

DO IT RIGHT...DON'T MAKE DO

Why waste time trying to copy originals with conventional film not intended for copying?

You can do the job faster, easier, better with the special KODAK Copy Films described on the other side.

KODAK Gravure Copy Film for faded or low-contrast originals.

KODAK Contrast Process Ortho Film for black-and-white line originals or those with yellow, light-blue or green backgrounds.

KODAK Contrast Process Pan Film for sharp separations of light and dark tones in color or black-and-white originals.

KODAK High Contrast Copy Film for high-reduction copying such as microfilming.

All available in sizes to suit your needs.
