

# Uncle Sam Invites You To Join Bond Drive

Kodak people in the Rochester area soon will be given a special opportunity to participate in the current nationwide U.S. Savings Bond drive.

A replica of the famous Liberty Bell—one of 52 made for use in the United States and its territories to spur U.S. Savings Bond purchases—soon will be visiting Rochester. "Ring your own Liberty Bell for economic freedom and independence by buying U.S. Savings Bonds" is the theme of the drive.

To inform EK folks about advantages of U.S. Savings Bonds, and to tell them how everyone can participate in the big drive if he wishes, the Company is sending a letter to all its people in Rochester. It's in lieu of personal solicitations.

The application blank in KODAKERY today or the blank included with the letter may be used to secure information to order bonds. They may be purchased through regular payroll deductions. Those wishing to pay cash may make direct purchases through the Eastman Savings and Loan.

The regular Series E bonds, which mature in 10 years, are being offered in this drive. They pay \$4 at maturity for each \$3 invested now. The bonds are available in \$25, \$50 and \$100 denominations.

Employees of more than 20,000 large companies throughout the nation now are buying more than \$150 million worth of Savings Bonds each month. The current drive is aimed at new national sales of U.S. Savings Bonds totaling \$650,000,000, for Series E bonds only. New York State's quota is \$79,885,000. This Savings Bond drive will continue to July 4.

U.S. Savings Bonds offered in this drive not only represent an excellent way to earn a good return on investments, but also provide a liquid financial reserve. Any time after 60 days from date of purchase they can be turned in for their full purchase price plus any

interest that has accrued. Full interest, however, is not available until maturity of the bonds. They are safer than cash, because the Government replaces them, subject to proof of ownership, if they are lost, stolen or destroyed.

**Interested Viewers**—Adolph Stuber, left, Kodak vice-president in charge of sales and advertising, and W. B. Potter, director of advertising operations, look over part of the advertising exhibit in the State St. auditorium.

## I'm a 'Worry Wart' About My Kids . . .

By Bob Lawrence (Editor of KODAKERY)

I'm a regular "worry wart" when it comes to my kids.

When one gets a bad cold, I'm sure it's pneumonia. Come a sore throat and I'm positive it's diphtheria . . . and so it goes.

I've always been scared to death of polio. There's nothing you can do, I guess, but hope and pray it doesn't hit your family.

Besides being tough to lick, it's pretty darn expensive, too. Of

course when something like that comes, you never think of the cost.

The other day, though, I heard of an insurance policy to take care of the cost angle. It covers all expenses connected with polio up to \$5000 for each member of your family. Its cost is so small—\$10 for two years—that I didn't feel I could pass it up.

Dick Gearhart of KO was covered by just such a policy last November when his little son, Dick jr., was stricken with infantile paralysis. It cost \$1000 a month while the boy was in the hospital, and to date the lad's treatment has come to \$4200.

The Infantile Paralysis Foundation has done a marvelous job. It has spent millions. Last year the Monroe County Chapter spent over

\$42,000 in the treatment of local cases. Each year, however, the Foundation can spend only what the public gives.

I understand only a few companies write such policies, but I'm sure if you're interested, your car or casualty insurance man can tell you where to get the policy.

## Here's How We Gave!

Kodak men and women and the Eastman Kodak Company together contributed \$581,468 to the Community Chest this year.

Of this amount, 23,968 Kodakers gave \$225,718 in the Industrial Division; 2666 contributed \$57,985 in the Individual Subscribers' Division and \$57,765 was contributed in Special Gifts by 81 persons. The Company gave \$240,000.

In all, there were 26,716 Kodak contributors, including the Company, which represented 20.3 per cent of all contributors. The combined Kodak total of \$581,468 represented 26.5 per cent of the entire amount raised in the campaign.

## Exhibit Tells Advertising Story of EK

The story of Kodak's Advertising Program . . . what it is, what it does and what it means . . . was told graphically this week in the State St. auditorium.

It was presented by means of an exhibit which shows a cross-section of the Company's program to increase the desire for and sale of its products through advertising.

It shows how advertising helps to increase business, step up production, promote the Company's growth and create jobs for Kodak men and women.

The display shows the extent of Company advertising today carried out in magazines, newspapers, counter and window displays, mailing pieces, counter material in its packaging, through convention exhibits, etc. It shows the widespread appeal it makes not only to amateur users but in the fields of industry, to professional and commercial users, medical and dental professions, etc.

One panel features the Company's early advertising efforts. George Eastman was a pioneer in that field, being one of the first to recognize mass markets and develop wide distribution at low cost through advertising, mass production and product research.

Kodak's advertising has helped put photography within the reach of every family and has helped to popularize it as a tool of science, industry, medicine, commerce and education.

Advertising also has had a hand in keeping prices down. Kodak's over-all prices, for instance, have gone only 25 per cent above the 1941 level, compared with general price increases of 75 per cent.

The display also gets into economics, to dispel the misconception some people have that advertising increases prices. It shows that prices actually are lower due to the quantity production and mass distribution advertising helps achieve. It cites some down-to-

(Continued on Page 4)

## This Is YOUR Opportunity

I'd like to sign up to buy U. S. Savings Bonds during the Treasury Department's "Independence Drive."

I'm interested in Payroll Deductions ☐

NAME .....

PLANT..... DEPARTMENT.....

(Just clip this out, fill it in and drop it in the Company mail, addressed to Industrial Relations Dept.)

## Just 60 Millionths of an Inch . . .

60 millionths of an inch!

That's pretty small . . . but that's the width of a line that American Optical Company puts on its Stage Micrometers.

A Stage Micrometer is used by scientists, chemists, doctors, etc., to measure particles under a microscope. These particles are so small they can't be seen with the naked eye.

Stage Micrometers start out as Kodak Spectroscopic Plates which are produced in Bldg. 3, Kodak Park (Emulsion Research). They're glass, 1x3 inches in size, coated with a special emulsion known as 548-GH.

On these, by means of photography, the firm puts a scale.

It's the very same scale you see reproduced here, except that this one is 100 times as large as it appears on the Stage Micrometer.

In other words, this entire scale is reduced to only 2 millimeters long. That's just slightly over 1/16 of an inch. It can hardly be seen

on the plate if held up to light. The lines you see here are the ones that are reduced to 60 millionths of an inch wide. The spaces between them reduce to 400 millionths. Yet, under a microscope, the figures and lines loom up large.

### Get the Idea?

If you have ever looked through the bottom of a telescope and seen a small image of something up close to you, you can visualize the technique used in making the Stage Micrometers.

A microscope is used in reverse, so to speak, so that the image is reduced instead of enlarged. The plates, after being exposed, are developed, fixed and washed, as in any other photographic process, except that they must be handled

with extreme care to eliminate abrasion marks and dirt.

A small round piece of cover glass, approximately 1/1000 of an inch thick, is placed over the final image as further protection against damage.

So precisely can this be done that the entire length of the scale is accurate to 60 millionths of an inch. The secret lies in the emulsion, which has an extremely high resolving power.

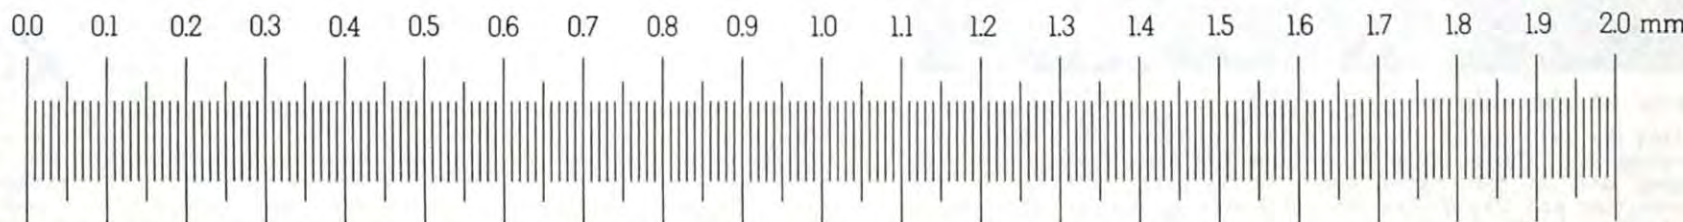

The Stage Micrometer has many uses. For example, canners use it to determine the purity of tomato products. It is used in bacteriological work to determine purity of water and other materials. Laboratories all over the world use them daily to measure.

By the way . . . 60 millionths of an inch . . . know how wide that is? Well, it's just about 1/50th the width of a human hair! Pretty fine, huh?

**Inspection**—Mary Christensen, Emulsion Research, Bldg. 3, Kodak Park, inspects a spectroscopic plate which will be cut into 1x3-inch pieces. She can catch defects as small as 11 microns. A micron is 1/1000th of a millimeter.

**Fine Work**—If you imagine this scale reduced to just a little over 1/16th of an inch, you can visualize how fine the lines would be. It's used in microscopes to measure objects that must be greatly magnified to see.

## Technical Service Lab Opens in N.Y. Branch

**Dye Transfer Demonstration**—Phil Sydney, center, new inside technical service representative at the New York Branch, explains the Kodak Dye Transfer Process to two customers.

A technical service lab has been set up at the New York Branch with Phil Sydney as inside technical service representative. This is the first time such a service has been offered to the field.

### 5 Years Ago

(KODAKERY, June 5, 1945)

Kodak bond buyers oversubscribe the Seventh War Loan goal of \$3,578,280 by five per cent. The Company was assigned its highest quota . . . a million dollars above that of the Sixth War Loan.

Aiming circles made at Camera Works star in Army's "Weapons for Victory" broadcast on nationwide CBS hookup.

Kodak folk get chance to name B-20 Superfortress photo-reconnaissance plane. Plane commander is Lt. Charles A. Lessinger of Rochester. Crew will select winning name.

Eastman Kodak Stores, Inc., Portland, celebrates its 20th anniversary. Manager E. P. O'Neill, J. F. McLean, credit manager, and A. O. Muntzel, salesman, are pioneer members of the store.

1st Cook: "Why do men eat more pancakes than waffles for breakfast?"

Mess Sgt.: "Because flapjacks slip over and make room. Waffles have a non-skid tread and won't budge."

Sydney supervises work in the lab and studio, gives data by phone and demonstrates new products, new techniques and new developments. He also supplements other men who bring in groups or individual customers for demonstrations.

The new lab specializes in color and the facilities set up to handle color. Sydney helps work out problems which might arise in color photography. He keeps in close touch with Rochester, getting the very latest information to pass on to Kodak customers.

A graduate of the Rochester Institute of Technology, Phil taught color photography there at night school. He started with Kodak in May 1946, became a member of the Professional Sales Studio and recently spent nine months as a technical representative in the Pittsburgh area.

### Dye Transfer Paper

A paper suitable for special applications of portrait and commercial illustrative color photography has been announced. It's Kodak Dye Transfer Paper in double weight "A" surface. This new paper (white, lustre, smooth) lends itself readily to surface retouching. It will be available in sizes from 5x7 to 24x28 inches.

## New Titles Go To Five Men

Appointment of Steve H. Nelson as assistant to the manager, Color Print and Processing Services, heads the list of five new titles announced by C. E. Moses, KP assistant superintendent in charge of the Color Print and Processing Services Dept.

William Lohler of Kodak Office was named supervisor of Processing Services, Rochester, and Donald Browne, Kodak Park, has the title of supervisor of Color Print Services in Rochester.

M. D. Francis was named supervisor of Color Print and Processing Services, Chicago, and Al Krieger, supervisor of Color Print and Processing Services, Dallas.

Nelson joined EK Stores, Inc., Cincinnati, on July 7, 1930, and became a Kodak salesman in 1935. He transferred to the Color Print Service at KP in 1941. In 1943 he came to Kodak Office as assistant supervisor of training. On May 19, 1945, he returned to Color Print Service and since September 1945 has been manager of the Color Print Service Office in Chicago.

Bill Lohler

Steve Nelson

Lohler started at Kodak Park Oct. 18, 1922, and in June 1927 transferred to Kodak Office. In November of that year he became a Repair Office correspondent. He was named supervisor of Cine-Kodak Service on June 26, 1939.

Browne began full time at Kodak on Feb. 26, 1940, after spending summer vacations with EK. He joined the Cine Processing Dept. as lab assistant and transferred to Color Print Service in October 1941.

Francis started his Kodak career in 1927 in the Chicago Lab Film Processing Dept. He transferred to the Service Dept. in 1937 and became office and service supervisor in 1941.

Krieger joined Kodak Office as a messenger Sept. 17, 1928. Later he transferred to the Repair Dept. Office as a clerk. In 1938 he became a correspondent in the Cine Processing Dept. and transferred to Color Print Service at KP in '41.

## Comedian Comes to Kodak

**He's Camera Fan, Too**—Harold Lloyd, left, discusses the Kodak Tourist Camera with Larry Martin, right, assistant to CW Manager N. B. Green. Next to Lloyd is Elmer Raithel, and John Fitch is next to Martin. During his tour of Camera Works, Lloyd, who was here for the Shrine convention, declared that he had taken 5000 color shots in the last 10 months.

### Photo Patter

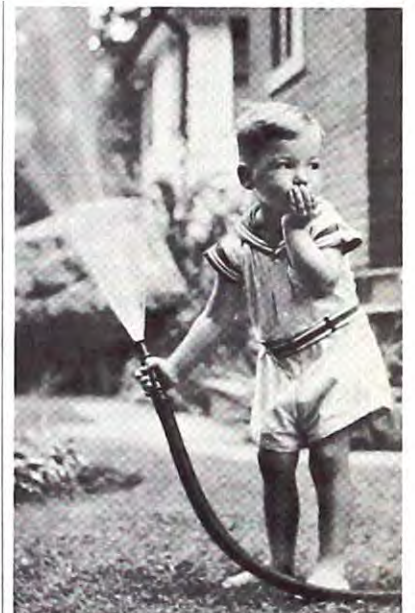

## Lucky Snaps Seldom Happen, Better Bank on 'Know-How'

Frequently you hear a really good picture described as "just a lucky shot." The majority of times, however, it is a matter of following through on know-how.

It is true that once-in-a-lifetime shots sometimes are the result of the photographer's happening to be in just the right place at just the right time when just the right things happen. However, that gives him only outstanding subject material. And it takes a lot more than that to make a good picture.

### Ability Is Requisite

The photographer who makes the "lucky" shot has to have, first of all, the ability to recognize the picture situation. Then, he has to know how to make a good picture—correct exposure and focusing. Luck has little to do with these vital factors. Well, maybe once you might accidentally hit on the right exposure, speed, etc., but you

**That Guilty Look!**—Very seldom is it sheer luck that produces a good shot like Sonny with his "Oops, what have I done?" expression. Picture-taking know-how is needed.

certainly can't depend on it.

Even being on the spot when the "lucky" shot happens is as likely as not to be a matter of planning. Many of them are a result of the photographer's waiting, poised to shoot, until just the right second before tripping the shutter.

So, if you would make a "lucky" shot, don't resort to carrying a rabbit's foot, four-leaf clover, or horseshoe every time you take the camera out. Concentrate on carrying with you a knowledge of what your camera will do, the basic exposures, a sense of distance, recognition of the fact that the camera sees only what you can see through the view finder. And a steady hand will prevent camera motion.

So armed, your luck may be pretty good.

## KO Girl Waits UR Sheepskin After 9 Years of Night School

Nine years of attending night school will be climaxed for Joan Fitzgibbons on June 12. She will be graduated from the University of Rochester.

During the nine years, Joan also has been at Kodak Office, done hospital aide work and made most of her own clothes.

Joan came to KO after finishing at John Marshall High School in 1937. First in Stenographic and then in Package Design, at the beginning of the war she was transferred to the Motion Picture Film Dept. Since the war, she has been secretary to Ken Cunningham of that department.

"Once you start working for your college degree," Joan declared, "you just have to go through and get it."

Some years this meant Joan was trekking up to the U. of R. Women's Campus four nights a week. Usually she took two or three courses each year, specializing in English and history. She will receive a Bachelor of Science degree with a major in general studies.

Each Sunday morning all during the war, and except for one year since then, Joan has reported for aide duty at Monroe County Hospital at 7:45. After changing beds and bathing and feeding patients,

Joan Fitzgibbons

Joan leaves the hospital at 10:30 a.m. to go to church.

While school has been out during summers, Joan has scanned fashion forecasts and made her winter dresses and skirts as well as summer clothes, to become one of KO's best dressed women.

Currently, she's learning to drive. She has just bought a new four-door maroon Ford!

**Lady of the Lilacs**—Elaine Cyran of the Cashier's Office at Kodak Park was snapped among the lilacs during the festivities at Highland Park. And Elaine did a little snap-shooting, too. During Lilac Week three KO Sales Service Div. men helped staff the information booth in the park. Art Brown, Red Chesterman and Ray Toolan advised people on making photographs of the blooms. The booth was a contribution of the Rochester Dealers and Photofinishers Association to Lilac Week.

## IT'S IN THE PARK

Emmett Glenn and John Norton, both of whom retired June 1 from the Film Developing Dept., were honored by their friends May 20 at the Triton. A. H. Hargreave, department head, presented each man a gift on behalf of the department. Guest speakers for the occasion were R. S. Scott, Company superintendent of Cine Processing;

At retirement party for John Norton and Emmett Glenn: seated, l. to r., Mrs. Norton, John, Alfred Hargreave, Emmett and Mrs. Glenn.

C. E. Ives, Research Laboratory; R. M. Corbin, KO, assistant manager of the Motion Picture Film Dept., and J. H. Elferink, KO, Auditing Dept. Following the dinner, a presentation was made by the members of the department illustrating some of the highlights of the two men's careers.

Arlene Casperson, formerly of Bldg. 65, was graduated from the Genesee School of Nursing June 7. Her father, Harold, is a member of the Reel Manufacturing Dept., Bldg. 48. . . . Albert Wittmer, Research Laboratory, is visiting his mother and sister in Germany. His wife accompanied him and will visit her three sisters. . . . Dorothy and Bill Upchurch, Bldg. 65, are back from a vacation in North Carolina. . . . Eloise Howard and Betty Lillibridge, Time Office, attended the Beta Sigma Phi convention of New York State at Newburgh May 20-21. . . . Robert Fulenweider, X-ray Sheet Film, and his new bride have returned from a honeymoon trip to Washington, D.C., Richmond and Luray Caverns, Va. . . . Ollie Saltsman, Reel Manufacturing, is back following an illness of two weeks. Still ailing is Simon Heyman. . . . Word from Miami has it that Marie O'Donnell, formerly of the Distribution Center Billing Dept., is enjoying her leisure time. She invites all her Kodak friends to visit

George E. Wingate . . . becomes department head

her in Florida. . . . Members of the Film Planning and Record Office, Bldg. 2, presented George E. Wingate with a vase of flowers on the occasion of his recent appointment as department head. . . . A proud father is Milton Ainsworth, Kodapak, whose daughter, Patricia, was chosen as Hilton's Harvest Queen. An alternate last year, Pat will compete for Monroe County honors later this year.

Friends of Gladys Wager, Dope Dept. Office, are wishing her a speedy recovery after a recent operation. . . . Raymond Shaw, Testing, Bldg. 6, and not his brother, Robert, X-ray Screen, was the recipient of monochrome awards in the recent First Annual Salon conducted by the Kodak

Camera Club. . . . Members of the Kodapak Dept. Office and their families recently made merry at Ridgmont Golf Club. A feature of the evening was a "Gay 90s" song and dance routine given by several of those present. Betty Wolfrom and Eleanor Sak were in charge of arrangements.

Ralph Lunn and Warren Rowley, X-ray Sheet Film, are the proud fathers of baby daughters. Their department friends presented each with a piggy bank collection. . . . Members of the Bldg. 23 basketball team, KPAA Departmental League champions, and their wives and friends recently celebrated with a victory banquet at Melody Lane. Jim McKenna acted as master of ceremonies and arrangements were handled by Harold Farrar and Jim Griffin. . . . When Marilyn Berner, Distribution Center Billing, was married May 13 to Donald Brown, Marjory Stobie of the same department was one of her attendants. Before her marriage Marilyn was entertained by her associates at a dinner at the Colony Restaurant arranged by Carol Wilkinson and Shirley Foos.

More than 90 members of the Emulsion Coating Dept. gathered at Barnard Exempts May 16 to honor George Yerden, who recently completed 40 years' service with the Company. Featured

Forty-year Kodaker George Yerden, left, is shown above with Harold Sims, center, and Elwyn Herman.

speakers of the evening were D. A. Babcock, superintendent; George Patterson, assistant superintendent; Lester Faulkenberry, Harry Baker, and Elwyn Herman, who presented Yerden with a gift on behalf of his associates. Movies and cards highlighted the program. On the committee arranging the affair were Herman, Harold Sims, George Manion, Paul Stoop, Robert Johnson, Floyd Tricker, George Gassett and Tom Davis.

W. W. Teague and D. C. Sievers of Tennessee Eastman Corp., in Rochester on a recent visit, toured Kodak Park and spoke at an Analytical Conference in Bldg. 59 auditorium May 23. Teague is chairman of the Analytical Committee and head of the Analytical Laboratory of the Acid Division of TEC, while Sievers is vice-chairman of the Analytical Committee and head of the Analytical Division of the TEC Research Laboratories. . . . Members of the Voucher Dept., Accounting, Bldg. 26, entertained Leon Hibbard and Mrs. Hibbard at Mike Conroy's on the occasion of his 65th birthday. . . . William Ladd and Thomas Mitchell, Research Laboratory, together with their families, have moved to Kingsport, Tenn., where they will resume their duties with Tennessee Eastman Corp. . . . A party was given May 25 for Edward Shannon, who has completed 40 years' service with the Company. Close to 100 of his associates attended the affair and enjoyed a skit presented by members of F.D. 9 and the Power Dept. J. E. Gramlich, superintendent of the Field Depts., made a gift presentation. J. L. Putnam officiated as master of ceremonies. . . . Joseph Jackling has left the Company after completing seven years' service in the Baryta Dept. He is planning a flying trip to California this fall.

June 'Grads' — Among the 16 Kodak Park men and women retiring June 1 were the 12 pictured above. Reading from left, seated: Emmett Glenn, John Norton, Josephine Schutte, Byron M. Crane, John Towriss, Charles Miller; rear: Sylvester W. Ostrye, Leopold J. Van Eecke, George D. Shannon, Conrad Ganz, Michael Quigley and Roy Granger.

## Party Honors Engineering Retired Men

Close to 200 members of the Engineering Dept. gathered at Barnard Exempts May 19 for their fifth annual retirement party. The honored guests were J. G. Jones, Joseph Kenyon, Otto Glahn and Conrad Ganz. Each completed Company service during the past year.

Unable to attend the fete were Alfred Faulder and Elmer Buell, now living outside the city, and Herbert Laushey, recovering from an operation in Highland Hospital. Earlier in the day a delegation of his friends called on Herb and presented him with a gift.

Phil Elliott acted as toastmaster and introduced Ralph Cook as the main speaker. Group singing, the awarding of door prizes, and dancing made for a gay evening.

Darrell Dobbartin was chairman of the committee in charge. He was assisted by Mary O'Brien, Tom Lonergan, Ernie DiBartolo, Roy Sill, Alfred Sill, Eloise Carter, Dean Parker and Ernie Burt.

## Gridley Made Eagle Scout

Approximately 65 parents and friends attended the recent Court of Honor ceremonies of the Park's Boy Scout Troop 50. Held at Kanatota Lodge on Lake Ontario, west of Webster Park, the program featured the presentation of an Eagle Scout award to Roger Gridley.

The George Gridleys and sons, Roger and Jack, front. Dad is assistant Keystone District commissioner.

ley. His father, George, is in the Acid Plant at KP West.

The following Scouts received awards for advancement:

Tenderfoot: Arthur McNair, Kenneth McNair, Ed Pestke, George Schudel, Richard Topham, John Eckardt, Thomas Hanlon, James Kennard, Guy Kerridge. Second Class: Arthur Braiman, Willard Carr, James Carstairs, Norman Files, Franklin LoPresti, Stewart Patton, Thomas Wignall.

Star: Donald Bierworth, Henry Couch jr., Jack Sibbald.

Life: Larry Compson, Philip LoPresti.

Eagle: Roger Gridley.

## 16 KP Men, Women Retire; Miller with Kodak 46 Years

Sixteen Kodak Park men and women terminated service records ranging from 10 to 46 years on June 1.

They are Charles B. Miller, Film Magazine; Conrad Ganz, Engineering; Josephine Schutte, Roll Film and Cine Stock; Laddie J. Wilson, Roll Coating Finishing; William J. Rourke, Paper Sensitizing; Michael Quigley, Motion Picture Film; Emmett Glenn, Cine-Kodak Processing; Marion S. Hull, X-ray Sheet Film.

### 2 Here 42 Years

Also John J. Norton, Cine-Kodak Processing; Byron M. Crane, Machine Dept.; Sylvester W. Ostrye, Metal Dept.; Leopold J. VanEecke, Baryta; Charles F. Schult, Cine & Sheet Film; John R. Towriss, Paper Mill; Roy Granger, Emulsion Coating, and George D. Shannon, Metal Dept.

Doane

Miller chalked up 46 years with the Company, starting in 1903 with the Premo Works. In 1919 he transferred to the Tin Can Division of the Sundries Mfg. Dept., going to Cine Reel in 1933 and subsequently to Film Magazine in 1947.

Both Ganz and Josephine Schutte have been with Kodak Park for 42 years. Ganz has been in N.C. Slitting, Building Design and Emulsion Coating, while Josephine has been associated with the Film Shipping, N.C. and Cine Stock, and Roll Film and Cine Stock Depts. since 1908. Wilson has 39 years to his credit, coming here as a member of the Yard Dept. in 1911.

### Plan California Trip

Rourke, who has been out recently because of illness, completed 32 years with Sludge Acid Research, Nitric Acid, Cotton Nitrate, D.O.P. Coating and Paper Sensitizing Coating. Quigley and Glenn have rounded out 30 years apiece, coming here in 1919.

Marion Hull, retiring after 28 years at the Park, is planning a trip with her husband to California where they will visit her mother and daughter. While on the West Coast, they also will attend a national fraternal convention.

Van Eecke, Ostrye and Crane have records of 23 years, while Schult is concluding his Kodak Park career at 22 years. Van Eecke, a devotee of archery, will attend a meet July 4 in Detroit, following which he will travel through Northwestern U.S. and Canada.

Granger and Towriss are leaving after filling out 20-year periods. Granger plans a trip to Ohio to visit friends before enjoying the summer months at home. Shannon, a veteran of 10 years' service, likes baseball and expects to be a frequent patron of Red Wing games during the 1950 season.

A retirement as of May 1 is that of William A. Doane, E&M Plan-

ning, who completed 40 years with the Company.

Bill, as he is known to a host of intimates, built up a fine athletic reputation during his younger days, starting in baseball, basketball, football and boxing. For several years he served as a trustee of the KPAA and in 1912 acted as manager of sports for this group.

The former city councilman now is recovering from injuries sustained in a motor accident while traveling in Florida last winter.

## Death Claims 3 Park Men

Death has claimed three Park men, two of them formerly of the Roll Coating Dept. They are William C. Harrison and Jerome F. Avery, Roll Coating, and Ernest H. Ades, Yard Dept.

Harrison, who died May 19, came to the Roll Coating Dept. in 1905 and retired in 1938. Ades joined the Receiving Dept. in 1918 and transferred to the Yard during the same year. He retired in July 1949. Avery had been a member of Roll Coating since 1928, leaving early in 1948 because of illness. Both Ades and Avery died on May 23.

## Associates Fete 40-Year Kodaker

Nearly 400 of his associates and friends packed the ballroom of the Powers Hotel May 25 to honor Richard Baybutt. The assistant superintendent of the Chemical Plant recently completed 40 years' service with the Company.

Superintendent John Folwell presided as master of ceremonies. Group singing, led by Jack Schaeffer, preceded the dinner. Perley S. Wilcox, chairman of the EK board of directors, presented Baybutt with his 40-year service pin. Ivar N. Hultman, EK vice-president and assistant general manager of Kodak Park, spoke briefly on Baybutt's career with Kodak.

Baybutt

Other speakers included Neil Kocher, assistant general superintendent of Film Depts., and Donald McMaster, Company vice-president. Other speakers represented the Zoning Board of Rochester, of which Baybutt has been a member for many years.

## That Man Kodak

... "We were supposed to leave immediately after breakfast, but were delayed by the sudden appearance of the Sergeant with a Kodak camera, which, of course, had to be taken to pieces. Everybody realized that. A few minutes later the Kodak lay in pieces among the half-eaten crusts of bread that littered the table. It now had to be put together again. This was done in a moment. Two screws remained on the table.

"There, you see," said Makarof complacently, "that man Kodak in America, or wherever he is, made a mistake: two screws too many. But the Russians are a clever lot, and we found it out immediately."

"I ventured to observe that it might not be possible to take photographs with it now, and true enough, after several attempts it was found that it was no good for photographing. The Sergeant leaned out of the window and roared at a passing peasant child, who stopped, terrified. 'Here you are,' said the Sergeant graciously, and thrust the camera into the little fellow's hands. The child ran off hugging it, and the Sergeant turned, picked up the two screws from the table and, with a Chaplinesque gesture, threw them out of the window."

(From the new book, "Comes the Comrade!" by Alexandra Orme.)

## War Effects Fade in Manila, Goda Reports on Visit Here

Home with two daughters born in Manila are Les Goda, assistant manager of Kodak Philippines, and his wife, the former Jean Galen. She was once of KO and KP.

The trip home took 22 days aboard the President Cleveland, with seven days ashore in Hong Kong, Kobe, Yokohama and Honolulu. "The ship provided amah or nursemaid service each time we put into port," Jean declared, "so we were able to see the cities."

Many changes took place in the three years they were in Manila. Financial aid and advice from the U.S. have helped the government put a good rehabilitation program into effect, Les said.

### Good Buildings

Building now is good quality, and there are some up-to-date department stores, theaters and drugstores, he added. After the war many store fronts were built, but behind these, one can still see bomb-shattered remains.

Consumer goods from America are becoming scarcer, for in December import control restrictions were placed on household goods, clothing, food and photographic material. The government is conserving dollars to purchase equipment to create industries in the Philippines.

One of the first things to strike you about Manila is the tremendous number of jeeps, about 18,000, far outnumbering regular cars, Les said. The Filipinos have decorated them with all shades of bright

paint. Most of them are used as jitneys, and they are always jammed.

Asked about demand for Kodak products, he said it grows steadily. Filipinos are photographic enthusiasts, and the demand for professional and amateur equipment is good. There are 2000 professional studios in the islands. There also are several 35mm. motion picture studios making films in native dialect. X-ray film and chemicals also are being used, he continued.

"We have three branches in addition to our headquarters in Manila. When you consider it's 600 miles south to the Davao Branch from Manila, and that the Kodak sales truck goes north on Luzon for 300 miles, you can see that Kodak Philippines covers quite a lot of territory."

Regarding living conditions, Jean declared that it's a pleasant life. The tropical temperatures necessarily make living different. Some social events are apt to start at 8:30 a.m. for everyone is up early to enjoy the coolest part of the day. Dinner usually is late, often at 9 o'clock. Almost everyone entertains at home, the guests often coming for dinner.

Clothing is of the lightest variety, she continued, for the temperature averages 85. "In all the time I was there, it only went as low as 65 once."

**From Philippines**—Three-year-old Carol Goda poses on the tricycle her grandad, Les Goda sr., gave her when she arrived from the Philippines for her first visit in Rochester. She came with her 16-month-old sister, Ann; her dad, Les Goda, and her mother, Jean Galen Goda, all shown above. Carol's dad is assistant manager of Kodak Philippines, her grandad is in KO's Govt. Sales Div. They'll return to the Philippines in August.

## Harrow Aide Eyes Methods In EK Plants

"I have felt right at home in Camera Works' Tool Room," declared Charles Toms, head of the Tool Room of Harrow Works in England.

"The two departments are much alike," he added, "and everyone has been most friendly and helpful. Of course, Camera Works is larger and has a much higher production than Harrow."

Toms is dividing his time between CW and KP. He will sail for England aboard the Caronia on July 19.

Because of the currency situation, import licenses are hard to obtain from the government in England. "Therefore, we have to manufacture as many needed items as possible in order to keep imports at a minimum," he declared.

Toms was most interested in methods of making punches and dies for perforating Cine Film. He also wanted more knowledge about reconditioning of 8mm. magazines, construction of 16mm. magazines, the manufacture of the Flash 200 Shutter, film reels and spools.

### Headed Foremen's Club

Activities of the Kodak Park Foremen's Club also interest him, for he was chairman of the Foremen's Association at Harrow for three years. Ladies' Night there, too, is the biggest event. Monthly meetings are scheduled featuring lectures, social affairs and golf tournaments. The club's quarters are in Harrow's social center, and they daily serve as a meeting place for members.

"We also get together with other clubs such as Harrow's Rotary Club and other industrial clubs nearby for sports nights," he continued. "We match them in billiards, table tennis, darts or indoor cricket."

Asked about current rationing he replied: "Everyone asks me if I'm not happy about the end of rationing. We still have rationing! Points no longer are required for goods which were scarce, such as tins of fruit and biscuits."

"But each person in England is still rationed weekly to 5 ounces

## Camera Fans Wait Scenic Rail Tour Slated for June 11

Kodak Camera Club members, armed with cameras and film, are expected to swell the Rochester delegation making a triangle scenic tour of Western New York on Sunday, June 11, over three branches of the Erie Railroad.

The outing is being sponsored by the National Railway Historical Society, Inc. It will be a joint activity of the Rochester, Buffalo and Syracuse Chapters of the organization. The trip begins at Attica at 10 a.m. and ends there at 8:10 p.m.

### Chance for High Shot

First picture stop on the "iron horse" excursion will be the Genesee Viaduct high above the upper falls in Letchworth Park. From here the train will roll into the Southern Tier, stopping in Hornell and then at Corning for lunch. Those making the trip may bring their own lunches or they may be served at the Hotel Baron Steuben. Reservations must be made in advance for luncheon at the hotel. The price is \$1.50 per person.

Moving into the Finger Lakes Region, stops will be made in Bath, Wayland and Avon. On the last lap of the trip, visitors will pause in Caledonia for a glimpse of the new State Fish Hatchery, LeRoy, and Batavia before winding up the junket in Attica.

Reservations and detailed information regarding the trip may be obtained at Camera Club headquarters in Bldg. 4, KP, Ext. 2385. Tickets are available there at \$5.95 for adults and \$3 for children 5-12.

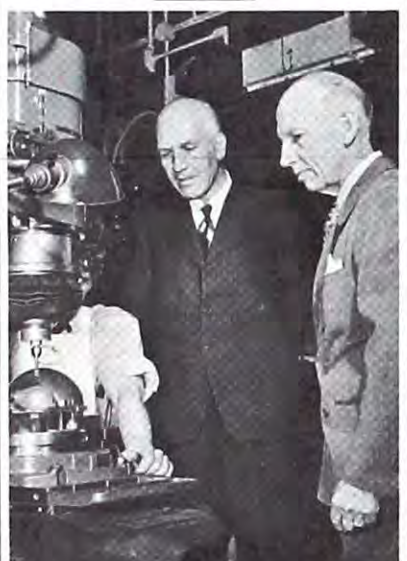

**Press Preview**—Three members of the Catholic Press Association, recently visiting Kodak Park, were interested observers in the Photo-Lithography Dept., Bldg. 48, where KODAKERY is printed each week. Operator Ralph Vandenberg, in charge of one of the offset presses, holds up a signature of the publication for inspection. From left to right, George Kelly, advertising manager of The Catholic Transcript, Hartford, Conn.; Helen Fink, wife of F. A. Fink, publisher of Our Sunday Visitor, Huntington, Ind., and the Rev. Alfred Barrett, S.J., executive secretary of the Catholic Press Association and head of the Journalism School of Fordham University.

## Coast to Coast

Alice Chafa of the Chicago Branch received a diamond recently from Chuck McVey, Kodak Park E&M Dept. Although their home towns are only 30 miles apart, the couple first met in Chicago. Chuck is from Monmouth, Ill., and Alice from Keithsburg, Ill. He has been at the branch for several weeks, supervising the installation of air conditioning.

"I wrote all these down before I left England, for I felt people would be interested," he added.

**Looks Familiar**—Charles Toms, left, head of the Tool Room at Harrow Works, England, is shown around CW's Tool Room by its head, Dave Olson, right. Above, they stop to watch a jig grinder in operation.

## Advertising Story

(Continued from Page 1)

earth examples to show that advertising costs are but a small fraction of the price of the product.

For instance, it costs less than the winding knob assembly to advertise a Brownie Hawkeye Camera. It costs less than a tenth of a cent per print to promote snapshots made throughout the country. Applied to other everyday products, it costs less than six drops per bottle to advertise Coca-Cola; less than the cost of thread that encircles the brim to advertise men's hats, and less than a quarter of a cent per dozen to advertise oranges.

The exhibit will be in Bldg. 28 at KP next week.

**Could Have Been UN**—When the Chicago Lithographic Institute's students in offset lithography spent a week observing in KO's Graphic Arts Studio, they could well have held a United Nations meeting. Six countries were represented. Above from left are Joel Zolberg of Israel, Peter Cooper of Australia, William Gil Pabon of Puerto Rico, Ole Trock-Jansen of Denmark, Institute Instructor Albert Brown of the USA, and Roddy Innes of Canada. They're examining proofs made on the offset printing press.

**TOYS OF TENITE . . .** everything from "souped up" hot rods to dolls that cry real tears . . . fill the Toy Dept. at Sibley's. Tenite is the big feature of the store's Toy Fair that's taking place from June 6 through June 17. At least 10 different kinds of toys made of the tough plastic produced by Tennessee Eastman Corporation are being displayed. Besides this, a miniature machine is showing the whole molding process . . . how Tenite pellets are turned into toys.

The trend in toys, according to manufacturers, is away from the cheaper but fragile type of plastic to the higher priced but durable kind. Kids are rough on toys and prefer the Tenite ones that can "take it." Here are a few Sibley's is featuring.

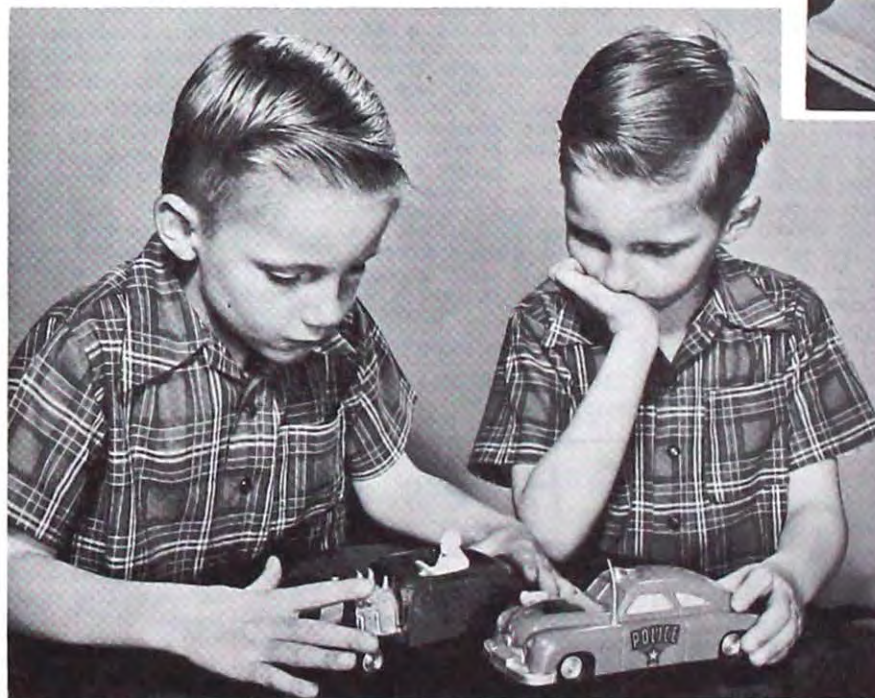

**Potential Toys—**The tiny pellets that Gene Cathcart pours from can to hand, top left, are Tenite toys "in the raw." Tenite pellets are produced in 26,000 different colors, says Gene, who is head of Tenite Sales at Kodak Office. Pictured with him is Charles Seay, who is Tenite Sales Dept. representative covering the Canada and Buffalo area.

**Unpacking—**Above, Alfred Larter, head of Sibley's Toy Dept., inspects a first arrival of Tenite toys. A gross (and sometimes more) was ordered of just about every Tenite toy displayed at Toy Fair.

**Sharp Shooter—**Towhead Ricky Allen, seven-year-old son of Dick Allen, H-E Plant Engineering, gets a big bang out of shooting this sub-machine gun. Its stock and firing handle are made of tough, shatter-proof Tenite plastic. It fires nothing more deadly than a table tennis ball . . . with considerable noise. Brown plastic simulates grained wood. A "shooting range" at Sibley's Toy Fair gives youngsters an opportunity to try the gun and test their skill.

**Pull Over—**Completely absorbed with these Tenite toys-on-wheels are the six-year-old twin sons of Paul Nowack, DPI Vacuum Equipment Inspection Dept. Billy, left, handles a "hot rod," while brother Buddy pulls up on him with a police car. Both toys are equipped with no-winding motors.

**Don't Cry, Baby—**Little Kathy Lynch, left, subdues her doll for the moment, but can cause her to cry real tears at will. The doll's head is made of chipproof Tenite. Kathy is the four-year-old daughter of Patrick Lynch, KO Shipping Dept.

**What a Bus—**Finding out what makes this no-winding motor bus "tick" is Jay Griffin, right, seven-year-old son of James Griffin, KP Paper Service. A bumper at each end of the vehicle reverses direction when bus hits a wall.

**Pretty Ringer—**Little two-year-old Diane Rowles is tickled to "talk to Daddy" on her play phone, a toy that can be dropped, stepped on, hurled, dragged and even pounded without causing the Tenite plastic to shatter. "Daddy" is James Rowles of CW Industrial Relations.

**Treasures from Peru**—Luz Gomez, right, shows Betty Bahring, her associate in KO's Export Dept., some of the handwork of her native country, Peru. Luz has just returned from a visit to her home in Lima, the Peruvian capital. The sweater was knit in Inca design by the Indians, and the frame containing the picture of her family is Peruvian silver. When Luz came to Rochester to study at RBI a year and a half ago, she could speak no English. She had been a secretary to an Army colonel in Lima. She has found eating habits very different here. In Lima, there are four meals a day—breakfast, dinner at noon with a 2½-hour lunch time, tea about 6 p. m., and supper after 9 o'clock. The weather in Lima is different, too. It's like spring or summer all year.

## Make 'em Yourself

Take your choice . . . roses or daffodils. These small-table doilies are chiseled in lovely colors, a refreshing departure from the usual white or ecru doilies. Free directions are available in your KODAKERY Office or by dropping a post card to KODAKERY, 343 State St.

## Gerry to Live In Germany

BALTIMORE—The U.S. Army is pretty hard on the Color Dept. of EK Stores, Inc., Baltimore! Geraldine Shore is leaving to accompany her husband, who will be

Geraldine Shore leaves the Baltimore Store on her last day.

stationed in Germany. And nearly two years ago, Dorothy Hoeflich Coxedge and her husband left for the same reason.

Geraldine joined the store staff five years ago. She formerly was a member of Kodak Hawaii, Ltd. Geraldine hopes that she and her husband will be stationed near Heidelberg, for that is where Dorothy is now.

## Edith Perks Up Sunday Breakfast With Coffee Cake

Sunday morning breakfast is a treat at Edith Williamson's home. Edith, a member of the KP Plate Dept., bakes Spicy Coffee Cake regularly. Besides its melt-in-your-mouth taste, Edith likes the coffee cake "because it's so simple to make."

### Spicy Coffee Cake

- ¼ c. shortening.
- ½ c. sugar
- 2 eggs
- 2½ c. uncooked oatmeal
- 3 t. baking powder
- 1 t. salt
- 1 c. milk
- 1. Cream shortening; add sugar gradually and cream well.
- 2. Add eggs one at a time, beating until light and fluffy.
- 3. Mix dry ingredients and add alternately with milk to creamed mixture. Let stand 10 minutes.
- 4. Spread half of batter in 7x11x 1½" greased pan; sprinkle half of Topping Mixture over batter. Cover with remaining batter and sprinkle with remaining Topping.
- 5. Bake in preheated oven at 375 degrees for 30 to 35 minutes.

### Topping Mixture

- ½ c. brown sugar
  - 1½ T. cinnamon
  - ½ c. chopped nutmeats
  - 1 T. melted butter
- Mix all ingredients together until crumbly.

**ON THE SPOT**—To remove spots from tile walls and floors, wipe with a damp cloth dipped in baking soda. Then wipe with a clean cloth wet with clear water.

*Snared* 1 1 1  
*Paired* 1 1 1  
*Heired* 1 1 1

## Engagements

### KODAK PARK

Dorothea Glaser, Stores Dept., to John Patrick Fullem, Emul. Research. . . . Irene Sadowski, Roll Film Veri. Spig., to Duane Smith, Finishing. . . . Emma Eno, Box, to Mark Loree. . . . Janet Bellis, Distribution Center Billing, to Richard Rector, KO. . . . Evelyn Burton, Plate, to Elmer Nichols. . . . Audrey Lowe to Roy Sawyer, Testing.

### KODAK OFFICE

Frances Arthur, Personnel, to Tom Edwards, KP. . . . Lena Contreras, Stenographic, to Cpl. Pat Bovenzi, USMC, formerly of CW. . . . Jean Smith, Govt. Sales, to Bob Smith. . . . Norma Jean Auer, Advertising, to A. Price Gehrke. . . . Elvira Caruana, Tabulating, to Gordon Meier. . . . Joyce Noble, ES&L, to Lester Mosher.

## Marriages

### KODAK PARK

Gladys Feil, Bldg. 12, to John Spring, Box. . . . Phyllis Stott, Bldg. 65, to Albert Kuitens. . . . Elvira Fimmano, Reel Inspection, to Samuel Zambito. . . . Shirley Verstring, Bldg. 65, to Robert Bailey, F.D. 3. . . . Rita Bolger, Bldg. 65, to George Gleason. . . . Gloria A. Schon to Gerard J. Schottmiller, Testing. . . . Thelma Lynn, Engineering, to William Lang.

### CAMERA WORKS

Mary DeLucia, Dept. 28, to Michael Perri. . . . June Elkins to Thomas Hanlon, Dept. 88, NOD. . . . Rosemarie Garland, H-E, to Francis Maxwell, Dept. 88, NOD. . . . Anna Hofer to William Sanger, Dept. 11.

### HAWK-EYE

Rose Kucy, Purchasing, to John Nowak. . . . Tulla (Tulli) Brunette, Payroll, to Bill Faugh, Dept. 29.

### KODAK OFFICE

Ruth Leist, Statistical, to Boyd Hartley. . . . Ronnie Wroblewski, Mail & File, to Florian Czerniak, Finishing. . . . Joan Griffin, Stenographic, to Ray Boss. . . . June Maynard, Advertising, to Ken Griffith. . . . Jeanne Boylin, Medical, to Wheeler Maynard. . . . Betty Mulcahy to Jim Keenan, Comp-troller's Dept. . . . Kay Harder, Repair Service, to Jim Cummings, Film Proc. & Color Print. . . . Marion Menke, Repair Service, to Premysl Jencek.

## Births

### KODAK PARK

Mr. and Mrs. Paul Kinsella, son. . . . Mr. and Mrs. Clarence Packard, daughter. . . . Mr. and Mrs. Douglas Borden, son. . . . Mr. and Mrs. Donald Eastman, daughter. . . . Mr. and Mrs. David R. Simonsen, daughter. . . . Mr. and Mrs. Harold Ballard, daughter. . . . Mr. and Mrs. Milton Millhofer, daughter. . . . Mr. and Mrs. Robert E. Engel, daughter. . . . Mr. and Mrs. William Delles, son. . . . Mr. and Mrs. Paul Crookshank, daughter. . . . Mr. and Mrs. Robert Bromley, daughter.

### HAWK-EYE

Mr. and Mrs. Donald Foley, daughter. . . . Mr. and Mrs. Wilbur Strassner, daughter.

### KODAK OFFICE

Mr. and Mrs. William Garland, daughter. . . . Mr. and Mrs. Ted Dembski, daughter. . . . Mr. and Mrs. William Swann, daughter. . . . Mr. and Mrs. Steven Gigliotti, son.

**DAFFYNITION—HUG:** Energy gone to waist.

## Here's Food for Thought

—Wintress D. Murray  
(Kodak Nutrition Adviser)

**Do radishes and cucumbers have much food value?**

One half a medium sized cucumber contains eight calories. A 1-inch radish, two calories. Both have small amounts of the B vitamins and vitamin C. Radishes also have a small amount of vitamin A, as do cucumbers, if they are not peeled.

**What is the best diet for a person with an upset stomach?**

When a person is nauseated and has been vomiting, it is best to serve small amounts of food every two to three hours rather than a larger amount less often. Foods which are usually well tolerated are clear tea, clear broth, jello, soda crackers, toast, zwieback and rusk.

**Is leaving butter out at room temperature for spreading con-**

**Chalk's Her Choice**—Doing pictures in chalk has "just been something I've always done," declares Yolanda Cerasani of the Stock Section of KO's Rochester Branch. She copies photographs and illustrations, sometimes sketching them first in pencil, and sprays the chalked picture with a fixative. She buys the frames "in the raw" and finishes them herself. Yolanda finds that the products of her hobby make grand gifts. Two are shown here.

## Between Us Girls

**Helen Metsinger, KP X-ray Sheet Film**, has returned from a vacation in Tucson, Ariz., where she visited her sister. She also spent some time in Mexico. . . .

**Evelyn Muench's** studying Spanish for three years has paid off. She has been transferred from KO Mail and File to KO Sales Service Manuals, where she is assisting Henry Bolta, one of the Spanish editors. . . .

**Rosemarie Waser**, Distribution Center Billing, who has dubbed her new car "Cindy," traveled with friends to the Adirondacks over Decoration Day weekend. . . .

**Ruth Nemetz**, a "number please" girl at Hawk-Eye since 1943, is the new operator on the KO telephone switchboard. . . . Two H-E Engineering Dept. members own cocker spaniels who vie for "who can do the most tricks" honors. The canines belong to **Elsie Huss** and **Irene Nippon**. . . .

**Mary Beene** **Kay Calisprone** and **Terry Iaia**, all of KO Sales; **Edna Thompson**, KO Accounting, and **Jean Schwader**, CW Dept. 92, traveled through New England and on to Cape Cod last week. . . .

Since redecorating her own room at home, **Ann Di-Guglielmo** has adopted a less strenuous form of exercise. The H-E Plant Engineering member has taken up golf and is "redecorating" the fairways.

## KO Traveler Gazes at Stars Of Moviedom

A KO girl watched Movie Actress Elizabeth Taylor and Conrad Hilton leave the Church of the Good Shepherd in Beverly Hills following their wedding.

But seeing movie stars began for her long before she arrived in California.

The girl, **Helen Gress** of Roch. Br. Billing, spotted **Ilona Massey**

**Sightseeing**—**Helen Gress** reads the explanatory sign at Estudillo House built in 1825. Located near San Diego, it is noted as **Ramona's marriage place**. **Ramona** is the heroine in **Helen Hunt Jackson's** novel of the same name.

and **Dorothy Lamour** in Chicago's railroad station and got the former's autograph.

Traveling alone to California to visit a girl friend, she stopped off at Grand Canyon and took the overnight trip by muleback down to the Phantom Ranch on the canyon's floor.

There, she met another woman traveler and the two went to Las Vegas. It was the week of the opening of the new Desert Inn, and Helen saw **Edgar Bergen** and **Charlie McCarthy** in the floor show. At the Last Frontier, she stood next to **Victor Mature** at the roulette wheel, noting that his luck was no better than hers.

Helen visited **Santa Catalina**, **Tijuana**, **Yosemite** and **California's** famed cities before flying home.

Flying is her usual mode of traveling, she declared. One long weekend last year she visited **Boston** and **Maine**, another **Philadelphia** and **Atlantic City**.

On two previous vacations, she also covered much ground. The first trip was to **Florida** and **Havana**, the second to **New Orleans'** **Mardi Gras**, where she attended the **Rex ball**, and **Florida**.

## LOST & FOUND

FOUND — Stone from ring near E. Hanford Landing gate, KP. KP Ext. 2186.

**Off to the Races** — That's Jim Lerkins, KP Paper Finishing, Bldg. 42, shown here in full driving regalia, as he prepares to take his "souped-up" stock model car to the Monroe County Fairgrounds. Jim, who finished sixth in one of the events on a recent Sunday program, races there regularly. His wife, Barbara, is a member of the KP Purchasing Dept., Bldg. 26.

## Recordak Upends Memos, 11-2, To Take H-E Softball Lead

The Recordaks took undisputed possession of first place in the H-E Intraplant Softball League last week by upsetting the favored Memos, 11-2. Louie Cook showed the way with the willow in the winning cause by collecting 3 for 4, including a grand slam homer. Bruce Elle, on the mound for Recordak, let the Memos down with two hits.

## Stevens, Kron Hold Golf Leadership

E&M Ridgemont Wednesday Night Golf League standings:

Stevens-Kron	13½
Culhane-Hallett	10½
Sadler-Gallagher	9
Hayes-Horn	9
Weigand-Nichols	9
Connell-Hickey	8½
Gerhardt-Mosher	8
Closser-Mross	8
Scott-Brown	7½
Malley-Lawrence	7
Behrnt-Fyfe	6
Haidt-Slater	5½
Aronson-Patterson	5½
Kaiser-Jenkinson	1

HEAA League Standings

	W	L	T
Recordak	3	0	0
Memos	1	1	1
Production	1	1	1
Dept. 61	0	1	0
Engineering	0	1	0
Dept. 56	0	1	0

In the only other games played, Production beat Dept. 56 in an 18-10 tussle and Recordak edged Production, 8-7. Ollie Seebach's 4 for 4 paced the attack for Production in their win over Dept. 56, while Cook again was the heavy man for Recordak in the Production game, picking up 3 hits in four trips. Line scores:

Dept. 56 ..... 300 211 2-10-12-1  
 Production ..... 1011 600 x-18-15-1  
 Charles and Gagner; Schellinger and Seebach.

Recordak ..... 510 000 5-11-11-0  
 Memos ..... 020 000 0-2-2-1  
 Elle and Romanko; Hanselman and Sobius.

Production ..... 310 000 3-7-5-1  
 Recordak ..... 200 030 3-8-8-3  
 Schellinger and Oswald; Elle and Romanko.

## Research Netters Grab Loop Lead

Only two matches were completed in the KPAA Men's Departmental Tennis League as the Decoration Day holidays interrupted the schedule. Research Laboratory netmen posted a 3-1 decision over Engineering to take an early loop lead, and Bldg. 65 played a 2-2 tie with Manufacturing Experiments.

	W	L	Pct
Res. Lab	3	1	.750
Bldg. 65	2	2	.500
Mfg. Expts.	2	2	.500
Engineering	1	3	.250

Syn. Org. Res.	0	0	.000
Bldg. 30	0	0	.000

## Branch, Repair Post Victories

Rochester Branch and Repair won last week's KO Intraplant Softball League games and moved into a tie for first place.

Ralph Hagen scattered 9 hits to best Pat Lynch as the Branch thumped Shipping, 6-2. Hagen also aided his own cause with a run-producing triple in the fifth.

Skipper Lynch, besides pitching six-hit ball, collected 2 for 2. Also starring at bat for the Shippers were Tommy Ioannone, 3 for 4, and Ray Melens, 2 for 3.

Repair trounced the Penpushers, 15-4, behind the steady elbowing of Herb Louder. Standings:

	W	L		W	L
R. Branch	2	1	Shipping	1	2
Repair	2	1	Penpushers	1	2

# H-E, CW Suffer First Losses; 2 KP Nines Cross Bats Friday

'Twas a hectic week for Kodak softball teams. Hawk-Eye and Camera Works suffered their first setbacks, Kodak Office scored 19 runs and still lost, the Kaypees were "blackened out," and the KP Dusties lost to the weatherman. On the bright side, however, Leo Gallagher's Kaypees and Mike Farrell's Dusties still boast perfect records in Major Industrial League play.

Farrell's nine and the Kaypees, who boast identical 2-0 records at this writing, clash in Friday night's 8:15 bout at the Park.

In the opener of the June 2 bargain bill Kodak Office dropped

## HOW THEY STAND AMERICAN DIVISION

	W	L		W	L
Delco	3	0	Products	1	2
DPI	2	0	Stromberg	1	4
Hawk-Eye	3	1	Kodak O.	0	4
Am. Laundry	2	1			

## NATIONAL DIVISION

Ritter	4	0	Graflex	1	2
Kaypees	2	0	Hickok	0	2
KP Dusties	2	0	Police	0	2
Balcos	2	1	Gleason	0	4

its fourth straight, bowing to American Laundry, 20-19.

By the time the KO-Laundry marathon had ended, ol' Jupe Pluvius had arrived on the scene and succeeded in washing out the rest of the night's activity. This included the Ritter-KP Dusty game.

## Dusties Trounce Gleason's

In their previous outing the Dusties had drubbed Gleason's, 14-0.

The scheduled May 31 meeting of the Kaypees and Hickoks was postponed because of a power failure at the ball park. DPI and American Laundry managed to get in a couple of innings of their game before the lights went out. DPI led at the time, 4-1.

Hawk-Eye made it three straight on May 26 with a win over KO, before bowing to Delco June 1.

Al Gruner turned back Kodak Office with 4 hits as the Hawks won, 5-1. After scoring one in the first, H-E sewed it up in the third when hits by Bill Kearns, Pete Mistretta and Joe DiBiase accounted for two runs.

In their 7-3 loss to Delco, Mistretta's H-E athletes were limited to four hits, two of which were collected by Angelo Sulli.

Camera Works' string was snapped at four straight when the Balcos bopped Clem Bayer's boys, 5-2, last Friday in a Rochester Industrial League skirmish.

## Park Tossers Seek 4th Win

Kodak Park's horseshoe team bids for its fourth victory in as many matches this evening when it meets the Lawyers.

The league-leading Kaypees notched their third straight in the Rochester Industrial League last week with a 19-6 verdict over Gleason's. Sensational shooting by Al Cope and sterling performances by Stan Marshall, Cosmo Bianchi and Charlie Kester featured the win.

Camera Works made its belated seasonal debut with a 21-4 win over DPI.

## Done Up Brown

By Will Brown

THAT SHOULD be quite a session at the Lake Ave. ballyard tomorrow night. The Kaypees and KP Dusties fracas promises to decide something or other. Not necessarily the National Division champion-

ship of the Major Industrial Softball League. (It's too early in the season to be classified a crucial contest.) But right along the Dusties' constituents have been saying that Mike Farrell's charges are stronger than the Kaypees this year. The Kaypees, they point out, blanked Gleason's, 9-0. Along came the Dusties and whacked the same outfit, 14-0. The Dusties soundly spanked the Police Locust Club, 13-3. The best Leo Gallagher's league champions could do against the bluecoats was to eke out a 6-5 win. The Kaypees' supporters pooh-pooh these comparative scores. "They mean absolutely nothing," declares Al (The Fan) Eyman, ardent KP roofer. We shall see!

Just for good measure, Kodak fans will stick around Friday night for the DPI-Hawk-Eye clash. This too could prove quite a taffy-pull. The Kaypees-Dusties clash at 8:15 will open the night's doubleheader.

BITS ABOUT 'EM—Orson (Bill) Chase, CW linksman, became the first person to make a hole-in-one at Ontario Golf Club in 21 years. Using a No. 7 iron, Chase sank his ace on the 155-yard ninth hole the other day. It's a "blind" hole, so it's understandable that Bill registered "slight exhilaration"—as he

Two of the above quartet photographed at Cranberry Lake are Kodakers. The gent second from the left is Elwood Wheeler. Ray Parsons is second from right.

put it—upon discovering that his tee shot had landed in the cup. . . . Also joining the select circle of hole-in-one golfers was Sandy Eldridge, KP, who dunked a No. 8 iron pitch on the sixth hole at Durand-Eastman May 22. Witnessing Sandy's feat were Ken Brenner, Milt Haug and Lowell Ahrendsen, also of the Park. . . . Al Cope, newcomer to the KP horseshoe team, who tossed 10 double ringers in pacing the Park shoemen to two wins last week, is a former N.Y. State champion in the barnyard sport. . . . Joe Lanphear, Elwood Wheeler and Ray Parsons, all of the KP Printing Dept., and Jim Mitchell, Garage, recently enjoyed a weekend of fishing at Cranberry Lake. There's no report on their catch, but the boys did send along pictorial proof of their outing. . . . Among the Hobart College all-time lacrosse "greats" slated to participate in the Alumni Day game Saturday afternoon at the Geneva school will be Sid Nichols, KO basketball coach. . . . Cap Carroll, HEAA director, took low gross honors with a four-over-par 75 in last week's Hawk-Eye Twilight Golf League session. The Mongrels gained ground by beating the second place Trappers in the Hawk Division, while Production supplanted Estimating at the top of the Eye Division. . . . Shifty Gears will make one of his few mound appearances of the season June 10 when the Kaypees travel to Buffalo for an exhibition tilt.

## Birds and Orioles Perched On Top Rungs of KP Loops

The Birds and the Orioles topped their respective loops following last week's play in the two KPAA noon-hour circuits.

Al Tinsmon's Birds, currently burning up the Lake Ave. League race, hit the winning trail with a vengeance, chalking up three wins.

On May 25 hurler Herb Morris won his own game with a timely single which netted a brace of runs to beat the Giants, 2-0.

The following day Morris stopped the Yankees, 2-1, and on June 1 the Birds again gave him fine support to down the Dodgers, 3-0. Art Guentner and Tinsmon starred at the plate for the Birds.

On May 31, the Giants slapped the Dodgers, 3-1, as first baseman Art White tripled to right field with the sacks loaded. On June 2, the Giants came up with a late rally to tie the Yankees, 2-2. Tommy Castle's homer in the first inning with Don Stollery aboard gave Jack Connolly's lads the lead. In the Ridge wheel, the Orioles

copped a pair of victories to move into the top position. Spike Spiegel's crew beat the Royals, 5-0, on Chet Maynard's no-hitter.

Andy Vogel took his turn on the mound June 2 to give the Orioles a 2-0 decision over the Bears. Ken Scott drove in the winning marker.

The Bears earned a win and a tie as Roy Sill blanked the Royals, 6-0, and tied the Wings, 1-1. In another contest, the Wings defeated the Orioles, 4-1. Standings:

KPAA Lake Avenue League
