FRIDAY & SATURDAY NIGHTS

Treadway Inn

Rochester, New York

W I N E

Good wine, like good food, has but one use and purpose; to add to our enjoyment of living. Life can be sustained on poor food and on no wine at all, but good food, tastefully prepared and appetizingly served, is a part of the art of living, and, as such, has as its inseparable companion, good wine.

You have come to this Inn expecting the best of food. We believe that we have the best to offer you. We know too that our food, good as it is, tastes even better with wine. Therefore, we recommend these friendly, healthful table wines of France, California and New York State. They are light, they are delicious, and they are moderately priced.

Lobster, Chicken, Turkey, Frogs Legs, Scallops, and Swordfish are at their best with White Wines.
