## DANCING

Damon's Orchestra

*Now to trip the light fantastic and still the itching feet.*

*Let joy be unconfined*

The Dance Order is on the other side. Get it filled up quick or you will loose the best dancers. What! You can't find it! Better hold it up to the light. It ought to be there unless the printer forgot it. Well that is too bad. It must be Shindel Case's fault. Never could depend on that fellow. Too many irons in the fire.

If you don't like the Dinner, tell our Worshipful Master. He made the arrangements.

If you have had a good time, tell him also and he will arrange for another party later.

Sorry it rained to-night—we couldn't help it. Blame "Marty" Utz, Mead Rapplepe, and others from the 18th Ward. April 30th was to have been our night but they stole it.

And say! Don't forget the Fellowcraft May Party and Dance Wednesday, May 28th, at Hotel Windsor, Summerville. Get your tickets early for they are nearly all sold. George Hunt has a few left, so has Fred Boyce.
