

Reader in the Making

Kodak has begun delivery of the new 35mm. microfilm reader—the Model MPE—which is being produced by the Recordak Depts. at Hawk-Eye. Here are some of the manufacturing stages in pictures below. Left, Mary Marvin performs glass flat retaining knob assembly with the aid of Larry Tassarell, who does the set-up work. Next, Glenn Coleman, left, and Al McCoy assemble the cranks and nameplates. Right, Tom Embury, left, and Ed Schlenker are engaged in final assembly. All operations are in Dept. 75.

Sea Boils Around His Boat As Fritz 'Films' Fiery Lava

"Visualize a single river of molten lava pouring down a mountain from an 11,000-foot level at an amazing speed and dumping into the sea with a front 1000 feet wide. Consider that the molten lava is anywhere from 60 to 100 feet deep and you get a good idea of the erupting Mauna Loa."

To photograph the Hawaiian volcano Fritz Herman got himself into boiling water.

The Kodak Hawaii manager

wrote of his trip to see the spewing mountain:

"I was fortunate enough to view the volcano from the Kona or west side, going out by boat in the front where the flow was coming into the ocean.

"Unfortunately, we could not get close enough for any pictures at night, which, of course, is the most spectacular time.

"The pilot of the fishing boat I was in kept backing in closer and closer until the water actually was boiling around us. Still we were 200 to 300 yards from shore.

Just a Red Streak

"Although I thought the brilliancy was sufficient to record the activity at f/1.9 and 16 frames, it was not. All I got was a faint red streak on my film.

"The flow was tremendous, and there were three separate ones, the third being the largest.

"It is estimated by a volcanologist that well over 500,000,000 cubic yards of molten lava flowed toward the sea."

Later, Don Bahrenburg and Mac Maguire of Kodak Hawaii went over to try and get some shots both for Twentieth Century-Fox and for local duplicate sale.

They approached the volcano from the Kau side, up toward the flow's center, after it had subsided.

They were successful in obtaining some shots, and Twentieth Century-Fox may use these in their picture, "Bird of Paradise."

Keep 'em Handy!

Members of the Eastman Savings and Loan Association are urged to save their semiannual statements, mailing of which was completed this week.

Statements contain dividend information which members will need for income tax purposes.

\$92,000 Paid by Kodak On Ideas in Half Year

\$92,034.50 was paid to Kodak men and women who put their ideas on paper in the first six periods of 1950. That amount was awarded on 5903 approved suggestions from EK divisions in Rochester and other sections of the U.S.

The number of ideas okayed for cash awards in the first half of the year exceeded by 621 the total of 5282 approvals in the same six periods of 1949.

Throughout the first half of this year there were 16,153 suggestions submitted, reports from the Kodak divisions in Rochester show. Ideas from stores, branches and salesmen go to Kodak Office and those from the labs are considered at Kodak Park. The 1950 total topped the 14,625 of the first six periods of 1949 by 1528.

Cash paid on original ideas thus far in 1950 reached \$62,835, and to this was added \$29,199.50 which

You Can Cash In on Picture That 'Speaks Up for Freedom'

Have you made any pictures lately that "speak up for freedom"? Or do you have any ideas for photographs that would tell the story of "the American way of life"? If so, Freedoms Foundation, Inc., of Valley Forge, would like to see them. The Foundation is awarding \$5000 in prizes for the best of such photographs.

The pictures must have originated after Sept. 1, 1949, and must be submitted on or before Nov. 1, 1950. Persons may nominate their own work or the work of others. The picture taker will receive the cash award.

First prize is \$1500, with four awards of \$300 each, five awards of \$200 and 13 awards of \$100. Similar awards are offered for 16mm. and 35mm. motion pictures and slide films.

Judging will be done by juries made up of distinguished Americans, based on the credo of Freedoms Foundation.

Kodak people desiring to enter their pictures or nominate a photograph taken by someone else may receive a nomination blank by calling KODAKERY at State St.

Only Part of Program

The photographic prizes are just part of the Freedoms Foundation General Awards Program for 1950 for which \$100,000 will be given for editorials, cartoons, addresses, sermons, articles, advertising, radio programs, etc., considered outstanding "in bringing about a better understanding of the American way of life."

Freedoms Foundation is a non-profit, non-sectarian and non-political organization, dedicated to the fundamental principle that freedom belongs to all people.

Its awards program is aimed at encouraging all citizens to "speak up for freedom" and to reward them for so doing.

Color Masking Info

Newest booklet in the Kodak Technical Information Series for the Graphic Arts is "Basic Masking of Color Transparencies for Photo-mechanical Reproduction." Just off the press, its 32 pages consolidate data previously published in the Kodak "Bulletin for the Graphic Arts" and include new information. The theory of masking purposefully has been soft-pedaled in favor of "how-to-do-it" data.

Is Your ABC Card Showing Wear?

If your ABC card (the one you use when you cash your pay check) is beginning to get a little dog-eared and beat-up from handling, you can get a new one.

All you have to do is go to your Industrial Relations Office if you're at KP, CW, H-E, NOD or DPI, or the KO Personnel Office, and they'll fix you up.

They really should be kept in pretty good shape, you know!

New Flashholder, Extension Unit, Guard Announced

A new model of the famous Kodak Flashholder is available now. And there's an extension unit, too. For each a new type of Flashguard, designed for use as a protective shield in flash photography, is provided.

The new Flashholder is known as Kodak Flashholder, Model B. In appearance, it is similar to the previous model. Performance-wise, it has been re-engineered to permit the firing of multiple flash units. A decal on the reflector gives information on flash exposures.

The Kodak 2-Way Flashguard is made of plastic. It slips over reflectors of standard Kodak flash units. One side of the guard is clear, the other matte. The clear side is intended for use when regular flash lighting effects are desired. The diffuse side faces the subject when softer lighting effects, as in close-up color portraits, are desired. This side requires one-half stop extra lens opening.

List price of the Kodak Flashholder, Model B, is \$11.50; the Kodak Flashholder Extension Unit, Model B, \$12.75. The Kodak 2-Way Flashguard, purchased alone, is 55 cents. All prices include federal tax.

That's My Boy

Lead spot in the suggestion program at Camera Works goes to Elwood Fletcher in the sixth period. He received \$700 as an additional award on an idea previously submitted.

That gave Fletcher a total of \$1300 on his suggestion, for he received \$600 a year ago as his original award. Elwood proposed that the insulating sleeve used on flash shutters and flashholders be made of tenite rod instead of phenolic rod.

was awarded on ideas previously approved for cash amounts and then reassessed a year later when new amounts were paid.

In the first six periods of 1949, initial awards on suggestions totaled \$75,433 and the amount of additional awards was \$21,445, for \$96,878 in all.

Reported from Kodak Park in the first six periods of 1950 were 12,374 suggestions submitted and 5070 approvals, including those on which additional amounts were paid. Cash amounts paid reached \$76,251.50. This included \$23,858 in additional awards.

Camera Works listed 2249 ideas presented, with 446 okayes. Cash awards added up to \$10,764.

Hawk-Eye had 622 suggestions with 150 approvals for total cash payments of \$2147.50.

Kodak Office reported 589 suggestions of which 130 were accepted and \$1845 paid.

Distillation Products received 319 ideas and 107 were approved. On these accepted ideas DPI awarded \$1026.50.

Snapping a Snapper—A 13-pound turtle with plenty of spunk was X-rayed in KO's Medical Technical Service Lab the day after it was caught in Irondequoit Bay by Dick Szonn, Maintenance. Above, Bob Bayley, also of Maintenance, to whom Dick gave the turtle, holds it by the tail. Charlie Bridgman, lab member, adjusts the X-ray machine. The lab wanted this radiograph to add to its collection of osteologic subjects. When the snapper had done its stint for science, it turned up in turtle soup at the Bayleys'.

Youngest EK Stockholder? Beth Joyce New Candidate

Here's the latest candidate for the title of "youngest Kodak stockholder."

She is Beth Joyce, 6-month-old daughter of Mr. and Mrs. Albert Mackles of The Bronx.

Beth Joyce actually received a share of Kodak stock when she was 3½ months old. It was a gift

one of the youngest shareholders. Next came a letter from Rosalind and Edward, 3-year-old twins of Mr. and Mrs. E. F. Wetmiller of Cohocton. They announced themselves as shareholders, too.

Now Beth Joyce seems to be the titleholder.

Beth Joyce and Mom
... also her Kodak stock

from her grandparents, Mr. and Mrs. David Morgenstein.

A chain of events brought Beth Joyce into the picture. It began with an item about Sally Wiard, 7, of Rochester, who was cited as

5 Years Ago

(KODAKERY, July 10, 1945)

Maj. Gen. Edward Peck (Ted) Curtis returns from the European Theater to report to Washington. He left for service 4½ years ago.

War increases use of movie projectors and makes them military items. Armed Forces find that movies speed up their training programs to meet demands of war.

Newest member of Kodak Office Informational Films is John Mills. Formerly he made Navy training films and educational movies.

Charles (Red) Simmons returns from service to Camera Works. The CW League hurler pitched for a team in the Apennines League "somewhere in Italy." He was a prisoner of war.

Chile Seen 2nd Switzerland By EK Executive from S. A.

All the spectacular beauty of Switzerland may be captured by the camera in Chile, the South American republic, which fast is becoming one of the world's tourist centers.

Extolling the merits of our sister America to his Kodak friends in Rochester is Warren Berry, assistant to the manager of Kodak Chilena, Ltd., in Santiago. Now he is spending several months in the United States. The personable young visitor will depart in September for Rio de Janeiro, where he will take over new duties with Kodak Brasileira.

Only the fact that photographic supplies in general are classified as luxuries in Chile impedes the spread of interest in picture taking among the Chileans. As it is, the Baby Brownie Special Camera is very popular in Chile and is a favorite stock item among some 300 dealers throughout the area, he says. Being an ardent 16mm. motion picture fan, President Gonzales Videla of Chile has on occasion used his personal influence to keep the motion picture supply lines open, according to Berry.

Varied Beauty

"Chile's wonderful natural scenery is a mecca for tourists. It offers everything from arid desert in the north to 23,000-foot peaks in the Andes, Swiss-like lakes with snow-capped mountain backgrounds in the south, and plenty of blue Pacific Ocean along its nearly 3000-mile coastline to balance the setting," he said. "What more could a photographer wish for?"

Berry joined Kodak in 1946 after being associated for more than three years with Pan-American Grace Airways in Peru. During the war he was stationed in Washington, D.C., carrying out special duties with the State Department.

Married and the father of three children, he describes his as a cosmopolitan family. One son was born in Lima, Peru; another in Santiago, Chile, and a daughter in Washington, D.C.

Berry recently accompanied an old Chilean friend, Helmut Weinreich, a well-known Kodak dealer from Valparaiso, on a tour of the Company's plants in Rochester.

Speaking of Cameras—Margaret Bliet of the Film Office staff in Bldg. 28 at KP discusses Kodak equipment with Warren Berry, assistant to the manager of Kodak Chilena in Santiago. He's visiting the U.S. for several months.

Casey Named 'Man-of-Year'

Carroll E. Casey, EK sales executive staff, is the Man-of-the-Year Award winner in the Rochester Junior Chamber of Commerce.

C. E. Casey

This distinction went to Casey for his "outstanding activity this year as chairman of the Hoover Commission Committee." Under the Kodak man's direction the group took their campaign right to the "man-on-the street."

They obtained 12,000 signatures supporting the Hoover Report and distributed 25,000 "75-dollar bills" representing the "tax bill of each taxpayer that goes to waste and duplication in Federal Government."

Gave Many Talks

Casey and other committee members gave numerous talks on the report in the Rochester area. The local group's compilation of information about the report for use by discussion groups was cited when the award was made.

He joined Kodak in 1934 and has been on the sales executive staff since the end of the war.

Photo Patter— Try Contests To Perk Up Snap Interest

The beginning of the summer snapshot season always brings announcements of photographic contests with attractive prizes for amateurs. Certainly you should enter one or more of them.

Don't hold back because you are a beginner or do not have new or elaborate equipment. A veteran contest winner rang the bell the first summer she had a camera—and it was a secondhand outfit, more than 25 years old.

Here are a few suggestions that may help:

Study the Rules

First, read the rules carefully to make certain that you are eligible. Be sure that your picture meets every single one of the requirements. Do not waste time and money on an elaborate presentation. The judges won't be impressed and may even be annoyed if it makes the picture hard to handle. Include the requested information in clear, concise form—and stop there. Remember, the judges examine many pictures.

Be Careful of Favorites

The most common error contestants make is that of submitting pictures which seem good to them because the subject has special, personal appeal. You may treasure the picture of little sister waving to you from the doorway 30 feet away, but keep it for your album. The judges unfortunately haven't the privilege of knowing Sister.

Avoid popular or hackneyed subjects. Although the contest literature may not mention it, a little originality will help your chances considerably. So beware of the barefoot boy with fishing rod, kittens peeping out of shoes, etc.

A Winner—This picture took a \$500 prize in the 1949 Newspaper National Snapshot Awards. Simple, isn't it, but it tells a story.

Kodapak in Price Signs—Extruded Kodapak Sheet has been utilized by the Modern Process Co. of St. Paul St., Rochester, to make attractive price signs such as the one held above by President Ernest Prietz. Design for this was worked out by him with General Electric Co. The signs were featured in the display company's recent exhibit at the Rochester Chamber of Commerce. It was one of the Chamber's "Know What Rochester Makes" exhibits. Above, Joe Gruntler, center, EK Cellulose Products salesman in the Rochester area, examines the sign with L. L. McGrady, manager of Kodak's Cellulose Products Sales Div.

Alexander McIntosh Retires, Headed Unit in Vancouver

Alexander W. McIntosh, manager of Eastman Photographic Materials, Ltd., Vancouver, B. C., retired July 1. He was succeeded by David M. Taylor. McIntosh is a native of Edinburgh, Scotland. He arrived in Canada in 1911 and the following year took a position with Bishop & Christie in Vancouver.

During World War I he was with the Royal Canadian Field Artillery. After the war he joined Camera & Arts, Ltd., Vancouver, and was associated with that firm when Kodak acquired it June 15, 1927.

He was appointed assistant to the manager in July 1940 and manager in November 1942.

Taylor was born in Glasgow, Scotland. His Kodak career began June 15, 1927, when the Company bought Camera & Arts, Ltd. He previously had worked with that firm for a year.

He served as a clerk and as an accountant until he was appointed assistant to the manager in 1945.

From 1940 until 1943 Taylor served in the Canadian Army.

D. M. Taylor

KODAKERY

Vol. 8, No. 27

July 13, 1950

T. M. Reg. U. S. Pat. Office

Published weekly at Rochester, N. Y., with offices at 343 State Street and printed at Kodak Park.

EDITOR - - - BOB LAWRENCE

It's This Way — Joseph Finzer, F.D. 3, right, explains his suggestion to A. T. Smith, assistant general foreman of the Paper Mills. It was Finzer's idea to redesign the felt-carrying rolls of paper making machines to reduce the maintenance.

Kodak Park Suggesters Turn Ideas into \$7781 in Cash

An award of \$275 to Bernard Koeplin of the Paper Mill highlighted a cash total of \$7781 which went to KP suggesters for their labor- and time-saving ideas during the sixth period.

This brings to more than \$76,000 the amount paid out by the Suggestion Office since Jan. 1, approximately \$12,000 ahead of last year.

In the manufacture of yellow interleaving paper, it has been the practice to process the raw material through some equipment, the need for which has been eliminated by the adoption of Koeplin's suggestion.

Joseph Finzer, F. D. 3, received \$185 for redesigning felt-carrying rolls used in paper-making machines.

Checks for \$150 went to Louis Goetzman, Distribution Center, and Arthur Sackett, F.D. 10. Goetzman's idea applies to drag-line

trucks which operate in Bldg. 205, improving their safe operation. Sackett proposed a means of improving the lubrication of mixers and pumps located in the Dope Dept.

A more efficient method of receiving and handling film in the 35mm. Kodachrome Processing Dept. earned Arthur Welter \$130.

Four Get \$100

Four men were awarded \$100 each for their ideas. They are C. H. Price, Time and Payroll; Ralph DeVries, Machine Shop Assembly; Mathew Kawiak, Recovery, and Thomas Wawro, F.D. 10. The adoption of Price's recommendation has resulted in an improvement in Suggestion Office operations. A redesign of one of the parts of automatic film spooling machines was the subject of DeVries' suggestion. Kawiak simplified the handling of scrap film by proposing that push-carts be used instead of bags. Wawro's suggestion outlined the need for a certain type of excavating machinery which would make such operations as trucking and grading easier.

A check for \$80 went to Norman Wingrove, Powder & Solution, for suggesting a change in procedure for mixing some solutions.

Winners of \$50 awards were Philip Lavery, Film Emulsion Coat-

ing; Irving Oliver, Specialty Products; Frank Pickett, Distilling; Fred Perkins, Silver Nitrate; Mildred Strong, Inventory Control Office, and Alphonse Boucquaert, Reel Manufacturing.

Cine Processing folks scored with 146 adoptions to lead all KP departments. The E&M Dept. came through with 88 and Roll Coating with 69.

Death Claims 5 At Kodak Park

Death recently claimed three Kodak Park men and two women.

They are: Mary Joyce Fletcher, a retired member of the Cleaning Dept., who passed away June 30; Hazel Smith Glenn, X-ray Sheet Film; Bruce Morrison, Research Laboratory; Charles Baitinger, Metal Shop, and Raymond Dunn, Industrial Engineering.

Mrs. Glenn, who had been out ill since May, died July 4. She leaves a sister, Ruth Smith Piker, in the Film Emulsion Melting Dept. Morrison started in the Yard Dept. in 1920, transferring to the Research Lab in 1922. His death occurred July 2.

Baitinger, who died June 23, joined F.D. 2 in 1936. He went to the Metal Shop in 1939. Dunn started in the Research Lab as a summer employee in 1941 and in 1946 joined the Industrial Engineering Dept. He died July 5.

Here and There with Kodak Park Folks

Uarda Reed, Distribution Center, Bldg. 205, and Ed Welke, Hawk-Eye, spent their honeymoon in Pennsylvania and New England. . . . John Tuttle, E&M Stores, directed the prize-winning comedy-drama, "The Glass Menagerie," recently presented at the Pittsford Summer Theater. . . . Henry Ireland, Bldg. 30, and Mrs. Ireland celebrated their wedding anniversary by taking a trip to New York City. . . . Elizabeth Bartman, Distribution Center, and her husband recently spent two weeks in Cedar Rapids, Iowa.

Owners of new automobiles in the Distribution Center, Bldg. 205, are Anna May Gresens, Walt Narog, Rosemary Waser, John Scanlan, Florence Resler and Mae Parks. . . . Esther Erbland, Bldg. 30, has left the Park to devote her full time to her new home.

their friends in the Roll Film Packaging Dept. Arrangements were made by Pearl Hitzke.

Richard Nichols, Cafeteria, and his family motored to New England last weekend, returning by way of the Adirondacks. . . . Nancy Dodge is a recent addition to the Power Office Staff in Bldg. 31. . . . Charles Whalen, Bldg. 14, served as a demonstrator of Tenite toys during the recent Tenite Toy Fair held at Sibley's. . . . Ruth MacRae, Bldg. 28, and Audrey Klippel, KODAKERY, spent Fourth of July week vacationing at Lake Placid.

Mary Miller, Employment Records, and her husband, Ed of Hawk-Eye, recently motored to Kittern, Me., to visit her brother. . . . Joseph Hetzler, Fin. Film Supplies, has resumed his KP duties after a long period of illness. . . .

Barbara Ireland, Marjorie Legg and George Shayler . . . picnic planners.

More than 400 members of the Testing Dept. and their families are expected to attend the annual picnic of the Testing Dept. July 29 in Genesee Valley Park from 2 to 8 p.m. George Shayler is chairman of the affair. . . . Sandy Eldridge, Paper Mill, recently entertained his parents from Beulah, Mich. Sandy, together with his wife and daughter, will motor back to Michigan to spend a three-week vacation. . . . Another member of the Paper Mill, Kenneth Gallinger jr., is playing host to his parents from Tampa, Fla. The entire family will visit his sister in New York City and follow up with a vacation in the Catskills.

Henry Lea and Wallace Lawrence of the Industrial Lab, Bldg. 23, attended the spring meeting of the New York Sewage and Industrial Wastes Association in Jamestown, N. Y. . . . Pat Wilcox, formerly of the Ind. Eng. Dept., has joined the Training Dept., Bldg. 99. . . . Personnel of the Motion Picture Film Dept., Bldg. 58, held their annual picnic June 17 at Elser's Grove. Special guests were Otto Behn, Sidney Jones, Michael Quigley and Thomas Robson sr., all recently retired. Each was presented with a gift from associates by Rufus Wesson, department head.

The Statistical and Material Planning Depts.' picnic June 21 attracted 63 members and their families to Mendon Ponds Park. A baked ham supper, topped off with strawberry shortcake, was arranged by the hardworking quartet of Ann Dukeminier, Jane Lowe, Mary Longfield and Bill Hosley. Betty Jane Cooper, Paul Kramer and Bill Smith worked up an interesting program of entertainment which included a softball game, egg-throwing contest and a quiz. John Harrington was general chairman of the committee in charge, assisted by Bill Arnold and Roger Harnish. . . . Clarence Meteyer, Ind. Studio, Bldg. 6, journeyed to Cape Vincent over the Fourth of July holidays for some early summer fishing. . . . Emily Seidl, Employment Records, has returned from a week's motor trip to New England, where she visited the old fishing town of Gloucester and the painters' haven at Brockport.

Richard Baybutt, Ken Quetchenbach and John Folwell . . . a poster for Dick.

Alfred Fratter, Cine Reel, attended the state convention of the Legion of Guardsmen June 17-18 in Jamaica, L. I., as a delegate of the T. J. Griffith Post. Al managed to sandwich in a visit to Coney Island. . . . Guest of honor at a luncheon in the service dining room was Irene Ziarko, who recently transferred from the Box to the Sundries Dept. . . . Barbara Pratt is the new KODAKERY correspondent in the Order Dept. of the Distribution Center. . . . An all-day picnic for members of the KP cafeterias and their families will be held July 15 in lower Seneca Park. John Mailo is chairman of the committee completing plans for the affair.

Barbara Pratt

Members of the Export Billing Section of the Distribution Center held a picnic supper at Durand-Eastman Park June 20. Gus Vermeire handled the arrangements. . . . Edna Smith, Employment Records, is spending many pleasant hours these days at the wheel of her new automobile. . . . A dinner and shower were held at Mike Conroy's June 20 in honor of Shirley Kayter and Violet Marshall by

11 Retired at Park on July 1 Closing Long Kodak Careers

Eleven Kodak Park members closed out long service records when they retired July 1.

They are: Adolph J. Bader, Machine Dept.; Aleksander Dembek, Sundries; William R. Malcolm, Sheet Film Packing; Michael P. Manning, Paper Mill; Harry Menzies, Paper Sensitizing; Fred W. Sands, Roll Coating; George B. Tagg, Paper Mill; William C. Vaeth, Research Laboratory; Lester E. Wakefield, Machine Dept.; Edward J. Zweigle, Chemical Plant, and Edith Dunbar Chapman, Paper Finishing.

Manning, with a record of 40 years, heads the list. Bader and Menzies completed 38. Before coming to the Paper Mill, Manning saw service in the Yard, E&M and Plant Protection. After spending some time this summer at his Honeoye Lake cottage, he plans to do some traveling.

Both Bader and Menzies have been in their respective departments for their entire KP careers. Bader is planning a busy season of hunting and fishing while Menzies looks forward to visiting his sister in Los Angeles this summer, in addition to attending Red Wing baseball games.

Dembek and Wakefield are retiring after completing 37 years at

the Park. Dembek's association with Bldg. 48 includes six years in the Printing Dept. Wakefield has been a member of the Machine Dept. since coming to the plant. He wants to take a vacation trip, following which he will devote his spare time to duties around the house.

Thirty-four years in the Paper Mill is the proud boast of Tagg, while Vaeth has chalked up 31 with the Company, nine of them at Hawk-Eye.

Sands, except for several months' service in Bldg. 29, has devoted his entire 26-year period at the Park to the Roll Coating Dept., where he has been a coater's assistant since 1933. He is fond of gardening and fishing and keeps a motorboat on Lake Ontario, near Hamlin Beach. Present plans call for a trip to California to visit a brother and sister sometime next year.

Zweigle is leaving after completing 23 years' service. Both Edith Chapman and Malcolm have a total of 22.

End EK Service—Here are eight of the 11 Kodak Park folks who ended their careers with the Company on July 1. Front row, from left: Harry Menzies, Lester Wakefield, Michael Manning and Fred Sands. Back row: William Malcolm, William Vaeth, Edward Zweigle and Adolph Bader.

Graduation Day

Four Receive New Titles at Kodak-Pathe

A news bulletin from France announces four changes at Kodak-Pathe S.A.F.

Alfred Landucci, president and general manager, has made these appointments:

Lucien Vacher, former manager of Kodak-Pathe's Vincennes Factory, now is assistant general manager of Kodak-Pathe.

Jacques Tassel, who was assistant manager of the Vincennes Factory, has been made deputy manager of the Factory.

Paul Dubs, formerly assistant to the manager of the Factory, now is assistant manager of the Factory.

Sylvain Pouly, until now Sensitized Goods production manager, has been made assistant manager of the Factory.

Vacher and Dubs both are known to many Rochester Kodakers, having visited Kodak here.

"Who was that lady I saw you out with last night?"

"I wasn't out. I was just dozing."

Lucien Vacher

The Graduates—These 234 apprentices of the E&M Division at Kodak Park received certificates of accomplishment in the first exercises of the kind conducted recently in the Bldg. 28 auditorium. Donald McMaster, vice-president and assistant general manager of the Company, upper left, was the principal speaker. His topic was "The Importance of Apprentice Training in Industry Today." C. H. Brown, general superintendent of the KP Service Depts., seated next to McMaster, was chairman for the program. A. R. Eckberg, division superintendent of E&M, and J. F. Morris, Personnel and Training, presented the certificates.

55 Reserve Officers Tour 2 Kodak Plants, Hear Talks

Reserves Come to Kodak—Among U. S. Air Force Reserve Officers who visited Hawk-Eye are, l. to r., Lt. Col. Raife G. Tarkington, KP; 2nd Lt. Eugene F. Richner, KO; Henry Hanford, H-E, who escorted the officers; 1st Lieut. John C. Doolittle, CW; Maj. Lawrence B. Quarterman, KP; Lt. Col. Edgar H. Felix, New York City; Capt. Edward M. Warner, St. Lawrence University; Capt. Harvey B. Klaus, Troy, and Capt. LeRoy A. Williams, Rochester. Joseph Matulis is the operator in the Centering Dept. He's doing a polishing operation on Cine-Kodak lenses.

Manufacturing operations at Hawk-Eye and Kodak Park were explained to 55 U.S. Air Force Reserve Officers here last weekend. The members of the Research and Development Detachment, most of them from the Griffiss Air Base at Rome, N. Y., also heard talks by men from Kodak Research Laboratories.

Bullet Stopped In Exhibit Shots

The precision swing of the master golfer! A bullet speeding from a gun barrel! These unusual shots are included in an exhibition of speed-flash photography now at George Eastman House. The display continues through July 30.

Dr. Harold E. Edgerton of MIT made the pictures of motion too fast for the human eye to see. He's an expert on ultra-high-speed photography. Dr. Edgerton uses the flashing light to stop motion in photographs snapped in as little as one-millionth of a second.

Using action-stopping multiple exposures, Dr. Edgerton has pointed up the graceful movements of a dance team, shown the rhythm in a tennis champion's stroke and highlighted the performance of aerial trapeze artists.

Included in the exhibition are such classic photographs as his rapid-flash exposures which reveal the delicate balance of the hummingbird.

Maj. Edd W. Johnson, military training officer, was in charge of the reserve officers, some of them from Rochester, for the weekend conference.

Shortly after registration in the Hotel Rochester Friday the officers heard a lecture on "High Speed Processing" by Charles Kunz of the Kodak Research Laboratories.

Orientation Talk

They visited Hawk-Eye Saturday morning and were received by executives there. An orientation talk by Henry S. Sanford, H-E Industrial Relations Dept., was followed by a tour of the plant. Later they went to KP where they heard Dr. Cyril J. Staud, director of the Research Laboratories. A bus tour of KP and inspection of certain manufacturing operations was followed by a general discussion and business meeting.

Sessions on Sunday were conducted at George Eastman House and the University of Rochester.

Kenyon Heads New Lab Dept.

Dr. W. O. Kenyon has been appointed head of the newly organized Chemistry Dept. of the Research Laboratory, according to Dr. Cyril J. Staud, director.

Named as department heads were Dr. John Russell, Physical Chemistry Section; Dr. C. F. H. Allen, Organic and Polymer Section, and A. E. Ballard, Analytical Chemistry Section.

Smith Named Eastman Gelatine V-P

Gregory Smith was elected a vicepresident of the Eastman Gelatine Corporation at a special meeting of its board of directors on June 30.

An MIT graduate, he went to KP as a chemist in the Industrial Lab in 1931. The next year, he joined KP's Gelatine Dept., and

in 1938 was made assistant superintendent.

In 1949 he transferred to Eastman Gelatine as assistant to the general manager. Last February he was elected a director of the corporation and made assistant general manager.

Based on Survey

Other important information on operation of photo departments in the drug stores is contained in the 16-page booklet. It is based on a survey made for Kodak by a national research organization. Only druggists whose photo departments proved successful were contacted. In this way Kodak felt it could gather facts of concrete assistance to other druggists.

Entitled "Drug Store Success Secrets," the booklet tells how some druggists have increased photographic sales by 25 per cent in two years or more. Others have made photo sales more profitable than most of their departments, except prescriptions.

Some interesting information came in answer to the question: Is the photographic business a permanent one? The answer was a definite "Yes." The average druggist interviewed had been in the photo business for 22 years—and the photo department had been a consistent producer all the time.

With Retired Kodakers

Charley Werder Turns to Farming . . .

Busy Day—There's plenty to do on Charley Werder's farm, and Charley loves it. Above, he's doing a little cultivating. When he's through with that he can start spraying . . . and so it goes. At right, he and his wife pick strawberries. They harvested 600 quarts this year, had plenty to eat, froze enough for winter and sold the rest.

Retire? Charley Werder doesn't know what that means!

Charley, who retired from Kodak a little over a year ago, has turned farmer and is busier than ever.

He has quite a layout on Palmyra Rd., south of Fairport. There are 82 fruit trees (which he planted himself three years ago), eight 100-foot rows of strawberries, raspberries and a big vegetable garden. What with pruning, spraying, plowing, weeding, hoeing and picking, Charley keeps "on the move," with help from his wife, Virginia, of course.

He started with Kodak back in 1906, left after two years, joined Premo in 1911, Kodak Park in 1921 and CW a year later. He went to NOD in 1949.

Although Charley's kept busy, he does manage to take a day or so off once in a while to do a little fishing.

Like Father

There are a lot of fathers and their sons working at Kodak. In the Yard Dept. alone at Kodak Park, there are 13 such combinations. Here are 12 of them. Arthur Chamberlain and his son, Howard, appear on Page 1.

....Like Son

Floyd Williams

Earl Finear

Walter Zarpentine

Roy Williams

Richard Finear

Wayne Zarpentine

Joe Sciorio

Frank Mattice

While getting pictures of fathers and sons in the KP Yard Dept., some interesting facts were picked up. For example, the Jones family is one of long Kodak standing. Frank Jones' father, Henry T. Jones, was the Company's first engineer in 1891. He was chief engineer of the KP Power Dept. Frank himself is a 39-year man. His son, Jack, is in the Yard Dept. and two brothers, Henry and Charles, are of KP Bldg. 31 and KP Power Dept., respectively.

Among Kodak Park gatemen, James Sexton has the longest length of Kodak service, with 39 years to his credit. Harry Leeming, who's been with the Company for 31 years, has two sons, Arthur and Harry jr., with Kodak. Gena Warner, a 32-year man, also has two sons at Kodak. They are Marvin and Gena. Night watchman F. Lawrence Staub is another with two Kodak sons, Lawrence F. and Gordon.

Stanley Coe, Kodak bus driver, beats the Leeming-Warner-Staub record with three sons who are Kodakers. They are Richard, Maurice and Stanley jr. Floyd Williams, driver of Kodak tour bus, bests Stan with three sons and a daughter . . . Roy, Richard, Robert and Ann Lintz, all Kodak people. Both Joe and Raimo (Burdock) Sciorio joined the Company in 1942. Thirty-year-man Percy Lane has two children at Kodak . . . George and Alice. Arthur Chamberlain and his wife, May, and their son, Howard, all are Kodakers. Both Walter Zarpentine and Frank Mattice have been with the Company over 20 years. Earl Finear came to Kodak in '42 and it was just this year that son Dick "followed in his footsteps."

2 KO Girls 'Make History' By Joining Men's League

Two Kodak girls have broken precedent by joining the Kodak Office team in the Men's Industrial League . . . first women members in its history. Margaret Michlin of KO Patent and Doris Minges of KO Repair are doing all right, too. They won their first match against male opponents, 6-4, 6-4.

"Men are good competition," say the girls. "They hit the ball much harder." Margaret has played tennis for five years, while Doris has

only two years to her credit. They were called upon to join the men's team because of a shortage of male players. Most enthusiastic about their new membership, they declare, "It improves your game 100 per cent."

Pair of Winners—Margaret Michlin and Doris Minges talk tennis following their recent win over male opponents in the Rochester Industrial Tennis League.

Between Us Girls

A girl who can keep a secret—that's June Douglas, Plate Dept., KP. June reported for work on June 12 and calmly announced that she had been married to Donald Reiss June 10. . . . Marian Gardner of KO Payroll fell and put a run in her stocking while participating in an active contest at the KORC picnic. Anyway, she won a prize, a pair of stockings. . . . Still in the clouds since her recent vacation in California is Geraldine Walsh, who was accompanied by her mother. On the

agenda for the H-E Dept. 60 member's trip was a stop at her sister's home on the outskirts of San Francisco. . . . A surprise bridal shower in honor of Betty Rowe, KP Film Control, was held June 22 at the home of Barbara Boring. Carol Thomson assisted Barbara as hostess. Highlight of the occasion was a "pot of gold" containing 24 silver dollars, "found" by Betty at the end of the cardboard rainbow. . . . Helen Schairer and Loretta Saucke of KP Bldg. 26 and Esther Heinrich of KO Advertising are mo-

Afghanistan To Present New Food Problems

Dealing with food problems was a major "business" with KP's nutrition adviser before she left Kodak last Friday. Soon she'll face even greater ones.

Bonnie Kuehl and her husband depart for distant Afghanistan in October, following their marriage in August. Even though she's learned very little about the country, she's discovered that rice and mutton are popular dishes. Not so with Bonnie. These are the two foods she dislikes. She has satisfaction in knowing that fruits are prevalent.

Afghanistan, Bonnie points out, is a little country so located that Russia is on the north; Pakistan, south; India, east, and Iran, west. Personal safety in the event of turmoil does not worry her. She says that the construction company with which her future husband, Allen Stanley, is associated takes responsibility for immediate evacuation if necessary.

To Visit Paris

The couple plans a two-year stay at the least. It's been just this length of time since she's seen her fiancé, who has been located in Afghanistan. In fact, their reunion will take place three days before they walk down the church aisle in Genesee, Idaho.

Honeymoon plans include visits to Canada, California and possibly Mexico. En route to Afghanistan they'll stop over in Paris for two days, travel through Italy to Cairo and from there to Karachi, India. "A train, if you want to call it that, truck and horse" will take the Stanleys to their destination.

Forthcoming wedding and trip plans will keep Bonnie a mighty busy young lady this summer. Prior to joining Kodak's nutrition staff, she was a student dietitian here.

toring to Seattle, Wash., via Glacier National Park, Banff, Lake Louise, the Columbia River Highway and Mt. Rainier.

Bonnie Kuehl

Lavender and Nylon—

It's a frothy formal with nylon net falling from a taffeta peplum. The stole and ruching on bodice top also are nylon net. It doesn't wrinkle easily.

A delicate lavender is the color of this Edwards gown. It's modeled by lovely Lorraine Wiedrich of CW.

Librarian's Locks No Longer Long

Ethel Shields, who celebrates her 30th anniversary of being Kodak Office's librarian this August, recently surprised KOers.

She has a new short haircut—after having worn it long and rolled up since she was 16 years old.

Declared Ethel: "I had been thinking of having it cut for a long time, but it always seemed like a big step."

Now, it fluffs becomingly around her face, and she's having great fun training her naturally curly hair into shape.

DAFFYNITION — Jury: Twelve persons chosen to determine who has the best lawyer.

NEAT IDEA — Use a small fly sprayer, filled with water, to wash the dust from house plants at the kitchen sink. Be sure sprayer is clean before filling it.

WORD TO MOM—A mother's critical attitude toward baby's food habits or toward his lack of muscular coordination and consequent messiness may result in his refusing certain foods for all time.

The Vitamin Is 'Slippery'

Are there any calories in vitamin capsules? No.

Why do some food authorities advise taking a multiple vitamin capsule every day even in the summer?

Because the real vitamin content of the food we eat is so uncertain. For example, fruits and vegetables begin to lose their vitamins as soon as they are harvested. They are then taken to market, sold to the retail market and then to the housewife. She then stores them and finally prepares them for her family. Or they may be sold by the wholesaler to a restaurant owner and a chef then will prepare them for the customers. Unless carefully handled in each of these steps, the vegetables or fruits as eaten will have little or no vitamins left. It is especially important for people who travel or eat out often to make sure they get their vitamins. Personally, I feel that a multiple vitamin capsule every day is good "health insurance."

—by Wintress D. Murray, EK Nutrition Adviser.

Nimble Fingers Feed New Machine

The first two girls to operate regularly a new, unique machine in the Roll Film Panchromatic Spooling Dept. in KP Bldg. 25 are Claudia Douglas and Alpha (Trudy) Howe.

It's an automatic capper, the first of its kind to cap the comparatively small aluminum cans that hold 135 film. Cappers in the past have been designed to grasp larger and stronger objects such as Kodak's chemical bottles. The small aluminum, bendable cans presented capping problems that now have been ironed out by KP's Industrial Engineering Dept. in conjunction with the Roll Film Dept.

The tricky capper is a boon to the spooling department, which produces millions of rolls of 135 film a year. "It's a tremendous improvement," declares the girls' department head, Jack Leeming.

Claudia's and Trudy's jobs are to feed the machine with cans of film, keep it supplied with caps and remove the capped cans to a skid. They work with nimble fingers.

Their work is the last step in production of 135 film; nonetheless an important one in its output. Versatile girls, they are trained to do all operations in the department . . . perforating, sorting, reinspection and others.

Inspecting, however, is their big activity other than capping. This means scrutinizing film for physical defects, checking and winding, and making sure the film emerges from a correctly marked container.

The numerous skills of Trudy and Claudia make for interesting

jobs. And they like them.

Outside interests vary, too. But, in the fall, Trudy is a one-sport girl. She likes to tote a gun in quest of deer. She and her father favor the Allegheny countryside

for hunting.

Claudia's 22-month-old son has a claim on much of her leisure time. She and her husband are looking forward to living in their new home.

Capital Capper — These two girls and three men all have a major interest in Roll Film Pan Spooling's new capping machine. The girls, Trudy Howe, at left, and Claudia Douglas, are its operators. Others, left to right, are Jack Leeming, the department's head; Otis Clayton, who suggested it, and Walter Wells, Industrial Engineering Dept. at KP who helped develop it.

About the Model

Tall, blonde and blue-eyed is Lorraine Wiedrich, who took time out for modeling from her regular duties in Camera Works' Production Engineering Dept. She does secretarial work.

Housekeeping is her big outside activity, but when time permits she enjoys sewing. As for sports: "I'm a good spectator," says Lorraine, "but I'm not very good at participating." She's a member of an almost strictly Kodak family. Her husband, Ernest, is in CW Wage Standards. Her father, Harry Barth, is in CW Tool Design. And her brother, Richard Barth, is an NODer in the Tool Dept.

Bill won a trial heat in the 60-yard dash, placed third in the finals for the same distance, placed third in the 100-yard dash, and led the field in the 220-yard sprint finals, negotiating the distance in 21.8 seconds.

Excursion to Cleveland Set For Kodakers

Ted Williams . . . Bob Feller . . . Larry Doby . . . Walt Dropo . . . Lou Boudreau. These and other Cleveland and Boston Red Sox stars will be the attraction Sunday, July 30, when Kodak baseball fans travel to the Ohio metropolis for a doubleheader involving the two American League pennant contenders.

The exclusive baseball excursion is expected to attract more Kodakers than any other excursion ever sponsored by the recreation and athletic groups at Kodak Park, Camera Works, Hawk-Eye, Kodak Office and DPI.

Comes to \$13.50

The \$13.50 cost includes a \$1.80 reserved seat in Cleveland's huge municipal stadium for the twin bill which starts at 1:30 p.m. An individual round-trip NYC train ticket for this trip normally would cost \$17.48.

The special train, which will leave Rochester at 7:30 a.m. that Sunday, will arrive in Cleveland at 12:05 p.m. The downtown terminal is just four blocks from the ball park. On the return trip the Kodak fans will board the train at 7 p.m., arriving in Rochester at 11:25 p.m.

Reservations may be made at the various recreation offices.

They Know How and Show How—A staff of 18 instructors is assisting Lysle "Spike" Garnish and Harold "Shifty" Gears this year with the 7th annual KPAA summer softball program for boys. The regular schedule opened last Monday with a record field of 2800 youngsters taking part. Left to right, front row, they are Les Schmidt, Louis Basile, George "Hack" Krembel, Harold Schum, Charlie O'Brien, Lyle Brown and Gene Baker. Left to right, rear row, Burnell Farnan, Leo Gallagher, Bill Bushnell, Brooks Kiggins, Fran Curran, Dennis "Dip" Murray, Tommy Burns, George Beane and Harold Gears. Absent when the picture was taken were Garnish, Tommy Castle, Paul Fauth and Rainey Parthoens.

Kaypees, Dusties Battle To Tie in 10 Innings

The Kaypees and KP Dusties battled to a 1-1 deadlock over the 10-inning route to feature Kodak softball action last week.

The Dusties outthit their Major League rivals, 6-3, in the pitching duel between Jennings and Oister for the Kaypees and Snook for the Dusties.

The KP's gained a split in other games, downing Hickoks, 8-4, while bowing to Balcos, 3-2.

The Dusties dropped to Ritter's, 4-0, but beat B&L, 3-1.

DPI added another victory in the Majors at the expense of Kodak Office, 7-2. The DPI boys, however, were goose-egged, 6-0, in the Champion Circuit by Commercial Controls.

Besides being knocked off by DPI, the KO crew also lost to Rochester Products, 7-4, and were "cleaned" by American Laundry, 11-2.

Hawk-Eye had a bad week, too, losing to Delcos, 5-0, and to Rochester Products, 6-2.

Camera Works blanked the Balcos, 3-0, in the Rochester Industrial League, and nosed out Ritters, 3-2, in the West Side Industrial. The latter win gave CW a first place tie for the first half title.

Here's how they stand in the Major League:

Major League:		NATIONAL DIV.		AMERICAN DIV.	
	W	L		W	L
Ritter	9	0	Delco	9	1
Kaypees	7	2	DPI	7	1
KP Dusties	6	2	Hawk-Eye	6	4
Balco	6	3	Products	5	5
Gleason	3	8	Laundry	4	6
Graflex	2	6	Stromberg	4	7
Police	2	7	Kodak Office	0	11
Hickok	1	7			

Yanks Win 1st Half In Noon-Hour Loop

Jack Connolly's Yankees annexed the first half championship in the KPAA Lake Avenue Noon-Hour loop by defeating the Giants in a playoff contest, 4-3.

With one week of play remaining, the Orioles lead the KPAA Ridge circuit by a slim margin.

A three-way tie for the top spot marked hostilities in the KPAA West Kodak wheel.

Here's How—Bob Puffer shows the rest of the Industrial Engineering Dept.'s golfers how to win tournaments. Bob shot a two under par 33 on the back nine at Midvale for a 77 to finish with a 65 net. Orville Martin had a net 70 and Al Robinson 71. Thunder, lightning and rain failed to halt the meet. Another tourney is planned at Lake Shore this month.

Collins Hits The Bull's-Eye

Jack Collins, KO Photographic Illustrations Div., is as accurate with a gun as he is in critically focusing his camera. Collins came off with honors in the 22 rim fire bench rest match, first of its kind held by the Bench-Rest Shooters Association.

The bench shoot was held at the Pine Tree Marksmen Rifle Club's range at Johnstown, N.Y. Tricky winds prevailed all during the match.

Using a Remington 37 target rifle, Jack placed second for aggregate group size. He won three out of the 15 matches for the smallest grouping of five shots. Twenty-five marksmen participated, shooting at 100 yards.

PARK HORSESHOERS WIN

Kodak Park took an undisputed hold on first place in the Major Horseshoe League last week, beating Rochester Products, 16-9. It was their seventh win without a loss. Al Cope got five wins and Clarence Auten and Charlie Kester three apiece.

Jack Collins

About Kodakers . . . Athletically Speaking

The Michlins—Phil of Hawk-Eye and Margaret of KO—added another tennis trophy to their collection over the weekend. The Kodak pair won the Country Club of Rochester mixed doubles championship over Cedric and Bunty Rowntree. The sets were 6-3, 4-6 and 6-4. There were 32 starters in the event.

It was just one of those days for

Bob Mulcahy of KO's Camera Club Service at Oak Hill the other day. Bob, a consistent 90 shooter, carded himself a neat 74. . . . "Everything clicked just right," says Bob, who admits to being not a little bit dumbfounded by his success.

Quite by contrast, KODAKERY's Hilda Roman carded a 115 for nine holes over the Fourth at Lake George, sparked by a 23-stroke ninth hole. All in all it was a gruesome round with the foursome totaling some 350 swings in the four hours they were out. "There wasn't a bit of the course we didn't see," Hilda avers.

Bill Lowney of KP had "birdie" trouble at Lake Shore recently. He hit his ball into a sandtrap but didn't locate it until a pigeon flew away. The only explanation Bill could give was that the mothering instinct got the better of her and she thought she'd hatch it. Art Bahr, Roy Ireland and Bob Ogg, also of KP, got a "kick" out of the incident.

Ten foursomes turned out for the KP Testing Dept.'s annual blind bogey golf tournament at Churchville. Lot Wilder and Dick Hondorf tied for the sweepstakes prize, Hondorf also capturing the top blind bogey award. Other winners were Paul Snell, Neil Bubel and Bill Kowal.

The KPAA will conduct its first girls' handicap links event of the season Saturday morning, July 22, at Lake Shore Golf Club, starting at 8 a.m. A special point-scoring competition is planned, offering beginners an equal opportunity of sharing in the prizes with golfers of proved ability. A greens fee of \$1 is being charged. Applications are available now in the KPAA Office, Bldg. 28.

The KPAA's second handicap golf tourney of the season will be held at Lake Shore July 15. Blind bogey prizes will replace birdie awards, the tourney committee announced.

Ernie Hermann and Sig Gorczynski had a combined net of 112 to amass eight points and first place in the CWRC Golf League last week. Ken Fredrick and Bill Rup-
