

## Kodak Salutes Grads

**Y**EARS FILLED WITH LONG HOURS of study were concluded for 20 Kodak men who reached new educational goals at recent commencement exercises.

Ten earned bachelor of science degrees in the University School of the U. of R. and one received a bachelor of business administration degree at St. John Fisher College.

Nine others have been awarded master of science degrees by the Graduate School of the university where ceremonies were conducted June 7. St. John Fisher College commencement was May 31. All of the graduates are shown on this page in sort of a classroom setting—complete with textbooks.

The Kodak men earned their degrees "the hard way." Many of them are married and have children. And much of their classwork was in the evening after a day on the job. That meant time for study was late at night and often into the wee hours of the morning.

Now that it is accomplished, however, they agree it was well worth the time and effort expended.

A NEWSPAPER FOR THE MEN AND WOMEN OF KODAK

# kodakery

Vol. 17, No. 23 © 1959 by Eastman Kodak Company June 11, 1959

**A**S A PUBLIC SERVICE, Kodak recently made color identification photographs of the White House staff and the capital press, television and radio representatives.

James C. Hagerty, press secretary to President Eisenhower, has sent a letter to Dr. A. K. Chapman, Kodak president, thanking the Company for its efforts in the project.

"There has been widespread and unanimous approval of them, not only by the White House personnel but by the entire press corps here in Washington," Hagerty wrote.

"The issuance of these passes would not have been possible without the wonderful cooperation of your company," Hagerty especially mentioned J. E. McGhee, EK vice-president; Keith B. Lewis, manager of Kodak's Washington Office of Government Sales; Ed Betlinski, Color Sales Div., KO; W. B. Stapleton, Editorial Service Bureau, KO; A. V. Christman and E. C. Boser, technical representatives; Gene Botsford, Professional Technical Service Center, KO; S. W. Merling, Photofinishing Sales Lab; Rosemary Butler and Geneva Smallwood, Washington Office.

Gene Botsford, Ed Betlinski and Sherm Merling receive thanks from the President.

Hagerty's letter continued: "May I, on behalf of the President, extend his personal thanks to you and to them. Their efforts made this project the unqualified success that it was.

"May I also express the appreciation of the entire White House staff and the White House Secret Service detail for a truly fine public service."

Betlinski headed up the project, Botsford arranged the picture-taking setup and photographed some 2,000 people, and Merling supervised the processing and printing operations. The pictures were made on 35mm Ektacolor Film and the prints were on Ektacolor Paper.

The rolls of prints were delivered to the Secret Service in Washington where the passes were properly validated, mounted and laminated with Kodak Color Print Laminating Sheets. This cellulose butyrate material, a type of Kodapak, is especially designed for color passes as it permits sealing at a much lower temperature than other such materials so that the color is not affected by the heat.

## Color Passes Score Hit In Washington

Bachelor of science degrees were earned by: front, Willard W. Warren, left, KP Film Testing; Richard K. Bucknam, Research Labs. Rear, from left, Lawrence E. Contois, George F. Cohoe and Hollister Johnson Jr., all of Research Labs.

Paul Murray, left, KP Payroll, earned a bachelor of business administration degree at St. John Fisher College. Others received bachelor of science degrees at the U. of R. University School: Harold R. VanVoorhis, center, A&OD(Lincoln Plant), and Charles L. Cooke, KP Engineering. Rear, from left, Frank Bellomo, KP Dope Dept.; Murray J. Maybee, KP Paper Service, and Neil E. Thomas, NOD.

Receiving master of science degrees were: front, from left, James Scheible, KP Paper Service, M.S. in Business Administration; Gary Brooks, DPI Research, M.S. in Chemical Engineering; Franklin Chu, KP Paper Service, M.S. in Chem. Eng.; rear, John R. Flynn, left, A&OD(Lincoln Plant), M.S. in Industrial Statistics, and Peter Zachmann, KP Color Technology, M.S. in Electrical Engineering.

Master of science degrees also went to, from left, Stanford Perry, A&OD(Lincoln Plant), M.S. in Applied Optics; George T. Keene, KP Color Technology, M.S. in Business Administration; Donald W. Lewis, KP Statistical, M.S. in Bus. Adm., and Arthur Bruening, KP Accounting, M.S. in Bus. Adm.

The bronze plaque just received by Donald McMaster, chairman of the EK Executive Committee, is the Award of Merit won by Kodak in the annual "Office of the Year" competition. Reading the citation is James E. Neary Jr., left, vice-president of Office Management magazine, sponsor of the contest. At right is Dave Fulton, EK assistant treasurer and office manager at KO. The honor was earned as a result of the complete renovation of Bldg. 10 at KO. "Meticulous planning and dramatic use of color" were cited. Basis for selection of winners was a survey among members of the American Institute of Architects and the Association of Consulting Management Engineers.

## An 'Office of the Year'

Some of the Kodak people who addressed the recent second triennial Genesee Valley Safety Conference in the Manger Hotel are, from left, Bob Marcotte, project mechanical engineer, A&OD; Andy Andrews, manager, KO Building Services; Al Cobb, director of Industrial Safety at KP, and Joe Hochstein, assistant superintendent, Safety and Sanitation, NOD. They're examining exhibit of equipment.

## All for Safety

## This Is It: Movie Month

An intensive "June Is Movie Month" campaign is being conducted by Kodak. It emphasizes: "Now's the Time to Graduate to Movies."

Two coordinated advertising programs are spotlighting the Company's new automatic movie cameras and projectors.

Then there's the mid-June Telerama of five Kodak TV shows in five days to put the new Brownie and Kodak Cine products on display before millions of viewers. The Telerama opens Saturday, June 13, with television coverage of the National Open Golf Tournament finals. Following in successive days will be The Ed Sullivan Show; a 90-minute presentation of "Disneyland '59," tied in with the opening of new Disneyland attractions; "I Love Lucy," and "The Adventures of Ozzie and Harriet."

Although drawing additional strength from these other campaigns, the "Graduate to Movies" promotion is a complete program in itself. Here's Kodak's all-media plan for the promotion:

A total of 177 newspapers across the nation will run 1,000-line ads twice in June. These ads will be two-color in those papers which run color.

The Ed Sullivan Show and "The Adventures of Ozzie and Harriet" each will devote three commercials to the "Graduate to Movies" theme.

Two-page color spreads will appear in the Saturday Evening Post (June 13) and Life (June 15).

To help dealers tie in with national advertising, Kodak is making available a colorful "Graduate to Movies" window display.

### Zoo Days Set

KCC members are expected to join area shutterbugs June 27-28 when the Seneca Zoological Society stages "Zoo Days."

In a complete circus atmosphere replete with children, animals, clowns, trained animal acts, nature exhibits and the like, beginners and experts alike will have an opportunity to test their lens prowess, taking advantage of rare backgrounds.

The invitation to participate in the two-day photo-fest was extended to the Camera Club by William G. Hart, membership sec-

## KCC Calendar

retary of the Seneca Zoological Society. Each day's activity will be from 10 a.m. to 6 p.m.

### Travel's the Theme

Travel movies will set the theme for the fall competition to be held by the KCC Movie Section. Those planning vacation trips are urged to record them on film and submit them in this unique competition. Details are available now at the KCC loan desk, Bldg. 4.

## Appointments Announced

### Harrington Named Assistant Director

John A. Harrington has been appointed an assistant director of the KP Production Planning Div.

Harrington, in addition to assisting Pierre Hoag and George F. Oest in the overall administration of the division, will continue as head of the Statistical Dept. Oest continues as acting director of the Production Planning Div. in the absence of the director.

The appointment, effective May 18, was announced by Ivar N. Hultman, KP general manager.

### Kodak-Pathe Makes Changes

There have been some changes in Kodak's French company.

Robert Floury has retired as finance and office manager of Kodak-Pathe. Jean Marot, general secretary and member of the board, has taken over these duties. Floury will continue to serve as finance adviser and on the board.

Jacques Tassel has been named assistant general manager in charge of the factories.

Two have been elected to the board of directors: Marcel Abribat, director of research, and Jacques Ladreyt, director of industrial relations.

### Langston Heads ECPI Sales Office

Eastman Chemical Products, Inc., has named Jesse R. Langston to head its new Chemicals Division sales office at 17325 Northland Park Court, Detroit. He has been representing ECPI in the sale of its industrial and specialty chemicals in the New York area.

### Isbell to Handle New York Area

William W. Isbell has been appointed to represent the Chemicals Division of Eastman Chemical Products, Inc., in the sale of its industrial and specialty chemicals in the New York area.

LaFave

Andrew

## Education Group to Install 2

A. R. Andrew, superintendent of the KP Paper Sensitizing Div., and R. J. LaFave, supervisor of Production Planning, Emulsion Coating Div., will be installed as president and vice-president, respectively, of the Committee on Public Education at the annual meeting June 15 at John Marshall High School. The curriculum study report on "Class Size" will be presented by LaFave. The public is invited.

## Awards Exceed \$22,000 For Park Suggestions

Original ideas netted a cash total of \$12,977.50 for their owners in the fourth period. This figure was supplemented by \$9,115 in additional awards. A total of 936 adoptions were listed during the period.

A \$500 award to Donald Kingston, Photochemical Div., led the original idea list. The suggestion related to a method of applying a coating to stock used in the manufacture of Ready-Mounts. This has resulted in a saving of material.

A check for \$250 was shared by Herbert Miller and William Schwapacher of the Roll Coating Div. They devised a technique for rebuilding solvent metering instruments. This has eliminated a maintenance problem and insures accuracy of calibration.

Awards of \$200 went to John Michaloski, F.D. 3, and Howard Rohr, Paper Box. Michaloski rearranged an electrical circuit on a mechanical splicing device for use on paper coating machines. This helps to insure trouble-free operation. Rohr suggested a change in the method of assembling parts of camera cartons. This reduces the amount of adhesive required to produce a container of the required strength.

Harry Melvin, Chemical Mfg. Div., received \$130 for an idea which led to the salvage of acetate fiber in one step of the continuous dope-making system.

Kathleen VanZandt, Kodacolor Processing, and Elmer Molzahn, F.D. 8, each received \$125. Kathleen suggested a simplified procedure for notifying customers of special handling requirements in connection with various types of color print orders. Molzahn developed a technique for repairing parts of a paper cutting machine which makes it unnecessary to disassemble the equipment.

Awards of \$100 went to Norbert Davis and Andrew Pechie, Paper Mills; Larry Burgess and Henry Martens,

Bill Schwapacher, left, and Herb Miller . . . pooled their ideas and gained \$250

F.D. 5, and Jesse DeRight, Photochemical Div.

Additional awards included \$700 (orig. \$100) paid to Frank Robinson, Sundries, and \$355 (orig. \$300) to Samuel Simpson, Motion Picture & Sheet Film. Robinson recommended the use of a magnetic positioning unit which improves the operation of a combination forming and capping machine for 135 magazines. Simpson's idea led to a change in a testing operation for 35mm motion picture film.

Paper Mills copped division honors for the period with 94 adoptions. Roll Coating had 91, Photochemicals 87 and Sundries 79.

Don Kingston . . . reaped a \$500 award

Frank Robinson . . . \$700 more for him

## Smith's Morgans Headed for Shows

Curt Smith puts the Morgan mare, Panddy's Juanita, and her colt, Panddy's Pride, through warmup paces.

There is only one thing wrong with horseback riding as a sport, as far as Curt Smith is concerned. The first thing one knows he's up to his haircut in horses!

Years ago Smith started out by taking weekend jogs on rental hacks and now finds himself a part-time farmer and breeder of registered Morgan horses.

Since acquiring acreage on Five Mile Line Rd. out Penfield way, Smith has graduated from ownership of a grade mare trail mount to two show-caliber Morgan mares.

A few weeks ago the equine stork delivered a bouncing, bucking chestnut filly.

Granted that Smith is a pretty accomplished rider, he also has come a long way as a trainer and is a sound source of knowledge concerning horses. His 4-year-old filly, Belle-O-Mine, which he broke and trained, won a blue ribbon in the 3-year-old class at the State Fair at Syracuse last year. The horse also won the reserve junior champion and reserve grand champion honors.

This year the Smith string will be shown at the Hamburg show and at the New York State Fair.

What with all the farm chores and time spent in caring for his charges, Smith still recommends riding as a great sport for the entire family. Quick to agree are his wife, Evelyn, and daughters Sheryl, 16, Valerie, 10, and Kimberley, 2½.

### KORC Picnic June 27

Here's the date the kids of KO families have been inquiring about!

Saturday, June 27.

That's the date of the fourth annual KORC Family Picnic.

Willow Point Park will again be the picnic site, with KOers having the run of the park, including the rides.

Hots, beverages, ice cream and the usual picnic fare will be served starting at 12:30 p.m. Games and contests open the afternoon's fun-filled program. Door prizes will be awarded, as usual.

Tickets are available at the KORC or from floor councilors at 25 cents for a strip of seven. They may be used by KOers and members of their families.

### A&OD's Set June 13

Start the countdown—the zero hour is 1 p.m. Saturday. Have the kiddies on deck in plenty of time to join the fun at the A&OD annual Family Picnic at Ellison Park. It's 1 to 6 p.m. Saturday, June 13!

Committeemen and a large staff of aides will be waiting at the spacious grounds to serve heaps of hots, soft drinks, ice cream, cotton candy, etc. They also will assist guests at the merry-go-round, ferris wheel, airplane ride, train ride, pony corral and at other attractions.

Family pictures again will be taken and door prizes will be offered lucky ticket holders throughout the day.

An aside to retired folk: There will be a special area set up where you may relax and visit with longtime friends.

And don't forget! No tickets will be sold on the grounds.

## Picnic Time

## Coming Events

### KODAK PARK

June 13—KPA Men's Golf Tourney (second section), LeRoy Country Club, tee-offs begin at 6:30 a.m.

### A&OD

June 13—Annual Family Picnic, Ellison Park, 1-6 p.m. Rain date: Sunday, June 14

June 20—Camera Club Spring Dance, Ridgmont Golf Club, 9-1 a.m.

June 20—Men's and Women's Golf Tournaments, LeRoy Country Club

June 27—Field and Stream Club Fishing Contest, Honeoye Lake

### KODAK OFFICE

June 13—KORC Men's Handicap Golf Tournament, Livingston Country Club, tee-offs begin 8 a.m. Entry deadline Friday noon, June 12

June 27—KORC Family Picnic, Willow Point Park, 12:30 p.m. to 5 p.m.

### ENGAGEMENTS

#### KODAK PARK

Sue Seiler, Dist. Ctr., to Mike Lockard, Res. Labs . . . Georgiann Kuhn, Adv. Circ., to Richard M. Parisi.

#### KODAK OFFICE

Betty Burke, Adv. Exhibits Div., to Martin Reilly.

### MARRIAGES

#### KODAK OFFICE

Ann Carey, Statistical, to James Proud.

### BIRTHS

#### KODAK PARK

Mr. and Mrs. Donald Lovell, Eng., daughter . . . Mr. and Mrs. Raymond Gendron, Paper Serv., son . . . Mr. and

## Snared Paired-Heired

Mrs. George Blackman, Syn. Chem., son . . . Mr. and Mrs. Richard Diedrick, Syn. Chem., son . . . Mr. and Mrs. Stanley Cliequenoit, Testing, daughter . . . Mr. and Mrs. Kenneth Frisch, MASD, son . . . Mr. and Mrs. Robert Studley, Machine Dept., daughter . . . Mr. and Mrs. Bob Wright, Film Test., son . . . Mr. and Mrs. Dixon S. Pike, Dist. Ctr., daughter . . . ## KO

The head of KO's Business Library, Loreita Kelner, has been elected a director-at-large of the Western New York Chapter of the Special Libraries Association. . . . Engraving Dept. retired members Milt Coan and Eddie Sharkey were special guests at the Engraving and Art Depts.' picnic at Churchville Park. . . . Elaine Broder, Verifax Sales, spent a recent weekend in Mt. Kisco, N.Y., where she was a bridesmaid for a former Alfred State Tech roommate.

Six Sales gals spent a sun-filled and fun-filled week in Miami Beach. Virginia Sabido, Ann Sweeney, Angie Vitello, Martha Saltman, Marilyn Winterkorn and Ann Murphy enjoyed everything from deep-sea fishing to the dog races. Side trips included a boat tour through the Everglades and a visit to picturesque Parrot Jungle. They flew both ways. . . . Dr. Joseph Green, Medical X-ray, and his wife

will hop a jet for Rome on July 1. Main object of their tour is to attend the International Congress of Radiology in Munich the week of July 23, but they'll also tour Italy, Austria and Germany before jetting home from London Aug. 6.

Sales girls partied Jane Allen McCoy and Joanne Pope at Glen Edith. Jane was married recently to Al McCoy, also of Sales, and Joanne is leaving to become a full-time homemaker. . . . The KORC National Bowling League lost one of its better bowlers (173 average) when Ed Fiedler left the Company. Before taking off for his new home in New York City, Ed was feted at a stag by Statistical associates. . . . The new library clerk on the Business Library staff is Shirley Grady. . . . Still talking about the tulip festival in Holland, Mich., is Marge Grossman of Disbursements, who spent a week's vacation in the Michigan tulip capital.

Appropriate gifts were presented Alice Harry by Patient girls at a Cafeteria noon-hour farewell party. Mae Utter, left, and Carol Sloane, right, were among the guests honoring Alice, whose hubby is Thomas Harry of KP Film Testing.

## KP

Ruth Schicker, Printing, and Belle Ford, retired member of the department, have returned from a vacation cruise to Bermuda. . . . Leaving for military service are Eric Yavitz, Mfg. Expts. Div. (Marines), and David Arsenault, Ind. Eng. (Army). . . . Emily Seidl, Personnel Records, enjoyed a three-week vacation in Hawaii. She made the trip to the 50th state and back by air.

Girls of Paper Finishing entertained at dinner parties for Isabel Herne Roth and Carol Hill Seitz, who were married recently. . . . Motion Pic. and Sheet Film General Office folk held their annual picnic June 4. Honored guests at the affair were Fred Carbone and Karl Warner, celebrating their 40th and 25th service anniversaries, respectively.

Recently returned to their duties after completing military service are Thomas Blazynski, 16mm Pos. & Color; Bruce Butler, Employee Activities; Thomas Ferguson, Color Tech.; Ronald Harter, Roll Ctg.; Fredrich Hoehn, Film Emul.; James O'Neil, Kodacolor Proc.; Norman Vicinus, X-ray Insp. & Pkg.; George Villard, Res. Labs, and John Wilkin, Grounds Maint.

Mary Dalle's cohorts in 35mm Color Film partied her at luncheon before she left to await the stork. . . . Mfg. Expts. members met at the Triton for dinner to wish good luck to Bill Spencer and Chuck Adler. Bill has joined forces with Roll Ctg. and Chuck is headed for Boston for a year's study in management at MIT under the Sloan Fellowship he received recently.

Dave Maier has left the Res. Labs for a three-month Army stint, and Allen Remington Jr. has switched from the Paper Mills to the Army.

Elenore Schroeder, Bldg. 140, and her brother, Marvin, A&OD(H-E), are back from a two-week vacation trip by bus to California.

Three are back from two years of Army duty around the globe. Joe Fisher, again in Film Testing, recently was a first lieutenant on the staff and faculty of the Chemical Corps School at Fort McClellan, Ala. Bob Marshall and Charlie Higgins again are in Dist. Ctr. Maint. & Safety, Bob having come from a desk in the personnel office at Ford Ord, Calif., and Charlie from Germany. Charlie was a radio operator in a Nike-Ajax missile outfit. Normally stationed at Idar-Oberstein, a few months ago his group was flown for a three-week stay to New Mexico so it could gain experience in firing the missiles.

Millie Payne, Kodoscope Assem., motored to Arizona for a two-week vacation. . . . Singing the praises of Florida since her recent trip is Laura Muesebeck, Plating Dept., who reportedly gave up spring house cleaning in favor of the vacation trip and a visit with her husband's father in Miami Beach.

Margaret Scott, Bellows and Leather, spent her vacation at Myrtle Beach and at Kinston, N.C., where she visited friends. . . . Miami Beach was vacation headquarters for Mary Temkin, Brownie Assembly B, who reports perfect weather during her month-long Florida stay. . . . Also vacationing at Miami Beach were Emily Andolino, Draft. and Eng. Release, and her husband. . . . Proud of his son, Donald, is Sam Kingston, section supervisor, Timekeeping, A&OD(H-E). Don was recently elected president of the Student Association at West High School.

## A&OD

Back on the job following extended illnesses are G. G. R. Smith and John Pisanchin, both of Mt. Read.

A noon luncheon at Crescent Beach honored Merle Pulver, who has transferred to the Sales Dept. from Organic Chemicals Sales.

Vacation planners at DPI can get an assist from the Recreation Office. A display counter of maps and pamphlets has been set up for travelers. The material is available for the taking.

A move from Kodak Park has brought Gary Brooks to DPI's Research Dept. Gary was in Industrial Engineering at KP.

## DPI

Cutting a cake in honor of his 40th anniversary with the Company is Ed Feeney, Plating Dept. Grouped around Ed, from left to right, are Joe Holzschuh, Verne Leonard, Jimmy Haller and Jack Jasper.

Marion Swanson, leaving to be a homemaker, found her desk decorated on her last day in the Purchasing Dept. Watching Marion open her gifts are, from left, Billie Harness, Joan Haight and Mary Nocchi.

## KP Stop

Approximately 35 members of the Metzger Photo Supply Co. of Akron, Ohio, including wives, recently paid a visit to Kodak Park. Following a visit to the Middle Atlantic Sales Div., the Kodak dealer's party toured KP and A&OD. The chartered trip also included a stopover at Niagara Falls.

## Plastic Parley

Sales representatives of Eastman Chemical Products, Inc., recently visited Kodak divisions in Rochester to observe and discuss plastic processes and products. The Sundries Div. and Cellulose Technology Div. at KP and plastics lab at A&OD-(CW) were among the places they saw. Here are some of them in the A&OD lab. Gerard Delaire, right, of the A&OD Chem. Lab explains molding process to, clockwise, Roy Hill, Ray Meredith, Bill Searles, Jim Lister, Jack Bent, manager of Rochester Area Sales of ECP; Earl Moore and Tom Loveless.

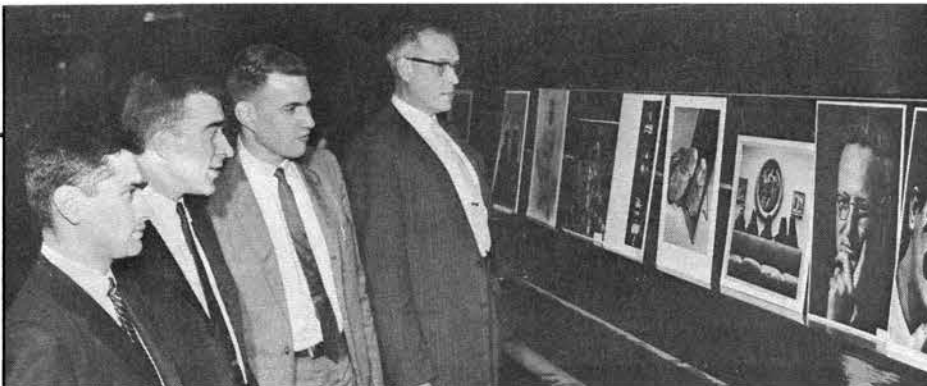

## Camera Club Visitors

Among the groups touring A&OD(CW) recently to observe camera manufacturing were members of the Linton High School Camera Club, Schenectady. That's Agnes Murray, Brownie Assembly A, explaining a Starmatic assembly operation to the interested teenagers. Wilbur (Doc) Hiler, Industrial Relations, escorted the group through several departments.

## They Like What They See

These KPers used part of their lunch hour recently to view the exhibit of winners in the Spring Finals competitions of the Kodak Camera Club. Looking over the prints in the Bldg. 28 gym are, from left, Ray Lomicka, Thomas Lekas and Frank Strong, all of KP Industrial Engineering, and Cornelius Unruh, Research Labs.

## 25-Year Pin for Oscar

While in Rochester for conferences and studies of the Company's latest processes, Oscar Andolcetti, manager of Kodak Chilena, celebrated 25 years with EK. His 25-year pin is being presented by Edward P. Curtis, right, vice-president in charge of foreign sales and advertising. At left is Richard B. DeMallie, general manager of Kodak's International Div. The pin and 25-year medal were presented at a luncheon attended by managers of overseas Kodak houses and other friends of Andolcetti's.

## Finds Kodak Friendliness Universal

Landon

"Although I've never been at Kodak Rochester before, I don't feel at all like a stranger. I believe it is the universal Kodak outlook and friendliness, the way of doing things and dealing with people," says David Landon.

Head of Industrial Relations at Kodak England's Harrow Works, he spent May in Rochester. Most of his early stay was devoted to discussions with Industrial Relations and Training Dept. personnel at KO. Later he followed a similar program at KP.

## Next in Sight...

### Dear Kodakers:

On June 14 we'll present a really big show headlining my Canadian friends John Wayne and Frank Shuster, top recording vocalist Connie Francis, Metropolitan Opera star Robert Merrill and comedians Henny Youngman and Jackie Miles. Other star performers will include Brook Benton, Marvin Roy, and Augie and Margo.

I'm happy to point out that all of our succeeding "warm weather" shows will have a lineup of great talent. Some of the stars on upcoming shows are Jane Russell, Carol Channing, Eartha Kitt, Roger Williams, Frankie Avalon, Sam Levenson, Duke Ellington and his orchestra, Noelle Adam, Georgia Gibbs, Toni Arden, Luise Rainer, Charlton Heston, and Wayne and Shuster.

Sincerely,

*Ey Sullivan*

### Ozzie and Harriet June 17

"Ozzie Plans a Surprise" will be "The Adventures of Ozzie and Harriet" presentation on the Kodak Telarama.

When Ozzie fails in his efforts to keep Harriet's birthday present a secret from her, he is determined that she won't find out about the surprise party he's planned. However, David and Ricky figure that their dad might unknowingly be a "security leak" and take matters into their own hands.

The show will be seen at 8:30 p.m. Wednesday, June 17, on Channel 10.

Newly appointed as the Company's western regional credit manager is Henry C. Dixon.

## Dixon Promoted

Succeeding him as assistant regional credit manager for the western region is Eugene S. Wetmore.

These appointments were announced by Robert E. Schellberg, Kodak's general credit manager, effective June 1.

## Folsom Gets Civic Medal

Marion B. Folsom, Kodak director, has received the Rochester Civic Medal for 1959. It was presented to him at the 21st annual convocation in the Rochester Museum of Arts and Sciences.

Folsom was honored for his "remarkable record of participation in local community service."

## Called by Death

### James J. Scalera, A&OD(CW)

Milling and Heat Treating  
Died May 25. Started at A&OD(CW) in 1927. Left because of ill health in 1954.

### Carmen M. Nicholson, KP Cafeteria

Died May 22. Started at KP in 1947 and had been out ill since last March.

### Edgerton J. Perry, KP Film Emulsion Coating, retired

Died May 27. Started in Film Emulsion Coating in 1930. Retired in April 1958.

Earl E. Ainsworth, KP Middle Atlantic Sales Div.  
Died May 28. Started at KO in 1919 and transferred to KP in 1957. Out ill since April 1958.

Daniel J. Fowler, KP Film Emul. Ctg., retired  
Died June 2. Joined Film Emul. Ctg. in 1907. Retired in 1954.

### Jay M. Hill, ECM&U, retired

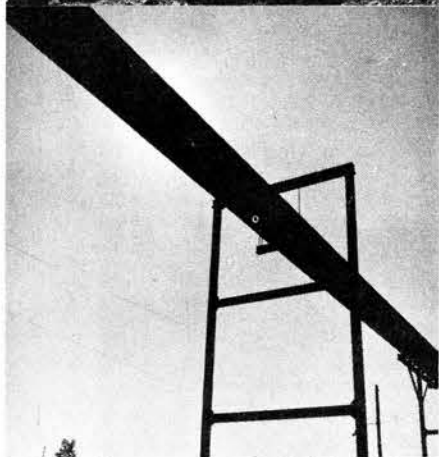

Died May 28 in Florida. Joined the Metal Shop in 1934. Retired in 1955.

Up! Up! And away! ▶

# Pipes Around *the* Park

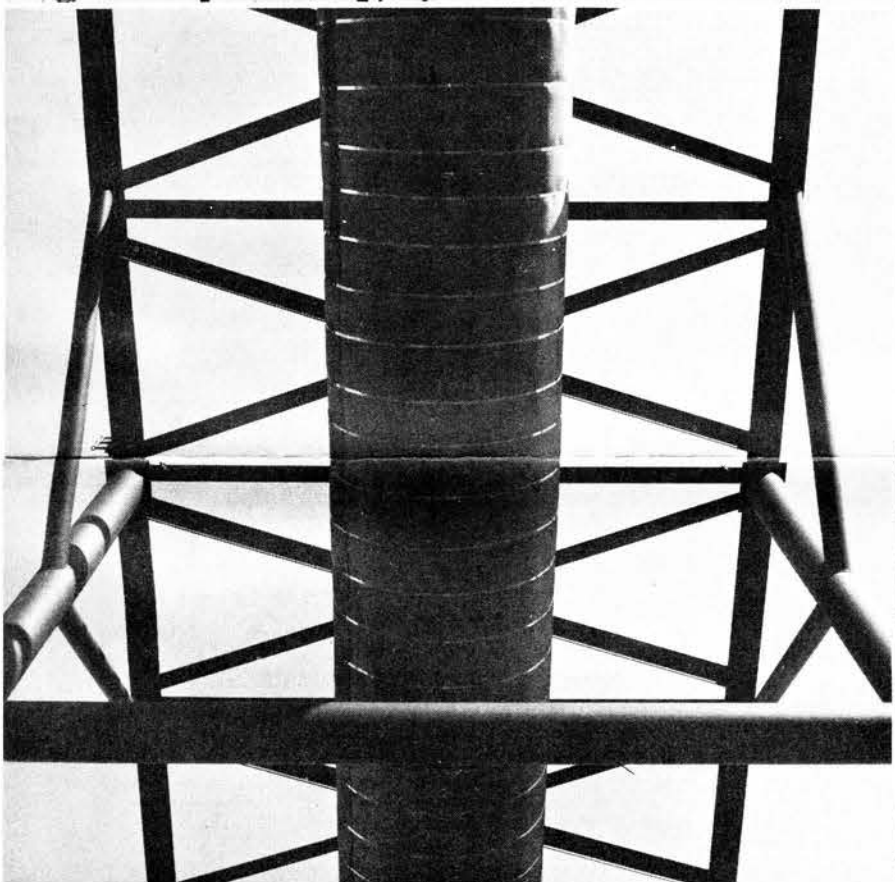

Signs of the lines. ▼

They wind along the ground, they extend everywhere underground, they soar through the air with majestic grace—these are the pipelines of Kodak Park.

Like the veins and arteries of some colossus, they carry the life-blood of industry in the form of water, steam, solvents and compressed air to operate production equipment. There are others that convey dope and various special liquids used in the manufacture of Kodak products. Not a few fulfill the important job of transporting waste and overflow for reclamation and disposal.

Large and small, they stretch out in all directions to form intricate and sometimes comical patterns. The pictures on this page have caught just a few which dominate the KP scene. How many of them do you recognize?

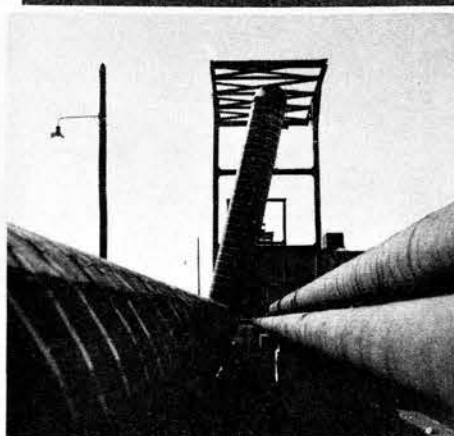

▶ Along the Bldg. 205 trail.

◀ Steam all wrapped and ready for delivery.

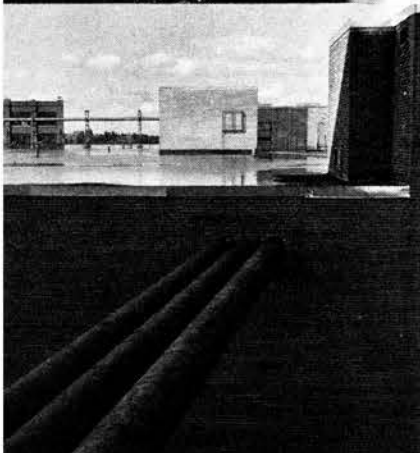

◀ The big fellows carry the load.

Westward the steam! ▶

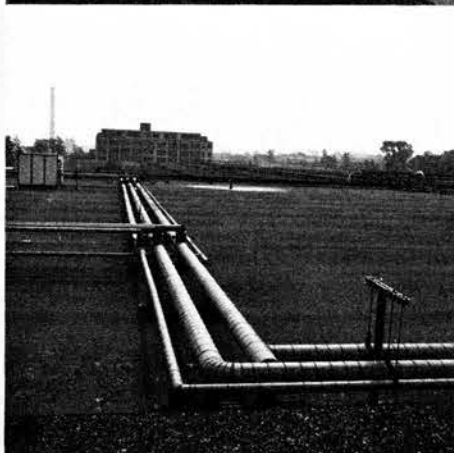

Pipe this whatzit! ▼

◀ 3 into (Bldg.) 9.

Long lines of steam and brine. ▶

## Noon Games Still Popular

Just as popular today as it was 45 years ago when it had its beginning, the Lake Ave. Noon-Hour Softball League plays to big crowds every lunch hour Monday through Thursday.

These shots were made May 28 as the Red Sox blanked the Yankees, 2-0, behind the hurling of "Buck" Eldridge. Manager Ray Thomas sits on the bench with Red Sox. Next to him is the loop's popular P.A. announcer at the Lake Ave. ball park, Charlie St. James.

## SPORTS WHIRL

Neither snow nor rain nor—in this case—lack of heat stayed A&OD fishermen in completion of their appointed rounds of Black Lake's favorite fishing beds. Thirty-two made the May 23-24 trek to Hillside Camps to battle the elements in quest of keepers. A few succeeded in their mission.

Paul Maffett caught the largest fish, a 9½-pound northern pike, to win \$10 in Saturday's contest. Bob Kane checked in with a 2¾-pound walleye and also was awarded \$10.

Maffett and son Danny are shown with prize-winning pike.

Stan Kulpinski Jr. earned \$10 for landing a 2¾-pound northern on Sunday. Frank Liberacki won a like amount for a 2½-pound walleye.

Three-dollar prizes were presented Stan Kulpinski Sr. for a 10-ounce perch; Bill Stewart for a 1½-pound strawberry bass, and Ziggy Zagaieb for a 1¾-pound bullhead.

A&OD anglers next will try their luck at Honeoye Lake. A contest paying cash prizes has been arranged for June 27. California Ranch will serve as contest headquarters and noon-hour free snack station.

Boats may be rented for \$2 if reserved through the Employee Activities Offices. There is a \$1 launching fee for privately owned craft.

KP archers will play host to the A&OD Archery Club June 13 at the Flying Arrow Club, Ireland Rd. The get-together is listed as an invitational shoot. Activities will start at 9:30 a.m.

A&OD's Charlie Parent tied into more than he bargained for while fishing for bullheads at Braddock Bay May 19. A king-size carp took a liking to the Texas crab tail he was using for bait and a 30-minute battle was on. Parent was using a spinning outfit with 8-pound test line and held little hope of landing the lunker. Organic Finishing Dept. associate Stan Bagdon gave an assist with net to land the 30-pound-plus fish.

A Kodak Office Pistol Club is being formed, and if interest warrants, the KO entry will compete in a league starting in mid-July. Those interested may contact the KORC Office, ext. 4221.

Pat Whalen, A&OD Tool Roomer, has been running beagles in field trials for only five years but it appears he has been blessed with a sizeable share of good fortune. At the recent New York State Federation of Beagle Clubs' Championship Trials in Mumford, Whalen's Patlou's Craftsman won over a strong field in the 15-inch competition for males.

Whalen doesn't breed the diminutive hounds but picks up likely pups and trains them for work with gun. If they show exceptional class he tosses them in against the best to see how they stack up.

In seven trials Craftsman has picked up five ribbons and currently is campaigning in Massachusetts. No question that Whalen has a good eye for promising prospects . . . little doubt that he knows his business as a trainer.

Kay Lighthouse and Ada Fuhrman, Cine Assem. A, and their husbands enjoyed a successful weekend of fishing at the Fuhrman cottage at Thousand Islands. The catch included 18 large lake bullheads and two pike.

St. Louis Cardinals' Stan (The Man) Musial, right, was one of 140 friends attending ECM&U Planning's retirement party for Roscoe Punnett, center. Roscoe taught Stan at Donora High School in Pennsylvania. Charles Schmidt, left, KP Suggestion Office, was a classmate of Stan. The party, at Rochester Turners, also was for 25-year EKers Elbert Outermans and George Carnes. Planners staged a minstrel show with Harvey Foster as interlocutor.

## SOFTBALL SIDELIGHTS

## Kaypees Lead Major Loop

Although knocked from the unbeaten ranks, Kodak Park's softballers still led the Champion Major League race at the end of the third week of play.

After suffering their first defeat of the season on May 25 at the hands of Bon Jon Tux Shop, the Kaypees bounced back on May 27 with a 5-3 conquest of Mickey's Hi Hatters.

The victory brought the KP record to 5-and-1, and left them a half game ahead of Stromberg-Carlson in the pennant race.

Dickie Hogan, Harry Trezise and Jerry Barth wielded the big bats in the team's fifth win in six outings. Hogan had a triple and RBI on a sacrifice fly, while Trezise and Barth each had two hits in three trips. The Trezise output included a double.

The Bon Jons ended the Kaypees' four-game winning streak, coming from behind in the final frame to win, 5-3. Buzzy Perkins' two-for-four performance sparked the Kaypees. Look was tagged with his first loss of the season.

### MAY 25 GAME

Bon Jon	002 000 3—	5 7 2
Kodak Park	100 200 0—	3 5 3
Allyn and Gingo; Look and Barth.		

### MAY 27 GAME

Hi Hatters	200 001 0—	3 6 2
Kodak Park	030 101 —	5 10 2
Affeldt and Coddington; Look and Barth.		

### MESSMER'S HOMER PACES SHUTTERS

The weatherman finally gave the go-ahead sign and four games were played in the A&OD-KO League.

Base hits rained all over the field as the Fixers outlasted Lincoln, 20-12. The Middlemen took the measure of Kodak Office, 6-4.

A Bernie Messmer circuit clout featured the Shuttlers' 6-3 win over the Engineers.

Carl Knight smashed out a last-inning double to drive in three runs and give the Miniaks a come-from-behind 6-5 victory over the King's Men.

Fixers	521 172 2—	20 22 1
Lincoln	210 702 0—	12 17 2
Wheaton and Merklinger; DeLorenzo and Reiber.		
Middlemen	200 022 0—	6 10 0
KO	110 020 0—	4 6 0
Cripps and LaPolice; DeWitt and Hagen.		
Engineers	003 000 0—	3 9 3
Shuttlers	013 200 x—	6 7 1
Durnberg and Eldridge; Meehan and Hotra.		
King's Men	210 200 0—	5 8 3
Miniaks	000 003 3—	6 6 1
Cooman, Maffett (6) and Seils; Elle and Witherow.		

### REBELS EKE OUT 1-0 WIN

A tight struggle between the Tech-Niks and the Rebels featured play in the A&OD Slow Pitch League last week. In the last of the seventh, Will Cobb led off with a double, was sacrificed to third and scored on a sacrifice fly to right field to give the Rebels a 1-0 decision.

Earlier in the week the Rebels smothered the Beatniks, 15-4, while the 1957 and 1958 champs, the Screw Machines, were downing the Jesters, 11-2. Line scores:

Rebels	305 220 3—	15 18 1
Beatniks	020 000 2—	4 8 3
Schillinger and Frueham; Perri and Doyle.		
Screw Machines	230 000 6—	11 12 0
Jesters	020 000 0—	2 6 2
Matroniano and Sorrentino; Carnall and Forte.		
Tech-Niks	000 000 0—	0 7 0
Rebels	000 000 1—	1 8 0
McPherson and McGuigan; Sullivan and Peters.		

### GIANTS, RED SOX SHARE LAKE LEAD

The Giants and the Red Sox share the lead in the KPAA Lake Ave. wheel after the second week of play.

The Giants turned back the Dodgers, 5-1, as Gene Weiss and Cliff Roberts starred at bat. The Red Sox blanked the Yankees, 2-0, behind the hurling of "Buck" Eldridge.

In other games, the Dodgers shut out the Red Sox, 7-0, and the Yankees nipped the Giants, 1-0. Joe Farrell and Art Steele sparked the Dodgers' attack, while Ron Harter batted in the only run while toiling on the mound for the Yankees.

Wood Cellulose captured two wins last week to move up in the KPAA West Kodak League standings. After drubbing Synthetic Chemicals, 13-6, on some fine hitting by Bill Buckley, Wood Cellulose thumped F.D. 5, 8-2. Dick Boehler batted in 10 runs to feature the latter victory.

F.D. 5 stayed ahead in the loop race by defeating Bldg. 129, 7-1, with Howie Terhaar driving in three runs.

In another game, Synthetic Chemicals defeated Bldg. 129, 5-2.

## To the Victors Goes the Trophy

In a nip-and-tuck battle, the Color Print quint of the Kodak Bldg. 65 League had to go five full games in winning the ninth annual rolloff for the Harold Hartt Trophy. This season's runnerup was the Film Developing team, representing Bldg. 6.

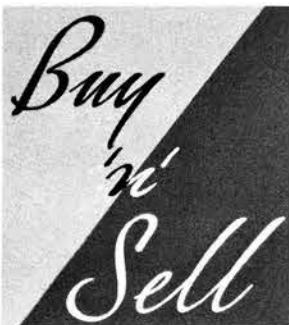

Tony Brach's 249 spill for Color Print took individual game honors. The other members of the winning squad are Andy Barry, Phil Lestorti, Harold Mathis, Dick Shafer and Jim Jones.

Bob Meagher crayoned 221 and 218 for Film Processing. Also rolling on the team were Henry Lucas, Chet Mosakowski, John Schwartz, Harry Leathersich and Don Brown, captain.

Jim Jones, right, captain of the Color Print bowling team, receives the championship trophy from Harold A. Hartt after his quint defeated Film Processing in annual rolloff. Hartt is asst. mgr. of Color Print & Processing.

ROOM—Furnished, kitchen privileges, middle-aged woman preferred, garage optional. CH 2-0614-M.

H. Lou Gibson of Kodak's Medical Division Technical Services sets a Startech Camera for a medical close-up.

To list Kodak cameras, films and other accessories used in medical photography would encompass almost all the Company's products.

However, perhaps the better known and most frequently used would include the Kodak Special and K-100 Cameras in the movie line . . . the Signets, Ponies and Retinas in the 35mm area . . . but it is the Startech Camera with its simplicity of operation and excellent results that is enjoying the greatest growth of the still cameras.

Many types of films are used . . . each with its specific use to obtain desired results . . . but just to mention a few: Kodachrome, Ektachrome, Kodacolor, Panatomic-X, Super Panchro-Pres Type B, Plus-X, Infrared. And for radiography, there are Blue Brand and Royal Blue X-ray Films (sizes ranging from 5x7 to 14x36). Kodak papers used by medical photographers and chemicals cover probably all the product line, including special-purpose products like Kodak Electrocardiograph Paper.

## PHOTOGRAPHY . . . and Medicine

Photography in the medical sense is many-faceted.

X-ray perhaps is its best-known form because it's so widely and increasingly employed.

There are specialties, too, such as pictures of the interior of the body made with endoscopic cameras, and so on.

However, this article deals with the plain, practically everyday type of medical photography.

► Cameras more and more are taking their place with scalpels and stethoscopes as recognized medical equipment and film is becoming almost as commonplace as drugs and pills.

Which is another way of saying that photography is a growing adjunct to medicine.

George Struck and his people in Kodak's Medical Sales can give you several reasons for this growth, most of which has taken place in the last few years.

Photographic departments are being started or added to in hospitals every year; medical schools, long users of photography, are expanding their departments; and doctors themselves are turning to photography in increasing numbers.

Photography, in its many forms, is widely used for recording, reporting, teaching, diagnosis, treatment and research.

Instruction is one of photography's chief medical roles in hospitals, clinics and medical schools. Both slides and movies are used. With expanded teaching programs and more people to teach, visual aids are even more vital.

Transparencies by the thousands and movies by the hundreds of rolls go into this phase every year plus many more into lectures before lay groups with the upsurge in the public's health-consciousness.

Photography enables the medical student to see more pathologic conditions than he would ordinarily encounter in a lifetime.

Movies have their place in special areas . . . operation techniques, for rapid-motion observation, behavior studies in psychiatric treatment, gait study, etc., but stills—both slides and color prints—form the backbone of this business.

Infrared film can be used in diagnosis since it shows veins beneath the surface to reveal vessel obstruction.

Photography is more and more being depended upon for record keeping—before and after shots for plastic surgery and other conditions prior to and following operations or treatment, progress shots, to record variations of common con-

ditions, and to picture rare diseases.

Medical photography at the physician's level is spreading rapidly. One reason is the increase in number of patients, which causes the busy doctor to lean more heavily on photography to help him "remember."

Another is the fact that photography no longer is a complicated procedure requiring expensive equipment (especially since the advent of Kodak's new Startech Camera), and the increased quality of color both for transparencies and prints is still another.

For a doctor keeping office records in certain types of cases, skin conditions, for instance, which change slowly, it is difficult to recall how a condition looked the last time. A color print tells the story and helps determine whether treatment should continue or be changed.

Medical knowledge has increased markedly in recent years with wonder drugs, vaccines and new treatments as research has broadened.

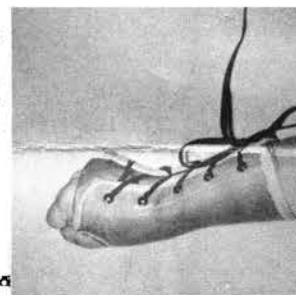

This has given photography one of its most important jobs in medicine because pictures provide the fastest and clearest means of disseminating this knowledge to thousands . . . through staff meetings, seminars and medical journals, etc.

Medical pictures . . . color transparencies and prints . . . because of the nature of the subject, many times aren't so pleasant to look at, but they tell their story as it can be told in no other way.

Photography is used for a lot of things in the medical field . . . like record keeping, for instance. . . . What was the condition originally? This sort of picture answers that question better than anything.

What corrective device did we use? Obviously there's no surer way of answering than with a picture.

Rochester, N. Y.

Kodak's Pageant Sound Projector "made" the cover of the April issue of *Institutions*, a magazine of mass feeding and mass housing. In the cover picture, it is shown projecting a training film for hotel personnel. Pat Peers, assistant manager of the KO cafeteria, is interested in the stories on the inside: "Audio-Visuals: Invaluable Aids to Training" and "Photography 'Develops' Job Performance." One tells how slides and movies are used to train personnel and to illustrate hard-to-explain procedures. The other relates how famous restaurants make color pictures of specialties for visual reference by chefs or others who prepare them so that the dishes can be duplicated consistently. Such color prints also make attractive window displays and enticing menu illustrations, the article says.

When the Rochester Photographic Salon held elections at its May meeting, three EK men were among those chosen.

Norton Brownell, A&OD Glass Making, is the new president. A 12-year veteran with the salon, Norton has held five previous offices. Charles Plomasen, KP ECM&U, is the new vice-president, and J. Lawrence Hill Jr., A&OD(Lincoln Plant) Dept. 468, is to be exhibits director.

Re-elected to the board of directors were five past presidents. They are Tom Murray, KP Research Labs; Jack Stolp, A&OD Military and Spec. Prod. Sales; Lowell Miller, A&OD Contract Control; Robert Kleinschmidt, KP Paper Serv., and John Fish, KO Audio-Visual Serv.

John Yule of the Research Labs spoke on the variation of tone reproduction in halftone processes at the Conference of Graphic Arts Research Institutes in Bethlehem, Pa.

## Names in the News

Gordon L. Waasdorp, superintendent of the KP Baryta Div., has been elected vice-president of the University of Rochester College of Arts and Sciences Alumni Association. Waasdorp, a 1935 graduate, will assume the duties of president for the 1960-61 season.

John M. Alderige, technical adviser, Industrial Engineering Div., Kodak Park, recently participated as a moderator at the 13th annual convention of the American Society for Quality Control held in Cleveland.

## Visitor from Hawii

In Rochester recently to discuss any necessary changes in the organization of Kodak Hawaii when statehood becomes official was Fritz Herman, manager. Fritz is shown at right with Jim McGhee, vice-president in charge of U.S. sales and advertising. The two men are looking over an issue of Honolulu's Sunday Advertiser Hawaiian Holiday section which saluted Herman on his and Kodak Hawaii's 30th anniversary last year. The feature lauded Fritz for his role in originating the famed Kodak Hawaii Hula Show, a weekly attraction drawing 200,000 tourists annually. Fritz also was hailed as one of the Islands' most dynamic ambassadors.
