and extremely high winds.

Kay Whelan of the Flushing Lab 35mm. Dept. vacationed to take care of her pet cocker spaniel, Judy, who gave birth to three pups. The Whelans are keeping one pup and calling him Punch.

Members of Eastman Kodak Stores, Inc., Denver, and their guests enjoyed their annual dinner recently. Bessie Grant received a farewell gift. She retired Apr. 1 after 32 years with Kodak.

Prize Press Photos

Appropriately named, "Smash Blow," above, took first prize in the Speedlite Sports Class for Thomas J. Fitzsimmons of the Associated Press.

George Mattson of the New York Daily News was the press photographer right on the job when this tragedy, at right, occurred. "Portrait of a Broken Heart" won first prize in the Spot News Class.

Here are the top prize-winning pictures displayed at the 14th Annual Photo Exhibit of the Press Photographers Association of New York. These and other outstanding news "shots" of the year are being shown at the George Eastman House from now to the end of this month.

Mother prevented this "Impulsive Colleen," above, from joining a St. Patrick's Day parade. The picture won Arthur H. Sasse of International News Photos first prize in the Feature Class.

Giant 2nd baseman "Hank" Thomson flies through the air making a double play and provides George Miller of the New York Journal-American with a first-prize picture, "Aerialist," in the Sports Class. The action took place at Ebbets Field.

First in the Portrait Class was Bernie Aumuller's "The Face of Faith," picturing a man offering a Christmas prayer at the Bowery Mission. A clergyman pats the supplicant encouragingly. Aumuller represents the New York Daily Mirror.

"Coming in on the Wing," below, copped first prize for Sam Falk, New York Times, in the Pictorial Class. The winged beauties are gannets snapped on Bonaventure Island, Canada.

Tests with Vitamin A Show Good Results on Hearing

Research is continually uncovering new and interesting facts about food. A Kodak girl stumbled upon one of them when she asked Wintress D. Murray to answer a question about hearing. The EK nutrition adviser tells us interesting food facts in answers to other questions below.

Wintress D. Murray

What is the best way to cook canned vegetables?

Drain the liquid from the can into a saucepan and heat to boiling. Add the vegetable and heat through quickly. The liquid in the can con-

tains valuable vitamins and minerals and should not be thrown away.

Vitamin A helps your seeing. Is there a certain vitamin that is good for hearing?

I recently read of an experiment in which intramuscular injections of vitamin A concentrate improved hearing in 83 per cent of 300 patients treated. All reported that the annoying "buzzing" in the ear was completely relieved. This has, however, not been confirmed by any other study so far as I know.

Is there any harm in drinking water with one's meals?

No. However, one should not drink water until food has been thoroughly chewed and swallowed.

What is the quickest method of unfreezing meat, for example, pork chops or hamburger?

The quickest method of thawing meat is to put it in front of an electric fan. It will take about 45 minutes per pound. Slower thawing is better if you have the time, because the shrinkage and juice loss will be less.

In answering a question recently you used the word gram. What is a gram?

It is a weight in the metric system. The fact that one oyster cracker . . . the little round kind often served with soup . . . weighs one gram will perhaps help you understand this unit of measure. An average slice of bread weighs 25 grams.

Yum Yum! It's Chocolate Banana Cake

Banana-Chocolate Cake is "one of those special occasion cakes," says Evelyn Boecker, KO Adjustment Dept. "We've had the recipe for years, and it's one of Mother's favorites," she adds enthusiastically. It's quite a rich cake, three layers topped with icing.

Evelyn Boecker

Banana-Chocolate Cake

1/2 c. shortening
1 c. sugar
2 ripe bananas
3 eggs

2 1/2 c. cake flour

1/2 t. salt

2 1/2 t. baking powder

3 T. cocoa

1/2 c. evaporated milk diluted with 1/2 c. water

Cream shortening and add sugar. Add cut-up bananas and blend well. Add unbeaten eggs and beat. Add sifted dry ingredients alternately with diluted milk. Bake in three layers 15 to 20 minutes at 375° F. Frost each layer with chocolate butter icing.

Chocolate Butter Icing

6 T. butter
3 c. sifted Confectioner's sugar
3/4 t. vanilla
2 1/2 sqs. unsweetened chocolate, melted
2 T. milk

Cream butter. Add 1 c. sugar and cream thoroughly. Add remaining sugar gradually, beating well after each addition. Thin with milk until the right consistency.

Kodapak Keeps Dolls Factory-New

Kodapak now is keeping dolls' tresses and dresses factory-fresh while on display.

It solved one of the biggest problems of doll dealers—the tendency of potential customers to handle the merchandise. This often lowered the value of the dolls because of soilage.

The attractive package is being fabricated by Peninsula Craftsmen for the Doll Craft Company of California. The crystal-clear Kodapak cover allows effective display without the danger of soiling the dolls, merchants reported to the factory.

CWers Share Many Hobbies

Exchange Notes — Leona Koszalka, CW Dept. 71, and Marge Volke, CW Dept. 73, show each other products of their pastimes.

When Leona Koszalka and Marge Volke get together, they have lots in common to talk about. Both Camera Works girls have a variety of hobbies. They make all their own clothes, for one thing.

Marge is a self-made amateur artist. She's never taken a lesson, but a good deal of reading and practice have led to some fine results. She works with water colors, crayons and oils. The picture she displays above is an oil painting, a scene she copied from a post card. It's of an Italian church in Switzerland.

Leona specializes in tatting. She taught Marge how to do it too. The jerkin suit she wears above is one of her own sewing creations. It's a brown tweed, which she wears with a yellow blouse and brown tie. Marge also sewed the smart green dress she wears.

Both talented misses are glove-makers. They learned this in Home Bureau lessons, which they attended together.

This Is It — This is the metallographic camera outfit with which Jessie Herren, H-E photomicrographer, gets such results as pictured in the circle. They look like pebbles, but really are minute grains of diamond dust enlarged 200 times.

H-E Photomicrographer Unique in Her Field

Tucked in a corner room beyond shelves of test tubes, microscopes and other scientific equipment in the Hawk-Eye Chemical Lab you'll find one of the few women photomicrographers.

She's Jessie Herren, a quiet, pleasant ash-blond, who deals with diamonds as impartially as with bronze, copper or steel.

That's right. She photographs diamond dust used at Hawk-Eye for finishing prisms and lenses. The diamond dust must be constant to maintain quality of the finishing. It impresses her no more than opening her camera shutter to metals, her main photographic subjects. She's equally meticulous.

Jessie explains that photomicrography is, simply, taking pictures with a camera equipped with a microscope. She uses a metallographic camera outfit.

So the Eye Can See

The picture is so enlarged that every line or pattern in a metal's surface may be revealed. To Jane Doe, the resulting picture is just a maze. Actually, a wealth of information is obtained from it. Jessie can "read the signs" readily.

Photographically, a fragment of metal is "blown up" anywhere from 150 to 300 times its original size. She's enlarged a sample as much as 2000 times.

She was introduced to photomicrography at the Tennessee Eastman Corporation. Becoming acquainted with it as a lab assistant, she then learned the intricacies of the science in a six-month course she took. Jessie was at TEC for 12 years before coming to Hawk-Eye three years ago.

Paving the Way

Biggest part of photomicrography, according to her, is preparing the metal sample for photographing. "It sometimes takes many hours," she declares. The sample is ground with four different grades of emery paper and polished down with a polishing wheel.

Does Carbon Analyses

A solution, usually acid, then is applied. It etches the surface, which has been distorted in the polishing process. By this treatment, she arrives at a true surface of the metal.

After the sample has been set in a mold, it's ready for photographing. "Taking the picture is very simple," she said. Knowing what one of numerous lenses to use is

The Way We Heard It

ONE ONION—A peeled onion on the bottom of a baked bean pot adds to the flavor.

GOLLY, GUM—To remove chewing gum from clothing, rub ice over the stain.

About the Model

There are blonds, brunettes and redheads in the Yeoman family, and the two attractive sisters in this picture are the redheads. Jean, 21, is the older and is a member of the Industrial Relations Dept. at DPI. Ruth is 18. She's a DPI'er too, in the Comptroller's Dept. Both do secretarial work. Ruth is the more athletic of the two, swimming being her favorite sport.

Shirts, Skirts and Flowers — They're a great combination this season. As a matter of fact, colorful artificial flowers give almost any outfit a big boost. DPI's Yeoman sisters above, Jean at left and Ruth at right, model sharp-looking lightweight wool skirts and tissue faille blouses from Sibley's. Jean's is a trouser skirt with Navy checks, while Ruth's is a gray and white stripe with big pockets, high waist with flaps.

The Market Place

AUTOMOBILES FOR SALE

Chevrolet, 1938, Deluxe, \$100. Char. 0382-J.

Chevrolet, 1937 coach, 2 fog lights, spotlight, Motorola and Philco car radios. 8 High St., Pittsford 172-M.

RIFLE—22 Stevens Hornet, new. For: 20 gauge pump or automatic shotgun. Charles Hodge, 71 Thomas St., rear.

Splash! 'Nother Title for Bud

Bud Mayfield
county and city diving champion.

Hawk-Eye's Bud Mayfield captured first-place diving honors in the recent Monroe County Niagara District A.A.U. swimming and diving meet. Bud came from behind in the last event to edge out his brother, who finished in the runnerup spot. The field included divers from high schools and colleges in the Rochester area.

Winning diving honors is nothing new to the HEAA staff member. When he was 14, Mayfield took third place in the National YMCA competition held in Detroit. At Marshall YM he was undefeated over a four-year span, and has held the city diving title for the past eight years.

Bud's brother, John, picked up where he left off at Marshall, winning the high school title for the past three years. During that time he also placed second to Bud in the city championship tests.

Mayfield does not confine his athletic activities to the diving board. During the past basketball season he captained the Hawk-Eye entry in the Dusty League and was the club's top scorer, averaging 15 points per game. In the summer he divides his time between golf and softball, participating in both sports in H-E intraplan leagues.

President Talks Bowling — Winners of the recent all-Kodak Singles Bowling Handicaps last week received the President's trophies from the donor. From left, above: Alex Johnston, men's champion; Gerry Conn, winner of women's tournament; Cap Carroll, HEAA director, and chairman of the all-Kodak pin classics, and T. J. Hargrave, Company president. In exchange for wrist watches he presented them, bowling champs offer Mr. Hargrave tenpin tips. In the picture Gerry and Alex hold first-place checks for \$50 and \$100, respectively. In addition to cash award, each winner annually receives President's trophy.

B-23, Cafeteria Fives Win; Steele Swishes Record 46

Bldg. 23 and Cafeteria quints walked off with division titles in the KPAA Departmental Basketball League which closed its regular season last week. Playoff contests are now under way.

Martin Elected Pin Prexy

Joe Martin will again head the KO American Bowling League next season. Other officers elected are Sam Maurizio, secretary, and Bob Butterfield, treasurer.

Bill Losee's 593 aggregate topped the field in the loop's annual rollofs. Prexy Martin was runnerup with 589. Other Class A winners included Lee Feldt and Maurizio.

Class B singles winners: Don Elmslie, Tommy Tompkins, Bob Sullivan, Frank Topel. Doubles: Martin-Statt 1073, Park-Elmslie 1070, Feldt-Ezyk 1068, Losee-Chesterman 1062.

Steele

the winners.

By upsetting Bldg. 42, 49-41, and stopping Color Control, 33-28, the Plate Busters won the runnerup spot in the American Division.

Dick Boehler chalked up a total of 33 points in the two frays.

Art Steele, setting a league individual scoring mark of 46 points, led his Film Emulsion outfit to a buxom 102-35 win over Color Control. Milt Dutcher added 20 points to the cause.

Final seasonal standings:

National Division			
	W	L	
Bldg. 23	17	1	Kodacolor
Emul. Res.	16	2	Sensitom.
Roll Ctg.	15	3	Ind. Eng.

American Division			
	W	L	
Cafeteria	10	8	Bldg. 58
Plate Bust.	9	9	Color Cont.
Bldg. 126	7	11	Testing
Field Depts.	7	11	Emul. Ctg.

Weigand's 257 Leads Pinmen

The top 10-frame score racked up in Kodak leagues last week was Jim Weigand's booming 257 in the KPAA "A" League.

Mary Best of DPI led the gals with a 211-559 effort. High single game was Jeanette Pace's 221 in the KPAA 16-Team League.

Elmer Kraft crayoned the season's high single—a 235—in the H-E Webber.

Mary Neill and Velma McCall starred in the KPAA 6-Team League. Mary registered a 443 series, while Velma shot a 434.

Other scores follow:

MEN'S LEAGUES
Kodak Park — George Stoldt 629, Roger Hall 222-617, Tony Jackman 223, Fred Godsave 223, Charles Frank 216, Ray Schutt 215.

Hawk-Eye—Stan Gurski 225-614; Jim McEneaney 233, Pete Arva 223, Ollie Seebach 216, Bill Muench 214, Howard Reulbach 214, Harry Coene 221.

Camera Works—Bob Edmunds 236, Harold Rohrer 231, Leo Perreault 201, Ed Avery 212, Walter Karle 209, Russ Lynch 204, Don Reinhardt 202, Walt Frohner 222, Eugene Schaeffer 222; Ed Fien 202, Lou Sylvester 209, Walt Hoffman 208, Dick Steehler 203.

DPI—Stan Sichak 250, Don Cottom 236, Bill Blum 241, Bob Alhart 227, Nels List 222-618.

WOMEN'S LEAGUES
Kodak Park—Eleanor Sill 554; Marge Sale and Evelyn Long 535, Amy Lewis 212.

Hawk-Eye—Irene Zelazny 206.
Kodak Office—Ann Ward 197, Louise Welch 189-512.

Camera Works—Betty Link 200.

Tennis Club Elects

Doug LaBudde, KP, was elected vice-president, and Dave Flint, Camera Works, treasurer, of the Tennis Club of Rochester for the 1950 season at the group's annual meeting held recently.

CW Champions — Over-all champion of the CW Shop League for the 1948-49 season is the Dept. 49 team pictured above. The boys won the regular season championship and the playoffs with a perfect 13-and-0 record. From left, kneeling: Howie Baglin, Johnny Coia, Howard (Hap) Chandler, Joe DiGiro, John Jarvie; rear: Roger Harradine, Bernie Messmer.

Done Up Brown

By Will Brown

DON'T LOOK NOW, but that's the 1950 softball season just around the corner. . . . See where the Champion Industrial League has reelected Mike Farrell its president. The KP Dusties' pilot hopes

for similar success in league play, and will be out to repeat his 1948 pennant performance. . . . Ken Mothorp, the DPI skipper, has other ideas, however. DPI, which finished second in the Champion circuit last summer, was one of three clubs to subdue the KP Dusties. Mothorp and mates fared better still in the Rochester Industrial League, winning the regular-season race as well as the post-season playoffs. . . . And over at Hawk-Eye things are looking up. Pete Mistretta, who guided the Hawks to a first-division finish in the strong Major Dusty wheel last year, will welcome several newcomers when H-E candidates report for "spring training." They include Joe DeJoy, a catcher-secondbaseman from CW; "Hots" Waja, former Ritter backstop, and Al Pappas and Egan Harder, both gardeners. . . . And taking a fleeting

glance at the basketball picture: Wasn't that quite a season KP's "goal dust twins" had for themselves? We refer, of course, to the basket sniping of Messrs. Overmyer and Nesbitt. According to Oscar (Ike) Shynook, KP scrivener and statistician, Overmyer scored 634 points in the Kaypees' 35 games, while Nesbitt totaled 601. "Red" canned 232 field goals and 170 free throws, while Charlie hit 256 times from the field, but sank only 89 charity tosses. . . . Saddest of all Kodakers when the Royals bowed out was Carol Greer. This NOD miss sat in on nearly every home game. Carol's favorite player? Ed Mikan!

MAPLE SYRUP—Finishing with a 75 score was discouraging enough for Henry Darwent, H-E kegler. But to add to Hank's chagrin his Dept. 32 team lost that particular game by a single pin. . . . In a recent KPAA "A" League session Dick Nichols picked the 5-10 split

three times and the 6-10 spread once. . . . One of the most superstitious members of the KO tenpin fraternity is John Hess, who wears the same tie every bowling night. The cravat in question is dotted with what Hess says are bowling balls, or reasonable facsimiles thereof. Johnny's average has zoomed to 150 since he started wearing the tie. . . . As assistant to Ken Klingler, DPI recreation boss, Mary Best has long been recording other bowlers' records.

The other evening Mary, a 140 average bowler, rolled games of 154, 211 and 194 to gather 559 pins. The 211 was high single in the DPI Girls' League this season, and the three-game total is an all-time series record for the league. . . . When Lucy Murray finished fourth in the all-Kodak Women's Singles Handicap it marked the third time this season the H-E keglerette has landed in the money in tournament competition. Lucy teamed up with her hubby, Bob, of CW, and Len Neuer, H-E, to take the all-Kodak Triples, and later she joined Palmer Gaetano and Clarence McVea in a successful bid for the HEAA Mixed Threesome crown. . . . A couple of solid scores that escaped mention during the tournament turmoil were Joe Falls' scorching 264-641 in the KP Paper Service League, and Ed VerColen's 246-656 scratch in the KPAA "A" loop. . . . Seems Harold Conge is always getting credit for brother Herb's efforts in the H-E Ridge wheel. Herb's sizzling southpaw tosses recently produced a lofty 246.

Mary Best Lucy Murray

Penpushers Clinch KO Basketball Championship

Defeating Shipping, 43-37, while Repair upset Rochester Branch, the Penpushers Monday night clinched the KO Intraplant cage championship. Ken Mason led the Penpushers' offensive with 19. Dom DeFendis and Bob Clark scored 14 apiece as Repair beat Branch, 40-36. Bob Lawrence bagged 14 points.
